Chapter 1

World History

PYQs

[2024] How far is it correct to say that the First World War was fought essentially for the preservation of balance of power? (15)
[2024] How far was the Industrial Revolution in England responsible for the decline of handicrafts and cottage industries in India? (15)
[2023] Bring out the socio-economic effects of the introduction of railways in different countries of the world. (10)
[2021] "There arose a serious challenge to the Democratic State System between the two World Wars." Evaluate the statement. (15)
[2019] Explain how the foundations of the modern world were laid by the American and French revolution. (15)

Key Concepts

1. **Feudalism:**
    a. Feudalism was the dominant system in **medieval Europe (10th-13th centuries),** based on land ownership and local authority.
    b. Under this system, a **lord granted land (fief)** and military or legal protection to a vassal in return for services such as military duty, produce, or money.
    c. Both lords and vassals were freemen. The term feudalism generally does not include the relationship between **serfs (unfree peasants)** and landlords on whose land they worked.
2. **Imperialism:**
    a. Imperialism is the **expansion of a nation's authority over other nations through the acquisition of land and/or the imposition of economic and political domination.**
    b. The Age of Imperialism is typified by the **colonization of the Americas between the 15th and 19th centuries,** as well as the expansion of the **United States, Japan, and the European powers during the late 19th and early 20th century.**
3. **Capitalism:**
    a. **Economic system,** dominant in the **Western world since the breakup of feudalism,** in which most **means of production are privately owned** and production is guided and income distributed largely **through the operation of markets.**
4. **Mercantilism:**
    a. Mercantilism was a doctrine of **economic nationalism** aimed at building a wealthy and powerful state through **active government intervention** in the economy.
    b. The term "**mercantile system", coined by Adam Smith,** refers to a **political economic framework** that sought **national enrichment by restricting imports and promoting exports.**
    c. Dominant in Western Europe **(16th-18th centuries),** mercantilism aimed to achieve a **favourable balance of trade,** leading to the accumulation of **gold and silver and the maintenance of domestic employment.**

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

d. Unlike physiocracy (agriculture centred) and laissez faire capitalism (minimal state intervention), **mercantilism served the interests of merchants and producers.**
e. **State protection, monopolies, and regulatory support** benefited trading companies such as the **British East India Company.**

5. **Socialism:**
   a. Socialism represents a **Collective ownership of production** means prioritizing human needs over profit, aiming for equitable wealth distribution and working-class control.
   b. Unlike capitalism, where business owners control production and remunerate workers.
6. **Communism:**
   a. A political and economic doctrine that seeks to **replace private property and profit-driven systems with public ownership** and collective control of major means of production and natural resources.
   b. **Karl Marx** identified **two phases of communism** that would follow the predicted overthrow of capitalism:
   - **Transitional Stage:** The working class controls the state and economy, and people are rewarded according to their labor, effort, and contribution.
   - **Final Stage:** A stateless, classless society where goods are distributed based on the principle: "From each according to ability, to each according to needs."

Enlightenment and the Age of Reason

The Renaissance (14th-16th centuries) and the Enlightenment (17th-18th centuries) were major intellectual movements in Europe. The Renaissance, meaning "rebirth," revived classical learning, humanism, and advances in art, science, and culture.

Characteristics of the Renaissance

1. **Humanism:** It emphasized human dignity, individualism, and secular learning over medieval scholasticism. Thinkers like Dante and Francesco Petrarca shaped this outlook.
2. **Classical Revival:** Renewed interest in Greek and Roman art, literature, and architecture promoted ideals of balance and harmony. Eg. Lorenzo de' Medici.
3. **Rediscovery of Antiquity:** The fall of Constantinople (1453) brought ancient manuscripts to Europe, reviving classical knowledge. Eg. Michelangelo.
4. **Cultural Exchange:** Trade and the Crusades spread ideas, technologies, and knowledge across regions.
5. **Scientific Advancements:** Heliocentric ideas of Nicolaus Copernicus and Johannes Kepler transformed scientific thought.
6. **Economic Growth:** Decline of feudalism and rise of trade created wealthy urban patrons of art and learning.
7. **Technological Progress:** The printing press, compass, paper, and gunpowder accelerated communication, navigation, warfare, and knowledge dissemination.

Impact of the Renaissance

1. **Scientific Inquiry:** It encouraged **empirical observation and rational thinking**, laying the foundation of **modern science** with advances in astronomy, physics, and biology.
2. **Artistic Evolution:** Revolutionised art through **perspective, realism, anatomy, and light-shadow techniques**. Eg. **Leonardo da Vinci's Mona Lisa**.
3. **Humanism: Renaissance** placed **human beings at the centre of intellectual life**, emphasising human potential, individuality, and worldly fulfilment. Reflected in works of **Leonardo, Michelangelo, Raphael, Botticelli, and Titian**.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

4. **Religious and Political Thought:** Challenged medieval authority and orthodox beliefs, contributing to **religious reform and political change**. Eg. **Martin Luther's Ninety-Five Theses** and the **Protestant Reformation**.
5. **Cultural Transition:** Acted as a **bridge between the medieval and modern worlds**, shaping developments in education, governance, science, and culture.
6. **Spread of Knowledge: Gutenberg's printing press** enabled mass dissemination of ideas, increasing **literacy and democratisation of knowledge**.
7. **Global Exploration:** Stimulated the **Age of Discovery** (Columbus, Vasco da Gama), expanding geographical knowledge and global exchange though later leading to **colonialism**.

To the question 'What is Enlightenment?' the German philosopher Immanuel Kant (1724-1804) responded: 'Dare to know! Have the courage to make use of your own understanding'.

Characteristics of the Enlightenment

- **Reason and Rationalism:** Human reason was seen as the main source of knowledge and progress.
- **Naturalism and Natural Law:** Scientific explanations and universal natural laws were preferred over superstition and theology; encouraged Deism.
- **Belief in Progress:** Faith in improving society through education, science, and reason.
- **Humanism:** Emphasized human welfare, liberty, dignity, and freedom from oppressive institutions.
- **Individualism:** Stressed individual rights and freedoms, shaping liberal political thought.
- **Relativism:** Encouraged appreciation of different cultures and beliefs, promoting early cultural pluralism.

Key Catalysts for the Enlightenment: The Enlightenment emerged from profound **intellectual, social, and political transformations** in early modern Europe. Its major catalysts were:

Scientific Revolution (16th-17th Centuries): Laid the **intellectual foundation** of the Enlightenment by promoting **reason, observation, and experimentation** over tradition and dogma.

- Challenged ancient and Church-backed explanations of nature, replacing them with **universal natural laws**.
- Led to rapid expansion of knowledge in **astronomy, physics, mathematics, medicine, philosophy, economics, and politics**. Encouraged vibrant intellectual culture **salons, debates, pamphlets, and books** supported by rising literacy.

Key Thinkers:

1. **Galileo Galilei & Johannes Kepler**: Supported **Copernican heliocentrism**, challenging geocentric Church doctrine.
2. **Francis Bacon**: Developed the **inductive scientific method.**
3. **René Descartes**: Advocated **rationalism and deductive reasoning** ("I think, therefore I am").
4. **Isaac Newton**: Discovered **natural laws** (Eg. gravity), portraying the universe as a rational, predictable system.

Reformation Movement: The **Protestant Reformation** challenged the authority and corruption of the Catholic Church, weakening its monopoly over religion and knowledge.

- Martin Luther **opposed indulgences** and led the rise of **Protestantism** in Germany.
- Rulers supported reforms to reduce Papal control and seize Church wealth.
- National churches emerged, such as the Church of England under Henry VIII.
- Use of vernacular languages instead of Latin increased literacy and national consciousness.
- The **Protestant Reformation** weakened the Catholic Church's monopoly over religious and intellectual life.
- Enlightenment ideas of **liberty, reason, and secularism** found popular support amid rising anti-clerical sentiment.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

Exploration and Imperial Expansion:

a. European exploration of **Asia, Africa, and the Americas** exposed Europeans to **diverse cultures, beliefs, and social systems**.
b. Challenged the notion of European cultural and religious superiority.
c. Fostered **relativism**, cosmopolitanism, and curiosity; key Enlightenment traits.

Questioning of Absolute Monarchy and War:

a. Repeated wars weakened belief in the **divine right of kings**.
b. The devastation of the **Thirty Years' War (1618-1648)** led thinkers to question war and absolutism.

Key Thinkers:

1. **John Comenius**: Emphasised human unity and questioned nationalism and war.
2. **Hugo Grotius** (On the Law of War and Peace, 1625): Advocated **international law**, humane warfare, and the supremacy of human rights over state power.
3. **The Social Contract:** Thinkers like John **Locke** and Jean-Jacques **Rousseau** argued that governments derive their legitimacy only from the consent of the governed.
4. **Separation of Powers: Montesquieu** proposed that dividing governmental power (legislative, executive, judicial) prevents tyranny.

1. **Rise of Humanitarian and Rational Ethics:** Early critiques of war, tyranny, and intolerance reflected a **humanistic concern for human suffering**. These ideas foreshadowed Enlightenment emphasis on **reason, human dignity, peace, and reform**.

The English Revolution(1642-1649)

It was a struggle against absolute monarchy and for parliamentary democracy. During the English Civil War, the Parliamentarians opposed Charles I, who believed in the divine right of kings and imposed taxes without Parliament's consent.

Outcomes:

- Execution of the King.
- Decline of the monopoly of the Church of England over worship.
- Establishment of the principle that the monarch could not rule without Parliament.

The **Glorious Revolution(1688)** further established parliamentary supremacy. Parliament removed the king and invited William III of England to rule, marking the transition from constitutional monarchy to parliamentary democracy.

Seven Years' War (1754-1763)

The Seven Years' War was the first true global conflict, driven by Anglo-French imperial rivalry across North America, the Caribbean, Europe, Africa, and India.

Causes

- **Main cause:** rivalry between Britain and France for colonial and commercial supremacy.
- Britain sought westward expansion in North America, while France tried to retain control over western territories.
- Britain's Industrial Revolution and naval strength increased its global trade dominance, threatening French colonies.
- Conflict spread to:
  - **Caribbean:** Struggle over profitable sugar colonies.
  - **West Africa:** British attacks on French trading centers in Senegal.
  - **India:**

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

- The Battle of Plassey strengthened the East India Company.
- The Battle of Wandiwash established British supremacy in India.

- **Treaty of Paris (1763):** The treaty gave Canada to Britain and recognized British control over Florida. Allowed France to retain its Caribbean sugar islands. Recognized Spanish control over Cuba and the Philippines.
- **Impact**
  - Decline of French colonial dominance.
  - Britain emerged as the leading colonial power.
  - The war created conditions that later contributed to the American Revolution and the French Revolution.

American Revolution(1765-1783)

The American Revolution was the struggle of the 13 American colonies against British rule, leading to the independence and formation of the United States of America.

The American Revolution

Causes:

1. **Mercantilist Exploitation by Britain: Navigation Acts** reduced colonies to suppliers of raw materials and captive markets, restricting free trade and breeding economic resentment.
2. **Policy of Salutary Neglect:** Britain's long non-interference allowed colonies to develop self-governing institutions, making later imperial control appear tyrannical.
3. **Impact of the Seven Years' War (1756-63):** Britain's post-war debt ended salutary neglect and led to tighter control and revenue extraction from colonies.
4. **Unrepresented Taxation Measures:** Sugar Act (1764), Stamp Act (1765), and Townshend Acts (1767) imposed direct and indirect taxes without colonial representation.
5. **Popular Resistance:** Boycotts, protests, Stamp Act Congress, and organisations like Sons and Daughters of Liberty transformed economic grievances into political resistance, theoretically backed by Enlightenment ideals (Locke's natural rights, Paine's logic).
6. **Role of Enlightenment Ideas:** Locke's natural rights, social contract theory, and thinkers like Thomas Paine, Jefferson, Franklin, and Patrick Henry legitimised rebellion and independence against Arbitrary taxation (Stamp/Sugar Acts).
7. **British Coercive Response and Violence:** Military occupation, Boston Massacre (1770), and suppression of protests hardened colonial hostility towards Britain.
8. **Tea Act:** Prime Minister Lord North's Tea Act (1773) allowed the struggling British East India Company to export tea directly to the American colonies, undercutting local merchants.
   - **Boston Tea Party (1773:** Members of the Sons of Liberty boarded ships in Boston Harbor and dumped 342 chests of East India Company tea into the water.
9. **Failure of Constitutional Reconciliation:** Coercive (Intolerable) Acts, rejection of colonial petitions, and dismissal of the Olive Branch Petition closed all avenues of peaceful settlement.

Impact of American revolution

1. **Decline of Loyalists:** Defeat and migration of Loyalists (about 80,000) weakened old colonial aristocratic and patrimonial power structures.
2. **End of Mercantilism:** Collapse of British mercantilist restrictions enabled free trade, new markets, and independent commercial relations.
3. **Written Constitutional Republic:** The USA became the **first modern nation with a written constitution**, institutionalising popular sovereignty.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

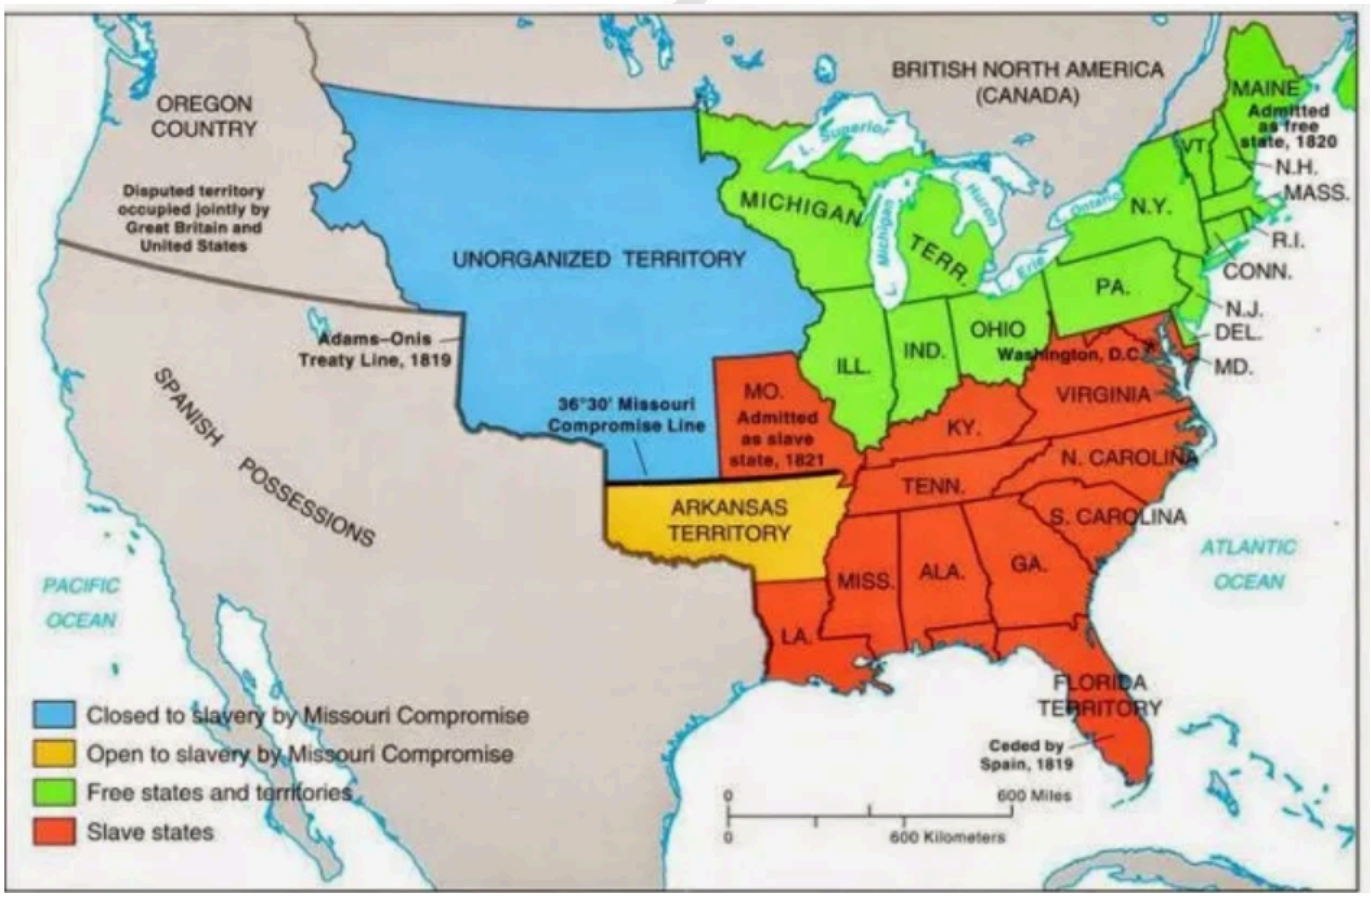

4. **Fundamental Rights:** The **Bill of Rights (1791)** limited federal power and guaranteed civil liberties like speech, religion, and assembly.
5. **Transformation from War to Social Revolution:** Establishment of democratic governance converted the struggle from mere independence into a **political revolution**.
6. **Severe Blow to British Imperial Prestige:** American independence shattered Britain's image as an invincible global power.
7. **Global Spread of Democratic and Republican Ideals:** The Revolution popularised ideas of **democracy, constitutionalism, and representative government** worldwide.
8. **Rise of Individual Rights and Equality:** Enlightenment ideas of natural rights and equality gained global legitimacy.
9. **USA as a Symbol of Freedom and Opportunity:** America emerged as a land of liberty, attracting immigrants and inspiring reformist thought.
10. **Inspiration for Anti-Colonial Movements:** As the **first successful anti-colonial revolution**, it inspired later struggles, including the **French Revolution**, movements in **Latin America and India**.

American Civil War (1861-1865)

It was fought between the **Union (North) and the Confederacy (South) over slavery**, states' rights, and federal authority. Tensions arose as the **industrial North opposed the expansion of slavery, while the agrarian South depended on enslaved labour.** The election of Abraham Lincoln in 1860 led eleven Southern states to secede, triggering the war.

Causes of American Civil War

1. **Slavery as the Fundamental Cause**: It increasingly contradicted the American ideals of **liberty, equality, and natural rights**, making it a national moral crisis.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

   a. **North:** Opposed expansion to prevent Southern political dominance.
   b. **South:** Viewed restrictions as an existential threat to its **economic system and social order**.
2. **Failure of Political Compromises:**
   a. **Missouri Compromise (1820):** Temporarily maintained balance between free and slave states.
   b. **Kansas-Nebraska Act (1854):** Introduced popular sovereignty, leading to violence ("Bleeding Kansas").
3. **Economic and Social Differences:**
   a. **South:** Agrarian, plantation-based economy dependent on **enslaved labour** (cotton, tobacco).
   b. **North:** Industrialised economy based on **wage labour**, factories, and urban growth. Conflicting interests over **trade, labour systems, and taxation** widened sectional divisions.
4. **States' Rights vs Federal Authority:**
   a. Southern doctrine of **compact sovereignty** argued states had the right to **secede** to protect slavery.
   b. The North, led by **Abraham Lincoln**, upheld the **indivisibility of the Union**, viewing secession as a threat to democracy.
5. **Rise of Abolitionism and Southern Anxiety:**
   a. Growing **abolitionist movements** in the North intensified Southern fears.
   b. Influential writings like **The Liberator** and **Uncle Tom's Cabin** mobilised public opinion against slavery.
6. **Political Realignment:** Formation of the **Republican Party** in the 1850s, committed to preventing slavery's expansion. Southern elites perceived it as a direct political challenge.
7. **Role of Laws and Judicial Decisions:**
   a. **Three-Fifths Compromise (1787):** Boosted Southern representation in the House.
   b. **Fugitive Slave Act (1850):** Enforced slave returns, provoking Northern resistance.
   c. **Dred Scott Decision (1857):** Denied citizenship to enslaved people, strengthening pro-slavery forces.
8. **Tariff and Trade Disputes: North:** Supported protective tariffs to foster industrial growth. **South:** Opposed tariffs due to dependence on imports and export agriculture.
9. **Immediate Trigger: Lincoln's Election (1860):** Lincoln's victory convinced Southern states that slavery was politically threatened. Eleven states **seceded** and formed the **Confederacy**, triggering war.
10. **Internal and Border-State Divisions: Southern dissent:** Western Virginia opposed secession, **West Virginia (1863)**. **Border states** (Maryland, Kentucky, Missouri, Delaware) remained in the Union, reflecting complex loyalties.

Role of Abraham Lincoln in the American Civil War

Abraham Lincoln, the 16th President of the United States, was the central figure in the Union's victory in the American Civil War (1861-65).

1. **Defended the Union:** After the Confederate attack on Battle of Fort Sumter (1861), Lincoln mobilised troops and adopted emergency measures.
2. **Military Leadership:** Imposed a naval blockade on Southern ports and appointed Ulysses S. Grant, whose aggressive strategy proved decisive.
3. **Diplomatic Success:** Prevented Britain and other European powers from recognising or supporting the Confederacy.
4. **Moral Transformation of the War:** The Emancipation Proclamation (1863) freed enslaved people in rebel states and allowed African Americans to join the Union army.
5. **Abolition of Slavery:** Helped secure passage of the Thirteenth Amendment to the United States Constitution (1865), permanently abolishing slavery.
6. **Vision for Reconstruction:** Supported limited African American voting rights, but his assassination in 1865 cut short his Reconstruction plans.

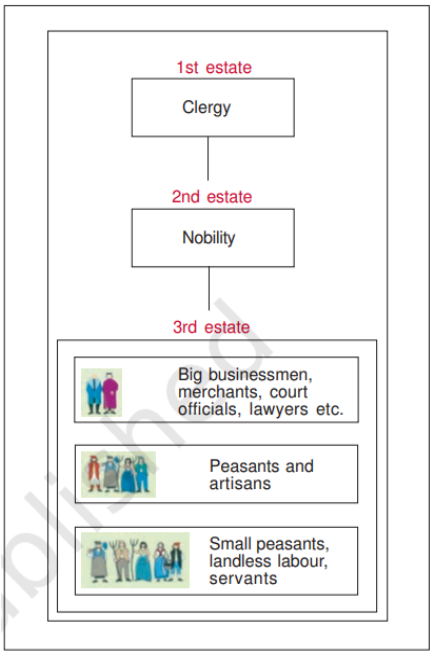

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

Impacts of American Civil War

- **Strengthening of the Federal Union:** The defeat of the Confederacy preserved the Union, ended the doctrine of secession, and established the United States as an indivisible nation.
- **Constitutional Transformation and Civil Rights:**
  - The 13th Amendment to the United States Constitution (1865) abolished slavery.
  - The 14th Amendment to the United States Constitution (1868) granted citizenship and equal legal protection.
  - 15th Amendment to the United States Constitution (1870) prohibited racial discrimination in voting rights.
- **Social and Political Consequences:** The Republican Party gained long-term dominance, but African Americans continued to face discrimination through Jim Crow laws, segregation, and groups like the Ku Klux Klan. Legal equality expanded, but racial inequality persisted in practice.
- **Economic Restructuring:** The Southern plantation economy collapsed with the end of slavery, while the North rapidly industrialised, accelerating America's rise as an industrial power.
- **Reconstruction of federation:** Former Confederate states were readmitted after accepting Union authority and constitutional amendments.
- Institutions like the **Freedmen's Bureau** provided limited support to freed slaves, but the end of Reconstruction in 1877 enabled Southern elites to restore racial dominance.

French Revolution

1. **Louis XVI** became king at **age 20**, married to **Marie Antoinette** (Austrian princess).
2. France faced a **financial crisis**: treasury nearly empty due to wars and an extravagant court at **Versailles**.
3. **Support for the American Revolution** added **1 billion livres** to an existing **2 billion debt**.
4. Creditors charged **10% interest**, forcing the government to spend heavily on debt repayment.
5. To cover expenses (army, court, offices, universities), the monarchy **increased taxes**, but **only the Third Estate paid taxes**.
6. French society was divided into **three estates** under the **Old Regime** (feudal system from the Middle Ages).
   a. **First Estate (Clergy):** Owned **10% of land**, provided charity and education. Paid only **2% of income in taxes**.
   b. **Second Estate (Nobility):** Owned **20% of land**, exempt from taxes. 2% of the population; opposed Enlightenment ideas.
   c. **Third Estate (Commoners): 98% of population**:

1. **Bourgeoisie:** merchants and professionals, wealthy but heavily taxed, influenced by Enlightenment.
2. **Urban workers:** cooks, servants, low wages, often faced hunger; unrest during bread shortages.
3. **Peasants:** largest group (>80%), paid half of income in dues, tithes, and taxes.

Causes of the French Revolution

1. **Inequitable Social Hierarchy:** The Ancient Régime divided society into three Estates. The First and Second Estates enjoyed birth-right privileges, while the **Third Estate** had no rights.
2. **Unfair Taxation:** The burden of all state taxes (such as the Taille) fell solely on the Third Estate, while the wealthy nobility and church were exempt.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

3. **Financial Bankruptcy:** Participation in the **American War of Independence** and the Seven Years' War left the French treasury empty and the nation heavily in debt.
4. **Enlightenment Ideas:** Philosophers like **Rousseau** (Social Contract), **Montesquieu** (Separation of Powers), and **Voltaire** challenged the "Divine Right of Kings" and promoted reason.
5. **Weak and Indecisive Leadership:** King Louis XVI was unable to push through necessary fiscal reforms and was easily influenced by a conservative nobility that refused to be taxed.
6. **Economic Distress and Inflation:** A series of bad harvests in the 1780s led to food shortages. The price of bread(the staple diet) skyrocketed, causing widespread starvation.
7. **Royal Extravagance:** The lavish lifestyle of the royal family at the **Palace of Versailles** and the perceived indifference of Queen Marie Antoinette fueled public resentment.
8. **Rise of the Bourgeoisie:** The emerging middle class (merchants, lawyers, doctors) had wealth but lacked political power, leading them to demand a say in governance.
9. **Influence of the American Revolution:** French soldiers returning from America brought home ideas of liberty and proved that a determined populace could overthrow a monarchy.
10. **The Estates General Crisis (1789):** The immediate trigger was the king's attempt to raise taxes through the Estates-General. The rejection of the Third Estate's demand for **"one man, one vote"** led to the formation of the National Assembly.

Impacts of the French Revolution

1. **Abolition of Feudalism:** The revolution permanently ended the feudal system, freeing peasants from manorial dues and the control of local lords.
2. **Birth of Human Rights:** The **Declaration of the Rights of Man and of the Citizen (1789)** established that all men are born free and equal in rights.
3. **End of Absolute Monarchy:** The execution of Louis XVI marked the end of the Bourbon dynasty's absolute rule and the establishment of the **First French Republic**.
4. **Rise of Nationalism:** The revolution shifted loyalty from a monarch to the "Nation." This spirit of patriotism later unified countries like Germany and Italy.
5. **Introduction of Secularism:** The state seized Church lands and subordinated the Catholic Church to the government, laying the groundwork for modern secularism (Laïcité).
6. **The Napoleonic Code:** Napoleon's civil code standardized laws across France, emphasizing meritocracy, property rights, and legal equality.
7. **Spread of Liberalism:** Ideas of liberty, equality, and fraternity spread across Europe and the Americas, inspiring later anti-colonial and democratic movements.
8. **Abolition of Slavery (Initial):** In 1794, the Revolutionary Convention became one of the first to abolish slavery in its colonies (though Napoleon later temporarily reinstated it).
9. **Educational and Social Reforms:** The revolution introduced standardized weights and measures (the **Metric System**) and initiated the concept of state-run public education.
10. **Global Inspiration:** The revolution served as a blueprint for modern democracy and influenced global leaders, including Indian reformers like **Raja Ram Mohan Roy**.

Napoleon Bonaparte

The "Child of the Revolution":

Origin: Born 1769 in Corsica; rose through the military ranks during the French Revolution.

Political Ideology: Early supporter of the **Jacobins**; his career epitomized the revolutionary ideal of "careers open to talent" (meritocracy).

The Coup of 18 Brumaire (1799): Overthrew the weak Directory and established the **Consulate**, becoming the First Consul (de facto dictator).

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

Imperial Transition: Crowned himself Emperor in **1804**, ending the First Republic but claiming to preserve revolutionary gains.

Key Military Milestones

Napoleon's legitimacy was built on his "invincibility" on the battlefield:

- **Italian Campaign (1797):** Defeated Austrians; signed the **Treaty of Campo Formio**, expanding French influence.
- **Egyptian Campaign (1798):** Aimed to disrupt British trade with India; though a military failure (Battle of the Nile), it enhanced his image as a romantic hero and scholar.
- **Battle of Marengo (1800):** Cemented his domestic power by driving Austrians out of Italy.
- **Battle of Austerlitz (1805):** His greatest victory; defeating Russo-Austrian forces, leading to the **dissolution of the Holy Roman Empire**.

Reforms undertaken by Napoleon

1. **Administrative & Political Reforms: The Centralized State:**
   a. **Centralization:** Abolished elected local councils; replaced them with **Prefects** (nominated officials) to ensure direct control from Paris.
   b. **Meritocracy:** Established the **Auditeur** (Civil Service) and the **Legion of Honor**. Recruitment was based on talent, qualification, and service to the state.
   c. **Stability over Liberty:** He prioritized a strong state over individual liberty, believing "mismanaged liberty" led to the Revolution's failure.
   d. **Governance Style:** While he established a **Constitutional Monarchy**, it functioned as a dictatorship. Unlike the Bourbons, his power was derived from the **will of the people** (Popular Sovereignty via Plebiscites) rather than divine right.
2. **The Napoleonic Code (Civil Code of 1804):**
   a. **Legal Equality:** Guaranteed equality before the law for all male citizens and freedom of religion (secularism).
   b. **Occupational Freedom:** Guaranteed freedom of choice in profession and abolished guilds to promote competition.
   c. **Property Rights:** Strongly protected private ownership, gaining the loyalty of the peasantry and middle class.
   d. **Social Conservatism:** While progressive in law, it was conservative in family matters, strengthening the authority of the father over wives and children.
3. **Economic & Socio-Cultural Reforms:**
   a. **Financial Sovereignty:** Founded the **Bank of France (1803)** to stabilize currency and manage debt. Centralized tax collection ended "tax farming" corruption.
   b. **The Concordat (1801):** Healed the rift with the Catholic Church. Recognized Catholicism as the "religion of the majority" but kept the Church subordinate to the State (Bishops nominated by the state).
   c. **Infrastructure:** Invested in a massive network of roads, canals, and bridges to boost trade and military mobility.
   d. **Abolition of Feudalism:** Ended serfdom and manorial dues, making people free and promoting open trade by stopping "brigandage" (banditry).
4. **Educational Revolution:**
   a. **The Lycée System:** Established state-run secondary schools with a standardized curriculum (Latin, French, Science, and Greek).
   b. **Teacher Training:** Opened professional centers for teachers; rewarded high-performing educators to ensure quality.
   c. **Vocational/Military Focus:** Created specialized schools for non-academic talents to ensure a steady supply of engineers and officers.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

d. **State Control:** While primary schools remained under local (commune) control, higher education was strictly state-monitored.

Fall of Napoleon

Strategic Blunders: His downfall was a result of "Imperial Overstretch" and three critical errors:

1. **The Continental System:** A failed economic blockade against Great Britain. Britain's naval superiority and colonial markets allowed it to survive, while the blockade hurt French allies and fueled resentment.
2. **The Peninsular War (1807-1814):** A long, draining conflict in Spain and Portugal. The rise of Spanish **guerrilla warfare** acted as a **"bleeding ulcer"** for French resources.
3. **The Invasion of Russia (1812):** The decisive turning point. Out of 600,000 soldiers, only 100,000 returned due to:
   a. **Scorched Earth Policy:** Russians destroyed all resources during retreat.
   b. **Faulty Logistics:** Difficulty in supplying troops over vast distances.
   c. **The Russian Winter:** Extreme cold and disease decimated the "Grande Armée."
4. **Final Defeat:** Following exile to Elba, he returned for the "Hundred Days" but was permanently defeated at the **Battle of Waterloo (1815)** by the Duke of Wellington.

American revolution and French revolution laying the foundation of modern world

Impact of the American Revolution

1. **Popular Sovereignty & Natural Rights:** First written constitution limiting state power; government accountable to the people.
2. **Republicanism & Enlightenment Ideals:** Replacement of monarchy with representative government; liberty, equality before law, rational governance in practice.
3. **Global Democratic Inspiration:** "No taxation without representation" inspired anti-colonial and democratic movements worldwide.
4. **Catalyst for Revolutionary Movements:** Influenced uprisings in France, Netherlands, Belgium, Ireland, Geneva, and Haiti.
5. **End of Mercantilism:** Removal of British trade controls; rise of freer markets and economic liberalism.
6. **Shift in British Imperial Strategy:** Britain expanded colonisation towards Australia, Africa, Asia, and the Pacific.
7. **Social Transformation:** Move from aristocracy to meritocracy; greater egalitarianism and civic participation.
8. **Inspiration for Latin America:** Encouraged independence movements after Spain's weakening during Napoleonic wars.

Impact of the French Revolution

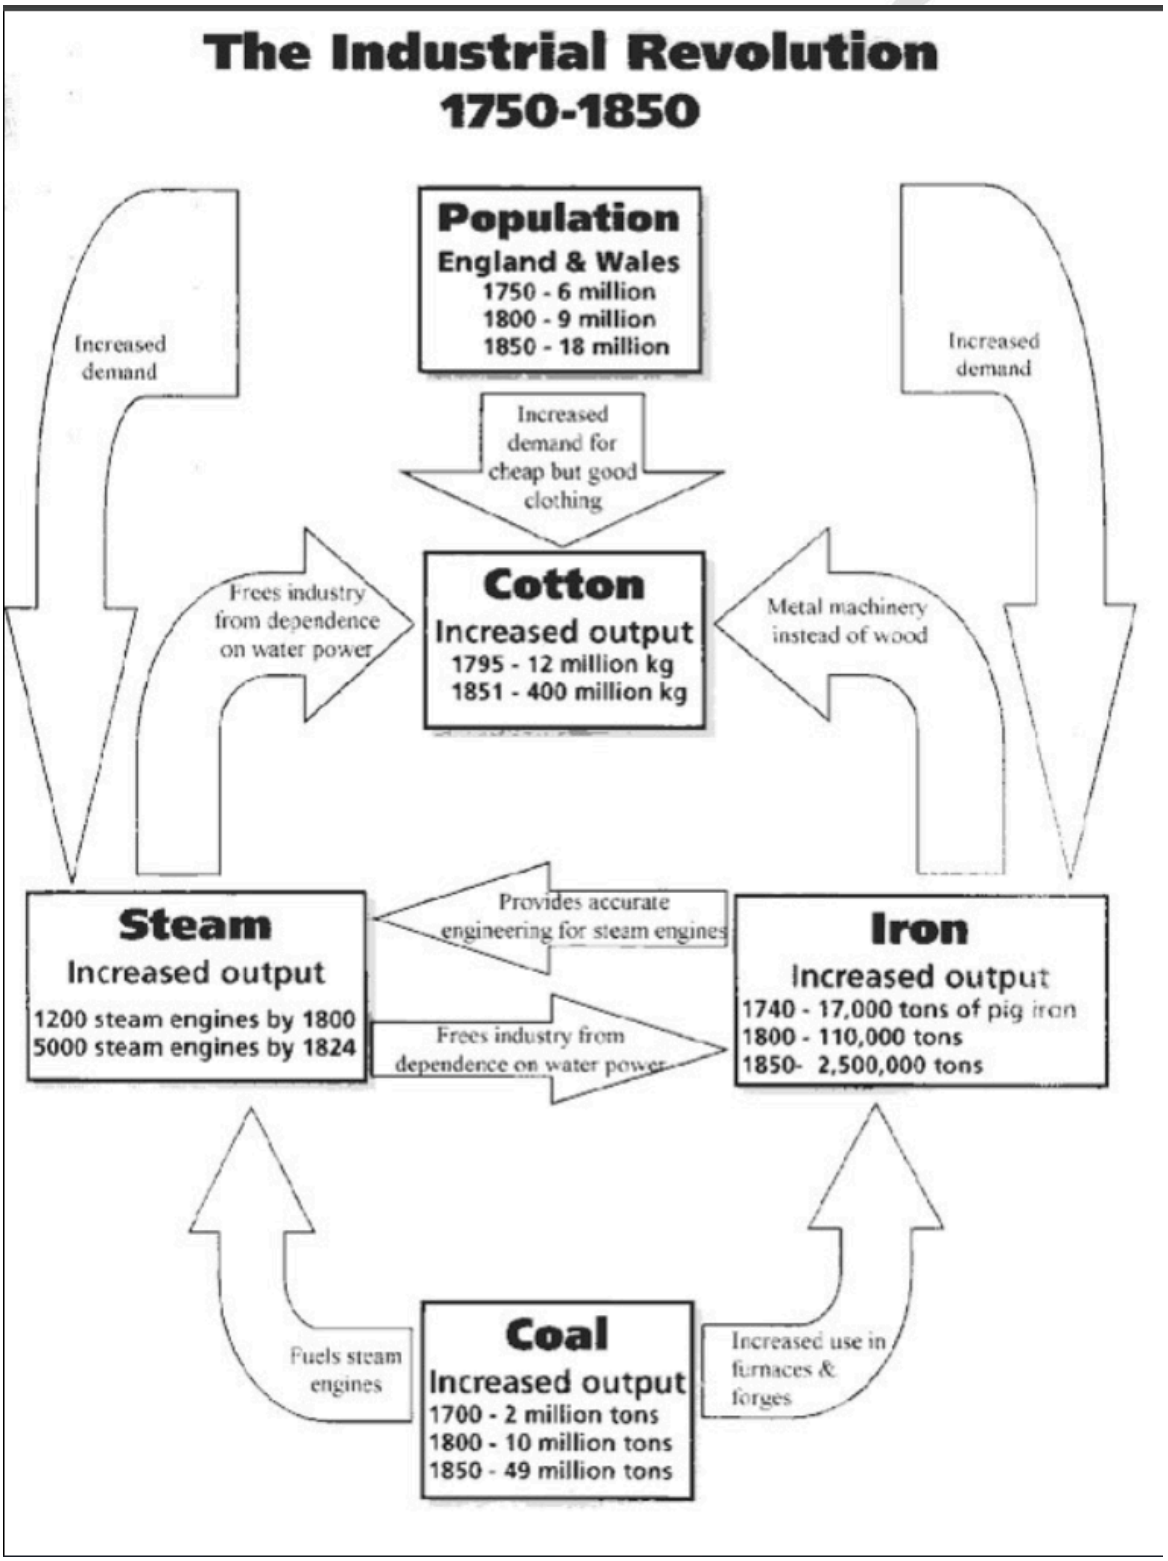

1. **Concept of Nation:** Before the French Revolution, Europe was dominated by feudal monarchies and empires, with little concept of a modern nation-state. The French Revolution introduced the idea that **sovereignty rests with the people, giving rise to modern nationalism and self-rule.**

1. **Liberty, Equality, Fraternity:** Universal citizenship and civil rights through the Declaration of the Rights of Man and Citizen.
2. **Abolition of Feudalism:** End of feudal laws, hereditary privilege; confiscation of church and noble lands.
3. **Constitutionalism & Rule of Law:** Replacement of arbitrary monarchy with constitutional government.
4. **Democratic Radicalism:** Jacobian Constitution (1793) proposed universal male suffrage and the **Right to Insurrection**.
5. **Global Political Impact:** Napoleonic wars weakened Spain and Portugal, aiding Latin American independence.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

6. **Abolitionist Impulse:** Initiated anti-slavery momentum influencing later abolition in Britain and the USA.

Industrial Revolution

The **Industrial Revolution** (1760-1840) was a transformative era that shifted the world from a manual, agrarian economy to one dominated by machine manufacturing and the factory system. It **began in Britain** and fundamentally altered the social, economic, and political fabric of human civilization.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

The Precursor

The Agricultural Revolution: The Industrial Revolution was made possible by a radical change in farming during the 17th and 18th centuries.

- **Four Key Changes:**
  a. **Enclosure Movement:** Common lands were fenced into individually owned plots, increasing efficiency but displacing thousands of small farmers.
  b. **Mechanization:** Introduction of machines for seeding (Jethro Tull's seed drill) and harvesting.
  c. **Four-Field Crop Rotation:** Introduced by **Charles Townshend**, this method kept land fertile without leaving it fallow.
  d. **Selective Breeding:** Robert Bakewell pioneered scientific breeding to produce larger, healthier livestock.

Why Britain First

(Causes): Britain possessed a "perfect storm" of factors that allowed it to lead the global industrial charge:

- **Availability of Capital:** Capital Surplus from global trade and colonial exploitation (Eg. the drain of wealth from India) provided the funds for massive industrial outlays.
- **Natural Resources:** Britain sat on massive deposits of **coal** (fuel) and **iron ore** (machinery).
- **Political Stability:** Unlike continental Europe, Britain was stable and immune to the Napoleonic upheavals, providing a safe environment for long-term investment.
- **Scientific Temper:** A secular, rational culture encouraged inventions and "freedom of thought."
- **Geographical Advantage:** Being an island with excellent natural ports facilitated global trade and protected it from land-based wars.

Key Innovations and Sectors

Industrialization was driven by a chain reaction of technological breakthroughs:

- **Textiles (The Lead Sector): Spinning Jenny (1764):** James Hargreaves enabled one person to spin multiple spools of thread. **Power Loom (1780s):** Edmund Cartwright mechanized weaving.
- **The Steam Engine:** James Watt perfected the steam engine in the 1770s, which became the "workhorse" of the era, powering factories, ships, and locomotives.
- **Iron & Steel:** The shift from wood to coal (coke) for smelting allowed for the mass production of iron, essential for infrastructure.
- **Communication: Telegraph (1844):** Samuel Morse revolutionized long-distance messaging. **Atlantic Cable (1866):** Underwater telegraphy connected North America and Europe.

Industrial Revolution in the United States of America

The Industrial Revolution in the USA began after Britain and transformed **manufacturing, transport, communication, and daily life.Factors Responsible for Industrialisation:**

1. **Embargo Act (1807)** forced domestic manufacturing by restricting foreign trade.
2. Abundant **natural resources** such as coal, iron, timber, and water power supported industries.
3. Rapid expansion of **railways** promoted coal, steel, mass production, and national markets.
4. Large inflow of **immigrant labour** ensured a cheap and abundant workforce.
5. **Laissez-faire policies** allowed businesses to grow with minimal state interference.

Innovations and Technological Changes

1. **Samuel Slater** set up the first water-powered textile mill (1793).
2. **Eli Whitney's cotton gin (1793)** revolutionised cotton production.
3. **Samuel Morse** invented the telegraph; **Elias Howe** developed the sewing machine.
4. **Transcontinental railway (1869)** unified markets and accelerated industrial growth.
5. **Electricity (Edison)** and **telephone (Bell)** transformed industry and communication.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

6. **Wright brothers (1903)** pioneered powered flight.
7. **Henry Ford's Model T (1908)** popularised mass automobile production.

Industrial Revolution in France

French industrialisation began in the **late 18th century** and expanded significantly in the **19th century**, especially under the **Second Empire**.**Factors Responsible for Industrialisation:**

1. **The French Revolution** abolished feudalism and created a unified national market.
2. Availability of **coal, iron ore, and water power** supported heavy industries.
3. Textile centres like **Lyon and Lille** benefited from raw materials and skilled labour.
4. Expansion of **roads, canals, and railways** improved internal connectivity.
5. Innovations like the **Jacquard loom** and **Leblanc chemical process** boosted productivity.
6. **Napoleon III's government** promoted industry through infrastructure investment and protectionist tariffs.
7. Industrialists like **Schneider and Peugeot** led entrepreneurship and private investment.

Industrial Revolution in Germany

German industrialisation accelerated after **economic unification (Zollverein, 1834)** and political unification in **1871**.**Factors Responsible for Industrialisation:**

1. Rich **coal reserves in the Ruhr** and iron ore in **Lorraine and Silesia** powered heavy industry.
2. Extensive **railway network** facilitated transport and market integration.
3. **Bismarck's policies** promoted industrial growth through tariffs, subsidies, and infrastructure.
4. Strategic rivalry and **military threat from France** encouraged steel and armaments production.
5. Adoption of technologies like the **Bessemer steel process** boosted industrial efficiency.
6. Industrial giants such as **Krupp and Siemens** drove innovation and scale.

Industrial Revolution in Japan

Japan's industrialisation followed the **Meiji Restoration (1868)** and aimed at rapid modernisation and westernisation.**Factors Responsible for Industrialisation:**

1. High literacy and emphasis on education created a **skilled and disciplined workforce**.
2. Japan imported **Western technology** and hired foreign experts for training.
3. Development of **railways, ports, and roads** strengthened industrial infrastructure.
4. Growth of **zaibatsu** encouraged private enterprise and industrial concentration.
5. The state focused on **heavy industries** such as steel, shipbuilding, and machinery.
6. **Protectionist policies** supported domestic industries and import substitution.

Impacts of Industrial revolution

1. **Political Impact:**
   a. Rise of the **industrial and professional bourgeoisie** led to demands for political representation and expansion of democracy (Reform Act, 1832).
   b. Exploitative factory conditions resulted in the **emergence of trade unions** and recognition of workers' rights to organise and strike.
   c. Industrialisation strengthened **capitalism**, concentrating wealth and power in the hands of industrial elites.
   d. Growing inequality produced **class divisions and class politics**, giving rise to socialist and communist ideologies (Marxism).
   e. Improved connectivity fostered **nationalism**, while industrial competition accelerated **imperialism and colonial expansion**.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

2. **Social Impact:**
    a. Society was reorganised into **industrial elite, professional middle class, and working class**.
    b. Rapid **urbanisation** occurred due to migration of workers to industrial centres.
    c. Working-class life was marked by **child labour, long working hours, low wages, and poor living conditions**.
    d. Over time, industrial growth increased **overall wealth and material prosperity**.
    e. People gained access to **cheaper goods, better housing, improved diets, and social reforms**.
3. **Economic Impacts:**
    a. Mechanisation led to a **massive increase in production and productivity**.
    b. Large-scale output resulted in **lower production costs and affordable goods**.
    c. Wealth shifted from land to **ownership of factories and machinery**, strengthening capitalism.
    d. Growth of industries encouraged the development of **banking and credit systems**.
    e. Expansion of global trade intensified **competition for markets, raw materials, and labour.**
4. **Impact of the Industrial Revolution on India:**
    a. **Economic Impact:** Forced **deindustrialization via discriminatory tariffs on Indian textiles and handicrafts,** reducing India to an **exporter of raw materials** and a **captive market** for British manufactured goods.
    b. **Social Impact:** Traditional occupations and rural economies were disrupted. New classes such as **industrial workers and Indian capitalists** emerged. Industrial activity accelerated **urbanisation and city growth**. **Western education and ideas** influenced Indian social reform.
    c. **Political Impact:** Industrial needs strengthened **British colonial control and exploitation**. Economic drain fuelled **Indian nationalism and resistance movements**. Exposure to **liberalism and socialism** shaped modern Indian political thought.
    d. **Infrastructural Impact:** Railways, roads, ports, and telegraphs were built to serve **colonial interests**. This infrastructure later became the **base for India's post independence industrialisation**.

Colonialism & Imperialism

Colonialism and imperialism were progressive stages of European expansion driven by mercantilism, industrial capitalism, and geopolitical rivalry. While colonialism focused on economic extraction and cultural domination, imperialism added direct political and military control over foreign territories.

- **The Triple Engine:** Early European expansion into Asia, Africa, and the Americas was driven by three interconnected motives:
    - **Gold (Economic Motive):** Desire for trade profits, bullion accumulation, raw materials, and monopoly over lucrative commodities such as spices, cotton, sugar, and tobacco.
    - **Glory (Political Motive):** Expansion of colonies enhanced national prestige and established European powers as global hegemonic states.
    - **God (Ideological Motive):** Christian missionaries accompanied colonial expansion, providing moral justification for conquest and "civilizing missions."
- **Role of Sea Power:** Strong navies protected merchant fleets, attacked rivals, and secured strategic "ports of call" for refuelling and trade control.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

Aspect	Colonialism	Imperialism	New Imperialism
Meaning	**Economic and cultural domination** of a territory by a foreign power.	**Political, economic, and military domination** of weaker regions by stronger states.	Intensified phase of imperialism **after the Industrial Revolution,** marked by global rivalry for colonies.
Primary Objective	**Extraction of raw materials** and trade profits.	Expansion of **political control** along with economic exploitation.	Securing **raw materials, export markets,** investment areas, and strategic dominance.
Main Actors	**Trading companies** and settlers (Eg. East India Company).	**Nation-states** using diplomacy and military power.	**Industrialised states** such as Britain, France, Germany, USA, Japan, and Italy.
Nature of Control	**Indirect** and economic; often through trade monopolies and settlements.	**Direct** political control through colonies, protectorates, and spheres of influence.	**Highly aggressive political-military control** backed by industrial and naval power.
Economic System	Linked with **mercantilism** and monopoly trade.	Linked with **industrial capitalism** and global markets.	Driven by **industrial capitalism, surplus production, and foreign investments.**
Methods Used	**Trading posts,** monopolies, missionary activity, cultural domination.	**Military conquest,** annexation, diplomacy, and administrative control.	**Naval arms race, partition of territories,** protectorates, and economic coercion.
Role of Military	**Limited**; mainly to protect trade interests.	Important for conquest and maintaining control.	Central role through large armies, naval supremacy, and strategic ports.
Historical Phase	**Mainly 15th-18th centuries.**	It expanded strongly during the 19th century.	Late 19th and early 20th centuries (post-1870).
Key Feature	Economic exploitation of colonies.	Combination of economic exploitation and political domination.	Intense competition among industrial powers for colonies and global supremacy.
Examples	**Portuguese trade posts in Asia;** East India Company in India.	**British rule in India;** French control in Algeria.	**Scramble for Africa, U.S. expansion in the Pacific, Japanese expansion in Manchuria.**
Colonialism focused mainly on	Colonialism focused mainly on economic	Colonialism focused mainly on economic exploitation,	Colonialism focused mainly on economic exploitation,

Aspect	Colonialism	Imperialism	New Imperialism
economic exploitation, imperialism added direct political control, while New Imperialism represented an aggressive industrial-era race for colonies, markets, and strategic dominance.	exploitation, imperialism added direct political control, while New Imperialism represented an aggressive industrial-era race for colonies, markets, and strategic dominance.	imperialism added direct political control, while New Imperialism represented an aggressive industrial-era race for colonies, markets, and strategic dominance.	imperialism added direct political control, while New Imperialism represented an aggressive industrial-era race for colonies, markets, and strategic dominance.

The Scramble for Africa

- Until the mid-19th century, European influence in Africa remained limited to coastal trading posts due to difficult geography, unnavigable rivers, and tropical disease.
- Mid-19th century explorations mapped major rivers such as the Congo and Niger, revealing direct access to Africa's resource-rich interior.
- Leopold II of Belgium aggressively exploited this opportunity, seizing the Congo basin in 1876 and later formalising it as the Congo Free State (1885). His profitable extraction of rubber and ivory triggered intense European rivalry and launched the "Scramble for Africa."
- **Berlin Conference (1884-85):** Convened by Otto von Bismarck, Arbitrary partition of Africa by European powers, w/o any representation.

Colonialism in the Pacific

- **Hawaii Annexation:** The United States officially annexed Hawaii in 1898, gaining strategic naval bases crucial for Pacific dominance.
- **Spanish-American War (1898):** The Spanish-American War marked the rise of U.S. overseas imperialism.
  - The Philippines came under U.S. control.
  - Spain ceded Guam and Puerto Rico to the United States.
  - Cuba became formally independent but remained under U.S. influence.
- **Samoan Islands:** In 1899, the Samoan Islands were divided between the United States and Germany, while Britain received compensation elsewhere.
- **British Expansion:** Settlers in Australia and New Zealand encouraged Britain to expand across nearby Pacific islands.
- **Fiji and New Guinea:** Britain annexed Fiji in 1885, while Britain and Germany divided eastern New Guinea; the Dutch controlled the western half.
- **German Presence:** Germany acquired several Pacific islands from Spain, expanding its colonial influence in the region.
- **Pacific Colonisation:** By 1900, almost all major Pacific islands had come under colonial control of the United States, Britain, Germany, and other European powers.

Imperialist United States

- **Industrial Rise:** Between 1865 and 1895, the United States emerged as a major industrial power due to rapid industrialisation and large-scale immigration.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

- **Policy of Isolation:** Initially, U.S. influence abroad remained limited because of its vast domestic market and adherence to isolationist foreign policy.
- **Rise of Imperialism:** By the 1890s, industrial growth created demand for overseas markets, raw materials, and strategic influence, transforming the U.S. into an imperial power.
- **Ideological Justification:** American expansion was justified through ideas like the "White Man's Burden" and the spread of "civilized" Western values.
- **Open Door Policy:** The United States introduced the Open Door Policy (1899), demanding equal trading rights for all powers in China.
- **Boxer Rebellion:** The U.S. joined the Eight-Nation Alliance to suppress the Boxer Rebellion and protect foreign interests in China.
- **Monroe Doctrine Expansion:** The Roosevelt Corollary expanded the Monroe Doctrine by asserting America's right to intervene in Latin America.
- **Russo-Japanese War:** President Theodore Roosevelt mediated the Russo-Japanese War and indirectly supported Japanese expansion in East Asia.
- **Panama Canal:** The U.S. supported Panama's separation from Colombia and secured control over the Panama Canal, completed in 1914, linking Atlantic and Pacific trade.
- **Dollar Diplomacy:** Under Presidents Taft and Wilson, the U.S. used investments and financial influence to establish informal control over Latin American economies.

Colonialism in China

- **Semi-Colonial Status:** Unlike India or Africa, China was not fully colonised by one power but divided into foreign spheres of influence through unequal treaties.
- **Canton System:** Britain faced a huge trade deficit with China because it **imported large quantities of Chinese tea and silk,** while China imported very little from Britain.
- **Opium Trade:**To reverse the silver outflow, the British East India Company illegally smuggled Indian opium into China.
- **First Opium War:** Qing government tried to suppress the opium trade, Britain launched the First Opium War. The War forced China to cede Hong Kong, open treaty ports, and grant extraterritorial rights to foreigners.
- **Second Opium War:** The Second Opium War legalized opium trade, expanded foreign privileges, and weakened Chinese sovereignty further.
- **Taiping Rebellion:** The Taiping Rebellion devastated China and weakened Qing authority as provincial armies replaced central control.
- **Russian Expansion:** In 1858, Russia seized territories north of the Amur River through the Treaty of Aigun, exploiting China's internal weakness.
- **Japanese Aggression:** The First Sino-Japanese War ended in China's defeat, loss of Taiwan, and Japanese dominance in Manchuria.
- **Boxer Rebellion:** The Boxer Rebellion opposed foreign domination but was crushed by the Eight-Nation Alliance.
- **Warlord Era:** After the 1911 Xinhai Revolution, China fragmented into provinces ruled by rival military commanders during the **Warlord Era (1916-28).**
- **Nationalist Movement:** The Kuomintang under Sun Yat-sen and Chiang Kai-shek sought to unify China and resist foreign domination.
- **Communist Struggle:** Conflict between the Chinese Communist Party and the Kuomintang triggered civil war and the historic Long March (1934-35).

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

- **Communist Victory:** After World War II, the Communists led by Mao Zedong defeated the Kuomintang and established the People's Republic of China in 1949.

Colonialism in Central and West Asia

- **Anglo-Russian Rivalry:** Central and West Asia became the main arena of rivalry between Britain and Russia, largely over strategic influence and trade routes.
- **Russian Expansion:** Russia pursued expansion toward warm-water ports and Central Asia, threatening British interests in India and the Ottoman Empire.
- **Crimean War (1853-56):** The Crimean War weakened Russia temporarily but intensified its later expansion into Asia.
- **Amur Region:** In 1858, Russia forced China to cede territories north of the Amur River, securing access to the Pacific coast.
- **British Tibet Policy:** To counter Russian influence, Britain intervened in Tibet in 1904 and gained influence over Tibet's foreign affairs.
- **Russo-Japanese War:** Russia's defeat in the Russo-Japanese War weakened its Asian position and reduced its influence in East Asia.
- **Anglo-Russian Agreement (1907):** Russia recognized Tibet and Afghanistan as British spheres of influence, creating buffer zones to protect British India.
- **Division of Persia:** Under the 1907 agreement, northern Iran came under Russian influence, southern Iran under British influence, while central Iran remained neutral.
- **British Asian Empire:** Britain consolidated control over India, Ceylon, Burma, and Afghanistan to secure trade routes and imperial dominance in Asia.
- **Imperialism in East Asia:** By the late 19th century, most of East Asia was under imperial influence, while China became the major target of foreign domination.

Imperial Japan

- **Policy of Isolation:** Under the Tokugawa Shogunate, Japan followed Sakoku, a policy of strict isolation from foreign trade for over two centuries.
- **Western Intervention:** In 1853, U.S. Commodore Matthew C. Perry forced Japan to open its ports through gunboat diplomacy.
- **Meiji Restoration (1868):** The Meiji Restoration ended feudal rule and restored authority to the Emperor.
- **Rapid Industrialisation:** The Meiji state promoted state-led industrialisation, infrastructure development, heavy industries, and nationalist education.
- **Expansionist Policy:** Limited resources and markets pushed Japan toward imperial expansion across East Asia.
- **Military Successes:** Japan gained Taiwan after the First Sino-Japanese War and defeated Russia in the Russo-Japanese War.
- **Annexation of Korea:** Japan made Korea a protectorate in 1905 and formally annexed it in 1910.
- **Rise of Militarism:** Economic crisis during the Great Depression strengthened military control, leading to the invasion of Manchuria in 1931.

Impacts of Colonialism

- **Resource Depletion:** Colonial economies were structured to export raw materials cheaply while wealth and profits were systematically transferred to European powers.
- **Belgian Congo Atrocities:** Under Leopold II of Belgium, nearly 10 million Africans in the Congo Free State were killed, mutilated, or exploited for rubber and ivory extraction.
- **Artificial Borders:** During the Scramble for Africa, colonial powers drew arbitrary borders ignoring ethnic and cultural realities.
- **Divide and Rule:** European administrations promoted selected ethnic groups over others, creating long-term hostility that later contributed to conflicts like the Rwandan genocide.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

- **Neglect of Education:** Systemic neglect of education of human capital to curb native leadership.
- **Weak Human Capital:** At independence in 1960, the Belgian Congo reportedly had only 17 university graduates and almost no trained professionals.
- **Asymmetric Infrastructure:** Railways, roads, and ports were designed mainly to transport raw materials from interiors to coastal ports rather than develop integrated local economies.

Nationalism in 19th century Europe

Thinkers and Theories of Nationalism

1. **Ernest Renan (1882) - Idealist View:** Nation as a **spiritual community** sustained by a **"daily plebiscite"** (continuous consent of people). Emphasis on **shared memories, sacrifices, and will to live together**, not race or language. Nations are **historical and contingent**, not eternal.
2. **Joseph Stalin - Materialist (Marxist) Definition:** Nation defined as a **historically constituted, stable community** based on: **Common language, Territory, Economic life and Psychological make-up expressed in common culture.** Nations are **products of historical conditions**, not permanent entities.
3. **Common Ground (Renan & Stalin):** Despite ideological differences, both agree: Nations are **historical constructs,** They have a **beginning and an end and** Nothing eternal or immutable about nations.
4. **Hans Kohn - Historical-Cultural Approach:** Nationalities are **products of historical forces**, hence **fluid and changing**. Distinguishes **ethnic groups (clans, tribes, folk groups)** from nations. Ethnic groups are merely **"raw material"**; under certain conditions they may form nations. Nations can also **disappear or merge** into larger nationalities.
5. **Origins of Nationalist Ideas (Kohn): Idea of nationalism predates modern nationalism.** Traces early elements to: **Ancient Jews**: chosen people, national history, messianism and **Greeks**: cultural unity but lack of sustained political nationalism. Full political nationalism was absent in antiquity.
6. **Nationalism as a Modern Phenomenon:** Broad scholarly consensus (Anderson, Gellner, Hobsbawm): Nationalism emerged in **18th-century Western Europe.** Spread globally in the **19th-20th centuries.** Linked to: **Industrial capitalism, Print capitalism and State rivalry and imagined communities.**
7. **Marxist Tradition on Nation and Nationalism:** Nations emerged with: **Decline of feudalism and Rise of capitalism.** Nationalism viewed as an **ideological tool of the bourgeoisie i.e.** Aligns class interests with national interests.
8. **Eric Hobsbawm's Contribution:** Nationalism must be analysed within: **Specific technological and economic stages.** Though constructed **from above**, it must also be understood **from below**: People's **hopes, fears, needs, and identities.** Popular sentiments may not always be consciously nationalist.

Nationalism in Asia and Africa

Asia

1. **India:** Western education and Enlightenment ideas generated demands for **political equality and self-rule**. The national movement evolved from constitutional demands to **mass, non-violent struggle**, culminating in independence in 1947.
2. **China:** Nationalism arose as a response to **foreign humiliation, unequal treaties, and weak Manchu rule**. The struggle culminated in **Communist victory in 1949** under Mao Zedong after prolonged civil war and Japanese invasion.
3. **Philippines:** Nationalism first weakened Spanish rule but resulted in **American colonial domination after 1898**. Independence was finally achieved in **1946**, though US military influence persisted for decades.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

4. **Indo-China (Vietnam, Laos, Cambodia):** French cultural, economic, and political domination triggered **anti-colonial nationalism**. Prolonged resistance under **Ho Chi Minh** led to French defeat (1954) and eventual Vietnamese unification (1975).
5. **Indonesia:** Dutch repression and wartime Japanese occupation **radicalised nationalist movements**. Independence was declared in 1945 and formally recognised in **1949** after armed struggle and UN pressure.

Africa

African nationalism accelerated after WWII due to **war participation, UN support, and Cold War rivalry**. Decolonisation varied from peaceful transitions to **violent liberation struggles**, largely completed by the 1960s.

1. **Libya:** Strategic importance and WWII sacrifices led the UN to support **peaceful independence in 1951**. Became a monarchy under **King Idris**, marking negotiated decolonisation.
2. **Gold Coast (Ghana):** Economic exploitation and political mobilisation under **Kwame Nkrumah** fuelled nationalism. Achieved **peaceful independence in 1957**, becoming a model for African decolonisation.
3. **Algeria:** Settler colonialism and repression made peaceful compromise impossible. A brutal **8-year guerrilla war** forced France to grant independence in 1962.
4. **Kenya:** Land alienation and racial discrimination sparked the **Mau Mau rebellion (1952)**. Repression discredited colonial rule, leading to independence in **1963** under Jomo Kenyatta.

Latin America

Colonial elites were inspired by **American and French Revolutions** and weakening Spanish control. Independence movements led by **Bolívar and San Martín** created new states, though regional unity failed.

Unification of Italy (Risorgimento)

While **nationalism destroyed multi-national empires**, it also **created modern nation-states**. Italy emerged from the ruins of declining empires, especially Austrian domination. Between **1815 and 1848**, growing numbers of Italians rejected foreign rule and political fragmentation, giving rise to the movement of **Risorgimento**, culminating in Italian unification by **1870**.

Key Phases of the Unification of Italy

1. **Early Rebellions and Nationalism (1820s-1830s)**:
   a. **Giuseppe Mazzini**, a key nationalist thinker, founded **Young Italy (1831)**.
   b. He envisioned a **united, republican Italy** based on popular sovereignty.
   c. However, early revolts against Austrian domination failed due to: **Lack of mass participation, Weak military organisation, Strong Austrian repression.**
2. **Revolutions of 1848 and Early Failures:**
   a. The revolutionary wave of **1848** spread to Italy.
   b. **King Charles Albert of Piedmont-Sardinia** led a war against Austria to unify northern Italy. Despite initial enthusiasm, the uprising **failed militarily**.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

   c. Nevertheless, the revolutions: Strengthened nationalist consciousness, Established Piedmont-Sardinia as the **centre of unification efforts.**

3. **Cavour and the Sardinian State:**
   a. **Count Camillo di Cavour**, Prime Minister of Sardinia, played a decisive role. He pursued a **realist, Bismarck-like policy** of unification through: Diplomacy, Strategic wars, International alliances.
   b. In **1858**, Cavour secured an alliance with **Napoleon III of France**. The alliance led to the **Second Italian War of Independence (1859)**.
   c. Outcome: Austria was defeated, **Lombardy** was annexed by Sardinia, Central Italian states joined Sardinia through **plebiscites.**
4. **Garibaldi's Campaign and Southern Italy:**
   a. While Cavour worked diplomatically, **Giuseppe Garibaldi** mobilised popular nationalism.
   b. In **1860**, he led the **Expedition of the Thousand**. Garibaldi's Red Shirts: Captured **Sicily and Naples,** Overthrew the **Kingdom of Two Sicilies.**
   c. Despite being a republican, Garibaldi subordinated ideology to national unity. He handed over conquered territories to **Victor Emmanuel II**. In **1861**, Victor Emmanuel II was proclaimed **King of Italy**.
5. **Final Stages of Unification: Venetia (1866)**:
   a. Acquired after Italy allied with Prussia in the **Austro-Prussian War**. **Rome (1870)**: Remained under Papal control and French protection.
   b. After the **Franco-Prussian War**, France withdrew troops. Italy annexed Rome, completing unification. The Pope retained authority over **Vatican City**

Factors that led to Unification of Italy

1. **Rise of Nationalism:** French Revolutionary ideas fostered a shared Italian identity based on common language, culture, and history.
2. **Napoleonic Legacy:** Napoleon's administrative unification and legal reforms introduced Italians to modern governance and national unity.
3. **Austrian Domination:** Austrian political control after 1815 generated widespread resentment and anti-foreign nationalist mobilisation.
4. **Intellectual Leadership:** Secret societies like the Carbonari and Mazzini's Young Italy spread liberal-nationalist ideology.
5. **Failure of 1848 Revolutions:** The collapse of uprisings highlighted the need for strong leadership, military power, and diplomacy.
6. **Piedmont-Sardinia's Leadership:** Its constitutional monarchy, economic strength, and army made it the nucleus of unification.
7. **The Unification Duality:** Cavour's diplomatic 'Realpolitik' against Austria (unification from above) acting in synergy with Garibaldi's revolutionary mass mobilization (unification from below).
8. **Favourable International Context:** European power rivalries allowed Italy to annex Venetia (1866) and Rome (1870).
9. **Economic Integration:** Industrial growth in the north encouraged support for a unified market and removal of internal barriers.

Aftermath of the Unification of Italy

1. **Political and Administrative:**
   a. **Centralisation of Power:** The new Italian state sought to unify diverse regions through a centralized administrative and legal system.
   b. **Roman Question:** Papal opposition to Rome's annexation led to prolonged Church-State conflict until the Lateran Treaty (1929).

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

2. **Economic:**
   a. **North-South Divide:** Industrialised northern Italy contrasted sharply with the agrarian and underdeveloped Mezzogiorno.
   b. **Uneven Industrialisation:** Economic modernisation and infrastructure development remained concentrated in the north.
3. **Social:**
   a. **Illiteracy and Poverty:** High rural poverty and illiteracy hindered national integration despite educational reforms.
   b. **Mass Emigration:** Economic hardship triggered large-scale migration, especially to the Americas.
4. **Political Unrest and Reform:**
   a. **Regional Resistance:** Strong local identities led to brigandage and insurrections, particularly in southern Italy.
   b. **Emergence of Political Movements:** Liberal, conservative, and socialist groups competed for power, shaping early Italian politics.

Unification of Germany

The Unification of Germany refers to the **political and military consolidation of more than 300 German speaking states**, including kingdoms, duchies, principalities, and free cities into a **single German Empire** under **Emperor Wilhelm I**, proclaimed at the **Palace of Versailles in 1871**. Resulted in a **modern industrial nation-state with an** area of ~**540,000 sq km and** population ~**41 million (1871).**

Causes of the Unification of Germany

1. **Rise of German Nationalism:** Napoleonic rule destroyed the Holy Roman Empire and awakened a shared German national consciousness.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

2. **Intellectual and Popular Support:** Thinkers like Fichte and events such as the Hambach Festival (1832) popularised the idea of national unity.
3. **Failure of Liberal Unification (1848):** The Frankfurt Parliament failed due to lack of military power, Austrian opposition, and Prussian royal resistance.
4. **Economic Unity through Zollverein:** Prussian-led Zollverein (1834) integrated German economies while excluding Austria.
5. **Industrial Growth:** Removal of internal tariffs boosted trade, coal and steel production, strengthening economic interdependence.
6. **Rise of Prussia:** Prussia's superior industry, bureaucracy, railways, and army made it the natural leader of unification.
7. **Leadership of Bismarck:** Bismarck used Realpolitik and the policy of "Blood and Iron" to unify Germany from above.
8. **Military Modernisation:** Army reforms under Moltke and Roon ensured Prussian military dominance.
9. **Wars of Unification:** Victories in the Danish (1864), Austro-Prussian (1866), and Franco-Prussian Wars (1870-71) eliminated rivals and unified German states.
10. **Decline of Austria:** Austria's exclusion from Zollverein, internal ethnic revolts, and defeat in 1866 removed it from German affairs.

Unification of Germany

Process

1. **Modernisation of the Prussian Army (1860-62):** Prussia undertook military reforms under Roon and Moltke, using Krupp steel artillery and an expanded railway network (11,000 km by 1870), enabling rapid mobilisation and battlefield superiority.
2. **Bismarck's Diplomatic Strategy:** Execution of 'Blood and Iron' policies and strategic alliances to systematically isolate adversaries (Austria/France) and prevent anti-Prussian coalitions.
3. **Danish War (1864):** Prussia and Austria defeated Denmark to annex Schleswig and Holstein, projecting Prussia as the defender of German interests.
4. **Austro-Prussian War (1866):** Decisive Prussian victory at Königgrätz dissolved the German Confederation and ended Austrian dominance in German affairs.
5. **Formation of North German Confederation (1867):** Established a federal structure with Reichstag (universal male suffrage), Bundesrat, and a common army, under Prussian leadership with the King as President.
6. **Inclusion of Southern German States:** Southern states like Bavaria, Württemberg, and Baden joined through defence and November Treaties after the Franco-Prussian War.
7. **Franco-Prussian War (1870-71):** Triggered by the Ems Dispatch, the war united German states against a common enemy and led to France's defeat at Sedan.
8. **Proclamation of German Empire (1871):** Wilhelm I was crowned Kaiser at Versailles; Bismarck became Chancellor, marking formal political unification.
9. **Federal Constitution of 1871:** The empire retained federal features, granting limited autonomy to southern states, but Prussia dominated with 2/3rd population and 3/5th territory.

Aftermath of the Unification

1. **Territorial and Demographic Expansion:** Unified Germany covered ~540,000 sq km with a population of ~41 million in 1871, rising to ~67 million by 1914.
2. **Rapid Industrialisation:** Steel output surged from 0.2 million tonnes (1871) to over 14 million tonnes by 1913, surpassing Britain.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

3. **Economic Supremacy in Europe:** By 1910, Germany became Europe's largest economy, contributing nearly 16% of global manufacturing output.
4. **Shift in European Balance of Power:** Germany replaced France as the dominant continental power, transforming European geopolitics.
5. **Rise of Militarism and Future Conflict:** Aggressive nationalism and militarisation intensified rivalries, laying foundations for World War I.

World War I

Triggered by the assassination of **Archduke Franz Ferdinand of Austria** at Sarajevo in 1914, World war I (1914-18) was the culmination of deep-seated structural tensions in Europe, marked by aggressive **imperialism**, assertive **nationalism**, and escalating **militarism** that had been intensifying since the late nineteenth century.

Causes of World War I

1. **Imperialism and Great Power Rivalry:**
   a. Intense rivalry between established powers (Britain, France, Russia) and rising powers (Germany, Austria-Hungary, Italy, Japan).
   b. Germany's rapid industrial and naval expansion disrupted the European balance of power.
   c. Japan's victory over Russia (1904-05) exposed Russian weakness and altered global power equations.
2. **Colonial Competition:**
   a. Industrialisation drove European powers to seek colonies for raw materials and markets.
   b. Scramble for colonies intensified economic rivalries and mutual suspicion.
   c. World War I emerged from competing colonial ambitions rather than the fault of one nation alone.
3. **Rise of Nationalism and Demand for Nation-States:**
   a. Ethnic and linguistic nationalism destabilised multi-national empires.
   b. Nationalist aspirations of Czechs, Slovaks, Poles, Serbs, Croats, Armenians, Greeks, and Bulgarians challenged imperial unity.
   c. Nationalism transformed political disputes into mass movements.
4. **Balkan Crisis and Decline of Ottoman Empire:**
   a. The decline of the Ottoman Empire created a power vacuum in the Balkans.
   b. Balkan Wars (1912-13) weakened Ottoman control and heightened regional instability.
   c. Serbian nationalism alarmed Austria-Hungary, making the Balkans Europe's "powder kEg."

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

5. **Alliance System and Militarisation:**
   a. Europe divided into hostile blocs: Triple Entente and Triple Alliance.
   b. Mutual defence obligations made war escalation automatic.
   c. Militarism and arms race normalised war as a legitimate policy tool.
6. **Role of Germany:**
   a. Aggressive foreign policy and naval challenge to Britain increased insecurity.
   b. Unconditional support to Austria-Hungary after Sarajevo escalated the crisis.
   c. German miscalculation that war would remain localised proved decisive.
7. **Immediate Trigger: Sarajevo Assassination:**
   a. Assassination of Archduke Franz Ferdinand on 28 June 1914 ignited the crisis.
   b. Austria-Hungary's action against Serbia activated alliance obligations. A local conflict escalated into a continent-wide war.

First World War

Key Events (1905-1913):

1. **First Moroccan Crisis (1905-1906):**
   a. Germany challenged the Anglo-French understanding over Morocco by supporting Moroccan independence.
   b. Kaiser Wilhelm II demanded an international conference to curb French influence.
   c. **Algeciras Conference (1906)** supported France (backed by Britain, Russia, Italy, Spain).
   d. Resulted in **German diplomatic isolation** and strengthened the Entente Cordiale.
2. **Anglo-Russian Agreement (1907):**
   a. Britain and Russia resolved disputes over **Persia, Afghanistan, and Tibet**.
   b. Marked the completion of the **Triple Entente** (Britain-France-Russia).
   c. Germany perceived this as strategic **encirclement**, increasing insecurity.
3. **Bosnian Crisis (1908):**
   a. Austria-Hungary formally annexed **Bosnia-Herzegovina**, earlier under Ottoman suzerainty.
   b. Serbia opposed annexation and sought Russian support. Russia protested but backed down due to German support for Austria.
   c. Heightened **Serbo-Austrian hostility** and Russian determination not to retreat again.
4. **Second Moroccan (Agadir) Crisis (1911):**
   a. Germany sent a gunboat **Panther** to Agadir to pressure France. Britain supported France, fearing German naval expansion.
   b. Germany accepted territorial compensation in Congo but suffered diplomatic loss. Reinforced **Anglo-French military cooperation** against Germany.
5. **First Balkan War (1912):**
   a. Balkan League (Serbia, Bulgaria, Greece, Montenegro) attacked the Ottoman Empire.
   b. Ottomans lost most European territories. **Treaty of London (1913)** weakened Ottoman control in Europe. Rivalry among Balkan states intensified.
6. **Second Balkan War (1913):**
   a. Bulgaria attacked Serbia and Greece over territorial disputes. Romania and Ottomans joined against Bulgaria.
   b. **Treaty of Bucharest (1913)** reduced Bulgarian territory. Serbia emerged stronger, alarming Austria-Hungary.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

Consequences of the First World War (1914-1918)

1. **Economic Consequences:**
   a. Massive war expenditure drained national economies: Germany and Britain spent nearly **60% of GDP** on the war.
   b. Governments relied on **taxation, public borrowing, and currency printing**, causing severe post-war inflation.
   c. Infrastructure destruction and war debts weakened European economies for decades.
2. **Political Consequences:**
   a. **Collapse of four empires**: Russian, German, Austro-Hungarian, and Ottoman.
   b. End of dynastic monarchies and emergence of republican governments in many regions.
3. **Territorial Reorganisation and New Nation-States:**
   a. Formation of new states such as **Poland, Czechoslovakia, Yugoslavia, Finland, Estonia, Latvia, and Lithuania**.
   b. Austro-Hungarian Empire dismantled into **Austria, Hungary, Czechoslovakia, and Yugoslavia**. Poland regained territories from Germany and Russia.
   c. Ottoman territories in the Middle East placed under **League of Nations mandates** (British and French control).
4. **Weakening of Europe and Shift in Global Power:**
   a. Britain, France, and Germany emerged economically and militarily weakened.
   b. **The United States and Soviet Union** rose as new global powers, altering world power balance.
5. **Rise of Nationalism and Self-Determination:**
   a. Wilsonian principle of **self-determination** reshaped post-war settlements.
   b. Arbitrary borders left minorities dissatisfied, sowing seeds for future conflicts.
6. **Social Consequences:**
   a. Millions killed or wounded, leading to **decline in birth rates** and rise in widows and orphans.
   b. Large-scale displacement created **refugee crises** across Europe.
   c. Women entered factories and offices, accelerating **women's suffrage and social rights**.
   d. Decline of aristocratic dominance and rise of middle- and working-class political participation.
7. **Ideological and Political Radicalisation:**
   a. **The Russian Revolution (1917)** inspired socialist movements worldwide.
   b. Fear of communism pushed sections of society towards **right-wing extremism and fascism**, especially in Germany and Italy.
8. **International Consequences:**
   a. Intensified ideological rivalry between **capitalism and communism**, laying foundations of the Cold War. The US emerged as a global power without wartime destruction on its soil.
9. **Creation of the League of Nations:**
   a. Established to promote **collective security and peaceful dispute resolution**.
   b. Limited success due to lack of enforcement power and absence of major powers like the USA. Served as a **precursor to the United Nations**.

First world war was fought essentially for preservation of balance of Power

1. **Preventing German Hegemony:** Britain opposed Germany's growing industrial, military, and naval strength to prevent any single power from dominating Europe.
2. **Alliance System:** The **Triple Entente** and **Triple Alliance** were created to maintain European equilibrium, but they also ensured that any regional conflict could escalate into a general war.
3. **Naval Arms Race:** Germany's rapid naval expansion challenged Britain's traditional control of the seas, intensifying rivalry between the two powers.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

4. **German Fear of Encirclement:** Germany feared strategic isolation due to the France-Russia alliance and viewed war as necessary before Russia became too strong.
5. **French Revanche:** France aligned with Britain and Russia to counter Germany and recover its lost prestige after losing Alsace-Lorraine.
6. **Balkan Crisis:** Competition between Austria-Hungary and Russia for influence in the Balkans destabilized the region after the decline of the Ottoman Empire.
7. **Belgian Neutrality:** Germany's invasion of Belgium threatened Britain's strategic security and pushed Britain into the war.
8. **July Crisis (1914):** The assassination of Archduke Franz Ferdinand triggered alliance commitments, converting a Balkan dispute into a European war.

Woodrow Wilson's 14 Points (1918)

- **Core Philosophy:** Served as the theoretical war aims of the Allied Powers, focusing on open diplomacy, self-determination, and collective security.
- **Key Structural Points:**
  - Abolition of secret diplomacy.
  - Absolute freedom of navigation on the seas (in war and peace).
  - Removal of economic/trade barriers between states.
  - All-round reduction of national armaments.
  - Impartial adjustment of colonial claims considering the interests of the local populations.
  - Restoration and liberation of occupied territories (Belgium, France-including Alsace-Lorraine, Russia).
  - Creation of an independent Polish state with secure access to the sea.
  - Establishment of a general association of nations (the precursor to the League of Nations)

The Post-War Treaties

A. The Treaty of Versailles (1919)

- **Territorial Losses:**
  - Alsace-Lorraine returned to France.
  - Estonia, Latvia, and Lithuania recognized as independent.
  - **Saar Basin:** Placed under League of Nations custody for 15 years (France given ownership of its coal mines); its long-term fate left to a future plebiscite (vote).
  - **Danzig:** Converted into a Free City under the League to give Poland a strategic port.
  - **Anschluss Forbidden:** Explicitly banned any political union between Germany and Austria.
- **Colonial Liquidation:** Germany stripped of all African colonies, which were converted into **League of Nations Mandates** (virtually annexed by Britain, France, and South Africa).
- **Strict Disarmament:**
  - Conscription banned; army capped strictly at 100,000 soldiers.
  - Navy restricted to 6 battleships; completely barred from owning submarines, military aircraft, or tanks.
  - **Rhineland Demilitarization:** The region was permanently demilitarized to act as a physical buffer zone for France.
- **The Punitive Clauses:** Initially set at an astronomical £6.6 billion (later scaled down to £2 billion) designed to cripple the German economy and prevent it from threatening France.

B. Other Major Treaties

- **Treaties of St. Germain (1919) & Trianon (1920):** Signed with Austria and Hungary respectively. Broke up the Habsburg Empire, reduced both nations to small landlocked states.
- **Treaty of Sevres (1920) vs. Treaty of Lausanne (1923) with Turkey:**

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

- Sevres originally dismantled the Ottoman mainland, giving deep territorial concessions to Greece (Eg. Smyrna) and placing the Dardanelles Straits under international control.
- This violated Turkish self-determination, sparking a nationalist uprising led by **Mustapha Kemal**.
- Kemal expelled the Greeks, forcing the Allies to sign the Treaty of Lausanne (1923), which restored Smyrna and key territories back to Turkey.

League of Nations

- **Organizational Structure:**
  - **General Assembly:** Contained all member states; functioned on a **unanimity principle** (every single country had to agree), which caused constant political stalemates.
  - **Security Council:** Handled political disputes. Had 4 permanent members (Britain, France, Italy, Japan) and changing non-permanent members.
  - **Permanent Court of International Justice (The Hague).**
- **The League's Non-Political Successes:**
  - **International Labour Organization (ILO):** Successfully pushed for maximum working days, minimum wages, and unemployment/old-age pensions globally.
  - **Refugee & Health Organizations:** Resettled POWs, helped Jews fleeing early Nazi persecution (1933), and successfully contained a massive Typhus epidemic in Russia.
- **Why the League Failed politically:**
  - **Legitimacy Deficit:** Absence of key powers (US, early USSR/Germany) reduced the League to an 'Allies' Club' lacking global enforcement credibility.
  - **Weak Collective Security:** Member states were not compelled to provide troops against aggressors, leaving the League without effective military power.
  - **Failure of Disarmament:** Germany alone was forced to disarm. France's refusal to allow equal armaments enabled Hitler to leave both the Disarmament Conference and the League.
  - **Impact of the Great Depression:** The 1929 economic crisis strengthened aggressive nationalist regimes, while Britain and France followed appeasement instead of firmly opposing Japanese and Italian aggression in Manchuria and Abyssinia.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

Great Depression 1929

"Regarding the Great Depression ... we did it. We're very sorry. ... We won't do it again."

-Ben Bernanke, November 8, 2002, in a speech given at "A Conference to Honor Milton Friedman ... On the Occasion of His 90th Birthday."

Great Depression

Causes:

1. **Stock Market Crash (1929):** Wall Street crash (Black Tuesday) wiped out investor wealth and shattered financial confidence. Speculation-driven bubble burst triggered panic selling and economic contraction.
2. **Bank Failures & Credit Crunch:** Bank runs led to collapse of thousands of banks. Shrinking money supply caused deflation, reduced spending, and investment freeze.
3. **Demand-Supply Mismatch:** Industrial output rose faster than wages. Unsold goods led to falling prices, layoffs, and factory shutdowns.
4. **Agricultural Crisis:** Falling crop prices, rising farm debt, and Dust Bowl devastation. Rural poverty intensified unemployment and economic distress.
5. **International Economic Imbalances:** Fragile post-WWI debt-reparation cycle collapsed. Protectionism (Smoot-Hawley Tariff) crippled global trade.

Impacts of the Great Depression

1. **Mass Unemployment & Poverty:** Unemployment reached ~25% in the USA. Widespread homelessness, soup kitchens, and hunger.
2. **Collapse of Industry & Trade:** Industrial production fell by over 45% in some countries. Global trade shrank drastically, worsening the crisis.
3. **Financial Panic:** Bank failures destroyed savings and public trust. Long-term confidence in financial institutions eroded.
4. **Social & Psychological Impact:** Rise in suicides, falling birth rates, and family disintegration. Migration in search of work became common.
5. **Political Consequences:** Disillusionment with democracy. Rise of fascism and Nazism, contributing to World War II.

Global Responses to the Great Depression

1. **New Deal (USA): Relief:** Aid to unemployed and poor. **Recovery:** Public works and economic stimulus. **Reform:** Financial regulation and social security.
2. **Banking Reforms:** Temporary bank closures to restore trust. FDIC established to insure deposits.
3. **Public Employment Programs:** Infrastructure projects boosted demand and jobs. Roads, dams, schools were constructed.
4. **Labour Reforms:** Minimum wages, working hour limits, union rights. Strengthened workers' purchasing power.
5. **Rise of Keynesian Economics:** Advocated government spending to revive demand. Shift from laissez-faire to state intervention.

Russian Revolution

The **Russian Revolution**, also known as the **Bolshevik Revolution**, took place in **October 1917** and marked the **first successful socialist revolution in history**.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

Background

1. **Russo-Japanese War (1904-05):**
   a. Fought over **Manchuria and Korea**, the war exposed **Russia's military and administrative weaknesses**.
   b. Russia's defeat shattered the image of Tsarist invincibility and **undermined public confidence in Nicholas II**.
   c. The war intensified domestic unrest and acted as a **catalyst for revolutionary movements**.
2. **Russian Revolution of 1905:**
   a. Widespread **strikes, peasant uprisings, and worker protests** erupted due to poor working conditions, low wages, and political repression.
   b. The **Bloody Sunday massacre (January 1905)**, where peaceful demonstrators were fired upon by imperial troops, radicalised public opinion.
   c. Under pressure, Nicholas II issued the **October Manifesto**, promising: Civil liberties, A constitution and an elected legislature (**Duma**).
   d. Though autocracy survived, **1905 marked the beginning of constitutional politics in Russia** and weakened Tsarist authority.
3. **Russia under Czar Nicholas II (1905-1917):**
   a. Persistent **economic distress, food shortages, corruption, and repression** deepened popular dissatisfaction. Russia's **entry into World War I** further strained the economy and military.
   b. In 1915, Nicholas II left Petrograd to command the army, leaving governance to **Czarina Alexandra**, heavily influenced by **Grigory Rasputin**.
   c. Arbitrary dismissal of ministers and administrative chaos intensified calls for the **overthrow of the monarchy**.

Causes of the revolution

- **Agrarian Crisis:** Despite the abolition of serfdom (1861), peasants suffered from debt, land scarcity, and poverty, leading to frequent uprisings.
- **Industrial Exploitation:** Rapid industrialisation created harsh working conditions, low wages, and worker unrest in urban centres.
- **Ethnic and Nationalist Tensions:** Minority groups in the Baltic, Ukrainian, and Caucasus regions demanded autonomy and resisted Russian domination.
- **Impact of Wars:** Defeat in the Russo-Japanese War (1904-05) and hardships during World War I caused inflation, food shortages, military failures, and mass discontent.
- **Autocratic Tsarism:** Nicholas II's authoritarian rule, corruption, and poor governance weakened public faith in the monarchy.
- **Revolutionary Ideas:** Marxist ideology and writers like Tolstoy and Gorky inspired criticism of inequality and autocracy.
- **Bolshevik Leadership:** Lenin and Trotsky provided effective leadership, organisation, and revolutionary strategy, leading to the October Revolution of 1917.

Russian Revolution

Key Events:

1. **February Revolution (Feb Mar 1917):**
   a. Strikes and protests erupted in **Petrograd** due to war hardships and economic distress.
   b. **Workers, peasants, and soldiers** joined the uprising; the Petrograd garrison mutinied.
   c. **Czar Nicholas II abdicated**, ending the Romanov dynasty. **Provisional Government** formed by the Duma to manage the transition.
2. **Provisional Government (Mar-Oct 1917):**
   a. Led by **Aleksandr Kerensky**, aimed to guide Russia to democracy. Faced challenges from **Soviets** (workers' and peasants' councils) and the feudal class.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

   b. Key failures included: Continuing **World War I involvement**. Delay in **Constituent Assembly** elections. Avoiding **radical economic reforms**, causing public discontent.

3. **Emergence of Lenin (April 1917):**
   a. **Vladimir Lenin** returned from exile and gained support among workers and soldiers.
   b. Advocated the **"April Theses"**: Immediate **end to the war**.
   c. **Workers' control of industries**. **State controlled production and distribution**. **Soviets as the foundation of the new state**.
4. **October/Bolshevik Revolution (Oct 1917):**
   a. **Bolsheviks, led by Lenin**, overthrew the Provisional Government. Power transferred to **Soviets of workers, peasants, and soldiers**.
   b. Promoted the slogan **"Peace, Land, and Bread"** and ended Russia's involvement in World War I. **First communist state** established under Lenin's leadership.
5. **Russian Civil War (1917-1923):**
   a. **Red Army (Bolsheviks)** vs **White Army (monarchists, capitalists, socialists)**. Whites received support from **UK, France, US, Japan**, but Reds had internal support.
   b. **Romanovs executed** in 1918. **Red Army victory** led to the establishment of the **Soviet Union (1922)**.

Significance of the Russian Revolution of 1917 in shaping

GLOBAL POLITICS

1. **End of Tsarist Autocracy**: The Revolution demonstrated that **centuries-old monarchies** could be dismantled through **organised mass mobilisation**.
2. **Rise of the World's First Socialist State (USSR)**: The emergence of a **socialist superstate** altered **global geopolitical dynamics** throughout the 20th century.
3. **Shift from European Multipolarity to Ideological Bipolarity**: Post-revolution, global politics gradually evolved into a **capitalist-socialist bipolar world**, culminating in the **Cold War**.
4. **Inspiration to Anti-Colonial Movements**: Colonised societies in **Asia, Africa, and Latin America** saw in the revolution a **model** for overthrowing **oppressive regimes**.
5. **Formation of Communist Parties Worldwide**: **Leninist ideology** led to the rise of **communist parties** in **China, Vietnam, Korea, Cuba, and India**.
6. **Trigger for Colonial Reforms**: Alarmed by **Bolshevik influence**, colonial powers like **Britain** offered **concessions**, Eg. **Montagu Declaration (1917)** in India.
7. **Strengthening of Internationalism & Anti-Imperialism**: The **Comintern (1919)** became a global platform for coordinating **anti-imperialist struggles**.
8. **Long-term Impact on WWII and Cold War**: The **USSR's role** in defeating **fascism** and shaping **post-war Europe** flowed directly from the Revolution.

ECONOMIC

1. **Abolition of Private Property**: **Land, factories, mines, and banks** were **nationalised**, marking a fundamental break from **capitalism**.
2. **Abolition of Landlordism (Land Decree of 1917)**: **Land redistribution** to **peasants** became a global **example** for **agrarian reform policies**.
3. **Centralised Economic Planning**: The **Five Year Plans** of the USSR became a **model** for **developing nations**, including India.
4. **State-Led Industrialisation**: **Heavy industries, steel plants, and power projects** were prioritised and later **emulated worldwide**.
5. **Equal Access to Resources**: The **socialist system** sought to **eliminate economic inequality**, ensuring **universal distribution of welfare goods**.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

6. **Empowerment of Workers & Peasants Globally**: It legitimised **workers' struggles** and **peasant uprisings**, influencing **labour laws** and **agrarian movements** across countries.
7. **Increased Productivity Through Collective Mobilisation**: **Collective farms (kolkhoz)** and **state farms (sovkhoz)** aimed to modernise **agriculture** through **mechanisation**.
8. **Creation of an Alternative to Capitalist Economics**: The **socialist model** offered a **competing development pathway** based on **allocation, not profit**.
9. **Influenced Postcolonial Development Strategy**: Newly independent countries like **India, Egypt, and Indonesia** adopted **state control, planning, and public sector expansion**.

IDEOLOGY

1. **Legitimisation of Socialism**: The success of the **Bolsheviks** proved **socialism** could be politically and economically **viable**.
2. **Establishment of the "Dictatorship of the Proletariat"**: **Workers' control** became a central ideology influencing **socialist movements globally**.
3. **Destruction of Class Hierarchies**: By eliminating **private property**, the Revolution aimed to build a **classless and egalitarian society**.
4. **Inspirational Impact on Global Left Movements**: **Socialist and Marxist groups** in **Europe, Asia, and Latin America** adopted the **revolutionary narrative**.
5. **Spread of Socialist Thought in India**: Leaders like **Nehru** and **Subhash Bose** adopted **socialist vocabulary and ideas**, influencing **post-independence economic planning, labour movements, and political discourse**.
6. **Rise of Communist Movements Globally**: The **Comintern-backed spread of Marxism** encouraged the formation of **communist parties** in **Europe, Asia, and India**. Leaders like **EMS Namboodiripad** and **A.K. Gopalan** emerged from this **ideological wave**.
7. **Radicalisation of Anti-Imperialist Movements**: **Class struggle** became central to the fight against **colonial and capitalist exploitation**.
8. **Rejection of Capitalist Morality**: The Revolution challenged **exploitative labour relations, consumerism, and profit-driven ethics**.
9. **Influence on Political Vocabulary**: Terms like **"imperialism," "bourgeois," "class struggle," "comrade," and "revolution"** entered **mainstream global politics**.

Rise of Fascism in Italy

Background

Italy after Unification:

1. **Unification (1870)** failed to resolve Italy's **economic backwardness**, **regional inequality**, and **political fragmentation**.
2. **World War I** worsened economic conditions; **inflation, unemployment, war debt**, and social unrest.
3. **Weak coalition governments** failed to provide stability.
4. **Paris Peace Conference (1919)** humiliated Italy despite being a victorious power(**"Mutilated Victory"**).
5. This crisis created fertile ground for **authoritarian alternatives**, enabling **Mussolini's rise via the March on Rome (1922)**.

Stanley G. Payne's Conceptualisation of Fascism

Historian **Stanley G. Payne** identifies **three defining ideological negations** of Fascism:

1. **Anti-Liberalism:** Rejection of individual freedom, parliamentary democracy, and political pluralism.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

2. **Anti-Communism:** Opposition to socialism, Marxism, and class struggle, viewed as threats to national unity.
3. **Anti-Conservatism:** Disdain for traditional elites and old ruling structures that resisted radical national regeneration.

Growth of Fascism in Italy

Reasons:

1. **Political Reasons:**
   a. **Unfair Treatment at the Paris Peace Conference (1919):** Italy entered **World War I** on the promise of territorial gains but failed to secure key territories such as **Albania**, while others were given to **Yugoslavia**.
   b. **Democratic Paralysis:** Proportional representation birthed **fragmented, highly unstable coalitions,** creating a political vacuum easily exploited by Fascist authoritarianism.
   c. **Waves of Strikes (1919-1920)("Biennio Rosso" (Two Red Years))**: Widespread strikes, factory occupations, land seizures, and riots created fear of a **communist revolution** among elites and middle classes.
   d. **Mussolini's Political Flexibility ("Swing of Character"):** By shifting from socialism to right wing nationalism abandoning anti-business views, appeasing elites, reconciling with the Church, and reassuring strong and stable government at the centre.
   e. **Disunity of Opposition:** Lack of cooperation between Socialists, Communists, and Liberals, along with **Giolitti's underestimation of Fascist violence,** prevented a united resistance to Mussolini.
   f. **March on Rome (1922):** Exploiting a failed communist strike, Mussolini projected himself as Italy's saviour, used **Blackshirt pressure**, and secured royal invitation to form the government.
2. **Legal and Institutional Measures Favouring Fascism:**
   a. **Acerbo Law (1923):** Party with maximum votes automatically received two-thirds of parliamentary seats.
   b. **Constitutional Changes:** Prime Minister made responsible to the King, not Parliament; reduced electorate favoured elites.
   c. **Lateran Treaty (1929):** Vatican recognised as sovereign; Catholicism declared state religion; Church endorsed Fascist regime.
   d. **Corporate State:** Strikes banned; only Fascist trade unions allowed; labour capital disputes mediated by the state.
   e. **Administrative Centralisation:** Elected local bodies replaced by appointed officials; press censorship and propaganda intensified.
3. **Economic Reasons:**
   a. **Post-War Economic Crisis:** War devastated industry and agriculture. Heavy foreign loans and interest liabilities. Rising unemployment, inflation, and falling living standards.
   b. **Fear of Communism Among Industrial and Agrarian Elites:** The formation of the **Italian Communist Party (1921)** alarmed business classes. Industrialists and landlords supported Mussolini as a **bulwark against socialism**.
4. **Social Reasons: Racial and Ultra-Nationalist Ideology**:
   a. Mussolini claimed Italians were part of a **superior Aryan race**, especially vis-à-vis Africans and Mediterranean peoples.
   b. After the **Pact of Steel (1939)** with Germany, Italy adopted racial laws.
   c. **The Charter of Race (1938)** declared Jews, Africans, and Arabs inferior.

Positives of Fascism	Negatives of Fascism
Industrial Growth through State Support: Strategic subsidies boosted iron steel, textiles, artificial silk and hydropower industries.	**Failure of Autarky**: Persistent shortages of coal, oil and steel made Italy economically dependent on Nazi Germany.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

Positives of Fascism	Negatives of Fascism
Agricultural Expansion (Battle of Wheat): Increased wheat production strengthened food security and reduced import dependence. **Land Reclamation Projects**: Drainage of marshlands expanded cultivable land and rural employment. **Public Works & Infrastructure**: Large scale public programmes created jobs and improved physical infrastructure. **Labour Pacification via Welfare & Leisure**: After Work Organisations provided recreation, reducing labour unrest. **Currency Policy for Industrialisation**: Lira revaluation made imports of raw materials and capital goods cheaper for industry.	**Export Decline**: Overvalued currency reduced competitiveness, harming export-oriented industries. **Impact of the Great Depression (1929)**: Dependence on US loans led to industrial collapse, unemployment and inflation. **Weak Social Security System**: Absence of health insurance and ineffective unemployment support undermined worker welfare. **Corruption and Cronyism**: Centralised power enabled bureaucratic corruption and rent seeking. **Regional Inequality**: Industrial North prospered while agrarian South stagnated under monoculture wheat policies.

Nazism in Germany

Background

Formation of the Weimar Republic

1. After Germany's defeat in World War I, **Kaiser Wilhelm II abdicated,** creating a political vacuum.
2. In January 1919, the first fully democratic elections were held; the **Social Democrats became the largest party and Friedrich Ebert became President.**
3. A National Assembly at **Weimar framed a democratic constitution** with a federal structure; deputies were elected to the Reichstag.
4. Despite democratic reforms, the **Republic was unpopular due to widespread dissatisfaction** with the Versailles Treaty and fear of political instability.

Anti-Weimar Sentiment

1. **Germans blamed the Republic** for the war defeat and Versailles humiliation.
2. **Versailles Treaty imposed:** War Guilt Clause holding Germany responsible for WWI. Heavy reparations payments. Demilitarization and **loss of resource-rich regions like the Rhineland.**
3. **Democratic institutions were seen as weak**, incapable of restoring national pride or economic stability.

Reasons for the Failure of the Weimar Republic

1. **Stab-in-the-Back Myth:** Right-wing groups blamed democrats, socialists, and Jews for Germany's defeat, weakening faith in the republic.
2. **Treaty of Versailles:** Associated Weimar with humiliation, reparations, territorial losses, and the "War Guilt Clause."
3. **Proportional Representation:** Created unstable coalition governments and political fragmentation.
4. **Article 48:** Allowed rule by decree during emergencies, undermining democracy.
5. **Hostility of Old Elites:** Judiciary, army, and bureaucracy remained anti-democratic and favored right-wing forces.
6. **Hyperinflation (1923):** Currency collapse destroyed middle-class savings and trust in democracy.
7. **Political Violence:** Clashes between Communists and Nazis created instability and fear.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

8. **Dependence on US Loans:** Economic recovery relied heavily on American loans under the Dawes Plan.
9. **Great Depression (1929):** Economic collapse and mass unemployment increased support for extremist parties.
10. **Brüning's Austerity Policies:** Spending cuts and tax hikes deepened the crisis and weakened parliamentary democracy.

Nazism

Influenced by **German nationalism, the Volkisch movement, and anti-Communist Freikorps** during the Weimar Republic, Nazism was the ideology and practice totalitarian in nature, emphasizing **intense nationalism, social Darwinism ("survival of the fittest")**, and the subordination of individual rights to the state.**Characteristics of Nazism:**

1. **Aryan Supremacy**: Promoted the belief in the racial superiority of Aryans, regarded as pure and noble, to be preserved.
2. **Totalitarianism**: The state controlled all aspects of society, including economy, media, and individual freedoms.
3. **Führerprinzip**: Absolute authority vested in a single charismatic leader; Adolf Hitler embodied the nation's will.
4. **Propaganda**: Extensive use of media, rallies, posters, and films to shape public opinion and glorify Nazi ideology.
5. **Anti-Semitism**: Jews blamed for Germany's problems, leading to discriminatory laws and the Holocaust.
6. **Militarism**: Aggressive expansionism and a powerful military were central to achieving national strength.
7. **Eugenics**: Policies promoting selective breeding and elimination of individuals deemed "unfit" to create a superior race.

Consolidation of Hitler's Power

1. **Chancellorship (January 1933)**: Hitler became Chancellor of a coalition government but sought absolute power.
2. **Election of 5 March 1933:** Nazis exploited state machinery, press, and radio; loyal police replaced by SA and SS; communists suppressed.
3. **Reichstag Fire (February 1933)**: Used as pretext to blame communists, instill fear, and justify authoritarian measures.
4. **Enabling Law (23 March 1933)**: Legalized dictatorship: Government could enact laws without Reichstag approval for four years. Constitutional powers diluted; the Chancellor could sign treaties and laws directly. Laid foundation for indefinite dictatorial rule.
5. **Gleichschaltung (Forcible Coordination)**: Centralized all aspects of public life; abolished chancellorship and ministerial roles.
6. **State Control and Police Power**: Public life regulated by **Gestapo**, ensuring totalitarian domination.

Aspect	Fascism	Nazism
Origin	Italy (Mussolini, 1919)	Germany (Hitler, 1920s)
Ideological Focus	Supremacy of the state	Racial purity (Aryan supremacy)
Role of Race	Not central	Central; anti-Semitic and racist policies

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

Aspect	Fascism	Nazism
Economic Policy	Corporatism: state coordinates classes	State-directed economy with racial criteria; war-focused
Leadership Principle	Strong, charismatic leader (Il Duce)	Führerprinzip: absolute loyalty to Hitler
Expansionism & Militarism	Militaristic, seeks national glory	Militaristic, tied to racial destiny (Lebensraum)
Methods of Control	Secret police, propaganda	Secret police, propaganda, racial persecution, concentration camps

World War II

World War II (1939-1945) was a global conflict between the **Axis powers (Germany, Italy, Japan) and the Allies (France, Britain, the US, the Soviet Union, and others)**. Triggered by Germany's invasion of Poland, it **lasted six years** and ended with the defeat of the Axis. The war reshaped the world, led to the rise of the US and USSR as superpowers, and **set the stage for the Cold War.**

Causes of the war

1. **Immediate Cause:** German invasion of Poland (1 September 1939) led Britain and France to declare war.
2. **Treaty of Versailles:** Harsh terms on Germany; war guilt, reparations, territorial losses, and military restrictions fuelled resentment and rise of Hitler.
3. **Rise of Nazism:** Economic humiliation and political instability enabled Hitler's authoritarian and expansionist policies.
4. **Problem of National Minorities:** German minorities in Poland and Czechoslovakia were used as a pretext for aggression.
5. **Great Depression (1929):** Economic collapse encouraged protectionism and rise of totalitarian regimes in Germany, Italy, and Japan.
6. **Failure of League of Nations:** Lack of enforcement and unity failed to stop aggression in Manchuria and Ethiopia.
7. **Axis Aggression:** Japan invaded Manchuria (1931) and China (1937). Germany remilitarised Rhineland, annexed Austria and Czechoslovakia. Italy invaded Ethiopia (1935).
8. **Axis Alliances:** Rome Berlin Axis (1936), Pact of Steel (1939), and Tripartite Pact (1940) strengthened militarism.
9. **Policy of Appeasement:** Britain and France tolerated German expansion, emboldening Hitler.
10. **Failure of Deterrence:** Anglo-French 'Appeasement' policies (Eg. conceding Sudetenland at the 1938 Munich Conference) emboldened Nazi expansionism instead of securing continental peace.

Phases of World War II

1. **Outbreak and Axis Ascendancy (1939-1941):**
   a. Germany invaded **Poland (Sept 1939)**; Britain and France declared war.
   b. Germany achieved rapid victories in Europe using **Blitzkrieg**-Poland, Denmark, Norway, Belgium, Netherlands, and France fell.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

c. **Battle of Britain (1940):** Germany failed to defeat Britain; Operation Sea Lion abandoned.

2. **Expansion of the War (1941):**
   a. **Operation Barbarossa (June 1941):** Germany invaded the Soviet Union; initial gains but stalled due to Russian resistance and winter.
   b. **\Atlantic Charter (1941):** Britain and the US outlined post-war principles.
   c. **Japan attacked Pearl Harbor (Dec 1941):** USA entered the war; conflict became truly global.
3. **Turning Point of the War (1942-1943):**
   a. **Battle of Stalingrad (1942-43):** Decisive Soviet victory; major setback for Germany.
   b. Axis forces began retreating on the Eastern Front.
   c. Allies defeated Italy in North Africa and invaded **Sicily**; Italy surrendered (1943).
4. **Allied Counter-Offensive (1944-Early 1945):**
   a. Soviet forces liberated Eastern Europe. Western Allies advanced from the west after **D-Day (1944)**. Germany was surrounded from both sides.
5. **Defeat of Germany (1945):**
   a. **Yalta Conference (Feb 1945):** Planned final defeat and post-war order.
   b. Hitler committed suicide (April 30, 1945).
   c. Germany surrendered unconditionally on **May 7, 1945**; war in Europe ended.
6. **Defeat of Japan (1945):**
   a. Japan continued fighting despite Allied advances.
   b. **Atomic bombs on Hiroshima and Nagasaki (Aug 1945)** and Soviet entry forced surrender.
   c. Japan formally surrendered on **September 2, 1945**, ending World War II.

Consequences of the Second World War:

1. **Defeat of Axis Powers:** Germany, Italy, and Japan were defeated; democracy triumphed over fascism and dictatorship.
2. **Widespread Destruction:** Europe and Asia were devastated; massive civilian and military casualties; Hiroshima and Nagasaki were destroyed by atomic bombs.
3. **Change in Global Power Structure:** Decline of old imperial powers like Britain and France; emergence of the **USA and USSR as superpowers**.
4. **Economic Crisis:** War-torn countries faced inflation, debt, trade deficits, and economic exhaustion.
5. **Marshall Plan (1948):** The USA launched economic aid to rebuild European economies and stabilize capitalism.
6. **Beginning of Nuclear Age:** Use of atomic weapons initiated the nuclear arms race.
7. **Start of the Cold War:** Ideological rivalry between the USA and USSR divided the world into rival power blocs.

Cold War

The Cold War, spanning from the late 1940s to the early 1990s, was a global ideological and geopolitical struggle between the capitalist West, led by the United States, and the communist East, spearheaded by the Soviet Union.

Factors Leading to the Cold War:

1. **Ideological Differences:** Capitalist democracy of the US vs communist ideology of the USSR created fundamental mistrust.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

2. **Post-War Power Vacuum:** Decline of European powers after WWII led to rivalry between the US and USSR for global influence.
3. **Division of Germany:** Germany and Berlin were divided into East and West, becoming symbols of ideological confrontation.
4. **Soviet Control of Eastern Europe:** USSR established communist governments in Eastern Europe, alarming Western powers.
5. **Truman Doctrine & Marshall Plan:** US policy of containment and economic aid aimed to curb communist expansion.
6. **Arms Race & Nuclear Weapons:** Competition for military and technological superiority increased tensions and fear of mutual destruction.
7. **Proxy Wars:** Rivalry played out in indirect conflicts such as Korea and Vietnam.
8. **Lack of Mutual Trust:** Propaganda, espionage, and absence of effective communication deepened suspicion between the blocs.

Important Cold War Events:

1. **Berlin Blockade & Airlift (1948-49):** USSR blocked West Berlin; US and allies supplied the city by air, forcing the blockade's withdrawal.
2. **Korean War (1950-53):** Proxy war between communist North Korea (backed by USSR & China) and South Korea (backed by US/UN); ended with Korea divided at the 38th parallel.
3. **Vietnam War (1955-75):** US supported South Vietnam fought communist North Vietnam; ended with the fall of Saigon and reunification under communism.
4. **Cuban Missile Crisis (1962):** Discovery of Soviet missiles in Cuba brought the world to the brink of nuclear war; resolved through negotiation and missile withdrawal.
5. **Space Race:** Technological rivalry; USSR launched **Sputnik (1957)**; US landed on the Moon under **Apollo programme (1969)**.
6. **Détente & Arms Control (1970s):** Easing of tensions through **SALT agreements** and **Helsinki Accords (1975)**.
7. **US China Rapprochement (1972):** Nixon's visit to China reshaped Cold War diplomacy and countered Soviet influence.

Doctrine / Pact	Key Features
Iron Curtain (1946)	Term coined by Churchill describing the **political, ideological, and military divide** between Eastern Bloc and Western democracies.
Truman Doctrine (1947)	US policy to **contain communism** by providing economic and military aid to countries threatened by communist expansion.
Marshall Plan (1947)	US economic assistance program to **rebuild war-torn Europe** and prevent the spread of communism.
NATO (1949)	US-led **military alliance** of Western democracies; based on **collective defence** attack on one is attack on all.
Warsaw Pact (1955)	Soviet-led **collective defence alliance** of Eastern European socialist states; counter to NATO.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

Doctrine / Pact	Key Features
Brezhnev Doctrine (1968)	Asserted USSR's right to **intervene militarily in socialist countries** to preserve communist rule (Eg. Czechoslovakia).
Reagan Doctrine (1980s)	US strategy to **roll back communism** by supporting anti communist forces worldwide and increasing military pressure on the USSR.

Factors Leading to the End of cold war

1. **Erosion of Eastern Bloc Unity:** Sino-Soviet split and growing independence of smaller states weakened communist cohesion.
2. **Gorbachev's Reforms:** Perestroika (economic restructuring) and Glasnost (political openness) reduced authoritarian control but accelerated collapse.
3. **Fall of Communist Regimes:** Democratic movements succeeded in Eastern Europe (Poland, Hungary, Czechoslovakia, East Germany).
4. **Fall of Berlin Wall (1989):** Symbolised the collapse of the Iron Curtain and desire for reunification.
5. **Dissolution of USSR (1991):** Soviet Union broke into 15 independent states, formally ending Cold War rivalry.

Consequences

1. **End of Bipolar World Order:** Collapse of the USSR ended US-USSR rivalry, leaving the United States as the sole superpower.
2. **Democratisation & Economic Reforms:** Eastern Europe and former Soviet republics adopted democratic governance and market-based economies (Eg. Poland, Hungary, Czechoslovakia).
3. **Reunification of Germany (1990):** Fall of the Berlin Wall symbolised the end of Europe's Cold War division.
4. **Expansion of NATO & EU:** Eastern European states joined Western institutions; NATO expanded significantly, altering European security dynamics.
5. **Resurgence of Russia:** NATO expansion contributed to Russia's assertive foreign policy under Putin, especially after 2014.
6. **Economic Globalisation:** Integration of former socialist economies increased global trade, investment, and economic interdependence.
7. **Shift in Global Priorities:** Focus moved from superpower rivalry to terrorism, environmental issues, and regional conflicts.

Major events related to Cold War and Decolonisation

Event & Year	Key Historical Details & Boundary Impacts
Yalta & Potsdam Conferences (1945)	Post-WWII map planned by the US, UK, and USSR. Germany and Berlin are split into four occupation zones. Poland's borders are physically shifted westward to the Oder-Neisse line, absorbing former German territory.
Truman Doctrine & Marshall Plan (1947)	The US initiates its global containment policy against Communism and pours billions of dollars into rebuilding Western Europe to secure democratic stability.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

Event & Year	Key Historical Details & Boundary Impacts
Creation of Israel & First Arab-Israeli War (1948)	The British Mandate in Palestine ends, followed by the UN Partition Plan. War erupts instantly, resulting in a dramatic redrawal of boundaries: Israel expands its territory, Jordan occupies the West Bank, and Egypt takes control of the Gaza Strip.
Berlin Blockade & Airlift (1948-1949)	The USSR cuts off all land and water access to West Berlin. Western allies bypass the blockade by launching a massive, year-long aerial supply operation to keep the city alive until the Soviets back down.
Division of Germany (1949)	Allied occupation zones were divided into two separate sovereign states: the Federal Republic of Germany (West Germany, capitalist) and the German Democratic Republic (East Germany, communist).
Formation of NATO (1949)	Western nations establish a formal, permanent collective military defense alliance to counter potential Soviet aggression in Europe.
Chinese Communist Revolution (1949)	Mao Zedong established the People's Republic of China (PRC) on the mainland. Nationalist forces under Chiang Kai-shek flee to Taiwan, creating a long-standing, unresolved cross-strait geopolitical fracture.
Korean War (1950-1953)	The first major hot proxy war of the Cold War. It ends in a ceasefire agreement that permanently freezes the peninsula's division along the **38th Parallel Demilitarized Zone (DMZ).**
Battle of Dien Bien Phu & Vietnam Partition (1954)	Communist-led Vietnamese forces decisively defeat France, ending French Indochina. The subsequent Geneva Accords temporarily split Vietnam along the **17th Parallel into a Communist North and a Capitalist South.**
Bandung Conference (1955)	Leaders from **29 newly independent Asian and African nations meet in Indonesia to oppose alignment with either superpower,** establishing the foundational principles of the Non-Aligned Movement (**NAM**).
Warsaw Pact (1955)	The Soviet Union establishes its own formal military alliance with its Eastern European satellite states as a direct counter-response to West Germany joining NATO.
Suez Crisis (1956)	Egyptian President **Nasser nationalizes the canal.** Anglo-French-Israeli forces invade but are forced into a humiliating withdrawal under joint US-Soviet diplomatic pressure, signaling the definitive end of old British and French imperial dominance.
Hungarian Uprising (1956)	A massive, popular anti-communist revolt inside Hungary demands political freedom and neutrality. The uprising is brutally crushed **by invading Soviet Red Army tanks.**
"Year of Africa" (1960)	The absolute **peak of African decolonisation, as 17 nations break free from European colonial empires** (predominantly France and Great Britain) in a single calendar year.
Congo Crisis (1960-1965)	Belgium abruptly exits the Congo, leaving a power vacuum. Prime Minister Patrice Lumumba turns to the Soviets for help when the **mineral-rich Katanga province secedes with Western corporate backing.** Lumumba gets assassinated, a massive UN peacekeeping mission intervenes, and General Mobutu eventually seizes

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

Event & Year	Key Historical Details & Boundary Impacts
	power-restoring the national borders but anchoring the state firmly in the Western bloc.
Berlin Wall Constructed (1961)	East Germany seals the border in Berlin with a concrete wall to stop the mass migration of its citizens to the West, creating the ultimate physical symbol of the Iron Curtain.
Annexation of Goa (1961)	India deploys its military to end the final centuries-old vestige of Portuguese colonial rule on the subcontinental mainland, formally integrating Goa into the Indian Union.
Cuban Missile Crisis (1962)	The closest the world comes to a direct nuclear exchange after the **USSR secretively places ballistic missiles in Cuba.** Resolved via a US naval blockade and a back-room deal to mutually withdraw missiles from Cuba and Turkey.
Algerian Independence (1962)	**Algeria wins its independence from France** after a bloody, brutal eight-year guerrilla war, ending over a century of French colonial occupation.
US Escalation in Vietnam (1965)	The **US deploys combat troops en masse to South Vietnam**, turning a localized civil war into a massive, decade-long superpower military engagement.
Six-Day War (1967)	Israel launches preemptive strikes against a coalition of Arab states and drastically alters the map of the Middle East by occupying the Sinai Peninsula, Gaza Strip, West Bank, East Jerusalem, and the Golan Heights.
Prague Spring (1968)	**Soviet and Warsaw Pact forces launch a full-scale invasion of Czechoslovakia** to forcibly crush a political liberalization movement (Socialism with a human face) led by Alexander Dubček.
Nixon's Visit to China & SALT I (1972)	The US exploits the deepening Sino-Soviet split to normalize relations with Beijing. Simultaneously, **Washington and Moscow sign strategic arms limitations,** entering a relaxed Cold War phase known as **Détente**.
Yom Kippur War (1973)	Another major Arab-Israeli war. It triggers a global oil embargo by OPEC, disrupts Western economies, and shifts regional diplomatic alignments, eventually leading to the Camp David Accords.
Fall of Saigon & Vietnam Reunification (1975)	Following the total withdrawal of US forces, **communist North Vietnamese troops capture Saigon, reunifying the split country under a single communist government.**
Collapse of the Portuguese Empire (1975)	A revolution in Lisbon causes Portugal to abruptly exit Africa. **Angola and Mozambique gain independence** but immediately plunge into bloody civil wars that become major Cold War proxy battlefields.
Soviet Invasion of Afghanistan (1979)	Soviet troops invade to prop up a failing communist regime against US-backed, Pakistan-trained Mujahideen rebels. This **intervention kills Détente and initiates the "Second Cold War."**

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

Event & Year	Key Historical Details & Boundary Impacts
Iranian Revolution (1979)	The Western-backed Shah is overthrown and replaced by an Islamic Republic under Ayatollah Khomeini. This fundamentally shifts Middle Eastern dynamics away from a clean US-Soviet axis.
Rise of Mikhail Gorbachev (1985)	Gorbachev takes power in the USSR and introduces **Glasnost (political openness) and Perestroika (economic restructuring).** This unwittingly loosens the totalitarian grip of the Soviet state over its people and satellites.
Fall of the Berlin Wall (1989)	The **USSR refuses to militarily back collapsing Eastern European communist regimes.** Peaceful revolutions sweep across Poland, Hungary, and East Germany, culminating in the opening of the Berlin Wall.
German Reunification (1990)	**East and West Germany legally merge** back into a single sovereign nation, completely reversing the premier post-WWII geopolitical division of Europe.
Breakup of Yugoslavia Begins (1991)	Long-suppressed ethnic rivalries explode as the central communist authority weakens. **Slovenia and Croatia secede, beginning the violent Yugoslav Wars** and the fragmentation of the Balkan map.
Dissolution of the Soviet Union (1991)	On December 26, the USSR officially disbanded. Divided **into 15 independent republics,** bringing a decisive end to the Cold War.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

Chapter 2

Post Independence India

PYQs

[2026] Linguistic reorganization of Indian States was driven by popular pressure from below. Comment. (15)
[2026] The model of planned economy was adopted in India to address the regional imbalances left behind by colonial rule. Comment. (15)
[2022] The political and administrative reorganization of states and territories has been a continuous ongoing process since the mid-nineteenth century. Discuss with examples. (15)
[2021] Assess the main administrative issues and socio-cultural problems in the integration process of Indian Princely States. (10)

On the midnight of 14th August, 1947, Prime Minister Jawaharlal Nehru addressed the Indian Constituent Assembly and said, **"Long years ago we made a tryst with destiny, and now the time comes when we shall redeem our pledge, not wholly or in full measure, but very substantially. At the stroke of the midnight hour, when the world sleeps, India will awake to life and freedom."**

Challenges and Concerns after Independence

1. **Immediate Challenges:** Integration of princely states, control of communal violence, rehabilitation of nearly 60 lakh refugees from Pakistan, protection of minorities, avoiding war with Pakistan, and tackling communist insurgency.
2. **Medium-Term Challenges:** Framing the Constitution, establishing a representative democratic and civil-libertarian political order, conducting elections, and abolishing the feudal agrarian structure.
3. **Long-Term Challenges:** Achieving national integration, economic development, and poverty alleviation.

Integration of Princely states

Indian Independence Act, 1947 allowed princely states to accede to India, Pakistan, or remain independent. ~565 states; 48% of area, 28% of population i.e. integration vital for unity.

Strategy of Integration (Patel-Menon Approach)

1. **Diplomacy & Persuasion**: Appeal to patriotism; warning against anarchy and Balkanisation.
2. **Instrument of Accession**: Limited to defence, foreign affairs, communications.
3. **Privy Purses**: Monetary compensation to rulers to ensure peaceful accession.
4. **Firm Action where Needed**: Use of force only as last resort.

Important cases

1. **Travancore:** By 1946, the Dewan of Travancore, **Sir C.P. Ramamswamy Aiyar** declared his intention of forming an independent state of Travancore that would be open to the idea of signing a treaty with the Indian union. On July 30 1947, Travancore joined India.
2. **Jodhpur:**
    a. The Rajput princely state, having a **Hindu king and a large Hindu population** ruled by a young and inexperienced prince, **Hanvant Singh**.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.
Civilsdaily IAS, Office 1 Apsara Arcade, ORN, New Delhi | WhatsApp on: 8076517832 | www.civilsdaily.com

b. Jinnah was reported to have given the Maharaja a **signed blank sheet of paper** to list all his demands, free access to the **Karachi port** to arms manufacturing and importing along with military and agrarian support.
c. **Patel immediately contacted the prince and offered him sufficient benefits,** assured him that importing arms would be allowed, Jodhpur would be connected to Kathiawar by rail and that India would supply grain to it during famines.
d. On 11th August 1947, Maharaja Hanvant Singh, King of Jodhpur signed the **Instrument of Accession** and the State of Jodhpur was integrated into the Indian Dominion.

3. **Bhopal:**
   a. **Muslim Nawab**, Hamidullah Khan, was ruling over a **majority Hindu population** with a clear decision to attain independence by writing to Mountbatten.
   b. However, the latter wrote back to him stating that **"no ruler could run away from the dominion closest to him" .**
   c. By July 1947, the Prince became aware of the large number of princes who had acceded to India and decided to join India.
4. **Hyderabad**
   a. **Nizam Mir Usman Ali** was ruling over a **largely Hindu population** in the princely state, **demanding for an independent state**.
   b. He drew support from Jinnah and the tussle over Hyderabad grew stronger over time. Requests and threats from Patel and other mediators failed to change his mind and he kept expanding his army by importing arms from Europe.
   c. Armed fanatics **(called Razakars)** unleashed violence targeted at Hyderabad's Hindu residents.
   d. On September 13, 1948, Indian troops were sent to Hyderabad under **'Operation Polo'. The Indian army gained full control of the state** and Hyderabad became an integral part of India.
5. **Junagadh:**
   a. Hindu-majority state ruled by **Muslim Nawab Muhammad Mahabat Khanji III;** strategically located in Kathiawar (Gujarat).
   b. **Nawab acceded to Pakistan on 15 Sept 1947**, ignoring contiguity and popular will. **Mangrol and Babariawad acceded to India;** Nawab occupied them, India intervened citing law & order and communal harmony. India cut off supplies, severed communication links, and deployed troops along borders.
   c. **Nawab fled to Pakistan on 26 Oct 1947;** Dewan Shah Nawaz Bhutto invited Indian administration (7 Nov 1947). Feb 1948 plebiscite overwhelmingly favoured India and Junagadh integrated.
6. **Jammu & Kashmir:**

1. It was a princely state with a **Hindu king ruling over Muslim population.**
2. The ruler of Kashmir Maharaja Hari Singh had offered a proposal of **standstill agreement to both India and Pakistan.**
3. Pakistan entered into the standstill agreement but it **invaded Kashmir** from the north with an army of soldiers and tribesmen carrying weapons.
4. The Maharaja of Jammu and Kashmir appealed to India for help. He sent his representative **Sheikh Abdullah to Delhi to ask for India's help.**
5. **On 26th October 1947, Maharaja Hari Singh fled from Srinagar** and arrived in Jammu where he signed an **'Instrument of Accession' of J&K** state extending the Indian jurisdiction to **external affairs, communications and defence.**
6. On 5th March, 1948, Maharaja Hari Singh announced the formation of an interim popular government with **Sheikh Mohammed Abdullah as the Prime Minister.**
7. **In 1951, the state constituent assembly was elected.** It met for the first time in Srinagar on 31st October 1951.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

8. **In 1952, the Delhi Agreement** was signed between Prime Ministers of India and Jammu & Kashmir giving special position to the state under the Indian Constitutional framework.
9. **On 6th February 1954, the J&K** constituent assembly ratified the accession of the state to the Union of India. **The President under Article 370 of the Constitution** extended the Union Constitution to the state with some modifications.
10. **As per Section 3 of the J&K constitution,** Jammu & Kashmir is and shall be an integral part of the Union of India.
11. **On 5th of August 2019,** the President of India promulgated the Constitution **(Application to Jammu and Kashmir) Order, 2019 which abrogates the special status** accorded to Jammu and Kashmir under the provision of Article 370.

Jawaharlal Nehru Era

Linguistic Question in Independent India

- **Constitutional Provision:** Article 343 declared Hindi in Devanagari script as the official language of the Union, while English was retained temporarily for administrative purposes.
- **Language Commission (1955):** Recommended increasing the use of Hindi in central government functions.
- **Regional Resistance:** Several non-Hindi-speaking states opposed these proposals, fearing cultural and administrative marginalization.
- **Government Measures:** The Presidential Order of 1960 proposed Hindi as the principal official language after 1965, while allowing continued use of English.
- **Anti-Hindi Movements:** Strong protests, especially in South India, emerged against the perceived imposition of Hindi.
- **Nehru's Commitment:** Jawaharlal Nehru assured states that English would continue as long as non-Hindi speakers required it.
- **Official Languages Act, 1963:** Permitted the continued use of English beyond 1965 for official work.
- **1967 Amendment:** Strengthened bilingualism by ensuring the indefinite use of both Hindi and English in Union administration.

State Reorganisation in India

- **Early Administrative Structure :** At the commencement of the Constitution, Indian states were divided into four categories for administrative convenience:
  - **Part A States:** Former British provinces governed by elected governors.
  - **Part B States:** Former princely states or groups of princely states.
  - **Part C States:** Smaller provinces and Chief Commissioner's territories.
  - **Part D Territories:** Included the Andaman and Nicobar Islands.
- **Demand for Linguistic States:** After independence, strong movements emerged demanding states based on linguistic and cultural identity.
  - Eg. **Potti Sreeramulu's fast unto death (1952)** for a Telugu-speaking state became a major turning point and led to formation of **Andhra State in 1953**
- Government Committees and Commissions: To address growing regional demands, the government appointed several committees and commissions.
  - **Dhar Commission (1948):**
  - Opposed reorganisation solely on linguistic grounds.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

- Prioritised administrative efficiency and national unity.
- **JVP Committee (1949):**
- It comprised **Jawaharlal Nehru, Sardar Patel, and Pattabhi Sitaramayya**.
- Warned that linguistic states might weaken national unity and security.

- **States Reorganisation Commission (SRC), 1953:** Also known as the **Fazl Ali Commission**.
  - **Members (**Justice Fazl Ali, H.N. Kunzru, K.M. Panikkar)
  - **Major Recommendations:**
  - Accepted language as an important factor, but not the sole basis for reorganisation.
  - Rejected the principle of "one language-one state."
  - Emphasised national unity, security, administrative convenience, and economic viability.
- **States Reorganisation Act, 1956:** Based largely on SRC recommendations, the **States Reorganisation Act, 1956** brought major territorial restructuring.
  - **Key Features:** Abolished the earlier classification of Part A, B, C, and D states, Reorganised the country into **14 States and 6 Union Territories**.
  - **Fourteen States:** Andhra Pradesh, Assam, Bihar, Bombay, Jammu & Kashmir, Kerala, Madhya Pradesh, Madras, Mysore, Orissa, Punjab, Rajasthan, Uttar Pradesh, and West Bengal.
  - **Six Union Territories:** Andaman and Nicobar Islands, Delhi, Himachal Pradesh, Laccadive-Minicoy-Amindivi Islands (Lakshadweep), Manipur, and Tripura.

Community Development Program: Community development planning is a **bottom-up, participatory approach** in which **local communities identify their own needs and priorities** and work in collaboration with local institutions and government agencies to achieve development goals.

Core Elements of Community Development Planning

1. **Participatory Planning:** Active involvement of all stakeholders, especially **women, SCs, STs, and marginal farmers**. Ensures democratic decision-making and local ownership of development outcomes.
2. **Needs Assessment:** Identification of local problems through **surveys, Gram Sabha discussions, and social mapping**. Prevents mismatch between policies and ground realities.
3. **Capacity Building:** Strengthening community institutions through **training, Self-Help Groups (SHGs), cooperatives, and NGOs**. Enables communities to plan, implement, and monitor development initiatives independently.
4. **Sustainable Ecological Alignment:** Calibrating grassroots development plans with local carrying capacities to prevent resource over-exploitation.
5. **Social Inclusion:** Focus on reducing **caste, gender, class, and regional inequalities**. Ensures equitable access to services, assets, and decision-making platforms.
6. **Monitoring and Accountability:** Use of **social audits, public disclosure, and community monitoring**. Enhances transparency in fund utilization and effectiveness of schemes.

Community Development and the Role of Panchayats

1. **Gram Sabha:** Serves as the **foundation of participatory planning**. Identifies needs, prioritizes works, and approves local development plans.
2. **Village Development Plans (VDPs):** Prepared at the village level and integrated into **Gram Panchayat Development Plans (GPDPs)**. Forwarded to higher tiers for funding and convergence.
3. **Women's Participation: 33% reservation (often 50% in many states)** ensures gender inclusion. Women leaders influence priorities related to health, sanitation, water, and nutrition.

Panchayat-Level Scheme Implementation

1. **VB-G RAM G:** Planning of works, job card allocation, and social audits.
2. **Jal Jeevan Mission**: Community-managed drinking water supply.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

3. **Village Health, Sanitation and Nutrition Committees (VHSNCs)**: Local health planning and monitoring.

Examples of Community-Based Development Initiatives

- **Kudumbashree (Kerala):** Women-led poverty alleviation and micro-credit programme linked with Panchayati Raj Institutions.
- **Mission Antyodaya:** Ministry of Rural Development initiative for Gram Panchayat Development Plans (GPDPs). Uses data-driven gap analysis, scheme convergence, and bottom-up planning to ensure basic service delivery in villages.
- **Forest Rights Act (FRA) & Tribal Development Planning:** Recognises forest dwellers' rights through community mapping and micro-planning. Tribal Development Plans under ITDPs strengthen Gram Sabhas and tribal self-governance in Scheduled Areas.

Tribal Panchsheel

India has the second largest tribal population in the world after Africa. As per 2011 census, India has over 700 tribal groups with a population of 104 million.

Nehru's tribal Panchsheel provides unique guiding principles to formulate policies and provisions for indigenous communities.

1. The tribals should develop along the lines of their own genius; there should be no imposition or compulsion from outside. They **should not be made to do things that are alien to them in nature**.
2. **Tribal rights in land and forests should be respected** and no outsider should be able to take possession of tribal lands. The incursion of the market economy into tribal areas had to be strictly controlled and regulated.
3. It was necessary to **encourage the tribal languages which 'must be given all possible support** and the conditions in which they can flourish, must be safeguarded'.
4. For administration, **reliance should be placed on the tribal people themselves,** and administrators should be recruited from amongst them and trained.
5. There should be **no over-administration of the tribal areas.** The effort should be to administer and develop the tribals' through their own social and cultural institutions.

Era of Lal Bahadur Shastri

Jai Jawan Jai Kisan:

1. **Political Succession after Nehru:**
   a. Nehru's death (May 1964) created a **political vacuum**, raising fears of instability. Transition managed by the **Congress Syndicate** (formed in 1963).
   b. **Key leaders: K. Kamaraj** and powerful regional Congress leaders. Choice between **Lal Bahadur Shastri and Morarji Desai**: Shastri preferred due to **wider acceptability** and ability to **keep the party united**.
   c. Shastri was elected **unopposed** as Parliamentary leader. Sworn in as Prime Minister on **9 June 1964**.
2. **Challenges Facing India in the Mid-1960s:**
   a. **Economic Challenges: Severe food shortage** due to agricultural slowdown, **1965 drought,** depleted buffer food stocks, **Industrial growth slowdown, Balance of Payments crisis.**
   b. **Political & Social Challenges: Language crisis (1965)**: Hindi vs English, especially in South India. Demands for **Punjabi Suba, Goa's merger with Maharashtra.**
   c. **Strategic & Psychological Challenges:** Lingering pessimism after **1962 Sino-Indian War,** Question marks over India's **military preparedness.**
3. **Policies and Governance under Shastri:**

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

a. **Leadership Style: Decentralised functioning**: Cabinet ministers given autonomy, Non-interference in state governments.
b. Initially perceived as **"indecisive"**, later emerged as **assertive and confident**.

4. **Language Policy:**
   a. **Handling the 1965 Crisis:** Reassured southern states by continuing use of **English for official purposes,** avoiding imposition of Hindi.
   b. **Shastri Formula**: Hindi & English to continue for official work and Parliament.
5. **National Security and Defence:** Firm response to Pakistani provocations: Clear doctrine: **"Force will be met with force".** Handled **Rann of Kutch crisis, Indo-Pak War of 1965,** Restored confidence lost after 1962.
6. **Economic & Agricultural Policy:**
   a. **Jai Jawan Jai Kisan (1965):** Symbolised dual focus: **External security** (soldiers) + **Internal food security** (farmers). Provided psychological boost to the nation.
   b. **Green Revolution:** Recognised **food security as national priority.** Promoted high-yield seeds, Fertilisers, Irrigation. Put India on a path to **food self-sufficiency.**
   c. **White Revolution:** Support for Amul **Cooperative.** Creation of **National Dairy Development Board (1965)**
7. **Institutional Strengthening:** Creation of **Prime Minister's Secretariat.** Later became the Prime **Minister's Office (PMO).** Provided independent policy advice. Marked beginning of **strong PM-centric governance**

Indo-Pak War, 1965

a. Persistent disputes since 1947: Kashmir, Rann of Kutch and Sir Creek.
b. **Pakistan's Strategy: Operation Gibraltar (August 1965):** Infiltration into Kashmir to trigger insurgency. **Operation Grand Slam:** Target: **Akhnoor Bridge**, vital supply link to Kashmir.
c. **Course of the War:**

1. January-April 1965: Border skirmishes initiated by Pakistan, 5 August 1965: Large-scale infiltration by Pakistani troops. Indian response: Crossed ceasefire line, Captured **Haji Pir Pass (PoK).**
2. 6 September 1965: India crossed the International **Border,** Opened fronts near **Lahore and Sialkot.** War fought on: Multiple fronts, Included **Rajasthan,** First large scale **air combat,** Biggest tank battle since WWII.

- **Outcome of the War:** UN-mandated ceasefire: **23 September 1965.** Territorial position: India held **1840 sq km,** Pakistan held **540 sq km**
- **Strategic Consequences:** Strengthening of tri-services coordination, Establishment of **RAW (1968),** Shift closer to **Soviet Union,** Reduced dependence on Western powers.
- **Tashkent Agreement (1966):** Signed on **10 January 1966.** Mutual withdrawal to pre-war positions, restoration of diplomatic relations, exchange of POWs, commitment to non-interference.
- **Death of Shastri and Political Transition:** Shastri died of a sudden **heart attack** in Tashkent (January 1966).
- Leadership contest: **Indira Gandhi vs Morarji Desai.** Indira Gandhi won: **355 vs 169 votes**

Indira Gandhi Era

Situation at the Time of Indira Gandhi's Assumption of Office (1966)

1. **Federal and Internal Security Challenges:**
   a. Punjab in turmoil over: Demand for **Punjabi as official language,** Demand for **Punjabi Suba.**

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

   b. **North-East insurgency**: Mizo National Front (MNF) declared independence in 1966. Coordinated attacks on government offices and security forces in Mizo district of Assam.
   c. Continued violence by **Naga National Council (NNC)/Naga Federal Government (NFG)**. Abandonment of **Peace Mission in Nagaland (1967)**.
2. **Crisis of Public Confidence:**
   a. Aftermath of **India-China war (1962)** and **India-Pakistan war (1965)**. Exposed military and administrative weaknesses. Growing distrust in the capacity of the state.
3. **Economic Distress: Severe drought in 1966** led to food shortages and inflation. Rising **budgetary deficits** threatening the **Fourth Five Year Plan (1969-74)**. **Economic recession:** Decline in exports, Fall in industrial production.
4. **Food Security Vulnerability:** Heavy dependence on **PL-480 wheat imports from the USA**. Food aid became a tool of external pressure.
5. **Constraints in Foreign Relations:**
   a. Initial attempt to build bridges with the **United States**: US promised PL-480 wheat and **$900 million in aid**. Dispatches were irregular and conditional.
   b. The US used aid to influence: India's **farm policy,** India's stance on the **Vietnam War**.
   c. Concern over: **Soviet efforts to improve ties with Pakistan,** No improvement in **Sino-Indian relations**.
6. **International Financial Isolation:** Urgent need for **World Bank and IMF assistance**. Aid had been suspended after the **1965 Indo-Pak war**.

Policies of Indira Gandhi (1966-69)

1. **Domestic & Federal Policies:**
   a. **Punjab Reorganisation Act, 1966** passed to meet the demand for **Punjabi Suba**.
   b. Firm handling of **Naga and Mizo insurgency** combined with willingness to negotiate.
   c. Acceptance of **Naga demand for autonomy**.
   d. **Mizoram became a Union Territory**, facilitating political resolution.
2. **Economic Policies:**
   a. Introduction of **Three Rolling Plans (1966-69)**: Equal priority to agriculture, allied activities and industry.
   b. **Devaluation of Rupee (1966)**: to boost exports and correct balance of payments.
   c. Continuation of **Green Revolution**: Focus on increasing food grain production.
   d. Launch of **Fourth Five Year Plan (1969-74)**.
3. **Socialist & Structural Reforms:**
   a. **MRTP Act, 1969**: Checked concentration of economic power in a few business houses.
   b. **Bank Nationalisation, 1969**: 14 major commercial banks nationalised under Banking Companies Act. The Supreme Court struck it down (Feb 1970) due to discrimination & inadequate compensation. Re-nationalisation done through **Presidential Ordinance**.
   c. **26th Constitutional Amendment Act, 1971**: Abolition of **Privy Purses**. Derecognition of princely rulers and withdrawal of privileges.
4. **Foreign Policy Orientation:**
   a. Condemned **US bombing of North Vietnam (1966)**. Joint statement with **Soviet Union** terming US action as "imperialist aggression".
   b. Strengthened **Non-Alignment**: Close ties with **Nasser (Egypt)** and **Tito (Yugoslavia)**. Sought dialogue with **China**, but no thaw in relations.

Inter-Party Struggle & Congress Split (1969)

1. **Fourth General Elections, 1967:**
   a. Congress faced declining mass appeal, disenchantment due to corruption and elite lifestyle of leaders. Opposition parties formed **anti-Congress fronts** in several states.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

b. Ticket distribution controlled by **Syndicate**, favouring dominant state leaders. Voter turnout was **61%**, indicating political awakening. Congress won **283/520 Lok Sabha seats**, but the majority sharply reduced, losing power in **8 states**.
c. Rise of unstable **coalition governments**. Horse-trading and defections by MLAs became common.

2. **Indira vs Syndicate:**
   a. Syndicate reasserted party supremacy after **Kamaraj's re-entry to Parliament**. Syndicate view: Party to frame policies, Government accountable to party organs.
   b. Indira refused to compromise on the authority of the PM, autonomy of government. Internal divisions over the **Ten-Point Programme (1967)** left faction supported. The right faction opposed.
3. **Presidential Election Crisis, 1969:** Triggered after death of **President Zakir Hussain**.
   a. Syndicate candidate: **N. Sanjeeva Reddy**. Indira Gandhi supported **V. V. Giri**.
   b. Refused to issue party whip in favour of Reddy. V. V. Giri was elected President.
4. **Split in Congress:**
   a. Indira formed **Congress (Requisitionists): Congress (R)**. The Syndicate faction became **Congress Organisation: Congress (O)**.
   b. Congress (O) later merged with Bharatiya Lok Dal, Bharatiya Jana Sangh, Socialist Party, Swatantra Party.
   c. Formation of **Janata Party**. **Morarji Desai** became PM (1977–79): first non-Congress government.
5. **Consequences of the Split:**
   a. Indira emerged as an unchallenged leader of government and Congress (R).
   b. Split projected as ideological: **Socialists vs conservatives, Pro-poor vs pro-rich.**
   c. The government adopted a stronger **socialist posture**. Despite becoming a **minority government**, it survived with outside support.
6. **1971 General Elections:**
   a. Supreme Court rejected abolition of privy purses → Lok Sabha dissolved.
   b. Opposition slogan: **"Indira Hatao"**. Indira's slogan: **"Garibi Hatao"**.
   c. Congress (R) won **352/518 seats**. Outcomes: Congress (R) established as the **real Congress**.
   d. Restoration of Congress dominance. Votes cut across caste, religion and region. Implementation of promises delayed due to **Bangladesh crisis (1971)**.

Indo-Pak War, 1971

1. **Background:**
   a. Pakistan's first general elections (1970) produced a **split verdict**: **Zulfikar Ali Bhutto** won in West Pakistan and A**wami League (Sheikh Mujibur Rahman)** in East Pakistan.
   b. West Pakistan refused to allow the Awami League to form a government.
   c. **Structural causes of tension:** Religion failed to unite **Punjabi-speaking West Pakistan** and **Bengali-speaking East Pakistan**. Political, economic and military dominance of West Pakistan. Systematic discrimination against East Pakistan. East Pakistan launched the Civil **disobedience movement** for democracy and autonomy. West Pakistan responded with repression instead of dialogue.
2. **Military Crackdown & Bangladesh Liberation Struggle:**
   a. **25 March 1971**: General Yahya Khan ordered a military crackdown in East Pakistan. Sheikh Mujibur Rahman arrested. The Pakistani army unleashed mass killings of civilians, elimination of intelligentsia, burning of villages and crops.
   b. Awami League leaders formed the **Government of Bangladesh-in-Exile** in Calcutta. Organised **Mukti Bahini** and launched guerrilla warfare.
   c. Targeted violence against Hindus led to mass migration to India. By November 1971, **~10 million refugees** entered India (Assam, WB, Meghalaya).
3. **India's Four-Pronged Policy:**
   a. Gave **sanctuary** to Bangladesh government-in-exile.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

b. Provided **training, arms and financial support** to Mukti Bahini.
c. Offered **humanitarian aid** (food, shelter, medical facilities) to refugees.
d. Began **military preparedness** for swift action if diplomacy failed.

4. **India's Diplomatic & Military Strategy:**
   a. Indira Gandhi initially **avoided full-scale war** due to refugee burden. Appealed to world leaders to pressure Pakistan.
   b. **Indian strategy:** War at **India's chosen time**, secure **international opinion**.
   c. **Strategic considerations:** Monsoon floods hindered operations. Winter snow blocked Himalayan passes which limited Chinese intervention.
   d. Despite restraint: **US and China supported Pakistan**. US continued arms supply to Pakistan.
   e. To counter the US-China axis: **Indo-Soviet Treaty of Peace, Friendship & Cooperation (Aug 1971)** signed (20 years).
5. **Outbreak of War (December 1971):**
   a. **3 December 1971**: Pakistan launched **Operation Chengiz Khan**. Surprise air attacks on Indian airfields in the west. **Objectives of Pakistan: Cripple Indian Air Force.** Internationalize Bangladesh issue. Pakistan failed on both counts.
   b. India formally **recognized Bangladesh**. Launched a decisive military response.
6. **International Response:**
   a. The US declared India the **aggressor** and stopped economic aid. US resolutions in UNSC vetoed by the Soviet **Union**.
   b. **US Seventh Fleet** moved into Bay of Bengal (9 Dec 1971). Indira Gandhi asked **General Manekshaw** to accelerate operations.
7. **Course & Outcome of the War:**
   a. Indian armed forces achieved a naval **blockade** of East Pakistan. **Air superiority** by the Indian Air Force. Strategic isolation of East and West Pakistan. Pakistani army: Poor planning and coordination. Low morale and leadership failures.
   b. **16 December 1971**: **93,000 Pakistani troops surrendered** in Dhaka.
   c. **17 December 1971**: India declared a unilateral **ceasefire** on western front. Mujibur Rahman released and assumed leadership of Bangladesh.

Shimla Agreement, 1972

1. **Background:** India held ~**90,000 Pakistani POWs**, ~**9,000 sq km Pakistani territory**. Pakistan had not yet recognized Bangladesh. Need to prevent renewed hostility and external interference.
2. **Shimla Summit (June 1972):** Participants: **Indira Gandhi (India)**, **Zulfikar Ali Bhutto (Pakistan)**. Agreement known as **Shimla Declaration**.
3. **Key Provisions:** India returned occupied Pakistani territory (except some strategic areas in Kashmir). Pakistan accepted the Line **of Control (LoC)** in Kashmir. Commitment to Settle disputes **bilaterally**, Reject third-party mediation. India agreed to release POWs after Pakistan recognized Bangladesh.

Post-1971 Phase & Aftermath

1. **Political Consolidation (Post-1971):** Congress (R) in power at Centre and most states. Indira Gandhi gained **complete control over the party**. Expanded social base of Congress.
2. **Economic & Social Measures:** As per **Ten-Point Programme**: Nationalization of **coal and general insurance**. Urban land ceiling laws. Redistribution of surplus agricultural land. **Cheap food grain distribution**. Bank expansion into under-banked areas. Credit to vulnerable sections.
3. **Peak of Indira Gandhi's Power:** Seen as symbol of strength and leadership. Referred to as **"Durga" / "Shakti"** by supporters.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

4. **Decline After 1973:** Economic hardships: Inflation, Unemployment, Growth slowdown. Public discontent grew. Led to **JP Movement (1974)**. Ultimately resulted in **Emergency (1975)**.

Declaration of National Emergency(1975-77)

Proclaimed under **Article 352** on grounds of **"internal disturbance"**. Issued by **President Fakhruddin Ali Ahmed** on advice of PM **Indira Gandhi**.

Background to the Emergency

1. **Post-Bangladesh War Strain:** Heavy economic burden after **1971 war**. Rising defence expenditure. Large refugee rehabilitation costs.
2. **Economic Crisis (1972-74): Failure of monsoon (1972-73)** led to fall in agricultural output. **Oil crisis (Oct 1973)**: Sharp rise in oil prices. Drain on foreign exchange reserves. Consequences: High inflation, Rising budget deficit, Low industrial growth, High unemployment, especially rural.
3. **Political & Social Unrest: Mass Agitations:** Large-scale industrial strikes, student protests, violent demonstrations. Rise of Marxist groups in West Bengal, Insurgency in North-East.
4. **Decline of Congress Organization:** Corruption at state and grassroots levels. Inability to manage political crises. Detachment of key social groups: **Middle class** - price rise & corruption, **Rich peasantry** - fear of land reforms, **Capitalists** - socialism, bank & coal nationalization, MRTP.
5. **Nav Nirman Andolan & Bihar Movement:**
   a. **Gujarat(Nav Nirman Andolan):** Triggered by Price rise, Administrative corruption. Resulted in resignation of **CM Chimanbhai Patel**.
   b. **Bihar Movement (1974):** Led by **Jayaprakash Narayan (JP)**. Originated as a student protest. Turned into: Statewide Satyagraha, Movement against corruption and misrule. JP gave a call for **"Total Revolution"**.

Immediate Trigger

a. **Allahabad High Court Verdict: Raj Narayan** challenged Indira Gandhi's 1971 election. **12 June 1975**: Court found Indira guilty of misuse of state machinery. Election declared void.
b. **Supreme Court Interim Order: 24 June 1975**: Justice V. R. Krishna Iyer upheld the HC verdict. Allowed Indira to remain PM without MP privileges.
c. **Political Fallout:** Opposition revived. JP demanded Resignation of Indira Gandhi and of Congress CMs. **25 June 1975**: Massive rally in Delhi. JP called upon officials to reject immoral orders.
d. **Declaration of Emergency: 26 June 1975**: Emergency declared under Article 352 on ground of internal disturbance. **Consequences:** Arrest of opposition leaders, Suspension of Fundamental Rights, Press censorship, Centralization of power.

Suppression of Civil Liberties

1. **Press and Media: Strict censorship** imposed on the press. Newspapers required prior approval before publication.
2. **Arrests and Detentions:** Opposition leaders arrested under **MISA, 1971**: Jayaprakash Narayan, Morarji Desai, Atal Bihari Vajpayee.
3. **ADM Jabalpur Case (1976):** Supreme Court ruled that **Article 21** could be suspended during Emergency. Marked the **lowest point of judicial independence**.
4. **Banning of Organisations & Centralisation of Power:** Ban imposed on RSS, Anand Marg, Jamaat-i-Islami, CPI (ML). States brought under **rigid central control**.

Legal and Constitutional Changes During Emergency

1. **Repressive Laws: Defence of India Act (1962)** and **MISA** amended. **Forced Sterilisation Programme (1976):** Compulsory sterilisation to control population. **Constitutional Amendments (38th-42nd)**
2. **38th Amendment (1975):** Barred **judicial review** of Emergency proclamations, Ordinances, Laws violating Fundamental Rights.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

3. **39th Amendment (1975):** Elections of **PM, President, Vice-President** placed beyond judicial scrutiny. Inserted into **Ninth Schedule**.
4. **41st Amendment (1976):** Granted **criminal immunity** to: President, Prime Minister, Governors.
5. **42nd Amendment (1976) - "Mini-Constitution":** Gave **unrestricted powers** to Parliament to amend the Constitution. Attempted to nullify **Kesavananda Bharati (1973)** judgement. Added **Socialist, Secular, Integrity** to the Preamble. Introduced **Fundamental Duties**. Extended: Legislature term from **5 to 6 years,** Elections could be postponed during Emergency.

The 20-Point Programme of Indira Gandhi (July 1975)

Objectives: Attack on **rural poverty,** Strategy for **rain-fed agriculture, Enforcement of land reforms,** Provision of **clean drinking water, Two-child norm** for population control, **Justice for SC/STs, Environmental protection,** Creation of a **responsive administration.**

Elections of 1977 and End of Emergency

January 1977: Lok Sabha elections announced. Political prisoners released. **Janata Party formed** on 23 January 1977. Campaign framed election as a choice between **"Democracy vs Dictatorship" Morarji Desai** became the **first non-Congress PM**.

Aftermath

- **Shah Commission (1977):** Headed by **Justice J.C. Shah**. Findings: Emergency imposed **solely on PM's decision**. No intelligence input or cabinet consultation. Existing laws were sufficient to manage law and order. Arrests and releases were **politically motivated**.
- **Constitutional Correctives: 44th Amendment (1978):** "Internal disturbance" replaced by **"armed rebellion"**. Emergency proclamation now requires: **Written advice of Council of Ministers**. Strengthened safeguards for **civil liberties**. Marked judiciary's renewed activism post-Emergency.
- **Political and Social Consequences:** Emergency exposed **strengths and weaknesses of Indian democracy**. 1977 elections acted as a **national referendum** against authoritarianism. Greater awareness of **civil liberties**. Rise of **backward class politics**. Appointment of **Mandal Commission (1979)**.

Politics After the Emergency (1977-1980)

- **1977 General Elections:** The Janata Party, led by a coalition of anti-Congress groups, defeated the Congress. Morarji Desai became the first non-Congress Prime Minister of India.
- **Major Actions of the Janata Government: Restoration of Democracy: Emergency formally ended, Press censorship removed,** Repeal of **authoritarian executive decrees.** Restoration of Fundamental Rights, Civil liberties, Freedom of press and political activity.
- **Collapse of the Janata Government:** An **ideologically heterogeneous coalition**. Deep divisions over Leadership, Ideology, Personal ambitions. The government collapsed in **less than 28 months**.
- **Charan Singh Government:** President **Neelam Sanjiva Reddy** appointed Charan Singh as PM. Led a **minority government**. Resigned after **three weeks** due to lack of parliamentary support.
- **Fresh Elections (1980):** Parliament dissolved. Lok Sabha elections held in **January 1980**. **Return of Indira Gandhi (1980-84):** Congress split in **January 1978**. Indira Gandhi's faction named **Congress (I)**. Congress (I) won the **1980 Lok Sabha elections**. Indira Gandhi returned as Prime Minister after **34 months**.

Punjab Crisis and Operation Blue Star: Late 1970s-early 1980s: Militarisation of Sikh separatist movement, Rise of **Jarnail Singh Bhindranwale**, leader of Damdami Taksal. **Operation Blue Star (1-8 June 1984)**: Indian Army deployed to flush out militants from Harmandir Sahib complex. Bhindranwale killed; many followers

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

escaped. **31 October 1984**: Indira Gandhi assassinated by her Sikh bodyguards. Retaliation for Operation Blue Star.

Rajiv Gandhi Era (1984-1989)

Became PM at **age 40**, youngest Prime Minister of India. Served as **6th Prime Minister (1984-1989)**.

Early Crises

1. **Anti-Sikh Riots (1984):** Violent reprisals following Indira Gandhi's assassination. Around **3,000 Sikhs killed** in Delhi. State failure in preventing communal violence.
2. **North-East Insurgency:** Rise in insurgent movements in Mizoram and Assam.

Major Political and Constitutional Reforms

1. **Anti-Defection Law (52nd Amendment, 1985):** Inserted **Tenth Schedule**.
2. **Panchayati Raj Reforms:** Advocated constitutional status for Panchayati Raj Institutions. Initiated debates leading to the later **73rd Amendment**.
3. **Conflict Resolution and Peace Accords:**
   a. **Mizoram Accord (1986):** Agreement between Government of India and Mizo National Front (MNF). Ended secessionist violence.
   b. **Assam Accord (15 August 1985):** Ended Assam Movement against illegal migration. Citizenship provisions: Migrants (1951-61): full citizenship, Migrants (1961-71): voting rights after 10 years.
4. **Technology Missions: Six Technology Missions:**
   a. **Drinking Water Mission:** Safe drinking water for all villages.
   b. **Literacy Mission:** Use of TV and mass communication.
   c. **Immunisation Mission:** For pregnant women and children.
   d. **White Revolution:** Milk productivity and cattle health.
   e. **Edible Oil Mission:** Reduce import dependence.
   f. **Telecom Mission:** One telephone per village.
5. **Education, Employment and Environment:**
   a. **Education Reforms: National Policy on Education (1986), Operation Blackboard, Jawahar Navodaya Vidyalayas,** Promotion of distance education.
   b. **Employment: Jawahar Rozgar Yojana (1989):** 50-100 days of employment to rural poor families.
   c. **Environment:** Launch of **Ganga Action Plan,** Creation of **Ministry of Environment**.
6. **Computerisation and High Technology:** Reduced import duties on computer components. Encouraged foreign manufacturers. Promoted computer use in offices and schools. **Indo-US Supercomputer Agreement (1988)**.
7. **Foreign Policy Initiatives:**
   a. **Strategic Autonomy:** Foreign policy aimed at Strong, Independent and Self-reliant India.
   b. **Key Interventions: Operation Flowers are Blooming (1986)** - Seychelles, **Delhi Declaration (1986)** with USSR (Gandhian non-violence), **China Visit (1988)**: Boundary talks, Peace and tranquillity agreement.
   c. **Regional Interventions: Operation Cactus (1988)** - Maldives coup thwarted, Prevented external powers' intervention in India's backyard. **Indo-Sri Lanka Accord (1987):** Signed with President **J.R. Jayewardene**. Key provisions: Devolution to Tamil areas, Merger of Northern & Eastern Provinces, Tamil as official language (13th Amendment, Sri Lanka). Deployment of **IPKF under Operation Pawan.** Led to Hostility from LTTE, Opposition from Sinhalese nationalists.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

The administration was marred by scandals by 1989. Lost 1989 elections. Assassinated on **21 May 1991** at Sriperumbudur by LTTE suicide bomber. The Supreme Court later confirmed the motive linked to **IPKF intervention**.

V.P. Singh Government (1989-1990)

Participant in **Bhoodan Movement (1957)**. Served as **Finance Minister** and later **Defence Minister** under Rajiv Gandhi. Formed **Jan Morcha (1988)** with Arun Nehru and Arif Mohammad Khan.

Formation of National Front Government (1989)

a. Jan Morcha helped create a federation of parties called **National Front**.
b. Key constituents: Janata Dal, DMK, Telugu Desam Party, Asom Gana Parishad. Leadership: **V.P. Singh - Convener, N.T. Rama Rao - President.**
c. 1989 General Elections: National Front formed government with **outside support** of **BJP and Left Front.** Marked the **beginning of sustained coalition politics** in India.

Major Coalition Governments

a. **V.P. Singh (1989-90)**: National Front.
b. **Chandra Shekhar (1990-91)**: Samajwadi Janata Party + Congress (I) support.
c. **H.D. Deve Gowda (1996-97)** & **I.K. Gujral (1997-98)**: National Front.
d. **Atal Bihari Vajpayee (1999-2004)**: NDA.
e. **Manmohan Singh (2004-2014)**: UPA.

The coalition era formally ended in **2014**, though BJP continued the NDA framework despite a majority.

Major Challenges Faced by V.P. Singh Government

1. **Internal Security Issues: Kashmir Crisis:** Militants kidnapped the daughter of Home Minister **Mufti Mohammad Sayeed**. The government released militants to secure her release. **Punjab Problem:** Continued separatist sentiments. The movement later **internationalised** (US, Canada, UK). Long-term repercussions seen in Khalistan-related activities abroad.
2. **Mandal Commission and Social Justice Politics:**
   a. V.P. Singh implemented **Mandal Commission recommendations (1990)**. Provided **27% reservation** for OBCs in public employment. Led to Massive protests, Self-immolations by students, Deep **politicisation of caste**.
   b. **Backward Class Commissions:**

1. **Kaka Kalelkar Commission (1953):** First Backward Classes Commission under **Article 340**. Identified 2,399 backward groups, 837 "most backward". Rejected caste as sole criterion due to fear of **perpetuating caste divisions**.
2. **B.P. Mandal Commission (1979):** Set up under **PM Morarji Desai**. Introduced term **Other Backward Classes (OBCs)**. Findings: OBCs formed **52% of the population**. Recommendations: **27% reservation** in public sector jobs and education. Age relaxation in recruitment. Implemented in **1990**.
3. Supreme Court judgement: **Indira Sawhney case (1992)** upheld OBC reservations. Fixed **50% ceiling** on total reservations.

1. **Babri Masjid Issue and Rath Yatra:**
   a. Late 1980s-early 1990s: Rise of **communal mobilisation**. BJP pushed **Ram Janmabhoomi movement**. **L.K. Advani's Rath Yatra**: Started from Somnath to Ayodhya. Passed through 10 states over 35 days.
   b. **Government Response:** V.P. Singh ordered arrest of **L.K. Advani** in Bihar. BJP withdrew support and the Government lost the majority. V.P. Singh resigned after losing the confidence vote.

Fall of V.P. Singh Government

Congress (I) supported **Chandra Shekhar**, a rival within Janata Dal. **Chandra Shekhar sworn in as PM (10 Nov 1990)**: Minority government, Outside support from Congress (I).

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

Chandra Shekhar Government (1990-91)

Economic Crisis

Severe **foreign exchange crisis** triggered by Gulf War, Rising oil prices. The government pledged **India's gold reserves** to avert default. Damaged India's international image.**Political Instability:** Congress (I) withdrew support in 1991. The government collapsed.

Aftermath

Towards Economic Reforms: 1991 Elections: Congress (I) gained sympathy after **Rajiv Gandhi's assassination**. **P.V. Narasimha Rao** became Prime Minister. Marked transition to **Economic liberalisation,** Structural reforms, New phase of Indian federalism.

P.V. Narasimha Rao Years (1991-1996)

9th Prime Minister of India (1991-96). Congress (I) leader, assumed office after **Rajiv Gandhi's assassination**. Widely regarded as **"Father of Indian Economic Reforms"**.

1. **Economic Transformation (1991 Reforms):** Severe **Balance of Payments crisis** as Forex reserves were at critically low levels triggered by **Gulf War**, rising oil prices and import bill. India faced the risk of **sovereign default**.
2. **Policy Response:** Appointed **Dr. Manmohan Singh** as Finance Minister. Introduced **LPG Reforms (1991)**: **Liberalisation**: removal of licence raj, deregulation. **Privatisation**: reduced state monopoly. **Globalisation**: integration with the global economy.
3. **Financial Sector Reforms: Narasimham Committee (1991)** on banking reforms. Strengthening of banking efficiency and competitiveness. **SEBI Act, 1992**: Made SEBI a statutory body. Introduction of **Global Depository Receipts (GDRs)**: Enabled Indian companies to raise foreign capital.
4. **Democratic Deepening: Local Governance Reforms: 73rd Constitutional Amendment Act, 1992:** Constitutional status to **Panchayati Raj Institutions**. Added **Part IX and 11th Schedule**. **74th Constitutional Amendment Act, 1992:** Constitutional recognition to **Urban Local Bodies**. Added **Part IX-A and 12th Schedule**
5. **Inclusive and Non-Partisan Governance:** Appointed opposition leaders to key roles: **Atal Bihari Vajpayee** represented India at the UN, Geneva. **Subramanian Swamy** given Cabinet rank as Chairman, Commission on Labour Standards & International Trade. Demonstrated **statesmanship over party politics**.
6. **Defence and Strategic Preparedness:** Strengthening of: Missile technology programme. Defence R&D. Laid foundation for: India's **nuclear capability**. Firm handling of **Hazratbal Shrine crisis**: Asserted zero tolerance to terrorism. Military preparedness later proved crucial during: **Kargil War (1999)**.

Internal Security and Communal Challenges

1. **Babri Masjid Demolition (1992):** Destruction by Hindu fundamentalist groups. Triggered nationwide communal riots. Followed by **1993 Bombay bombings**.
2. **Government Response:** Effective post-crisis management: Relief and rehabilitation. Diplomatic efforts to expose **Pakistan-sponsored terrorism**. Invited international experts from US, UK, Europe.

Foreign Policy Initiatives

1. **Look East Policy (1991):** Strategic shift in India's foreign relations. Focus: Southeast Asia (ASEAN). Principles: **3 Cs - Culture, Connectivity, Commerce**. Objectives: Economic integration. Strategic balancing of **China's regional influence**. North-East India as **gateway to Southeast Asia**.
2. **Cultivate Iran Policy:** Reoriented **India-Iran relations** in the 1990s. Shared support for **Northern Alliance** in Afghanistan against Taliban. Diplomatic success: Blocked Pakistan-sponsored UNHRC resolution on Kashmir with support from **China and Iran**.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

3. **China Policy:** Visit to China (1993). Improved bilateral relations. Maintained distance from Dalai Lama to avoid escalation.
4. **Israel Policy:** Full diplomatic relations established in **1992**. Israel opened an embassy in New Delhi. Long-term outcomes: Defence cooperation. Arms supply during **Kargil War (1999)**. India later emerged as the largest **arms importer from Israel**.
5. **Relations with the United States:** Economic liberalisation improved bilateral ties. Formation of **US-India Commercial Alliance (USICA)** in 1995. India was designated as a **"Big Emerging Market"** by the US.
6. **Neighbourhood Diplomacy: Mahakali Treaty (1996)** with Nepal: Sharing of river waters. Improved regional trust and cooperation.

End of Tenure and Legacy

1996 Lok Sabha elections Congress lost power.**Recognition:** In 2024, he was **posthumously awarded the Bharat Ratna. Abdul Kalam** described Rao as, "A patriotic statesman who believed that the nation is bigger than the political system."

United Front Government (1996-1998)

Political Background

1996 General Elections: BJP emerged as the **single largest party** under **Atal Bihari Vajpayee**. **Vajpayee government collapsed in 13 days** due to lack of allies. Subsequently **13 opposition parties** united under **Janata Dal leadership**. Formation of **United Front (UF)**: Coalition of **non-Congress, non-BJP parties**. Supported **externally by Congress**.

Composition of United Front Governments

Two UF governments (1996-1998): **H.D. Deve Gowda** (June 1996 - April 1997), **I.K. Gujral** (April 1997 - March 1998).

H.D. Deve Gowda Government (1996-1997)

11th Prime Minister of India. Former **Chief Minister of Karnataka (1994-96)**.

1. **Economic Policies under Deve Gowda:**
   a. **1997-98 "Dream Budget":** Presented by **P. Chidambaram (Finance Minister)**. The media termed it the **"Dream Budget"** due to reform orientation.
   b. **Key Features:**

1. **Income tax reform**: Personal income tax reduced from **40% to 30%**. Corporate tax rates cut.
2. **Foreign Investment**: Increased **FII investment limits**.
3. **Disinvestment**: Laid groundwork for **first round of PSU disinvestment**.
4. **Tax Base Expansion**: Introduced voluntary filing criterion:
   - Any **2 of the following 4**: Ownership of a four-wheeler, Occupation of immovable property, Ownership of a telephone, Foreign travel in previous year.
5. **Coal Sector Reform**: Opened coal sector for **private participation (captive mining only)**.

1. **Gujral Doctrine:**
   a. **Cornerstone of UF Foreign Policy:** Propounded by **I.K. Gujral**, External Affairs Minister under Deve Gowda. Defined India's neighbourhood policy in late 1990s.
   b. **Core Philosophy:** India, as the **largest South Asian country**, should: Extend **unilateral goodwill** to neighbours. Avoid rigid **reciprocity**. Emphasize **trust-building and cooperation**.

Five Principles of Gujral Doctrine

1. **No reciprocity** with smaller neighbours: India to give generously to Bhutan, Bangladesh, Nepal, Maldives, Sri Lanka.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

2. **No use of territory against neighbours.**
3. **Non-interference** in internal affairs.
4. **Respect for sovereignty and territorial integrity.**
5. **Peaceful bilateral dispute resolution**

Limitations and Criticism of Gujral Doctrine

1. **Security Concerns**: Assumption of "inherent goodwill" failed with hostile neighbours. Exposed after **2008 Mumbai attacks**.
2. **China Factor**: Rising Chinese influence via **Belt and Road Initiative**. India is unable to match China's **financial and infrastructure outreach**.
3. **Resource Constraints**: Limited fiscal capacity for sustained unilateral concessions.
4. **Economic Slowdown**: Reduced willingness to open Indian markets further.

I.K. Gujral Government (1997-1998)

Took office after Deve Gowda. **Inder Kumar Gujral** was the **12th Prime Minister of India**. Continued UF governance with Congress support. Congress withdrew support again, and the Government collapsed. Led to **1998 General Elections**.

Fall of Gujral Government

Government depended on **external support of Congress (I)**.

a. Congress withdrew support due to Gujral's refusal to act on the Jain **Commission interim report**.
b. The Jain Commission had alleged **DMK leaders' links with LTTE.** LTTE chief **Prabhakaran** was responsible for **Rajiv Gandhi's assassination (1991)**.
c. Gujral's decision was based on Coalition ethics, Avoiding destabilization without conclusive evidence.

Contributions and Significance

1. **Economic Impact:** Continued momentum of **post-1991 economic reforms**. Improved: **Tax-to-GDP ratio,** Fiscal discipline. Ensured **policy continuity despite coalition instability**.
2. **Foreign Policy Impact:** Architect and proponent of the **Gujral Doctrine**: Emphasized Non-reciprocity, Trust-based neighbourhood relations, Soft power diplomacy. Enhanced India's image as a benign **regional leader and** a **responsible global actor**.

Atal Bihari Vajpayee Era (1996-2004)

10th Prime Minister of India. Jawaharlal Nehru once remarked that Vajpayee would "one day become Prime Minister".

Tenures as Prime Minister

Vajpayee served **three non-consecutive terms**:

1. **1996** - 13 days (failed to prove majority)
2. **1998-1999** - 13 months: Lost confidence vote by **one vote** after AIADMK withdrew support
3. **1999-2004** - Full five-year term: Led a **23-party NDA coalition.** First PM to successfully complete a full term with such a large coalition

Pokhran-II Nuclear Tests (1998)

Operation Shakti:

1. **Background:** Global nuclear order dominated by **NPT-based discrimination**. China's nuclear capability and **1962 war** heightened India's security concerns. India's first nuclear test: **Pokhran-I (1974)** - "Peaceful Nuclear Explosion"

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

2. **Pokhran-II (1998):** Conducted with Extreme secrecy, Avoidance of US surveillance satellites. Five nuclear tests were conducted. Declared India a **de facto nuclear weapon state**.
3. **International Reaction: US imposed sanctions.** Condemnations by UK, Germany, Japan, UN Secretary-General Kofi Annan, China demanded India sign NPT. Despite sanctions, India maintained strategic autonomy. Opened space for later nuclear negotiations (Eg. Indo-US Nuclear Deal)

Kargil War (1999)

1. **Background:** Pakistan infiltrated **Kargil-Drass sector** across LoC. Objective: Internationalize Kashmir issue. Cut India's access to Siachen Glacier.
2. **Indian Response:** Massive military mobilization: Army and Air Force. Conflict limited strictly to **LoC**, showing restraint. No widening of war despite provocation.
3. **Outcome:** Pakistan withdrew under **global diplomatic pressure**. Restored **status quo ante**. Exposed Pakistan's duplicity post-Lahore Declaration. Failure of nuclear deterrence myth.

IC-814 Hijacking (1999)

1. Indian Airlines Flight IC-814 hijacked en route Kathmandu-Delhi. Taken to **Kandahar (Taliban-controlled Afghanistan)**. Hijackers linked to **Harkat-ul-Mujahideen** with ISI support.
2. **Government Response:** Released **Masood Azhar** in exchange for hostages. Azhar later founded **Jaish-e-Mohammed (2000)**.
3. **Criticism:** Intelligence and coordination failures: Centre-State and Inter-ministerial. Failure to stop aircraft at **Amritsar**. Seen as a **strategic and diplomatic setback**.

Gujarat Godhra Riots (2002)

1. Trigger: **Burning of Sabarmati Express at Godhra** (58 deaths). Led to widespread communal violence in Gujarat.
2. **Inquiries: Nanavati-Shah Commission**: Held train burning as pre-planned conspiracy. **UC Banerjee Committee**: Called it an accident.
3. **Impact:** Allegations of administrative failure. Tarnished Vajpayee's otherwise moderate image. Widely seen as a factor in **NDA's defeat in 2004**.

Kashmir Policy

1. **Soft Power Approach: Vajpayee Doctrine (2003): Insaniyat** - Humanity, **Jamhooriyat** - Democracy, **Kashmiriyat** - Cultural identity.
2. **Measures:** Unilateral ceasefire. Dialogue with moderate Hurriyat leaders. Split within Hizbul Mujahideen; surrender of Majid Dar faction. Credible elections (2002) restoring faith in democracy.
3. **Significance:** Reduced alienation. Strengthened democratic legitimacy in J&K

Economic and Social Policies

1. **Macroeconomic Performance:** GDP growth touched **8.8%,** Low inflation, Strong forex reserves despite multiple crises.
2. **Major Reforms: FRBM Act, 2003**: Fiscal discipline. PSU disinvestment: Separate **Ministry of Disinvestment.**
3. Infrastructure: **NHDP, Golden Quadrilateral, PMGSY.**
4. **Education & Social Sector: 86th Constitutional Amendment (2002)**: Right to Education (6-14 years). Disability Act, 2001. Approved **Chandrayaan-1** mission

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

Planned Economic Development

The Nehruvian model of planned development stands for **active 'State intervention' in formulating the direction of the 'country's economy'.** This means implementation of policies exhibiting a **mixture of the 'Fabian socialist' ideals and the 'Soviet model' of planned economy.**

History of Planning in India & Origin of Five-Year Plans

1. **Intellectual Foundations of Economic Planning (Pre-Independence): Conceptual roots were laid during the freedom struggle** to address poverty, underdevelopment etc.
   a. **National Planning Committee (1938):** Constituted by the Indian National Congress under Jawaharlal Nehru. First systematic attempt to visualise planned economic development.
   b. **Bombay Plan (1944):** Proposed by leading Indian industrialists. Advocated state intervention and large-scale industrialisation.
   c. **Gandhian Plan (1944):** Emphasised village-centric, self-reliant, decentralised economy.
   d. **People's Plan (1945):** Prepared by the Post-War Reconstruction Committee of the Indian Trade Union. Focused on workers' welfare and social justice.
   e. **Sarvodaya Plan (1950):** Propounded by **Jayaprakash Narayan**. Advocated moral economy, equality, and holistic development.
2. **Global Context of Five-Year Plans:** First implemented by **Joseph Stalin in the Soviet Union** (late 1920s). **India and China** continued to use Five-Year Plans. China renamed its **11th FYP (2006-2010)** as guidelines (guihua) to reflect a reduced directive role of the state. **India also discontinued after 12th FYP.**
3. **Adoption of Planned Development in Independent India: Planning Commission established in March 1950**.
   a. **Objectives of Planning:** Rapid increase in standard of living. Efficient exploitation of national resources. Expansion of production and employment opportunities.
   b. **Functions of the Planning Commission:** Assessment of national resources. Augmentation of deficient resources. Formulation of balanced and effective development plans. Determination of sectoral and regional priorities.

Plan / Period	Duration & Leadership	Model / Nature	Major Focus & Objectives	Key Developments / Events	Target vs Achievement
First Five Year Plan	1951-1956 Jawaharlal Nehru	Harrod-Domar Model (modified)	Focus on agricultural development	Emphasis on irrigation and agriculture; Five IITs set up by the end of the plan	Target: 2.1% Achieved: **3.6%**
Second Five Year Plan	1956-1961 Jawaharlal Nehru	P.C. Mahalanobis Model (1953)	Focus on industrial development	Heavy industries promoted; plan criticised; Balance of Payments crisis in 1957	Target: 4.5% Achieved: **4.27%**
Third Five Year Plan	1961-1966	Gadgil Yojana	Economic independence;	Sino-India War (1962); Indo-Pak	Target: 5.6% Achieved: **2.4%**

Plan / Period	Duration & Leadership	Model / Nature	Major Focus & Objectives	Key Developments / Events	Target vs Achievement
	Jawaharlal Nehru		focus on agriculture & wheat production	War (1965); inflation & defence focus; droughts	
Plan Holidays	1966-1969	Annual Plans	Recovery from economic shocks	Equal priority to agriculture & industry; rupee devaluation to boost exports	-
Fourth Five Year Plan	1969-1974 Indira Gandhi	-	Growth with stability; self-reliance	Bank nationalisation (1969); Green Revolution; 1971 Indo-Pak War; Family Planning	Target: 5.7% Achieved: **3.3%**
Fifth Five Year Plan	1974-1978	-	Garibi Hatao; employment; justice; defence	20-Point Programme (1975); MNP; NH system; Electricity Supply Act amended	Target: 4.4% Achieved: **4.8%**
Rolling Plan	1978-1990	Rolling planning	Flexible targets & allocations	Three-tier planning; instability due to frequent changes; rejected in 1980	-
Sixth Five Year Plan	1980-1985 Indira Gandhi	Investment & infrastructure-based	Poverty removal; technological self-reliance	Shift towards liberalisation; infrastructure focus	Target: 5.2%Achieved: **5.7%**
Seventh Five Year Plan	1985-1990 Rajiv Gandhi	-	Self-sufficiency; employment; technology	Focus on "food, work, productivity"; private sector prioritised	Target: 5.0% Achieved: **6.01%**
Annual Plans	1990-91 & 1991-92	Annual Plans	Political instability period	Bridge before reforms and Eighth Plan	-

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

Plan / Period	Duration & Leadership	Model / Nature	Major Focus & Objectives	Key Developments / Events	Target vs Achievement
Eighth Five Year Plan	1992-1997 P.V. Narasimha Rao	Indicative Planning	Human resource development	New Economic Policy; LPG reforms; export growth; reduced public sector share	Target: 5.6%Achieved: **6.8%**
Ninth Five Year Plan	1997-2002 Atal Bihari Vajpayee	-	Growth with social justice & equality	Launched in 50th year of Independence	Target: 6.5% Achieved: **5.6%**
Tenth Five Year Plan	2002-2007 Vajpayee & Manmohan Singh	-	Poverty reduction; income growth	Aim to double per capita income; poverty reduction to 15%	Target: 8.0% Achieved: **7.6%**
Eleventh Five Year Plan	2007-2012 Manmohan Singh	C. Rangarajan	Rapid & inclusive growth	Employment focus; inclusive development	Target: 9% Achieved: **8%**
Twelfth Five Year Plan	2012-2017 Manmohan Singh	-	Faster, inclusive & sustainable growth	Planning Commission replaced by NITI Aayog; no 13th Plan	Target: 8%

Planned Economic Development shaped strength of India's post colonial economy

1. **Economic Outcome:** Per capita income stagnated or declined in the colonial period. Nehru period (1950-65): Growth ~1.7% per capita.
2. **Creation of a Strong Industrial Base:** The Second Five-Year Plan (Mahalanobis model) prioritised capital goods, steel, machine tools, and engineering industries. Institutions like Bhilai, Rourkela, Durgapur Steel Plants; BHEL (1964); HMT gave India strategic industrial autonomy.
3. **Emphasis on Scientific Temper and Technological Capacity:** Establishment of IITs (1951-63), CSIR labs, AIIMS, DRDO, Atomic Energy Commission (1948), ISRO's precursor INCOSPAR (1962).
4. **Development of Core Infrastructure:** Dams like Bhakra Nangal, Hirakud, Nagarjuna Sagar were called "temples of modern India," reducing India's dependence on monsoons.
5. **Social and Regional Equity Orientation:** Planning addressed regional disparities through Drought Prone Area Programme, multipurpose river valley projects, and public sector jobs.
6. **Foundations of Agricultural Modernisation:** Nehru-era investments in irrigation, fertilisers, and agricultural universities laid the base for the Green Revolution. Eg. Establishment of ICAR, Punjab Agricultural University (1962).

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

Planned Economic Development shaped weaknesses of India's post colonial economy

1. **Excessive State Control and the License Permit Quota Raj:** Industrial Licensing Policy (1951) restricted competition. Private sector growth was stifled by red tape, inspectors, and capacity controls.
2. **Vakil Brahmananda's "Wage Goods Gap":** Model ignored agriculture and wage goods consumed by workers.
3. **B.R. Shenoy's Dissent:** Planning accompanied by controls distort efficient allocation; markets should govern investment.
4. **Neglect of Mass Education:** East Asian success (Japan, South Korea, Taiwan) involved universal schooling, vocational training and technical education. India focused prematurely on tertiary technical institutions (IITs), ignoring primary education.
5. **Neglect of Consumer Goods and Small Industries:** Overemphasis on heavy industry led to shortages of: textiles, food processing, electronics, everyday consumer products.
6. **Underperformance of Agriculture (Until Green Revolution):** Early plans focused more on industry. Food shortages persisted, leading to PL-480 food aid from the US. Land reforms were uneven; effective in Kerala and West Bengal, weak in Bihar, UP, Rajasthan.
7. **Inefficient Public Sector Dominance:** Many PSUs turned into loss-making entities due to overstaffing, bureaucratic management, and no profit incentive.
8. **Insufficient Integration with the Global Economy:** High tariffs (over 300%), quantitative restrictions, and FERA (1973) discouraged foreign investment.

Reforms taken

1. **From State-Led Economy to Market-Led, Globally Integrated Economy:** Private sector is the main engine of growth (manufacturing, telecom, services, IT, steel, electronics). India is the world's 5th largest economy, expected to become 3rd by 2027-28.
2. **Focus on Micro Small and Medium Enterprises:** Manufacturing rising with PLI schemes, mobile manufacturing, semiconductors, EVs.
3. **From License Raj to Reform-Driven, Competitive Economy:** Major reforms since 1991 and especially since 2014:
   a. **GST unified the indirect tax system.**
   b. **IBC (2016)** restructured insolvency and improved credit culture.
   c. **Privatisation/disinvestment**, Eg. Air India.
   d. **Digital economy reforms:** JAM trinity (Jan Dhan Aadhaar Mobile).
   e. **Ease of Doing Business reforms:** Single-window clearances, labour code consolidation

Industrial Policies in India (1948-1991)

1. **Industrial Policy Resolution, 1948:** India's **first formal industrial policy.** Adopted a **Mixed Economy model. Objective:** Transition towards a **socialistic pattern of society.** Coexistence of **public and private sectors.**
2. **Industrial Policy Resolution, 1956:** Backbone of India's **state-led industrialisation. Key features:** Emphasis on **heavy and machine-building industries.** The public sector assigned the "**commanding heights**" of the economy. Industries classified into three schedules: **Exclusive public sector, Mixed sector, Private sector.**
3. **Licensing and Regulatory Phase: Industrial Licensing Policy, 1970:** Simplified procedures for setting up industries. Introduced **Heavy Investment Sector**: Industries with investment above ₹5 crore. Objective: Prevent monopolies, Control concentration of economic power.
4. **Industrial Policies of 1973 & 1977: Focus shifted towards:** Small-scale and cottage industries and Ancillary units. **Priority areas:** Revival of sick units, Employment generation, Decentralised industrial growth.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

5. **Industrial Licensing Policy, 1982:** Sought to Regulate unauthorised capacity expansion, Redefine role of small-scale industries, Improve public sector performance.

Licence-Quota-Permit Raj

a. **Structural Bottlenecks:** Licensing requirements, MRTP Act restrictions, Small-scale industry reservations.
b. **Consequences:** Entry and exit barriers, No closure without government permission, Discouraged entrepreneurship, Low private investment. **Result:** Competitive inefficiency, Rent-seeking behaviour.

External Sector Stress & Industrial Crisis

a. India relied excessively on **Foreign debt** instead of FDI.
b. Missed opportunities: East Asian export-led growth model.
c. **Foreign exchange reserves:** $5.85 bn (1980-81), $4.1 bn (1989-90), $2.24 bn (1990-91) i.e. barely one month of imports.
d. **Outcome:** Downgraded international credit rating, Trigger for structural reforms

New Industrial Policy, 1991

1. **Objectives:** Correct four decades of structural distortions, Improve global competitiveness, Accelerate industrial growth.
2. **Key Features:**
   a. **Abolition of industrial licensing:** Except initially 18 industries, Reduced to 6 by 1999.
   b. **Reduction in public sector exclusivity:** Now limited to **atomic energy & railways.**
   c. **Liberalisation of FDI:** Automatic approval for technology agreements.
   d. **Shift towards:** Market forces and Global integration

Poverty Alleviation Programmes

Three-Dimensional Strategy:

a. **Growth-Oriented Approach:** Assumption: Growth will **trickle down** to the poor. Limitation: Benefits remained uneven.
b. **Targeted Poverty Alleviation:** Introduced from **Third FYP (1961-66):** Focus: Asset creation, Employment generation. Major schemes: IRDP, TRYSEM, NREP, RLEGP, JRY / JGSY.
c. **Social Consumption Approach:** Provision of basic services: Subsidised food, Education, Health, Water & sanitation. India among pioneers in welfare-based poverty reduction.

Outcomes & Limitations

Poverty ratio: 54.9% (1973-74) to 36% (1993-94). Absolute poor: ~321 million to ~320 million (little change). **Issues:** Low per-family investment, Inadequate employment days, Resource constraints, Weak asset sustainability.

Bank Nationalisation (1969 & 1980)

Pre-nationalisation banking was dominated by private ownership. Credit concentrated with big business. Objectives: Financial inclusion, Balanced regional credit, Banking stability, Break business-bank nexus.

Phases of Nationalisation

1. **First Phase (1969):** Nationalisation of **14 major banks**Deposits exceeding ₹50 crore
2. **Second Phase (1980):** Nationalisation of **6 more banks.**

Positive Outcomes

Increased public confidence, Rapid rural branch expansion, Financial inclusion of poor, Support to agriculture and priority sectors.**Negative Outcomes:** Reduced competition, Bureaucratisation, Red-tapism and delays, Weak accountability, Declining efficiency.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

The 1991 Balance of Payments Crisis

a. **Long-Term Structural Causes:** Persistent **fiscal deficits,** Rising **current account deficit,** Inefficient public sector, Excessive regulation and protectionism, Low export competitiveness, Dependence on **foreign debt rather than FDI.**
b. **Immediate / Proximate Triggers:**

1. **Gulf War (1990-91):** Sharp rise in crude oil prices, Surge in India's oil import bill.
2. **Decline in Remittances:** Reduced inflow from Indian workers in Gulf countries.
3. **Political Instability:** Unstable coalition governments (1990-91). Delayed economic decision-making

Nature of the Crisis

Foreign exchange reserves fell to **~$1 billion.** Import cover reduced to **less than 3 weeks.** India faced **near sovereign default.** International credit rating downgraded.

IMF Bailout & Conditionalities

1. India approached the **IMF for emergency assistance.**
2. Pledged **67 tonnes of gold**: 20 tonnes to the Union Bank of Switzerland and 47 tonnes to the Bank of England.
3. **IMF conditionalities:** Structural adjustment, Liberalisation of the economy, Opening up to private and foreign players

Political Economy of Reforms

Crisis weakened ideological opposition. PM **P. V. Narasimha Rao** and FM **Dr. Manmohan Singh** initiated reforms. Result: **New Economic Policy (NEP), 1991**

New Economic Policy, 1991

LPG Reforms:

a. **Liberalisation:** Reduction/removal of Industrial licensing, Tariff and non-tariff barriers. Licensing abolished except for **18 industries** (later reduced). Market forces allowed greater roles in pricing and production.
b. **Privatisation:** Disinvestment of loss-making PSUs. Sick PSUs are referred to as BIFR. Reduction in public sector monopoly. Shift from "producer" to "facilitator" role of the state.
c. **Globalisation:** Integration with the global economy. Encouragement to Trade, Capital flows, Technology transfer. India became part of global value chains

Industrial & Investment Reforms under LPG

1. **Public Sector Reforms:** Industries reserved for the public sector reduced from **17 (1956)** to **8 (1991).** Currently only **Atomic Energy and Railways**.
2. **Foreign Direct Investment (FDI):** Majority foreign ownership allowed. Automatic route expanded. 100% FDI permitted in many sectors: Automobiles, Textiles, Manufacturing (Make in India). FIPB created (abolished in 2017, now FIFP). FDI inflows: ₹408 crore (1991) to ₹7.9 lakh crore) in the 2025-26
3. **Trade & Export Promotion:** Export-led growth focus. New instruments: EOUs, EPZs, SEZs, AEZs, NIMZs. Boost to manufacturing and services exports
4. **Legal & Regulatory Reforms:** MRTP Act diluted. Foreign Technology Agreements allowed via automatic route. FERA (1973) replaced by **FEMA (1999)**: Shift from control to management of forex.

Outcomes of LPG Reforms

1. **Economic Growth:** GDP growth: Pre-1991: ~3.5%. Post-1991: ~6.6% (1990-2010). India among fastest-growing economies
2. **Employment & Income:** Unemployment: 4.3% (1991) to 3.4% (2017). Per capita income: ₹1,14,958 (2017-18)

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

3. **Fiscal & External Stability:** Fiscal deficit reduced from 8.5% (pre-1991) to ~3.4% (2019). Improved forex reserves and creditworthiness
4. **Sectoral Transformation:** Services sector boom (IT, telecom, finance). The Telecom revolution ended government monopoly. Increased competition in banking and financial services

Limitations of LPG Reforms

1. **Skewed Growth & Jobless Growth:** Agriculture neglected: Employed 72% (1991) but GDP share fell from 29% to ~18% (2014). Rising farmer distress and rural indebtedness.
2. **Global Competition Pressure:** Indian MSMEs struggled against MNCs. Technology and capital disadvantage
3. **Environmental Degradation:** Industrial pollution, Deforestation, Ecological stress due to unregulated growth.
4. **Rising Income Inequality:** Benefits concentrated among Skilled, Urban and Capital-owning groups. Social disparities widened.
5. **Incomplete Reforms:** Limited public sector reforms (state utilities). Labour market rigidity remained. Weak exit mechanisms for firms (until IBC)
6. **Reform Fatigue (Late 1990s):** Growth slowdown: 7.8% (1996-97) to 5% (1997-98). Reasons: East Asian financial crisis, Nuclear-test related sanctions

Banking Sector Reforms Since 1991

Pre-1991 Issues: Over-nationalisation, Low competition, Political interference and Rising NPAs (loan melas, directed credit).

Narasimham Committee Reforms

Recommendations:

1. **Narasimham Committee I (1991):** Reduce SLR and CRR. Market-determined interest rates. Improve efficiency and competition.
2. **Narasimham Committee II (1998):** Merger of strong banks, End ever-greening of loans, Depoliticise bank boards.

Key Banking Reforms

SLR reduced to 25%. CRR reduced to ~4%. CRAR introduced (1992). Basel II norms implemented. Entry of private and foreign banks. Base Rate/BPLR system adopted.

Other Major Economic Reforms

- **MGNREGA (2005)**
- **Insolvency & Bankruptcy Code 2016**
- **Goods and Services Tax (GST) 2017**
- **Deen Dayal Upadhyaya Gram Jyoti Yojana / Village Electrification (2018)**
- **Agriculture Export Policy (2018)**
- **FAME II- Electric Mobility Subsidies (2019)**
- **National Mineral Policy (2019)**
- **National Electronics Policy (2019)**
- **Production Linked Incentive (PLI) Schemes (2020)**
- **Four Consolidated Labour Codes (Passed 2020)**
- **PM GatiShakti National Master Plan (2021)**
- **National Monetisation Pipeline (NMP) (2021)**
- **India Semiconductor Mission (ISM) Launch (2021)**
- **National Green Hydrogen Mission (2023)**
- **Critical Minerals Strategy (2023)**

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

- **GST Two-Slab Simplification / GST 2.0 (2025)**
- **India Semiconductor Mission (ISM) Phase II Expansion (2025**

.

Agricultural Developments since Independence

Background: India has **2.4% of the world's land area**, but supports a very large population. **Agriculture employs >50% workforce** and contributes **15-18% to GDP. Operational agricultural area**: ~159 million ha (Agriculture Census 2015-16). **Highly unequal land distribution**: ~101 million landless people (SECC + Agri Census), **4.9% farmers control 32% land and** large farmers own **~45× land** of a marginal farmer.

Indian Agriculture at Independence

1. **Growth of Landlessness & Tenant Exploitation:** Landlords leased land to superior tenants, employed agricultural labourers and extracted **exorbitant rents.** Resulted in insecure tenancy, growth of landless labour class.
2. **Structural Constraints on Agriculture: Decline of handicrafts and artisanal industries,** Lack of industrialisation increased **population pressure on land. Adverse land-man ratio**: ~0.92 acres per capita. Fragmentation due to **inheritance laws.**
3. **Food Shortage at Independence:** Colonial neglect led to low productivity and recurrent famines. Between **1946-53**, import of **14 million tonnes of foodgrains cost around** ~₹10,000 million. Severely constrained **planned economic development.**

After Independence, **the Indian National Congress (INC) appointed the Agrarian Reforms Committee headed by J.C. Kumarappa**, to conduct a study of the agrarian relations prevailing in the country.

Phases of Land Reforms in India post-Independence

1. **(1947-1950s): To** end colonial landlordism and correct historical injustice.
   a. **Abolition of Zamindari** & intermediary systems by states. Eg. UP Zamindari Abolition & Land Reforms Act, 1950. Ownership transferred directly to cultivators.
   b. **First Five-Year Plan (1951-56):** Linked land reforms with social justice & equity.
2. **(1950s-1960s):** Protect tenants and convert cultivators into owners. **Key Measures:**
   a. **Rent regulation** to prevent exploitation,
   b. **Security of tenure** for tenants, **Ownership rights** to long-term tenants. Eg. Operation Barga (WB, 1978): Registration of sharecroppers, legal rights, productivity gains.
   c. **Second Five-Year Plan (1956-61):** Focus on tenancy reforms.
3. **(1960s-1970s):** Reduce land concentration and redistribute surplus land.
   a. **State-wise land ceiling limits imposed**. **Eg.** Kerala Land Reforms Act, 1963: Most successful redistribution with ~2 million acres redistributed nationally by 1970s.
   b. **Surplus land redistributed** to landless & marginal farmers.
   c. **Third Five-Year Plan (1961-66):** Emphasised effective implementation.
4. **Green Revolution & Shift in Focus (1960s-1980s):**
   a. Productivity enhancement over redistribution. **Key Measures:** Technological reforms (HYV seeds, irrigation, fertilizers),
   b. **Bhoodan & Gramdan Movements** (Vinoba Bhave): Moral redistribution.
   c. **Land consolidation** to reduce fragmentation
   d. **Task Force on Agrarian Relations (1973):** Highlighted implementation gaps.
5. **Stagnation & Challenges (1980s-1990s):**

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

   a. Political resistance by landed elites, Weak bureaucracy & poor land records, Commercialisation marginalised small farmers.
   b. **Fourth & Fifth FYPs:** Acknowledged reforms but weak execution
6. **Contemporary Reforms (2000s-Present):**
   a. **Objective:** Address urbanisation, industrialisation & rights-based justice.
   b. **Key Measures: Forest Rights Act, 2006:** Tribal & forest dwellers' land rights, **RFCTLARR Act, 2013:** Fair compensation and rehabilitation, **Digital Land Records (DILRMP) Eg.** Bhoomi (Karnataka), **PM-SVAMITVA (2020):** Rural property mapping, **NITI Aayog Land Leasing Model (2016):** Formal tenancy markets, **MS Swaminathan Commission:** recommended land reforms for protection of small & marginal farmers.

Significance of Land Reforms for India

1. **Food Security & Productivity:** Essential for feeding ~1.6 billion population by 2047. Enables mechanisation, agri-tech, precision farming. Eg. Green Revolution states (Punjab, Haryana)
2. **Poverty Reduction & Livelihood Security:** Secure tenure leading to credit access which in turn facilitate investment. Strengthens tenant, tribal & women farmers. Eg. Operation Barga improved incomes & productivity
3. **Industrialisation & Infrastructure:** Transparent land markets attract FDI. Enables corridors, SEZs, logistics hubs. Eg. Gujarat Industrial Development Corporation (GIDC)
4. **Urbanisation & Smart Cities:** Land pooling supports inclusive urban growth. Affordable housing & transit-oriented development. Eg. Navi Mumbai Airport land pooling model
5. **Reducing Land Conflicts:** Land disputes cost India ~$10 billion annually. Digitisation + titling reduce litigation. Eg. PM-SVAMITVA Scheme
6. **Environmental Sustainability:** Sustainable land use combats degradation (~30% degraded). Agroforestry, soil conservation, carbon farming. Eg. Rajasthan agroforestry projects

Challenges in Realising Full Potential

1. **Fragmentation & Small Holdings:** 86% farmers <2 ha (Agri Census 2015-16). Limits mechanisation & economies of scale
2. **Outdated & Fragmented Laws:** 300+ land laws → legal confusion. Eg. Failure of 2015 Land Acquisition Bill
3. **Poor Land Records & Titling:** 60% holdings lack clear titles (NCAER, 2023). Fuels disputes & corruption
4. **Acquisition & Rehabilitation Conflicts:** Protests delay strategic projects. Eg. POSCO Odisha project
5. **Urban Land Scarcity:** Need ~25 million affordable homes by 2047. Hoarding & unclear land use policies. Eg. Dharavi redevelopment issues
6. **Gender & Tribal Exclusion:** Women own only 14% rural land. Weak FRA implementation → Adivasi displacement. Eg. Pathalgadi movement (Jharkhand)

Way Forward

1. **Digital & Transparent Land Governance:** End-to-end digitisation and blockchain integration. Eg. Estonia land registry
2. **Land Consolidation & Pooling:** Enables mechanisation & irrigation efficiency. Eg. China's collective farming reforms
3. **Gender-Inclusive Land Rights:** Joint titles, inheritance reform. Eg. Odisha Vasundhara Scheme; Rwanda LTRP
4. **Participatory Land Acquisition:** Fair compensation and consent-based pooling. Eg. Amaravati land pooling; Germany model.
5. **Tribal & Community Forest Rights:** Improves conservation & livelihoods. Eg. Gadchiroli (India), Ejidos (Mexico).
6. **Sustainable Land Use:** Incentivise conservation & climate resilience. Eg. Costa Rica's PES programme.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

Bhoodan & Gramdan Movements

1. **Bhoodan Movement (1951):** Led by **Acharya Vinoba Bhave.** Based on Gandhian **trusteeship,** Voluntary redistribution and Non-violent social transformation.
   a. **Methodology: Padayatra**: Village-to-village persuasion, Appeal to large landowners to donate **1/6th land,** Target: **50 million acres** (out of ~300 million cultivable acres).
   b. **Early Success:** Telangana region: ~200 villages covered, **12,200 acres donated in <3 months.**
   c. **Limitations of Bhoodan: Land reversals** by donors, **Corruption** in allotment: Bribes demanded by village authorities. Acceptance of **Disputed / litigated land**. Economic unviability as the average allotment was **0.5-3 acres.**
2. **Gramdan Movement (1955 onwards)**: Based on belief that land belongs to **"Gopal" (God), Collective ownership of village land,** Individual private ownership abolished.
   a. **Areas of Relative Success: Odisha** tribal villages, Low class differentiation and Minimal land ownership disparity.
   b. **Decline:** Donation of uncultivable land, Litigated land.

Shift Towards Radical Agrarian Politics (1970s)

Context: Mid-1960s crises: Inflation, Devaluation, Indo-Pak war. Rise of **Left-led land grab movements.** Active mobilisation by Communist & Socialist parties

Land Reform Implementation Committee (NDC, 1971)

a. **Key Recommendations:** Reduce ceiling limits substantially. Remove exemptions for "Efficient", Mechanised farms. Apply ceilings to **family units**, not individuals.
b. **Outcomes: 1972 Guidelines** -> revised ceiling laws. **34th Constitutional Amendment**: Revised ceiling laws added to **9th Schedule** Prevented judicial challenges.

Modernisation of Land Records

1. **Computerisation of Land Records (CLR):** Started: **1988-89:** Pilot in 8 states, Expanded to 259 districts (9th FYP) and **582 districts (2007).**
2. **Strengthening Revenue Administration & Updating Land Records (SRA-ULR):** Started: **1987.** Use of: GPS, Aerial surveys, Modern surveying equipment
3. **Committee on State Agrarian Relations (2008)**: **Recommendations:** Revisit ceiling limits (even **retrospectively**), Strong implementation of **FRA, 2006.** Greater representation of Women specially SC/ST women In land reform monitoring bodies.
4. **Land Acquisition, Rehabilitation & Resettlement Act, 2013:**
   a. **Salient Features:** Repealed **1894 Colonial Act became** effective from **1 Jan 2014.**
   b. **Key provisions:** Fair & just compensation, Mandatory **Social Impact Assessment (SIA),** Consultation with **Gram Sabha & LSGs,** Protection of fertile & multi-cropped land, Additional R&R for **SC/ST,** Independent **LARR Authority** for disputes.

Agrarian movements in India since Independence

1. **Telangana Peasant Struggle (1946-1951):**
   a. Severe feudal exploitation by Jagirdars, Deshmukhs. Led by **Communist Party of India (CPI)**.
   b. **Legislative response:** Jagirdari Abolition Regulation, Hyderabad Tenancy & Agricultural Lands Act, Introduction of land ceilings.
2. **Patiala Muzara (Tenants') Movement:**
   a. Biswedars transformed from revenue collectors to landlords. Cultivators reduced to tenants.
   b. **1949 Ordinance**: Abolition of Biswedari, Land division (1:3 between landlords & tenants).
   c. **Legislative Outcome: PEPSU Occupancy Tenants Act, 1954,** Tenants became owners on payment of compensation (12× land revenue).
3. **Naxalbari Movement (1967 onwards):**

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

a. **Causes:** Incomplete land reforms, Tribal displacement due to Mining, Dams, Forest clearance.
b. **Origin:** Village of **Naxalbari (West Bengal), 1967.** Leaders: Charu Mazumdar, Kanu Sanyal, Jangal Santhal.
c. **State Response: Operation Steeplechase (1971)**: Army & police deployment, Thousands arrested/killed

4. **Srikakulam Peasant Uprising (1967-1970):**
   a. **Background:** Tribal-dominated region (Andhra Pradesh), Inspired by Maoist ideology.
   b. **Organisation:** Girijan Sanghams, Mahila Sanghams.
   c. **Achievements:** Restoration of alienated tribal land, wage increases, debt reduction and access to forest produce.
   d. **Suppression:** Massive police action (1970), Arrest of ~1400 activists, Killing of key leaders, Movement collapsed.
5. **New Farmers' Movements (1980s onwards): Characteristics:** Issue-based, Non-ideological, Led by **prosperous capitalist farmers.** Focus on: Prices, Subsidies and State policies.
   a. **Bharatiya Kisan Union (BKU):** Origin: Haryana, Leaders: Charan Singh, Mahendra Singh Tikait. Stronghold: Western UP, Punjab & Haryana. **Key Agitation:** Shamli agitation (1987): Against power tariff hike.
   b. **Shetkari Sangathana (Maharashtra):** Leader: **Sharad Joshi,** Represents cash-crop farmers. Famous agitation: Rasta roko (1980), Achieved price hikes.
   c. **2020-21**: Protest against Farm Laws. Demands: Repeal of laws, Legal MSP, Swaminathan Commission (C2 + 50%).

Green Revolution in India

India's chronic food shortages after Independence forced reliance on US PL-480 food imports, creating external vulnerability and a "ship-to-mouth" situation. This experience pushed policymakers to launch the Green Revolution in the mid-1960s to achieve food self-sufficiency.

Aspects of the First Green Revolution (1960s-70s)

1. **High Yielding Varieties (HYVs)**:
   a. **Dr. M.S. Swaminathan (ICAR)** emphasized reorientation of India's crop-breeding programme from tall to dwarf varieties.
   b. **Norman E. Borlaug** was invited from Mexico in 1963 to assess feasibility of HYVs in India. He recommended **semi-dwarf Mexican wheat varieties**, given India's similar agro-climatic conditions.
   c. Two varieties (**Lerma Rojo** and **Sonora-64**) were introduced in irrigated areas. These varieties were fertilizer-responsive, had shorter stems (less lodging) and gave significantly higher yields.
   d. Led to a dramatic rise in wheat production, especially in **Punjab, Haryana, Western UP**. Borlaug was awarded the **1970 Nobel Peace Prize** for his contribution to the Green Revolution.
   e. Between 1970-80, India developed its own **amber-seeded, high-yielding dwarf wheat varieties**.
2. **Use of Chemical Fertilizers and Pesticides:** Recommended **NPK ratio: 4:2:1**
   a. **Nitrogenous**: Urea, ammonium sulphate, ammonium nitrate: Promote vegetative growth and protein synthesis.
   b. **Phosphatic**: Superphosphate, ammonium phosphate: Root development and energy transfer.
   c. **Potassic**: Potassium sulphate, potassium nitrate: Disease resistance and water regulation.
   d. **Pesticides** used to control insects, weeds, and diseases, ensuring crop protection and yield stability.
3. **Mechanization of Agriculture:**
   a. Expansion of cultivated area and multiple cropping created demand for speed and efficiency. Shortage of agricultural labour further pushed mechanization.
   b. **Major farm machines introduced:** Tractors and power tillers, Combine harvesters, Threshers, reapers, cultivators, Water pumps, sprayers, trolleys, land levellers.
4. **Irrigation Infrastructure:** HYVs were **water-intensive**, making assured irrigation a prerequisite.
   a. **Major irrigation sources:**

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

1. **Wells**: Dominant in plains, Over-exploitation in Punjab-Haryana belt.
2. **Canal irrigation**: Suitable for clayey soils, Practiced in Ganga-Yamuna basin and South India.
3. **River lift irrigation**: Used where canal flow is inadequate, Common in peninsular India.
4. **Tanks**: Small reservoirs capturing runoff, Important in southern and eastern India.

Positive Impacts of the Green Revolution in India

1. **Attainment of Food Self-Sufficiency and Food Security:** Transformed India from a food-deficit "begging bowl" to a food-secure nation & one of the world's largest producers of wheat and rice.
2. **Socio-Economic Development of Rural Areas:** Rising agricultural incomes stimulated rural demand and led to improvements in **roads, storage facilities, markets, electrification, and irrigation infrastructure**.
3. **Massive Increase in Agricultural Production and Productivity:** Introduction of **HYVs** (Eg. Sonora-64, Lerma Rojo for wheat; IR-8 for rice), along with irrigation, fertilizers, and pesticides, sharply raised yields per hectare.
4. **Increase in Farmers' Incomes:** Farmers in well-irrigated regions such as **Punjab, Haryana, and Western Uttar Pradesh** experienced significant income growth, enabling reinvestment in agriculture.
5. **Shift from Subsistence to Commercial Farming:** Market-oriented production expanded due to assured procurement, MSPs, and better connectivity.
6. **Growth of Allied and Agro-Based Industries:** Expansion of farm machinery, fertilizer, pesticide, and seed industries. Boost to **agro-processing and food-processing sectors**, strengthening rural-industrial linkages.

Negative Impacts of the Green Revolution

1. **Soil Degradation: Loss of soil fertility** due to monoculture and excessive chemical fertilizer use. **Salinisation and alkalisation** caused by over-irrigation (reh/kallar problem in Punjab-Haryana).
2. **Water Stress and Pollution: Groundwater depletion** due to water-intensive HYVs and unchecked tube-well irrigation. **Water pollution and eutrophication** from fertilizer and pesticide runoff.
3. **Loss of Biodiversity:** Replacement of diverse traditional crop varieties with a few HYVs reduced genetic diversity and resilience to pests and climate shocks.
4. **Rising Inequality:** Benefits concentrated among large farmers. Small and marginal farmers faced **Indebtedness, Land alienation,** Increased vulnerability to crop failure and market shocks.
5. **Regional Disparities:** Concentration of gains in north-western India widened **inter-state and intra-state inequalities**.
6. **Rural-Urban Migration:** Mechanisation reduced labour demand, accelerating migration to cities.
7. **Nutritional Insecurity (Hidden Hunger):** Over-emphasis on wheat and rice led to decline of **millets, pulses, and oilseeds**, contributing to micronutrient deficiencies.

Way Forward

1. **Promoting Sustainable Agriculture: Reduced chemical dependence** through organic manures, bio-fertilisers, and bio-pesticides. **Integrated Nutrient Management (INM)** and **Integrated Pest Management (IPM)** to protect soil and ecosystems.
2. **Precision and Resource-Efficient Farming:** Expansion of **drip and sprinkler irrigation**. Strengthening **Soil Health Card Scheme** for scientific nutrient application.
3. **Diversification of Cropping Systems:** Shift away from rice-wheat monoculture. Promotion of **pulses, oilseeds, millets**, and **horticulture** for nutritional and income security.
4. **Strengthening Farmer Support Systems:** Scaling up **Farmer Producer Organisations (FPOs)**. Investment in **post-harvest infrastructure**, cold chains, and logistics. Ensuring **timely, affordable credit** and insurance.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

5. **Research and Innovation:** Enhanced funding for **ICAR, SAUs**, and international institutions like **CIMMYT** for climate-resilient crop varieties and climate-smart agriculture.

Second Green Revolution

Towards Sustainable Livelihoods:

Rationale

The First Green Revolution focused on **food security**, not sustainability. Environmental degradation and regional imbalance necessitated a new strategy.

Need for Second Green Revolution

1. Rising population and pressure on land resources
2. 65% population rural; 70% dependent on agriculture
3. Rain-fed areas largely excluded from first Green Revolution
4. Groundwater depletion, soil salinity, eutrophication
5. Stagnant agricultural growth
6. Climate change threats (coastal submergence, erratic monsoons)
7. Controversies surrounding GM crops

Objectives of Second Green Revolution

1. Sustainable increase in productivity
2. Ecological balance preservation
3. Employment generation for small and marginal farmers
4. Reclamation of degraded lands
5. Women empowerment (65-70% agricultural labour force)

Bringing Green Revolution to Eastern India (BGREI)

Aimed at extending Green Revolution benefits to eastern India. Flagship programme under **Rashtriya Krishi Vikas Yojana (RKVY)**. Announced in the Union **Budget 2010-11**. **Coverage:** Assam, Bihar, Chhattisgarh, Jharkhand, Odisha, West Bengal, Eastern UP.

Objectives

1. Harness underutilized water potential
2. Increase rice-based cropping system productivity
3. Improve agronomy, water conservation, and input efficiency
4. Promote region-specific agricultural technologies

Environmental Movements in India

India's post-independence development trajectory marked by rapid industrialisation, urbanisation, large dams, mining, and energy projects has often conflicted with environmental conservation.

Major Environmental Movements in India

1. **Bishnoi Movement (1700s), Rajasthan:** Led by Amrita Devi and Bishnoi villagers in Khejarli to protect sacred Khejri trees. Around 363 villagers sacrificed their lives by hugging trees, influencing later conservation ethics.
2. **Chipko Movement (1973), Uttarakhand:** Led by Sundarlal Bahuguna, Gaura Devi, and Chandi Prasad Bhatt against commercial logging. Villagers hugged trees to prevent felling, leading to a 15-year ban on green felling in Himalayan forests.
3. **Save Silent Valley Movement (1973-84), Kerala:** Led by KSSP and Sugathakumari against a hydroelectric project on the Kunthipuzha River. Resulted in cancellation of the project and declaration of Silent Valley National Park.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

4. **Appiko Movement (1983), Karnataka:** Led by Pandurang Hegde against deforestation and monoculture plantations in Uttara Kannada. Promoted afforestation, forest conservation, and sustainable use.
5. **Narmada Bachao Andolan (1985 onwards), MP-Gujarat-Maharashtra:** Led by Medha Patkar and Baba Amte against large dams, especially Sardar Sarovar, highlighting displacement, rehabilitation, and environmental concerns. Influenced World Bank withdrawal in 1993.
6. **Tehri Dam Movement (1980s-90s), Uttarakhand:** Led by Sundarlal Bahuguna against the Tehri Dam due to seismic risks and displacement concerns. Dam was eventually constructed with safeguards.
7. **Kudankulam Nuclear Plant Protests (1988 onwards), Tamil Nadu:** Protests against nuclear safety risks, inadequate EIA, and threats to fishermen livelihoods, especially after the Fukushima disaster.
8. **Sterlite Copper Plant Protests (1993 onwards), Tamil Nadu:** Public protests in Thoothukudi against industrial pollution and health hazards linked to the copper plant; intensified after gas leak incidents.
9. **Save Aarey Forest Movement (2019), Maharashtra:** Citizens and tribal groups opposed felling of around 2,700 trees for a Mumbai Metro car shed project. Part of Aarey was later declared a Reserve Forest.
10. **Save Dol Ka Badh Movement (2024-25), Jaipur:** Protest against clearing a 100-acre urban forest for commercial development; highlighted urban heat-island concerns.
11. **Kancha Gachibowli Protests (2025), Hyderabad:** Student-led protests against large-scale tree felling and urban forest clearance for commercial projects.
12. **Aravalli Protection Movements:** Campaigns against mining, deforestation, and encroachment to conserve the Aravallis' ecological and groundwater role.

Foreign Policy and External Relations

1. **Non-Alignment and Nehruvian Foreign Policy:**
   a. **Background:** Post-1945 world divided into two power blocs: **USA-led NATO and USSR-led Warsaw Pact.**
   b. India, under **Jawaharlal Nehru**, chose an **independent foreign policy path**. **Meaning of Non-Alignment: Not joining any military bloc,** Retaining **freedom of decision-making** on international issues and **Active engagement**, not neutrality or isolationism.
   c. **Ideological Foundations: Panchsheel (1954)**: Five Principles of Peaceful Coexistence:

1. Mutual respect for sovereignty,
2. Non-aggression,
3. Non-interference,
4. Equality and mutual benefit and
5. Peaceful coexistence.

Reflected India's **civilisational and moral approach** to world affairs

1. **Non-Aligned Movement (NAM):**
   a. Founded at **Belgrade Conference (1961).** Key leaders include **Jawaharlal Nehru (India), Josip Broz Tito (Yugoslavia), Gamal Abdel Nasser (Egypt)** etc.
   b. **Objectives:** Voice of newly independent nations, Anti-colonialism and World peace and disarmament.

Reasons for India's Adoption of NAM

1. India adopted NAM to **avoid military alliances** and preserve strategic autonomy in a bipolar Cold War order.
2. Realist security concerns shaped NAM, as India lacked the **military and economic capacity** to sustain bloc politics.
3. Pragmatism under Nehru balanced **idealism with national interest**, allowing selective engagement with both blocs.

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

4. NAM was rooted in **Panchsheel**, emphasizing peaceful coexistence, sovereignty, and international law.
5. Indian exceptionalism drove NAM as a means to assert **civilizational identity and leadership of the decolonized world**.

India's Contribution to NAM

1. India preserved the **strategic autonomy and relevance of NAM**, preventing its capture by any superpower even after the Cold War.
2. It championed **political and economic support for newly independent nations**, opposing external intervention and aiding nation-building
3. India led NAM's **anti-colonial and anti-imperialist agenda**, accelerating decolonization in Asia, Africa, and the Middle East.
4. Through NAM, India consistently pushed for **global disarmament and nuclear restraint**, highlighting inequities in nuclear regimes.
5. India was a key advocate of the **New International Economic Order (NIEO)**, promoting South-South cooperation and economic sovereignty.

1. **Relations with Superpowers:**
   a. **USA:** Strained ties due to US military alliance with Pakistan and suspicion of India's socialist orientation.
   b. **USSR:** Generally warm relations post-1950s. Support on Kashmir (UN veto) and Heavy industries and public sector. Formalised by **Indo-Soviet Treaty (1971)**
2. **India Pakistan Relations:**
   a. **Structural Causes of Hostility: Partition legacy, Kashmir dispute and** Ideological and territorial rivalry.
   b. **Major Wars and Conflicts:**

1. **1947-48 War** - Accession of Kashmir,
2. **1965 War** - Initiated by Pakistan; ended with **Tashkent Agreement,**
3. **1971 War** - Led to creation of Bangladesh and
4. **1999 Kargil Conflict** - Pakistani intrusion across LoC.
   a. **Persistent Issues:** Cross-border terrorism, Siachen Glacier dispute, Water sharing, Ceasefire violations etc.
   b. **Indus Waters Treaty (1960):**

1. **Background:** Signed on **19 September 1960** brokered by the **World Bank**.
2. **Key Provisions: India**: Eastern Rivers - Ravi, Beas, Sutlej while **Pakistan**: Western Rivers - Indus, Jhelum, Chenab. India permitted **non-consumptive uses** (hydropower) on Western Rivers.
3. **Legacy and Recent Developments:** Survived wars of **1965, 1971, 1999,** Institutional mechanism: **Permanent Indus Commission (PIC). April 2025**: India suspended the treaty after the **Pahalgam terror attack,** Halted data sharing, Accelerated hydropower projects. Reflects shift from **cooperative diplomacy to security-centric realism.**
   a. **1971 Indo-Pak War and Liberation of Bangladesh:**

1. **Crisis in East Pakistan: 1970 elections**: Awami League (Sheikh Mujibur Rahman) won majority. The West Pakistani military refused to transfer power.
2. **Operation Searchlight (March 1971)**: Brutal military crackdown, Civil war and genocide, ~10 million refugees fled to India.
3. **India's Role:** Diplomatic, economic, and military support to **Mukti Bahini,** Indira Gandhi's diplomatic outreach, **Indo-Soviet Treaty (August 1971)** to counter US-China pressure, Pakistan's pre-emptive air strikes (Dec 3, 1971) led to full-scale war.
4. **Military Outcome:** Indian forces achieved victory in **13 days, Instrument of Surrender** signed in Dhaka on **16 December 1971 leading to the birth** of **Bangladesh.**
5. **Simla Agreement (1972):**

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

a. **Core Principles:** Bilateral resolution of disputes, Respect for **Line of Control (LoC),** Renunciation of force, Normalisation of relations, Return of **93,000 Pakistani POWs.**
b. **Contemporary Relevance:** Cross-border terrorism (Eg. **Pahalgam attack**) violates renunciation of force, Sanctity of LoC. **India** insists on bilateralism and **Pakistan** attempts internationalisation of Kashmir

1. **Post-Cold War Shift in Indian Foreign Policy:**
   a. **Context:** Collapse of USSR (1991), Economic liberalisation, Emergence of a unipolar world.
   b. **Declining Relevance of Classical Non-Alignment:** Original bloc-based logic obsolete and NAM membership retained but **less central.**
   c. **New Foreign Policy Orientation: Pragmatism over ideology, Multi-alignment / Strategic autonomy and** Engagement with all major powers based on issue-based interests.
   d. **Key Policy Shifts: India-US Relations.** From "estranged democracies" to strategic partners: **Indo-US Civil Nuclear Deal (2008).**
   e. **Look East to Act East Policy:** Deepening ties with ASEAN, East Asia.
   f. **Economic Diplomacy:** Trade, investment, energy security.
   g. **Assertive Regional Role:** India as **net security provider** in Indian Ocean Region.

Scientific Developments since independence

Phase 1

Laying the Infrastructure (1947-1960s)

- **1948:** The **Atomic Energy Act** is passed, leading to the creation of the **Atomic Energy Commission** (AEC) under Dr. Homi J. **Bhabha** to pioneer indigenous nuclear research.
- **1950:** The National Physical Laboratory (Delhi) and the National Chemical Laboratory (Pune) are inaugurated, anchoring early industrial research under the **CSIR**.
- **1951:** The country's first premier technical institute, **IIT Kharagpur**, is established to train world-class engineers.
- **1954:** The Department of Atomic Energy (DAE) is formed.
- **1956: Apsara**, Asia's first nuclear research reactor, goes critical at Trombay, Mumbai.
- **1958:** The **Defence Research and Development Organisation (DRDO)** is established to drive military and defense self-reliance.
- **1962:** The Indian National Committee for Space Research **(INCOSPAR)** is set up under Dr. Vikram Sarabhai, laying the groundwork for India's space program.

Phase 2

Achieving Self-Sufficiency (1960s-1970s)

- **1963:** The launch of a **Nike-Apache** sounding rocket from Thumba, Kerala, marks the birth of India's space flight era.
- **1965-1968:** The **Green Revolution** is launched. High-yielding wheat and rice varieties (pioneered by Dr. M.S. Swaminathan) transformed India from a food-deficient importer to a food-surplus nation.
- **1969:** The Indian Space Research Organisation (**ISRO**) is officially established.
- **1970: Operation Flood (White Revolution)** begins under Dr. Verghese Kurien, using cooperative dairying and cold-chain innovations to turn India into the world's largest milk producer.
- **1974:** India enters the nuclear age with **"Smiling Buddha"** at Pokhran, Rajasthan-its first successful peaceful underground nuclear test.
- **1975: Aryabhata**, India's first indigenous satellite, is launched into orbit.

Phase 3

Missiles, Computing, & Biotech (1980s-1990s)

WARNING: This COPY is ENCRYPTED and FOR PERSONAL USE ONLY. Any unauthorised use will attract legal action.

- **1980:** The **SLV-3** rocket successfully places the **Rohini satellite** into orbit, making India an elite member of spacefaring nations with domestic launch capabilities.
- **1983:** The **Integrated Guided Missile Development Programme (IGMDP)** is launched under Dr. A.P.J. Abdul Kalam, birthing iconic missile systems like **Prithvi and Agni.**
- **1984: Rakesh Sharma** becomes the first Indian citizen in space aboard the Soviet spacecraft Soyuz T-11.
- **1988:** Scientists at CSIR-CCMB indigenously develop **DNA fingerprinting probes**, making India the third country globally to master this forensic tech.
- **1991:** Denied foreign supercomputers due to tech embargoes, India builds **PARAM 8000**, its first indigenous supercomputer developed by C-DAC.
- **1993:** The maiden successful launch of the **PSLV** (Polar Satellite Launch Vehicle) takes place, which would eventually become the global "workhorse" for satellite deployment.
- **1998: Pokhran-II** series of five underground nuclear weapon tests are conducted, formally establishing India as a nuclear weapons state.

Phase 4

Space Frontiers & Digitalization (2000s-2010s)

- **2008: Chandrayaan-1**, India's first lunar mission, is launched. Its Moon Impact Probe detects definitive evidence of water molecules on the lunar surface.
- **2013:** ISRO launches the **Mars Orbiter Mission (Mangalyaan)**. In 2014, India successfully entered Martian orbit on its very first attempt and at a fraction of Western mission costs.
- **2014:** The World Health Organization (WHO) officially certifies India **Polio-Free**, capping off one of the largest medical and logistical immunization drives in history.
- **2015: Astrosat**, India's first dedicated multi-wavelength space observatory, is successfully launched.
- **2016:** The rollout of the Unified Payments Interface (**UPI**) revolutionizes global fintech, scaling real-time, public digital infrastructure to billions of transactions.
- **2017:** ISRO sets a world record by launching **104 satellites** on a single PSLV rocket.

Phase 5

Deep Tech & Autonomous Frontiers (2020-2026)

- **2020:** The Union Cabinet approves the **National Quantum Mission** to accelerate R&D in quantum computing, communication, and cryptography.
- **2021:** India rolls out **Covaxin** (developed by Bharat Biotech) and **Covishield**, executing one of the fastest domestic and international vaccine manufacturing and distribution campaigns during the pandemic.
- **2022:** The launch of **Vikram-S** marks India's first privately developed rocket flight, signaling the complete opening of the domestic space sector to private enterprise.
- **2023: Chandrayaan-3** successfully lands near the **Lunar South Pole**, making India the first nation to reach this treacherous zone and the fourth to soft-land on the Moon.
- **2024:** The **Aditya-L1** spacecraft successfully enters its halo orbit around the Sun-Earth Lagrangian Point 1 to study the solar atmosphere.
- **2025-2026:** Unmanned orbital test flights for the **Gaganyaan** program progress alongside the deployment of the **NISAR** satellite (a joint NASA-ISRO dual-band radar mission tracking global environmental changes).

CIVILSDAILY IAS

Smash Mains 2027

A focused Mentorship to improve your GS Mains Score from 300 to 450+

TARGET: UPSC CSE MAINS 2027

1:1 Personalized Mentorship
Weekly mentor calls, tailored study plans & post-test course correction

12 GS FLTs + 10 Sectional Tests
70% Mains Hit Ratio, Model Answers & All India Rankings

X-Factor Classes + Notes
Smash Essay + Smash PYQ Enriched GS notes and strategy classes the topper-level edge

X-Factor Classes & Notes

1:1 Mentorship & Tests
