GENERAL STUDIES – 2 (GS2)

Subjects Covered :- Governance, Constitution, Polity, Social Justice and International Relations

- **Constitution & Polity**

1. Indian Constitution—Historical Underpinnings, Evolution, Features, Amendments, Significant Provisions and Basic Structure.
2. Functions and Responsibilities of the Union and the States, Issues and Challenges Pertaining to the Federal Structure, Devolution of Powers and Finances up to Local Levels and Challenges Therein.
3. Separation of Powers between various organs Dispute Redressal Mechanisms and Institutions.
4. Comparison of the Indian Constitutional Scheme with that of Other Countries.
5. Parliament and State Legislatures—Structure, Functioning, Conduct of Business, Powers & Privileges and Issues Arising out of these.
6. Structure, Organization and Functioning of the Executive and the Judiciary—Ministries and Departments of the Government; Pressure Groups and Formal/Informal Associations and their Role in the Polity.
7. Salient Features of the Representation of People's Act.
8. Appointment to various Constitutional Posts, Powers, Functions and Responsibilities of various Constitutional Bodies.
9. Statutory, Regulatory and various Quasi-judicial Bodies.

- **Governance**

10. Government Policies and Interventions for Development in various sectors and Issues arising out of their Design and Implementation.
11. Development Processes and the Development Industry — the Role of NGOs, SHGs, various groups and associations, donors, charities, institutional and other stakeholders.
12. Important Aspects of Governance, Transparency and Accountability, E-governance-applications, models, successes, limitations, and potential; Citizens Charters, Transparency & Accountability and institutional and other measures.
13. Role of Civil Services in a Democracy.

- **Social Justice**

14. Welfare Schemes for Vulnerable Sections of the Population by the Centre and States and the Performance of these Schemes; Mechanisms, Laws, Institutions and Bodies constituted for the Protection and Betterment of these Vulnerable Sections.
15. Issues Relating to Development and Management of Social Sector/Services relating to Health, Education, Human Resources.
16. Issues relating to Poverty and Hunger.

- **International Relations**

17. India and its Neighborhood- Relations.
18. Bilateral, Regional and Global Groupings and Agreements involving India and/or affecting India's interests.
19. Effect of Policies and Politics of Developed and Developing Countries on India's interests, Indian Diaspora.
20. Important International Institutions, agencies and fora - their Structure, Mandate.

Social Justice

1. Welfare Schemes for Vulnerable Sections of the Population by the Centre and States and the Performance of these Schemes; Mechanisms, Laws, Institutions and Bodies constituted for the Protection and Betterment of these Vulnerable Sections.
2. Issues Relating to Development and Management of Social Sector/Services relating to Health, Education, Human Resources.
3. Issues relating to Poverty and Hunger.

Welfare Schemes for Vulnerable Sections of the Population by the Centre and States and the Performance of these Schemes; Mechanisms, Laws, Institutions and Bodies constituted for the Protection and Betterment of these Vulnerable Sections

Topic : Various schemes & policies to improve Socio-Economic conditions of Vulnerable sections of Society

Q.16) Assess the performance of various schemes and policies undertaken to improve the socio-economic conditions of vulnerable sections of society. What measures do you suggest to enhance their performance? (15 marks, 250 words)

समाज के कमजोर वर्गों की सामाजिक-आर्थिक स्थिति सुधारने के लिए शुरू की गई विभिन्न योजनाओं और नीतियों के प्रदर्शन का आकलन कीजिए।उनके प्रदर्शन को बेहतर बनाने के लिए आप क्या उपाय सुझाएँगे? (15 अंक, 250 शब्द)

India is a welfare State that works on Rawlsian Principle to improve condition of Vulnerable sections, — DPSP (Article 37 of)

AIR28 – Rishabh Choudhary

Performance of Various Schemes — limitations

1. Lack of targeting : PVTG Mission — often lopsided & regional disparities
2. Limited finances : Beti Bachao Beti Pachao — Marred in inefficiencies. & lack of funds
3. Corruption & graft — MGNREGA, PDS System for ~~food~~ livelihood & food security
4. Inclusion & exclusion errors — Child labour protection Programs like PENCIL Portal.

5. Top-down approach : eg PM KISAN, Solar pump scheme.

6. Environment damaging : Subsidies on fertilizers & pesticides → Overuse of them. → runoff & eutrophication.

7. Limited targeting of vulnerable among vulnerables – PwD's LGBTQ+.

Measures needed to improve performance

1. Decentralised execution – eg Success of Swachh Bharat Abhiyan

2. Using technology : eg DBT Transfers & JAM trinity – financial inclusion.

3. Local capacity development – training PRI officials & civil servants – Mission Karmyogi & iGOT platform

4. Rope in NGO & CSO – eg Akshaya patra Improved Mid day meal scheme

5. Accountability — eg Social Audits like for MGNREGA extended to other schemes.

6. Participatory planning based on Community needs — eg Kerela people Policy Plan.

7. Increase last mile delivery — eg Prashasan Gaon ki aur scheme.

8. Reduce regional disparities — Aspirational Block Program

9. Target Most Vulnerables — subcategorisation of SC & Creamy layer [M Nagraj & Ews judgement]

10 ~~Gov~~ Strengthen deliberation — & increase Public participation in ~~Re~~ laws & Rules

Welfare schemes must be reformed so as to best subserve the common good (Article 39)

e

Topic : Forest Rights Act & associated Tribal Justice

VAJIRAM & RAVI

16. The Forest Rights Act, 2006 was a historic effort in doing justice to the tribal community.' Evaluate the status of its implementation and suggest measures for improvement.

(15 marks, 250 words)

"Tribal Panchsheel" given by JL Nehru has acted as a guiding light for our policies towards the Tribal communities and has helped us to take step towards undoing the historical injustice.

Forest Right Act, 2006

AIR1 – Shakti Dubey

The Act was brought into picture after realising the importance of joint management of natural resources in forest by cooperation among the Forest & it's communities.

Provision of Act :-

(1) It recognises the rights of Tribal communities with respect to forest

(2) It defines the forest products into - Major & Minor forest produce

36

(3) The tribal communities have right to use the minor forest produce

(4) It prevents the transfer of tribal/forested land to non-tribal individual.

(5) It is based on idea of allowing tribes to develop along their own genus.

The Act was brought to ensure a balance between :-

- Sustainable forest management
- respecting the rights of Tribals

Status of its implementation :-

(1) Despite almost two decades of it's implementation - the tribes continue to face repression & eviction

(2) Their indigenous and traditional practices like - Slash & Burn cultivation are highly controlled in forested area.

(3) With expansion of urbanisation, the forest lands are been cleared without proper rehabilitation of tribal community.

This posses a challenge to the rights and liberties of the tribal community

WAY FORWARD :-

(1) There is a need to revisit the act & amend certain provision to make its implementation more stronger

(2) The act must be amended after consulting all the stakeholder

(3) Strict rehabilitation norm to be added in case of eviction.

Thus the act needs to be revisited in order to ensure it's relevance.

Topic : Fairness of Reservation & SC/ST Sub-categorization

15. Explain how the Supreme Court's recent judgement on SC/ST sub-categorization affects the fairness of reservation benefits. **(15 marks, 250 words)**

India is a welfare state - which uses affirmative action to provide for social, economic and political benefit.

SC/ST subcategorisation :-

Major issues with reservation systems in India is :-

AIR1 – Shakti Dubev

1. exclusion - inclusion error
2. lack of socio-economic & caste data
3. concentration of benefits with the advanced / creamy layer
4. lack of regular updation in the caste list by the President

This creates issue of lack of fairness and defeats the purpose of

Reservation

Supreme court Judgement :-

(1) Recently SC has asked for subcategorisation in SC/ST to avoid benefits to creamy layer.

(2) Indra Sahney Judgement - SC has called for creamy layer recognition in OBC

Aim of subcategorisation :-

1. Leads to better policy making
2. Targetted benefit to the required section
3. ensure socio-economic Justice
4. will lead targeting of lower section based on Gandhi's Talisman

Therefore SC decision will ensure equitable sharing of benefits.

Topic : Achieving tribal justice through distributive justice & youth empowerment

Do you agree that the road to tribal justice lies in bringing distributive justice and empowering the youth? Justify. (15 marks, 250 words)

Tribals constitute 8% of India's population but 25% of India's poor (census) (world Bank)

∴ Road to tribal justice

AIR44 – Nandanaa GP

I. Distributive justice

① Schedule 5 & Schedule 6 to ensure power distribution

② Distr Mineral foundation, license of Gramsabha for minor mineral exploration ensure economic distribution.

③ PESA Act & Autonomous District Council to ensure political distribution

II Empowering youth

① Ensuring equitable development of region
eg Aspirational district program

② More employment opportunities

for the youth
Eg ⇒ Bihar has recruited tribal women police regiment

③ selecting power people from themselves
Eg ⇒ BSF recruit from left wing extremism area ⇒ Practical + formal experience

④ Education as a pillar of empowerment
Eg ⇒ Ekalavya schools.

⑤ Improving health outcomes of region
Eg ⇒ Thumboli Ayyaj IAS — established tribal hospital in Telengana — reduced travel of 160 km.

Yet, **Issues persist**

① Beaurocratic persecution affecting basic human rights
Eg ⇒ Vachathi persecution case — a whole village exploitated

(2) Fruits of development not reaching all
eg Tribal stunting is 40%. (greater than 30% national average)
(3) Land rights denied leading to protests eg Pathalgadi movement
(4) Exploitation by multinational companies affect their livelihood
eg Vedanta – Niyamgari hill protest

Way Forward – Tribal panchsheel

(1) No forced enforcement of external culture on them.
(2) selecting administrators from themselves.
(3) Approach them in their own language

As panchsheel envision, India should stand as not only a protecting force but also a liberating one – to ensure Article 46

Topic : Scheduled Tribes upliftment – Role of SHGs

'Scheduled Tribes in India suffers from major deprivations and lack access to entitlements.' In the light of the statement, explain the potential impact of Self-Help Groups (SHG) in empowerment of Tribal communities.

(Answer in 250 words) 15

Schedule tribes compose of 8% of India's population (according to Census 2011).

AIR95 – Devika Priyadersini

Major deprivations of STs

- Poor health indicators – high levels of IMR & MMR (due to lack of institutional delivery)
- Multidimensional poverty – 50% of STs are poor (NITI Aayog)
- Low levels of literacy = 59% when national level = 74% (Census 2011)
- Declining population & livelihood opportunities
- Issue of displacement → Dams → Tiger Reserves

Lack of access
- → Lacks awareness on entitlements (major reason = illiteracy)
- → Being located in rural & remote forested areas.
- → Existence of fraudsters (eg) Misused tribal rights under Forest Rights Act.

Lack of integration to modern money economy - follows of Adivasi economic (Felix Padel concept)

SHGs are ~~so~~ associations of people from homogeneous background to work towards economic, social & political empowerment.

These are 7 million ~~NGOs in~~ SHGs in India according to CSO

Potential impact of SHG in improvement of tribals

1) Improve awareness of tribal right

2) Take government schemes to grass root tribal community (eg) Mission Shakti of Odisha.

3) Improve tribal standard of living (eg) Kudumbasree activities in Attapady.

4) Empowering tribal children (eg) Balbandhu scheme of SHG

5) Integrating trade of tribals with mainstream (eg) Jeeyu platform - honey trading.

6) Digital empowerment of tribes. (eg) ABCD campaign in Wayanad

Challenges faced:
- shortage of fund
- Expertise only in niche areas
- Low tribal participation

As a solution, government schemes like SHG Bank Linkage, PM MUDRA etc can empower SHGs to work towards upliftment of tribes from deprivations.

Topic : Ineffectiveness of Manual Scavenging Prohibition Law (PEMSR Act)

Q.2) The Prohibition of Employment as Manual Scavengers and their Rehabilitation (PEMSR) Act, 2013 has proved ineffective in face of socio-economic realities. Comment. (10 marks, 150 words)

मैनुअल स्कैवेंजर्स के रूप में रोजगार का निषेध और उनका पुनर्वास (PEMSR) अधिनियम, 2013 सामाजिक–आर्थिक वास्तविकताओं के सामने अप्रभावी साबित हुआ है। टिप्पणी कीजिए। (10 अंक, 150 शब्द)

Manual scavenging refers to cleaning of sanitation pits without adequate Machinary and safety through hands.

According to NCRB, over 98% of Manual Scavengers are from S.C.,

AIR28 – Rishabh Choudhary

Ineffectiveness of PEMSR Act–

1. Caste based discrimination; S.C. often employed to do the inhumane work.
2. Lack of alternative livelihoods in the Manual Scavengers due to lack of education and skills.
3. Reemployment in Manual scavenging for income due to discrimination and limited rehibilitation success.

4. Privatisation of Manual scavengers: with Societies employing them illegally due to legal prohibition
(eg Deaths reported in cities of workers not employed by local bodies.

Reforming and Rehabilitating Manual Scavengers

1. Adequate & Sustainable livelihood opportunity
(eg DAY-NRLM enrollment.

2. Mechanised tools for cleaning
(eg NAMASTE scheme.

3. Public awareness about (legal prohibition).
(eg Social Media campaign for sensitization.

4. Employment generation in Public sector
(eg PM Rozgar Mela Yojna.

Prohibition of manual scavenging as most inhumane practice is essential for human dignity and protecting rights and liberties of all.

Topic : POCSO Act

POCSO अधिनियम के गुणों के बावजूद, इसकी मौजूदा कमियों को दूर करने के लिए क्या इस पर पुनर्विचार किया जाना चाहिए? (उत्तर 150 शब्दों में दीजिए)

Despite its merits, should the POCSO Act be revisited to correct the existing inadequacies? (Answer in 150 words) 10

The POCSO Act is an important legislation which is aimed at reducing the incidents of children's sexual abuse and ensuring fair delivery of justice.

AIR2 – Harshita Goyal

Merits of POCSO Act

1) Dedicated authority to monitor & tackle the incidents of child abuse

2) Psychological support to the victim.

3) Protection of child rights & ensuring fair justice.

4) Fulfillment of International committment under NCPCR.

5) Penal mechanism for effective enforcement.

www.visionias.in 20

Need to revisit: Inadequacies in POSCO

1) Several cases of consensual intercourse gets wrongly tied under POSCO.
↳ Need to consider tacit approval

2) The definition of Child needs reconsideration. (currently below 18)
↳ Increasing awareness of sexual autonomy.

3) Very low conviction rates under POSCO & huge pendencies.
↳ Hamper its effectiveness.

4) Inadequate protection of victim's identity – Social ostracization

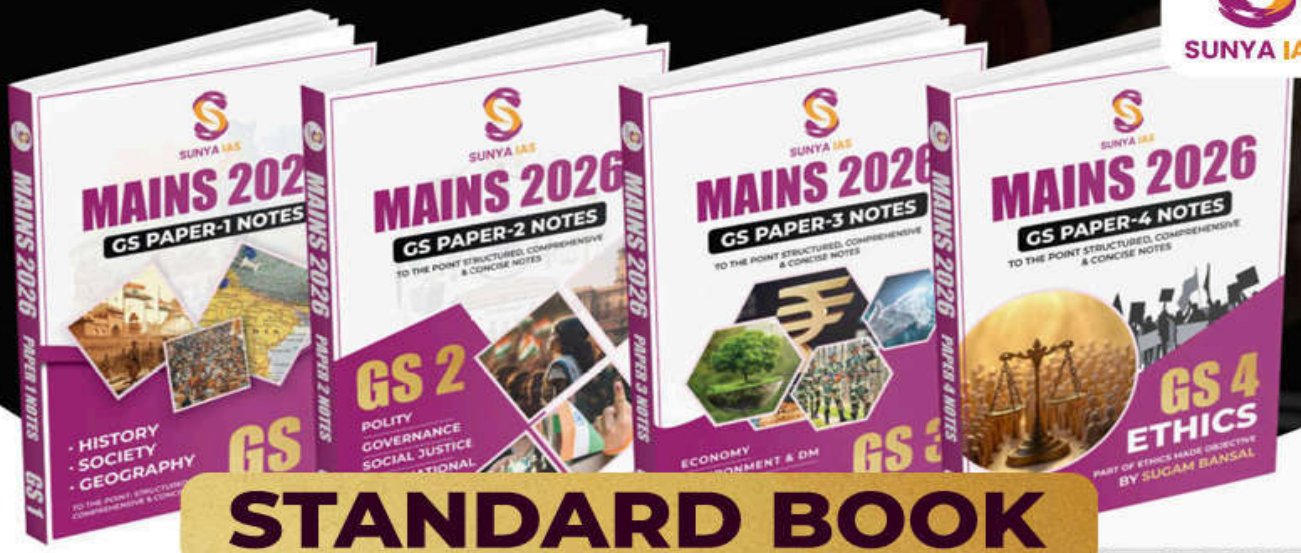

Hence there is a need to set up a task force to deliberate on impending issues in POCSO & recommend reforms to enhance its effectiveness.

www.visionias.in

Topic : Implications of POCSO Act on rights & welfare of Children in India

NEXT IAS Pg 42

Candidates must not write on this margin

Q18. भारत में बाल अधिकारों और कल्याण पर पोक्सो (POCSO) अधिनियम के क्या निहितार्थ हैं? बाल संरक्षण के लिए भारत के विधिक ढांचे को परिवर्तित करने में POCSO अधिनियम की भूमिका का विश्लेषण करें। (250 शब्द, 15 अंक)

What are the implications of the POCSO Act on the rights and welfare of children in India? Analyze the role of the POCSO Act in transforming India's legal framework for child protection. (250 words, 15 marks)

Protection ~~Prevention~~ of Children from Sexual Offences (POCSO) Act was enacted to ensure the protection of children from certain offences and punishing the guilty.

AIR9 – Aditya Agarwal

Features of the Act →
- punishes the acts of sexual nature towards minor
- Sets the age of 18 years for both boys and girls to define minor
- punishes sexual intercourse among minors.
- Awareness generation.

Implication of the Act on the rights and welfare of the minor:

→ Provides a free space for the development of minor

→ Strict punishment helps as a deterrent to sexual misconduct.

NEXT IAS Pg 43

Candidates must not write on this margin

- Right of minor to liberty and opportunities enhanced
- Punishes the cases of teen pregnancy, child marriage — ensuring women empowerment.
- Provides opportunity for education and self development by prohibiting any conduct that affects mental health.

It has transformed the Indian legal framework in the following ways:-

i) Rights and welfare of children put at the forefront

ii) Recognises the rights of minor against sexual acts.

iii) Minimum age of sex for consenting adults defined

iv) The minor – adult criteria utilised to solve other legal cases to determine the acts of accused.

However, some lacunae in the act exists

i) Punishes consenting sex among persons of ~~same age~~ minor age.

ii) Fast track courts set up under the act sometimes delay the punishment

iii) Punishment to husband of minor leads to other issues

iv) low focus on rehabilitation and reformation.

Most of the ~~cases~~ cases of sexual harassment are not reported due to proximity of relation of perpetrator and the victim.

A justice system which encourages reporting, strict, and efficient is needed to implement the Act in letter and spirit. Definition of minor must be made uniform to better implement it

Topic : POCSO Act (Alternate Perspective)

8. POCSO अधिनियम के गुणों के बावजूद, इसकी मौजूदा कमियों को दूर करने के लिए क्या इस पर पुनर्विचार किया जाना चाहिए? (उत्तर 150 शब्दों में दीजिए)
Despite its merits, should the POCSO Act be revisited to correct the existing inadequacies? (Answer in 150 words) 10

उम्मीदवारों को इस हाशिए में नहीं लिखना चाहिए
Candidates must not write on this margin

The POSCO Act was enacted to protect children from abuse and sexual exploitation as per some studies one in two children in India have faced sexual abuse.

AIR12 – Ashi Sharma

Merits
- gender neutral law
- special courts
- rehabilitation of children.

Existing Inadequacies

1. lack of adequate special courts across the country leading to delays.
2. low conviction rate leading to high acquittals.
3. lack of awareness regarding provisions
4. age of consent also criminalises genuine juvenile relationships which are consentual
5. misused by parents of young girls to protect family honour

www.visionias.in

20

(6) tribals face prosecution as early marriage is customary, but POSCO criminalises sexual relationship with minors.

(7) Limited attention is paid to rehabilitation and psychological support for victims

उम्मीदवारों को इस हाशिए में नहीं लिखना चाहिए
Candidates must not write on this margin

Solutions

(1) provide requisite infrastructural support.

(2) Increase gender representation of women in benches to increase sensitivity

(3) build shelter homes with adequate facilities

(4) SC has also urged to revisit age of consent to decriminalise consentual sexual relationships

POSCO was envisioned with a noble intent but now it requires reforms to reform inadequacies and keep up with changing times.

Topic : Sexual & Reproductive health of women in India

जब भारत में महिलाओं के यौन और प्रजनन स्वास्थ्य की बात आती है, तब अधिकार-आधारित विमर्श को न केवल सामाजिक मानदंडों द्वारा बल्कि कानूनी मानदंडों द्वारा भी बड़े पैमाने पर नजरअंदाज किया गया है। विवेचना कीजिए। (उत्तर 250 शब्दों में दीजिए)

When it comes to sexual and reproductive health of women in India, rights-based discourse has largely been bypassed not just by the societal norms but also by the legal norms. Discuss. (Answer in 250 words) 15

The sexual & reproductive health of women has been a cause of concern since a long time in India.

Though efforts have been made to improve the female health & reduce mortality, there is still a long way to go.

AIR2 – Harshita Goval

Bypass of Rights based discourse

(A) Societal Norms.

→ Patriarchal society denies adequate rights to women.

→ Poor concern for female health.

Eg Low access to contraceptives

Eg Forced child rearing.

→ Women are treated as objects of sexual gratification.

Eg Rights of husband over his wife.

→ Preference to childslife over women's health during life threatening pregnancies

→ Poor status of menstrual health.

(B.) Legal norms

→ No legislation to criminalize marital rape
~ Denial of women rights.

→ Ineffective implementation of laws like Maternity Benefits Act, MTP Act.

HarshitaGoyalAIR

- No effective remedy for sexual abuse
- Lack of govt. initiatives to spread awareness regarding sexual & reproductive health.

Govt initiatives

- PM Matru Vandana Yojana
- Poshan Abhiyan
- National family planning scheme
- Collaborating with SHGs & NGOs to spread awareness
- ASHA workers.

Above initiatives have helped in increasing the progress towards a rights based approach for women's reproductive health, however, further reforms are required.

HarshitaGoyalAIR2

Topic : Sexual & Reproductive health of Women (Alternate Perspective)

17. जब भारत में महिलाओं के यौन और प्रजनन स्वास्थ्य की बात आती है, तब अधिकार-आधारित विमर्श को न केवल सामाजिक मानदंडों द्वारा बल्कि कानूनी मानदंडों द्वारा भी बड़े पैमाने पर नजरअंदाज किया गया है। विवेचना कीजिए। (उत्तर 250 शब्दों में दीजिए)

When it comes to sexual and reproductive health of women in India, rights-based discourse has largely been bypassed not just by the societal norms but also by the legal norms. Discuss. (Answer in 250 words) 15

उम्मीदवारों को इस हाशिए में नहीं लिखना चाहिए
Candidates must not write on this margin

In India a large share of women are in the reproductive age therefore it becomes necessary to ensure their sexual and reproductive health. This has been done through a rights based approach.

AIR12 – Ashi Sharma

Rights based approach →

(1) Medical Termination of Pregnancy Act allows right to safe abortion in certain circumstances wherein there is physical threat to health of mother/child etc.

(2) Prevention of Sexual Violence at the Workplace Act: ensures right to safe working conditions for women.

(3) Maternity benefit Act: provides for 26 weeks for paid maternity leave.

(4) Prohition of domestic violence against women Act protects women against

www.visionias.in 44

. physical and sexual violence at home by spouse and inlaws.

उम्मीदवारों को इस हाशिए में नहीं लिखना चाहिए
Candidates must not write on this margin

(5) Prohibition of Dowry Act: protects women against dowry related violence.
(6) Matru Vandu Yojana: Institutional deliveries

Bypassing safeguards

Despite such protections NFHS-5 indicates one in three women has faced sexual/physical violence. NCRB 2023 highlights 4% rise in crimes against women. This is due to—

Societal Norms

(1) patriarchal mindset
(2) deep rooted misogny
(3) victim shaming by society for against survivors who brave to testify in court
(4) permissive attitude in society regarding crimes against women saying 'men will be men'.

Legal norms

(1) are dated and colonial. for example

doctrine of coverture says women loose all sexual autonomy post marriage, thereby allows marital rape.
even Bhartiya Nyaya Sanhita does not criminalise marital rape.

(2) hesitation in minds of law makers to legalise period leave to advance sexual health of women

(3) police often refrains from registering cases of crimes against women and suggests 'compromise' with accused.

(4) lack of awareness regarding legal norms in general public.

Solution
- holistic women empowerment to decrease their dependency
- legal assistance to women
- policy attention for sexual health of women.

To achieve SDG-5 we must address these issues to ensure gender equality.

उम्मीदवारों को इस हाशिए में नहीं लिखना चाहिए
Candidates must not write on this margin

Topic : Abortion Rights in India

5. What are the legal provisions governing abortion in India? Discuss the recent amendments and their impact on abortion practices to date.
(भारत में गर्भपात को नियंत्रित करने वाले कानूनी प्रावधान क्या हैं? हाल के संशोधनों और आज तक गर्भपात प्रथाओं पर उनके प्रभाव पर चर्चा करें।)

Abortion has been in news on account of taking away of abortion rights in the oldest democracy i.e USA and also on account of amendments in laws governing abortion.

AIR2 – Harshita Goyal

Abortions is governed in India under the Maternal Termination of Pregnancy Act (MTP) and also under, erstwhile laws like Indian Penal Code and CrPC. Bhartiya Nyaya Samhita also has few provisions that indirectly govern abortions.

Recent amendments & its impact.

1) Unmarried women also allowed right to abortion till 20 weeks.

Harshita Goyal AIR2
Synopsis IAS Together We Will Succeed

Impact → Women empowerment due to greater freedom

↳ Reduces discrimination on absurd grounds like marital status.

2) In case of victims of rape, Incest, abortion allowed upto 24 weeks

↳ Beyond 24 weeks: 2 doctors approval & approval of magistrate.

Impact → Fair justice to victims

↳ However concerns about the right of life to foetus. (Kant's categorical imperative)

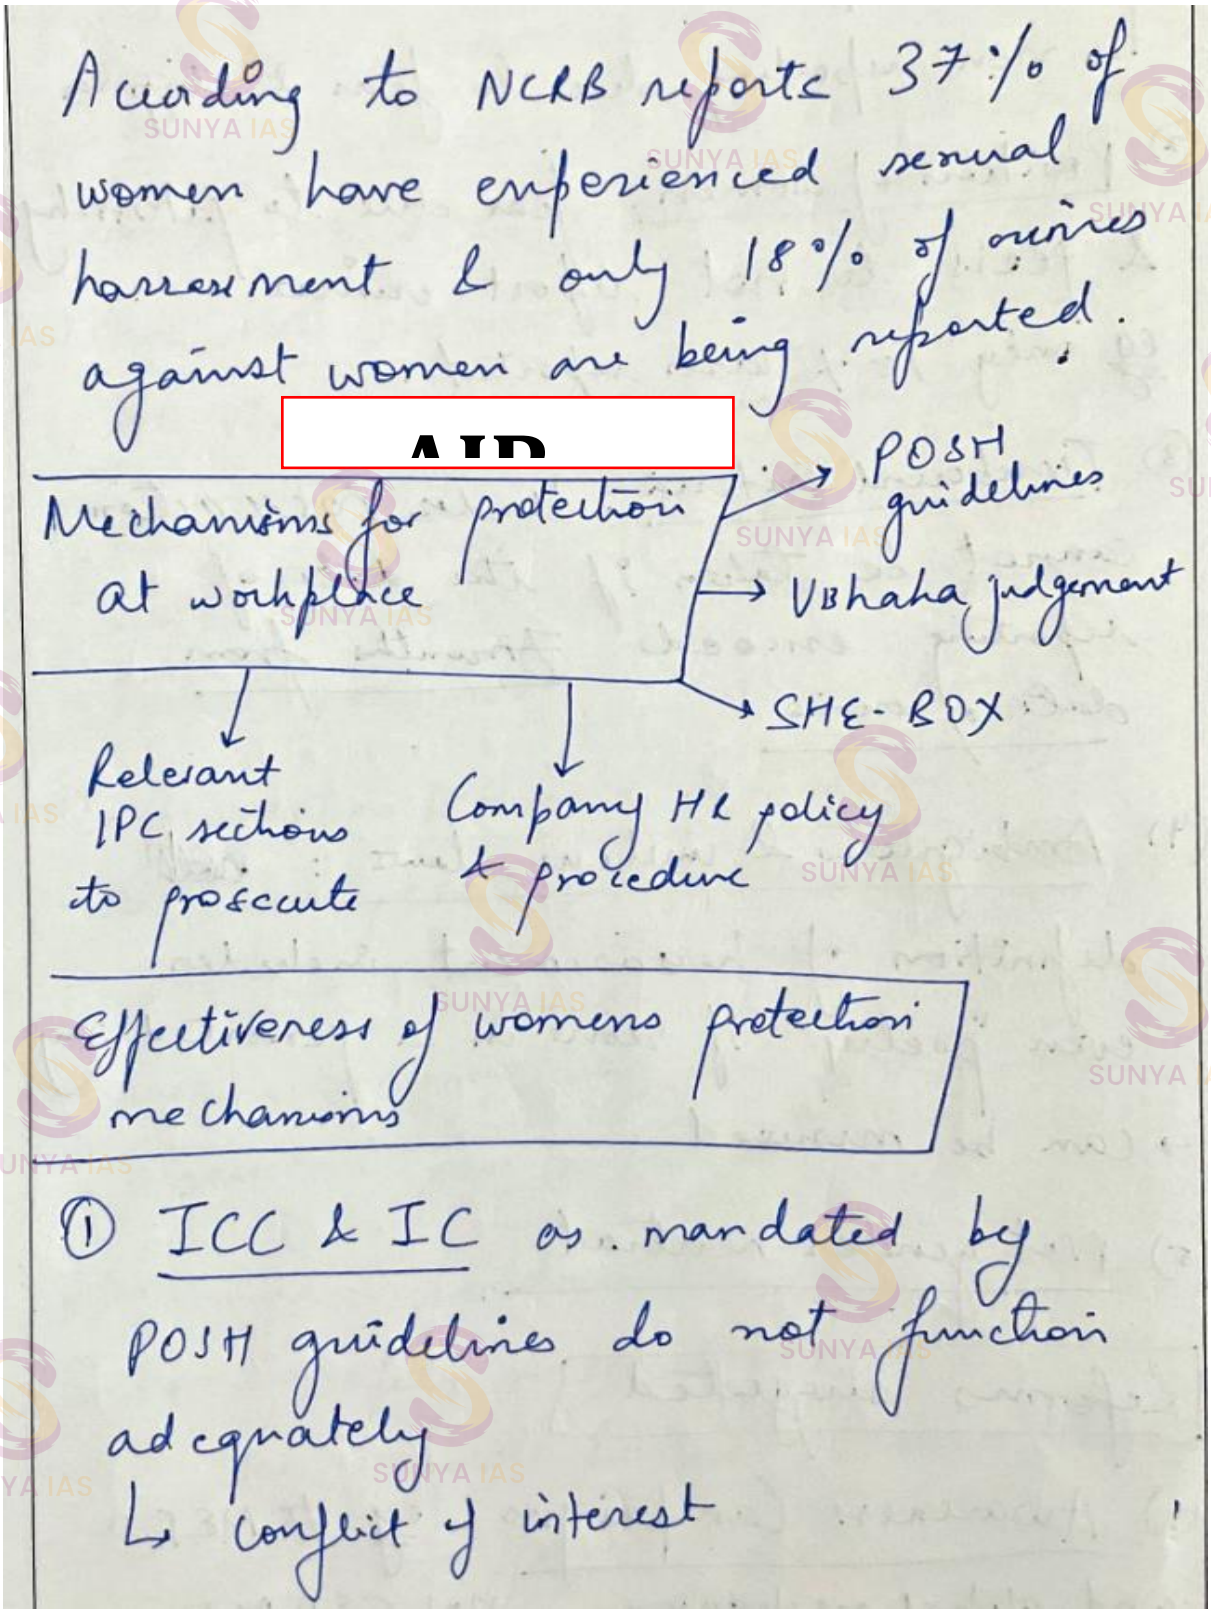

3) In cases of genetic abnormalities, abortion allowed after doctors approval.

Impact → Upholds quality of life & unnessary suffering.

Recent amendment's benefits outweigh its concerns. However careful consideration is required for its effective implementation.

Topic : Surge in Crime against women in India especially at workplaces

There is a harrowing surge in crimes against women in India especially in their workplaces. In this light critically analyse the effectiveness of India's women protection mechanisms and suggest reforms in this regard. (15 Marks)

→ not independent in true sense

→ non-reporting due to fear & stigma

(2) Position of women: fear due to patriarchy & peers to not report crimes
eg only 1€ % cases reported.

(3) Timebound criteria: Under POSH action cannot be taken if the date of reporting exceeds 3 months from date of crime.

(4) Ambiguous & unclear laws: definition of harassment includes even "poetry" if done in a perverted way
→ can be misused

(5) Not gender neutral.

Reforms suggested

(1) Awareness Campaigns: eg #METOO and global mechanism → UN CEDAW

campaign on social media to allow women to express themselves.

(2) Innovative measures: SHE-BOX mechanism to remove fear of backlash & stigma.

(3) Adequate support via counseling: for victims of harassment at workplace.

(4) Use of Technology: (e) HIMMAT app by delhi police, PINK INITIATIVE by Kerela government.

(5) Orientation Session & Code of conduct: even for private workplaces to ensure safety & security for women.

(6) Making Womens safety part of ESG norms assessment for companies

Hence, as a fundamental duty we must ensure safety & security of our women at the workplace & give them opportunity to learn & grow.

Topic : Wide Gap between no. of females graduating & entering workforce

प्रत्येक वर्ष ग्रेजुएट होने वाली और कार्यक्षेत्र में प्रवेश करने वाली महिलाओं की संख्या के मध्य का व्यापक अंतराल एक गंभीर समस्या है जिसे हल किए जाने की आवश्यकता है। भारत के संदर्भ में चर्चा कीजिए। (उत्तर 150 शब्दों में दीजिए)

The wide gap between the number of females graduating every year and those entering the workspace is an issue of paramount importance that needs to be addressed. Discuss in the context of India. (Answer in 150 words) 10

There is poor labour force participation of females at ~22%. despite high involvement in higher education which calls for contemplation.

AIR16 – Madhav Agarwal

Reasons for wide gap :

(1) **Dual Burden on females :** need to manage household, responsibility of kids.

(2) **Economic issues :** do not have proper credit and financial independence to pursue own venture.

(3) **Pink collarisation** of jobs along with **poor gender wage parity**, **sexual harassments**.

↳ as per [ILO] gender wage gap of [30%].

(4) Glass ceiling : erodes morale trust of female and restricts long term growth etc.

(5) Quality of education : Suboptimal.

Eg: 47% graduates unemployable as per IndiaSkilling Reports.

Needs to be addressed by :-

(1) Capacity Building through skilling
Eg. Wavar Entrepreneurship Platform (NITI Aayog).

(2) Making workplaces safer for women : via an independent tribunal (as per Justice Verma Committee)

(3) Incentivising credit to female employees.

(4) Regulation of wages as per code of wages 2019

(5) Sensitization for responsibility sharing

With full scale female participation, we can boost our economy by 27% as per IMF Chief, hence need urgent steps.

Topic : Third Gender – Yet to be engendered despite legislative nudge

विधायी समर्थन के बावजूद 'थर्ड जेंडर' को अभी तक भारतीय समाज में मान्यता नहीं मिली है। विश्लेषण कीजिए। (उत्तर 250 शब्दों में दीजिए)

The 'third gender' has not yet been engendered in the Indian society despite legislative nudge. Analyse. (Answer in 250 words) 15

Reports by NHRC clearly show that transgender (3rd gender as per NALSA judgement) still face social and economic exclusion in the Indian society, despite a law.

Provisions of law:
Right of Transgender Person Act 2019
- → National Council for Transgender
- → Right based approach
- → fines & penalties.

AIR16 – Madhav Agarwal

Third gender not yet engendered:-

(1) Social exclusion: 99% of transgenders are rejected by families (NHRC).

(2) Economic exclusion: 96% of tangenders are denied meaningful and decent work by employers (NHRC Report).

(3) Homophobia: fear of LGBTQIA+ which includes transgender.

(4) Ghost citizens: not vocally supported by political parties.

(5) Ghettoization: of their place of stay in the city.

(6) Social Stigma: sees transgender as a retribution of past karma.

(7) Human Right ~~abuse~~ abuse faced by transgender despite a law

(8) Forced to indulge in sexual work, badhai.

(9) Right of self determination denied by the latest law

However, the state is gradually improving

due to multiple reasons :-

- Karnataka brought 1% horizontal reservation
- Odisha brought Swasthi card under the SWEEKRITI scheme
- Role played by the NGOs and change agents

Ways to reform :

- Sensitization of people through talks & debates
- Providing right of self determination
- Nudge employers to hire the transgenders.
- Involving religion to show acceptance (eg: Ardha-Narishwara roop in Hinduism.

Transgenders are fighting a silent battle, Society needs to step up to make them part of community and help reduce inequalities (SDG 10)

Topic : Socio-Political sensitization for Understanding, Acceptance & Equal rights of LGBTQIA+ community

Q.7) Understanding, acceptance, and equal rights for LGBTQIA+ community can only arise out of socio-political sensitization of the policy discourse. Comment with relevant illustrations. (10 marks, 150 words)

LGBTQIA+ समुदाय के लिए समझ, स्वीकृति और समान अधिकार केवल नीतिगत चर्चा के सामाजिक–राजनीतिक जागरूकता से उत्पन्न हो सकते हैं। प्रासंगिक उदाहरणों के साथ टिप्पणी कीजिए। (10 अंक, 150 शब्द)

India has about 1.5% of LGBTQIA+ population, including transgenders. Despite that they face social and political stigma in the community.

AIR28 – Rishabh Choudhary

~~Pot~~ Problems faced by LGBTQIA+

1. Lack of understanding and empathy about their problems
   (eg due to social stigma & Outlier effect.

2. Limited acceptance of queer couples and discrimination against them.
   (eg ~~Lack of~~ Protest against recognition for same sex marriage.

3. Won't enjoy rights of inheritance, partners insurance, adaptation, etc.
   (due to legislative gap.

4. Social isolation : due to rejection in educational institution and workplace.

5. Limited Political representation in legislatures

Potential solutions

1. Promoting awareness about LGBTQIA+ problems
   - eg Shikhandi story
   - Purple feets / PRIDE colors.

2. Legal reforms allowing them rights to companionship & social security
   - eg Constitution of Committee headed by Cabinet Secretary after Supriyo Chakraborty judgement (2023)

3. Access to education and healthcare by zero rejection and affirmative action Policies.

4. Developing empathy & compassion by involving traditional heritage & Culture
   - eg Ramayana & Mahabharat

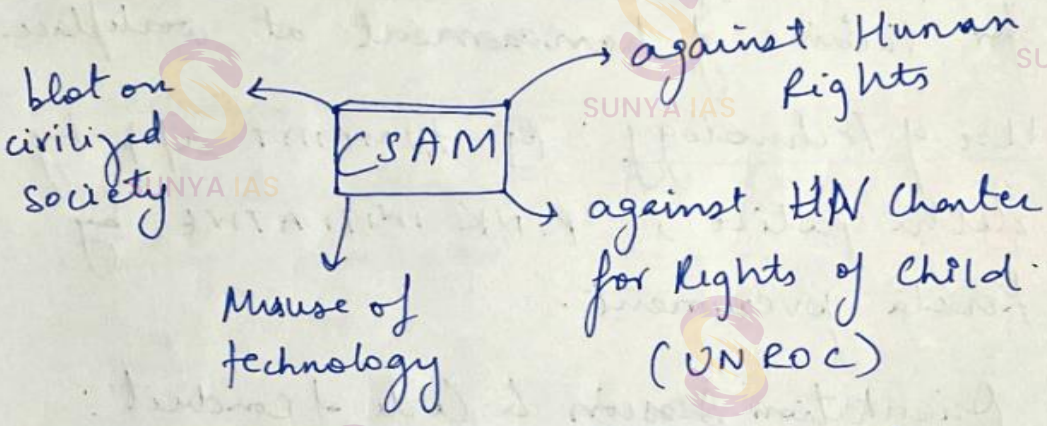

Recognising their right is essential for human dignity Under Article 21

Topic : Proliferation in Child Sexual Abuse Material

. Production, distribution and consumption of Child Sexual Abuse Material (CSAM) is one of the terrible forms of sexual abuse and exploitation faced by children and consequently, a grave violation of their human rights. In this context, analyse the reasons for increase in proliferation of CSAM and bring about the various mechanisms available to address this heinous crime. (15 Marks)

AIR3 – Dongare Archit Parag

Possessing or distribution of CSAM is a criminal offense under the Indian Penal Code

Reasons for increase of CSAM

(1) Increasing use of Internet & media
use of Dark Web, Deep Web, TOR Browsers etc give access.

(2) Psychological problems : People using material should seek professional medical help.

(3) Access to Hackers: Hacking of CCTV footages to record secretly & sell material to criminals

(4) Cryptocurrency: used majorly for transactions of such illegal materials.

(5) Less attention to children: due to busy lives of parents & guardians → make them potential victims of such crimes.

Various Mechanisms

(1) Social Media Intermediaries: responsibility under IT Rules to bring down such content within stipulated time

(2) Cyber Security Agencies: eg CyCord cell, CCIN, Cert IN etc.

→ Operation Meghdoot (CBI) against Child pornography

(3) Robust Tracking Networks: To trace the perpetrators & bring them to Justice.

(4) Global Collaboration: Eg Budapest Convention against cyber crime & collaborate with stakeholders to address issue.

(5) Awareness & Training: of children in schools & institutions via seminars etc

Eg Teaching of "good touch" V/S "bad touch"

(6) Sensitization of Law enforcement & teachers to ensure privacy of child who is victim of such a crime.

Thus Children are our future & demographic dividend we must protect them.

Topic : Occurrence of Child Labour in India

2090

VISION IAS™

Don't write anything this margin (इस भाग में कुछ ना लिखें)

8. भारत में बाल श्रम की उपस्थिति के विभिन्न निर्धारकों पर चर्चा कीजिए। देश में बाल श्रम की समस्या से निपटने के लिए क्या उपाय किए जा सकते हैं? (150 शब्दों में उत्तर दीजिए) 10

Discuss the different determinants of the occurrence of child labour in India. What measures can be taken to tackle the issue of child labour in the country? (Answer in 150 words) 10

As per census 2011, there are 33 million child Labourers in India.

Determinants

AIR6 – Komal Punia

① Issue of poverty leading to economic compulsion.

② Child labour laws and their effective implementation.
eg. Prevention of child labour act

③ lack of education and skill, vocational training.

④ Relatively lower wages of child workers

⑤ Demands of many industries –
eg. Matchstick industry, glass indust

Page 15 of 50

2090
VISION IAS™
Don't write anything this margin (इस भाग में कुछ ना लिखें)

Measures taken

1. Constitutional safeguards - Art 23, 24 - prohibit child labour.
2. Prevention of child labour Act
   - below 14 years - no labour
   - 14-18 - in non-hazardous industries.

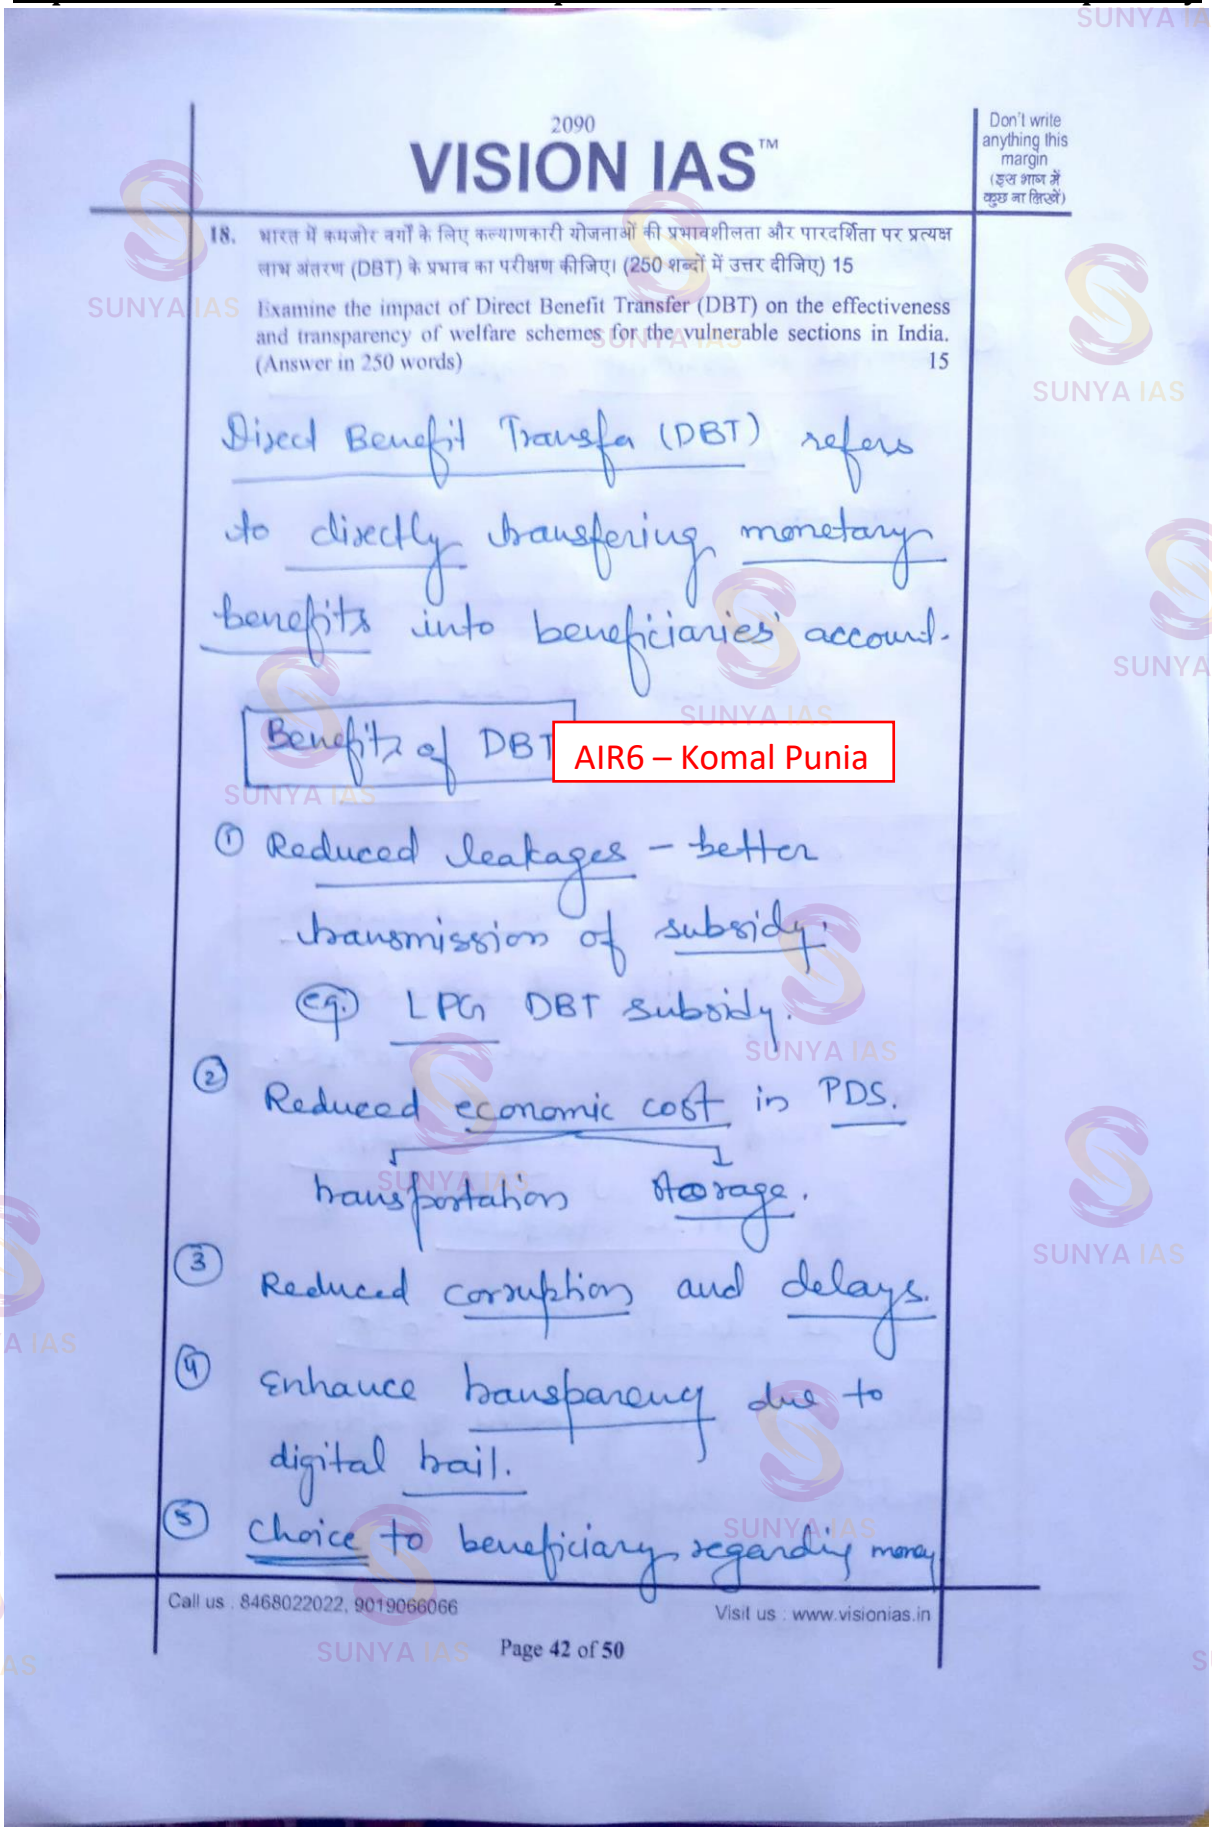

Further measures required

1. Rehabilitation of existing child labourers.
2. Education provision (Art 21A)
3. State - NGO concerted efforts -
   (e.g. Bachpan Bachao Andolan (Kailash Satyarthi))
4. effective implementation of ICDS, POSHAN 2.0.

Children are leaders of tommorow. Curbing child labour will lead to their full fledged development.

Topic : Welfare schemes in India - Impact of DBT on effectiveness & transparency

2090

VISION IAS™

Don't write anything this margin (इस भाग में कुछ ना लिखें)

18. भारत में कमजोर वर्गों के लिए कल्याणकारी योजनाओं की प्रभावशीलता और पारदर्शिता पर प्रत्यक्ष लाभ अंतरण (DBT) के प्रभाव का परीक्षण कीजिए। (250 शब्दों में उत्तर दीजिए) 15

Examine the impact of Direct Benefit Transfer (DBT) on the effectiveness and transparency of welfare schemes for the vulnerable sections in India. (Answer in 250 words) 15

Direct Benefit Transfer (DBT) refers to directly transfering monetary benefits into beneficiaries' account.

Benefits of DBT

AIR6 – Komal Punia

① Reduced leakages – better transmission of subsidy
(eg: LPG DBT subsidy.

② Reduced economic cost in PDS.
transportation storage.

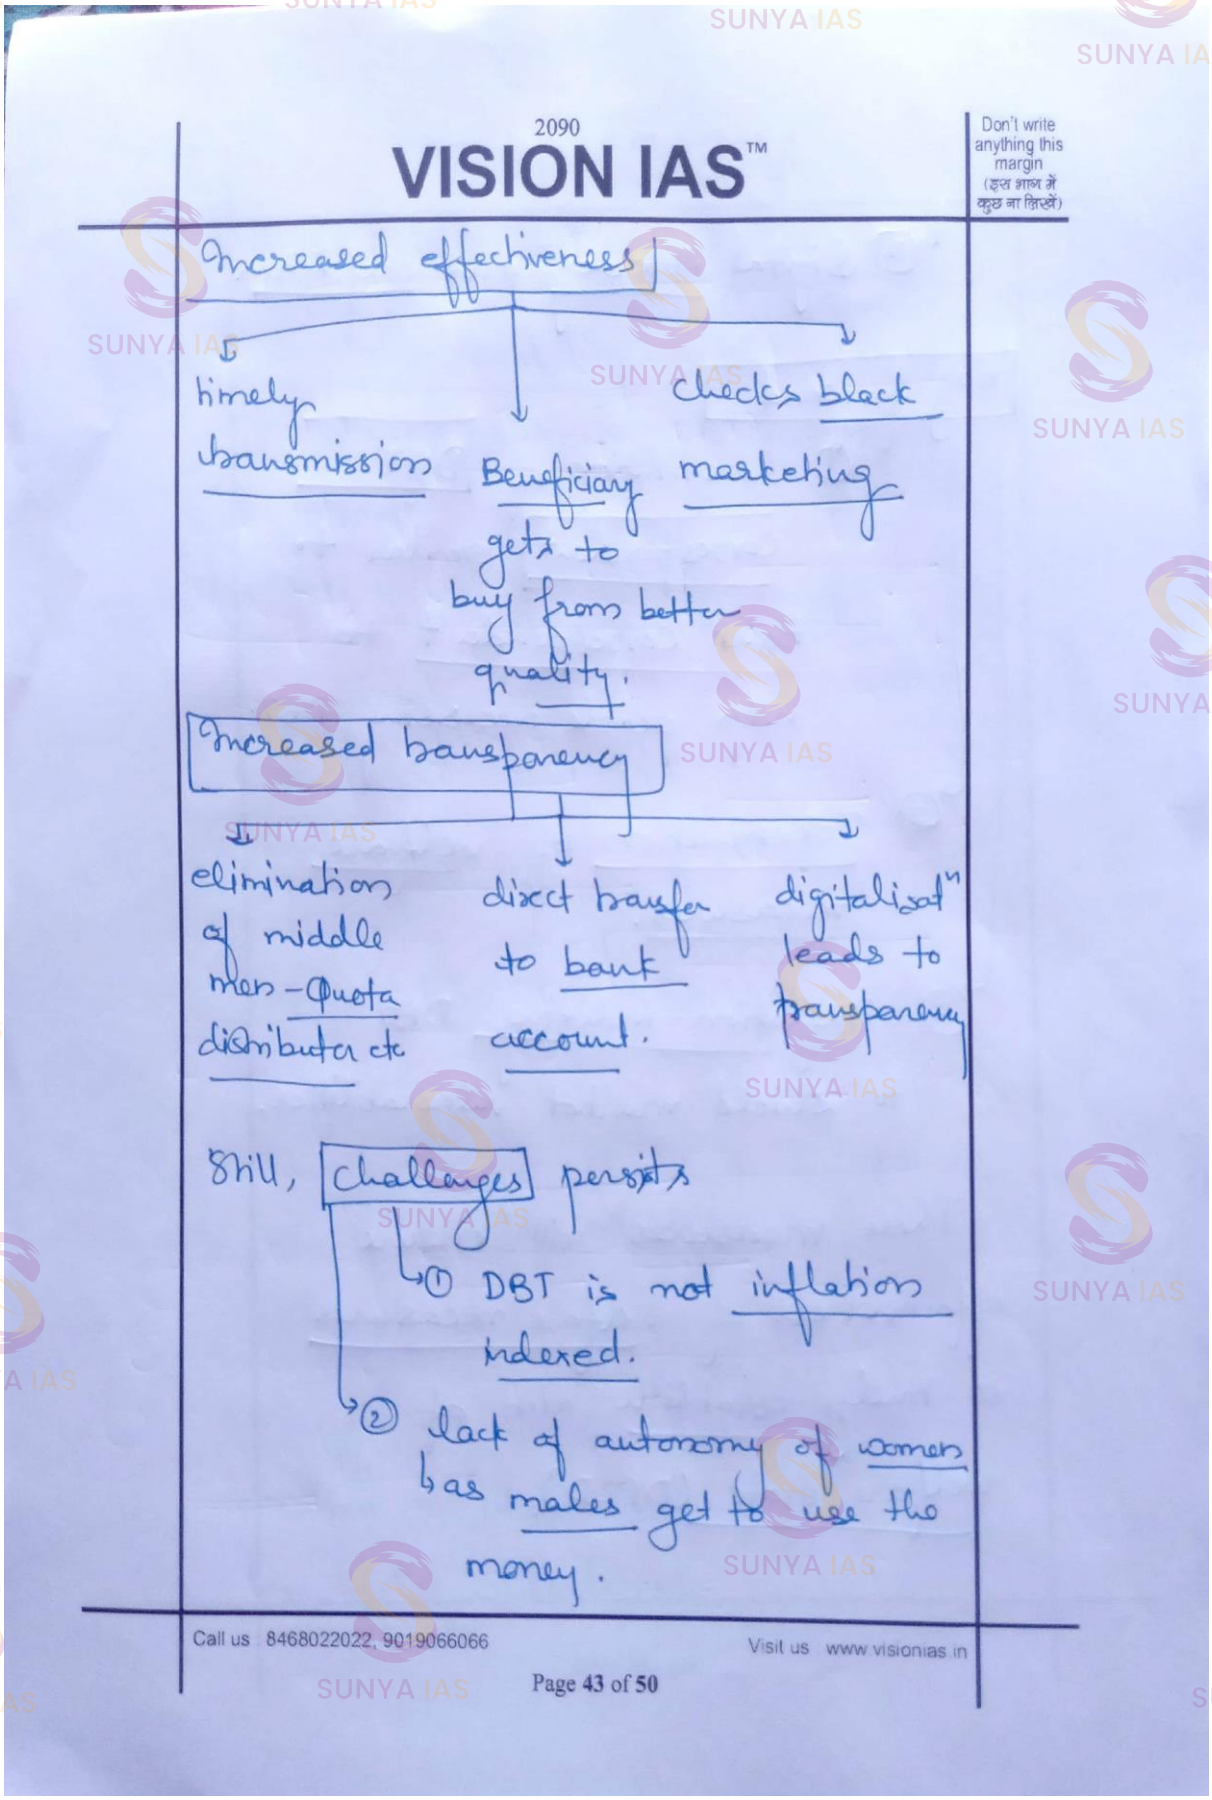

③ Reduced corruption and delays.

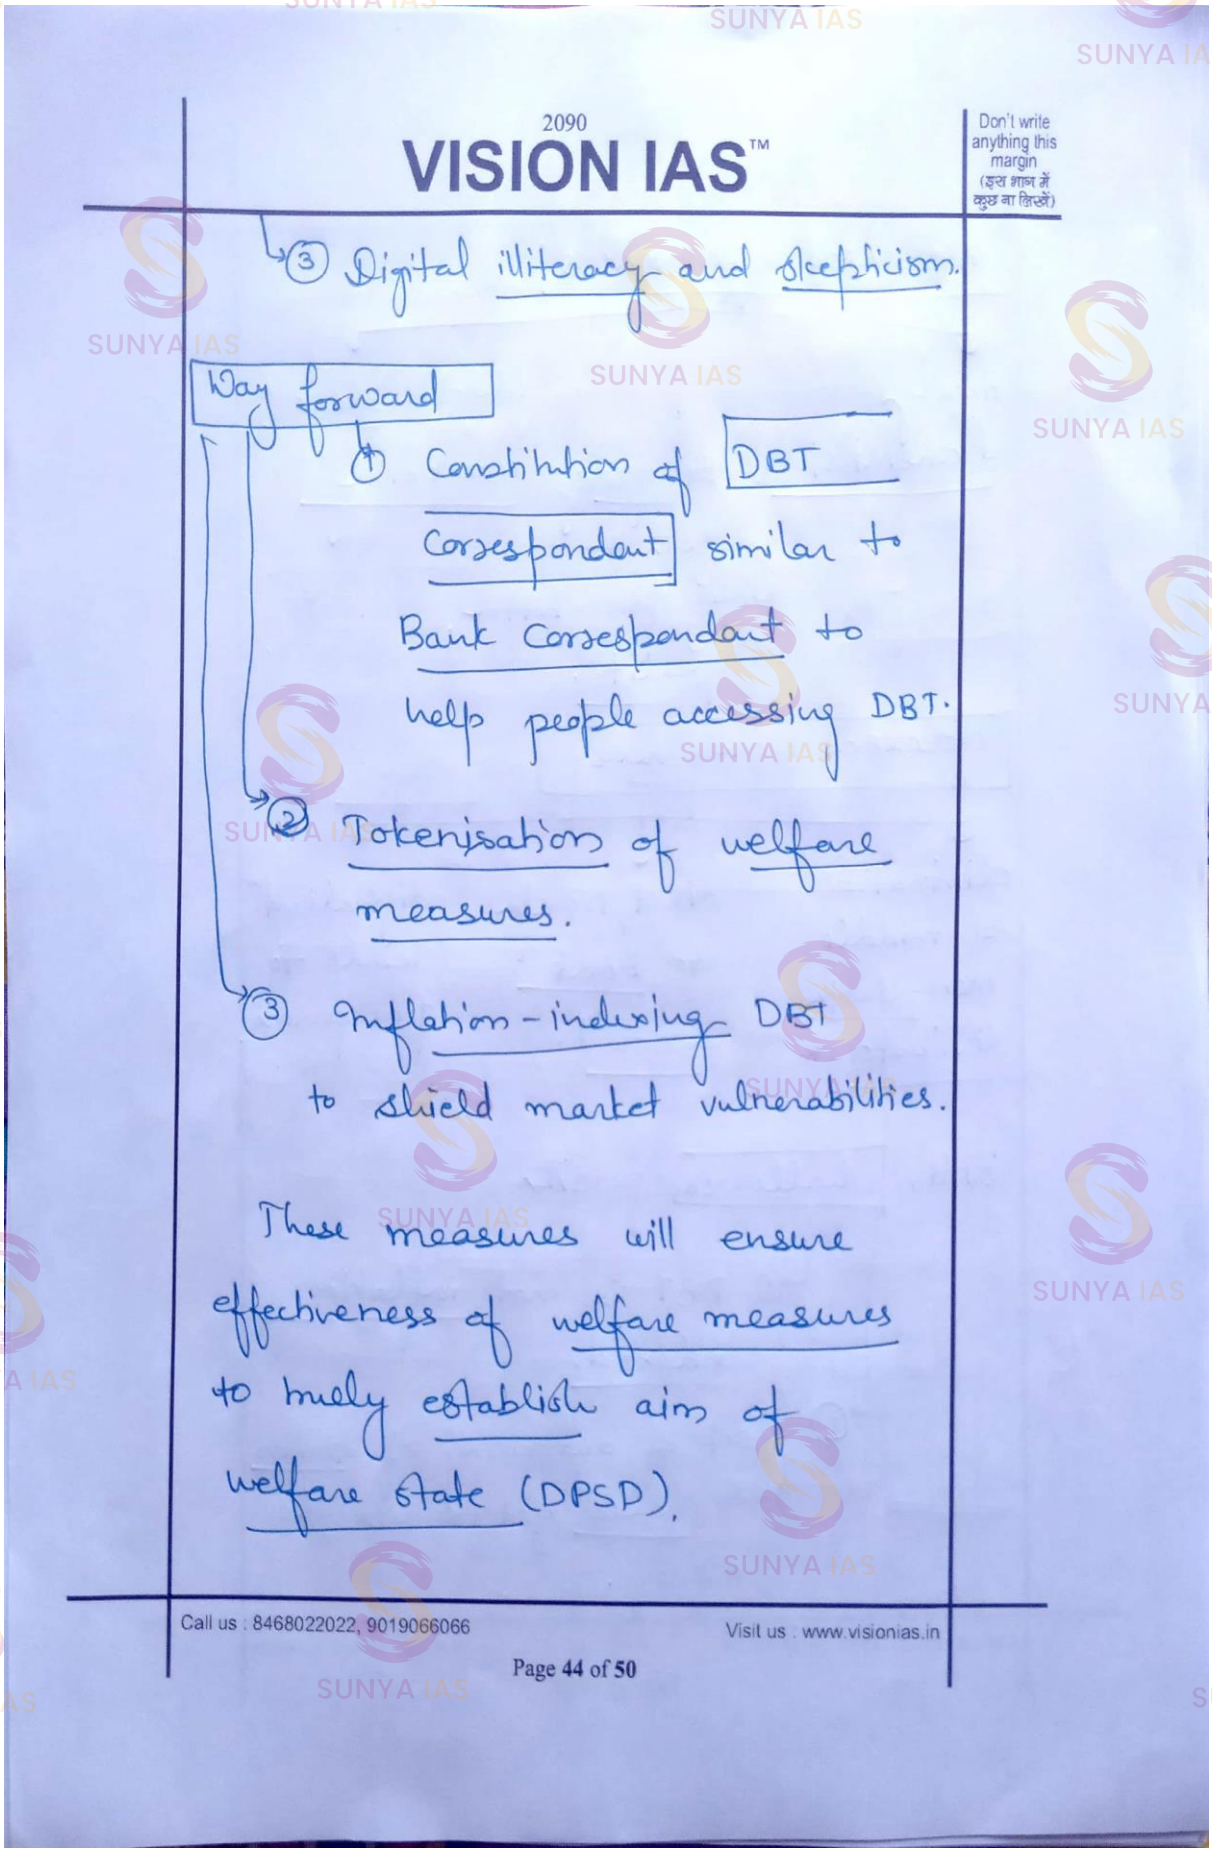

④ Enhance transparency due to digital trail.

⑤ Choice to beneficiary regarding money

Page 42 of 50

2090
VISION IAS™
Don't write anything this margin (इस भाग में कुछ ना लिखें)
Increased effectiveness
timely transmission
Beneficiary gets to buy from better quality.
checks black marketing
Increased transparency
elimination of middle men - Quota distributor etc
direct transfer to bank account.
digitalisation leads to transparency
Still, challenges persists
① DBT is not inflation indexed.
② lack of autonomy of women as males get to use the money.

Page 44 of 50

Topic : Growing elderly population in India – Policy challenges for demographic transition

Q.6) India's growing elderly population is faced with a multitude of challenges necessitating development of a comprehensive policy framework to manage this demographic transition. Analyse.
(10 marks, 150 words)

भारत की बढ़ती हुई वृद्ध आबादी को अनेक चुनौतियों का सामना करना पड़ रहा है, जिसके कारण इस जनांकिकीय परिवर्तन को प्रबंधित करने के लिए एक व्यापक नीतिगत ढांचे का विकास आवश्यक हो गया है। विश्लेषण कीजिए।
(10 अंक, 150 शब्द)

Currently India has about 10% of elderlies (+65 age) by 2050 it would be over 20% (World Bank).

AIR28 – Rishabh Choudhary

Multitude of Challenges

1. Limited Social security cover — 80% don't have insurance and pensions.
2. Cronic disease burden - hypertension, diabetics, Cataract — about 70% elderlies face them (Heath Age Foundation)
3. Mental health issues — isolation, nuralisation of old age.
4. Limited gariatric care infrastructure — Doctors, PHC, Nurses, etc.
5. Limited opportunities to contribute — globalisation & changing value system.

Hence, Comprehensive Policy Framework Needed including

1. Expanding healthcare infrastructure - PHC, Mobile diagnosis units. (Bhore Committee)
2. Expanding Social cover - Vayoshri, Yoga, SAGE Initiative.
3. Providing dignity & employment - SACRED portal.
4. Training doctors & nurses - Expanding AIIMS & Medical colleges - 2% of GDP on health (NITI Aayog)
5. Community Caring Project - eg 'Swiss Time Bank' Concept.
6. Using Technology - Jeevan Pramaan App

Expanding geriatric care is essential for addressing multifaceted challenges faced by elderlies for social justice (Article 41)

Topic : Womenomics & Active ageing – Maximizing productivity of Silver Economy & encouraging active ageing

Womenomics and active ageing are both dependent on a robust care ecosystem. Draw lessons from womenomics policies to best productivise the looming silver tsunami of old age in India and encourage active ageing. (10 marks, 150 words)

AIR44 – Nandanaa GP

Womenomics concentrate on gender angle being emphasized on economic policies whereas silver economy is related to ageing population

Dependence on care ecosystem →
- women as primary caretakers of family
- Nuclear families affecting the care distribution
- India's ageing population to reach 20% by 2050.

Lessons from womenomics

1. Commodification of women's care burden can improve economy
   - Eg home nurse industry
2. gender budgeting can ensure better economic outcomes
   - Eg women LFPR 37% → 50%

11

can increase India's gdp by 27%.

(3) Focusing on women education can have better social outcome

Eg Bangladesh women education led to better child health credential

" Good mother hypothesis.

silver tsunami [productivised] for active ageing]

(1) Invest on geriatric care sectors

Eg Accessible India campaign for old age friendly infrastructure

(2) Link women care economisation with palliative care

Eg Old age home staffs, palliative nurse

(3) Development of area where geriatric population can participate

Eg Religious tourism

care economy - part of SDG 8.3 need to be harnessed

Topic : Addressing issues of Persons with disabilities

ForumIAS

(Don't Write anythi in this Area / इस स्थ पर कुछ न लिखें)

Q.7) Without addressing the issues that hinder the full and effective participation of persons with disabilities in political and public life, the goal of achieving inclusiveness and their empowerment will remain unattainable. Analyze. (10 marks, 150 words)

राजनीतिक और सार्वजनिक जीवन में दिव्यांग व्यक्तियों की पूर्ण और प्रभावी भागीदारी में बाधा डालने वाले मुद्दों को संबोधित किए बिना, समावेशिता और उनके सशक्तिकरण का लक्ष्य अप्राप्य रहेगा। विश्लेषण कीजिए। (10 अंक, 150 शब्द)

AIR30 – Smit Panchal

Disability is mental and physical deformities that impeds a person's full participation and prevents optimum development.

Satisfactory clarification of keyword. Can add census data on PwD,

Core demand. So Kindly explain these point briefly. Also lack of scrutiny disability claims violates the rights of PwD etc.

Full and effective participation of persons with disability

(1) Promoting behavioural change as disability is more of social issue than a natural issue.

(2) The implementation of persons with disability Act, 2016 in

Effective measures.

Issues Relating to Development and Management of Social Sector/Services relating to Health, Education, Human Resources

Topic : Rising informality in Employment – A concern for Social Security

(Don't write anything in this part)

VAJIRAM & RAVI

7. Rising informality in employment raises the concern for social security. Discuss the statement with reference to platform workers. **(10 marks, 150 words)**

India's labour market accounts for nearly 84% of informal sector which contributes more than half to India's 4[illegible]

AIR1 – Shakti Dubey

Informal Employement : challenges for platform workers :-

(1) This is characterised by lack of social security

(2) It is based on employer-employee relation outside the formal economic sector

(3) It includes - Gig workers, contractual workers, freelancers, etc

(4) In India → 80% of informal sector Jobs has been taken up by women

(5) The major challenge here is - lack of regulation of the sector which makes exploitation of workers

(Don't write anything in this part)

VAJIRAM & RAVI

(Don't write anything in this part)

easy.

Issues →
- lack of proper & regulated working hours
- No fixed wage
- Government social security benefits schemes eg:- Maternity Benefit scheme does not apply to these sector

Lack of proper Working condition especially for women & other marginalised section

These Gig / platform workers were badly hit during LOCKD because of economic setback.

WAY FORWARD:-

(1) There is a need to regulate this Employement Generating sector

(2) reas to be balanced with enough creative freedom

As most of Indians are employed informally regulation becomes undertable.

Topic : Drug Abuse in India – Need of multi-faceted approach

17. Addressing drug abuse in India demands a multi-faceted approach that tackles the root causes of this menace. Analyse. **(15 marks, 250 words)**

AIR1 – Shakti Dubey

"Drug Abuse" is a perfect example of Gandhi's seven sins i.e. "Pleasure without conscience" which creates a negative impact on physical health but also mental health of individual

Drug Abuse in India

one of the major issue India faces is :-

(1) It is sandwiched between 2 arcs of instability

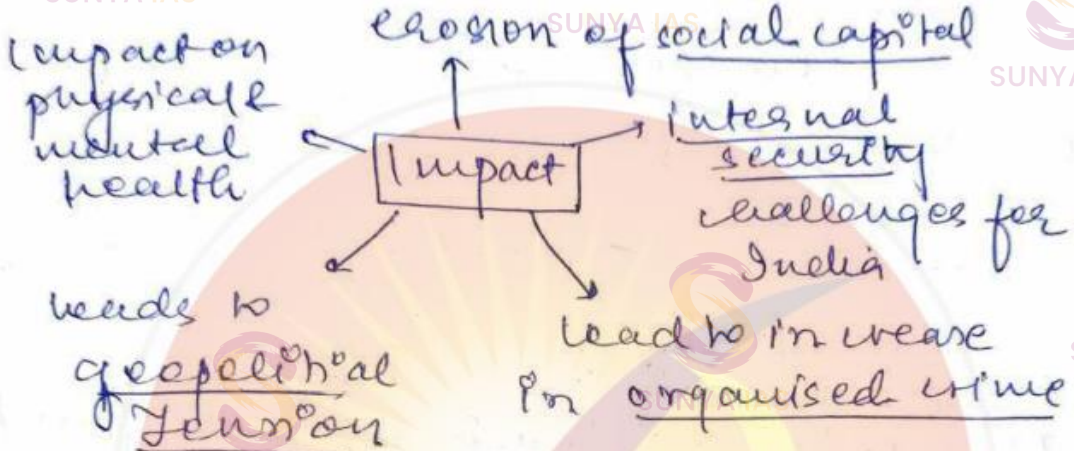

(2) India lies between 2 major drug growing regions of the world

(3) The Golden crescent on the west and Golden triangle on its east

(4) Presence of porous borders has

led to growing concerns especially in the bordering states

(5) There has been increased cross border drug trafficking.

Approach to tackle Drug Abuse:

This requires multifaceted approach - consulting all the stakeholders involved -

(1) Legal system :- there must be laws to tackle the menace of Abuse eg:- Narcotic Drugs & psychotropic substance Act, 1985

(2) It require collaboration from neighbouring states ie, Pakistan, Myanmar, etc

(3) There must be attitudinal + behavioural changes

(4) Proper rehab facility

(5) Awareness among youth about the demerits of drug abuse

(6) It should provide for support services eg:- mental health counselling

(7) The parents, teachers, society and governments must act in consonance to tackle the issue.

While India is going through its phase of demographic dividend focus should be on converting it to productive dividend and not demographic disaster.

Topic : Immunization coverage in India

पिछले कुछ वर्षों में भारत टीकाकरण कवरेज को बढ़ाने में कितना प्रभावी रहा है? देश में टीकाकरण के प्रयासों को प्रभावित करने वाली चुनौतियां कौन-सी हैं? (उत्तर 250 शब्दों में दीजिए)

How effective has India been in enhancing immunization coverage over the years? What challenges continue to affect immunization efforts in the country? (Answer in 250 words) 15

Immunization refers to vaccination of people - especially children against deadly diseases through developing the immunity of body.

AIR2 – Harshita Goyal

It is a preventative measure which can work effectively against curable diseases.

Effectiveness of India's immunization programme

1) Eradication of polio & small pox through widespread vaccination drives.

HarshitaGoyalAIR2

2) Increasing the immunization coverage through Mission Indradhanush

3) Reduced incidents of communicable diseases.

4) Decreased child mortality.

5) Efforts underway to increase immunization of girls.

Challenges in immunization efforts.

1) Lack of awareness among public

2) High skepticism among rurals over the effectiveness.

3) Isolated geographical nature of various primitive tribes.

4) Reduced accessibility due to lack of last mile connectivity.

HarshitaGoyalAIR2

5.) Lack of political will to escalate efforts towards immunization.

6.) Reactive approach, as seen in COVID Pandemic.

7.) Inadequate database of population to ensure full coverage.

Way forward

- Increase immunization through collaboration with NGOs
- Conduct periodic vaccination drives at Health & Wellness Centres
- Provision of vaccination under Ayushman Bharat.

Immunization is essential to truly harness the demographic potential of youth & human capital of India.

49

HarshitaGoyalAIR

Topic : Immunization coverage in India (Alternate Perspective)

18. पिछले कुछ वर्षों में भारत टीकाकरण कवरेज को बढ़ाने में कितना प्रभावी रहा है? देश में टीकाकरण के प्रयासों को प्रभावित करने वाली चुनौतियां कौन-सी हैं? (उत्तर 250 शब्दों में दीजिए)

How effective has India been in enhancing immunization coverage over the years? What challenges continue to affect immunization efforts in the country? (Answer in 250 words) 15

उम्मीदवारों को इस हाशिए में नहीं लिखना चाहिए
Candidates must not write on this margin

Immunization is a preventive strategy to ensure protection against deadly pathogens and ensure public health and safety

AIR12 – Ashi Sharma

Immunization over the years

(1) Through Mission Indradhanush India ensures access to vaccines for kids against various diseases like rubella, tuberculosis etc.

(2) Pulse polio programme: initiated in the early 2000s with the 'do boond zindagi campaign' has helped ~~achieve~~ India achieve polio free status in 2014.

(3) During Covid pandemic: the GoI through Co-WIN & U-WIN ensured mission mode Immunisation via covaxin and covishield to create herd immunity.

④ Now the government is also working on including the cervical cancer vaccine by Serum Institute into Mission Indradhanush.

उम्मीदवारों को इस हाँशिए में नहीं लिखना चाहिए
Candidates must not write on this margin

Challenges

However coverage has not been perfect because of—

① Vaccine hesitancy: in some sections of the population

② Covid: diverted attention & resources away from child immunisation (WHO Report)

③ Shortage of Personnel: In India one doctor per 1456 people against WHO requirement of 1:1000.

④ Infrastructural gaps: Primary health centres lack basic facilities like electricity, water etc.

⑤ Awareness: regarding benefits of immunisation is low in socio-economic disadvantaged communities.

⑥ Overburdened: ASHA workers are overb

-rdered and are not adequately compensated as they are not on government pay roll.

④ Funding: In India less than 3% of GDP allocated for health expenditure.

⑧ Low R&D: only 0.65% GDP → R&D, lack of development of new & better vaccines.

solutions → encourage R&D
→ incentive pharma companies to develop affordable vaccines
→ address staff shortfalls
→ use of behavioural nudges and marketing campaigns to raise awareness regarding immunisation.

Given the rising nature of zoonotic diseases and outbreak of new pathogens it is important we develop a robust immunisation programme.

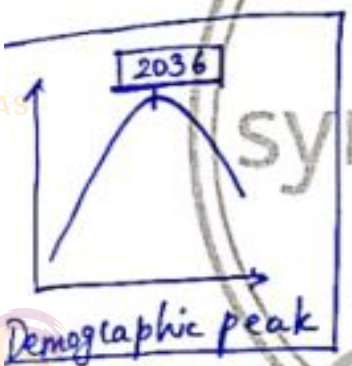

उम्मीदवारों को इस हाशिए में नहीं लिखना चाहिए
Candidates must not write on this margin

Topic : Policies to ensure benefits from Demographic Dividend

The policies we choose and their efficient execution will ensure that India benefits from the demographic dividend, which is a limited-time opportunity." Discuss.
(हमारे द्वारा चुनी गई नीतियाँ तथा उनका कुशल क्रियान्वयन यह सुनिश्चित करेगा कि भारत जनसांख्यिकीय लाभांश से लाभान्वित हो, जो एक सीमित समय का अवसर है।" चर्चा करें।)

India has a vast potential of young population in the working age group, contributing to huge demographic dividend with comprises nearly 67% of the population

AIR2 – Harshita Goyal

The peak of demographic dividend is expected in the year 2036, after which it will start declining.

Hence, in this limited time frame, it is essential that the country reaps the maximum benefits of

symbiosis IAS Together We Will Succeed
Harshita Goyal IAS

this demographic dividend through the right policies and its timely & efficient execution.

(i) Political participation.

Policies to increase the participation of youth in government machinery.

Eg Recommendation to reduce the minimum age of Lok Sabha MP from 25 to 18.

(ii) Economic policies.

↳ Policies to increase the job opportunities to utilize the demographic potential

↳ Effective implementation of MNREGA.

↳ Upskilling of youth

Eg. PM Kaushal Vikas Yojana.

symbiosis IAS
Together We Will Succeed
Harshita Goyal AIR 2

(iii) Social policies.

↳ Effective healthcare access to enhance productivity of this demographic dividend
Eg:- Ayushman Bharat Scheme.

↳ Affordable housing to address basic necessities.
Eg:- PM Awas Yojana.

(iv) Inclusive policies

↳ Enhance participation of SC, ST
Eg:- PM Janman initiative.

Along with the right policies, timely execution is essential which can be done through effective resource mobilization and coordination to reap the benefits to the highest extent.

Topic : Role of Public & Private Sectors in ensuring adequate health access & outcomes across rural & urban areas

Candidates must not write on this margin

Q16. भारत में स्वास्थ्य समानता की सतत चुनौतियां सार्वभौमिक स्वास्थ्य कवरेज प्राप्त करने में एक गंभीर बाधा उत्पन्न करती हैं। इस संदर्भ में ग्रामीण और शहरी क्षेत्रों में पर्याप्त स्वास्थ्य पहुंच और परिणाम सुनिश्चित करने में सार्वजनिक और निजी क्षेत्रों की भूमिका पर चर्चा करें। (250 शब्द, 15 अंक)

The persistent health equity challenges in India pose a critical barrier in achieving Universal Health Coverage. In this context discuss the role of the public and private sectors in ensuring adequate health access and outcomes across rural and urban areas.(250 words, 15 marks)

AIR9 – Aditya Agarwal

Universal Health coverage refers to the provision of quality, affordable, accessible healthcare to all the citizen.

Right to health forms an important part of Right to Life (Article 21).

Persistent health Equity challenges:

- low availability of healthcare institutions in rural and remote areas.
- High cost of private medical services
- Poor quality of healthcare infrastructure
- low focus on mental health.
  - (Eg) 0.75 psychiatrist per lakh population (WHO recommends – 3/lakh).
- low number of healthcare professionals – doctors, nurses.
- Poor access by lower income strata.

Candidates must not write on this margin

Around 47% of the expenditure today on healthcare by citizens is out of Pocket.

Role of Public Sector in healthcare

i) Ensuring access to healthcare in rural areas - setting up of primary health institution. (Eg) Aarogya Mandirs.

ii) Affordable secondary and tertiary healthcare. (Eg) PM - Ayushman Bharat providing treatment upto ₹ 5 lakh

iii) Preventive healthcare facilities - vaccination (Eg) Mission Indradhanush.

iv) Mental healthcare services (Eg) Mental Health Policy - Manodarpan initiative

v) Health services in case of epidemics, pandemics and disaster. - under Disaster Management Act.

vi) Promotion of healthy diets and lifestyle. (Eg) Millets initiative, Khelo India. Fit India movement.

Candidates must not write on this margin

Role of Private sector in Healthcare

- To provide high quality health services
- Mostly situated in urban areas and tier-II cities.
- Provide alternate options of healthcare to citizen.
- Research and Development in new drugs and diagnostics.
- Provide diagnostic services.

Further steps that can be taken:-

- Insurance facility for healthcare to be made more accessible and affordable.
- Right to Health to be made an Act similar to Rajasthan Government Efforts
- Regulation of private sector on overcharging.
- Generic medicine at centers — promote

Healthcare facilities are necessary to productive functioning of the citizen and need efforts of both public and private sector. To reap demographic dividend, a healthy and productive citizenry is necessary.

Topic : Role of Public & Private Sectors in ensuring adequate health access & outcomes across rural & urban areas (Alternate Perspective)

NEXT IAS Pg 36

Candidates must not write on this margin

Q16. भारत में स्वास्थ्य समानता की सतत चुनौतियां सार्वभौमिक स्वास्थ्य कवरेज प्राप्त करने में एक गंभीर बाधा उत्पन्न करती हैं। इस संदर्भ में ग्रामीण और शहरी क्षेत्रों में पर्याप्त स्वास्थ्य पहुंच और परिणाम सुनिश्चित करने में सार्वजनिक और निजी क्षेत्रों की भूमिका पर चर्चा करें। (250 शब्द, 15 अंक)

The persistent health equity challenges in India pose a critical barrier in achieving Universal Health Coverage. In this context discuss the role of the public and private sectors in ensuring adequate health access and outcomes across rural and urban areas. (250 words, 15 marks)

The fact that India is the hub of medical tourism of the world and that despite that 45% of population is dependent on out of pocket expenditure shows the health equity challenge.

AIR31 – Shreya Tyagi

The delivery of UHC across India.

Access to Healthcare

① redistribution of hospitals and healthcare to rural areas.

Eg despite 65% of population only 20% healthcare service

Candidates must not write on this margin

in rural areas

② Regional imbalance correction in healthcare

Eg 70% of hospitals and medical colleges in south India.

③ over-dependence on certain medical hospitals due to facilities

Eg 13 AIIMS and 44 government hospitals as most overburdened (MoHFW)

④ private medical establishments out of reach ⟹ commercialisation of healthcare

ways to ensure outcomes

① creation of 3As of healthcare

- Affordability
- Availability
- Accessibility

② Need to create a rural healthcare network.

Eg Family health teams of Brazil = improved outcome

Candidates must not write on this margin

(3) Incentives to doctors to work in rural areas ⇒ eg Chattisgarh's salary for rural doctors is 2x mainland salary

(4) Initiate mandatory system of CSR for Medical enterprises in the private sphere ⇒ eg All private doctors also have to do pro-bono work.

(5) Regularisation of medical job ⇒ heavy fees ⇒ need to incorporate ⇒ privatisation of healthcare.

(6) Emphasis on extention of Ayushmann Bharat ⇒ from 50 lakh to 1 crore families

Thus, the SDG 3 of Good Health can only be achieved by ensuring Equality in healthcare.

Topic : Right to health for all

कानून के अलावा, भारत में 'सभी के लिए स्वास्थ्य के अधिकार' की पूर्ण प्राप्ति हेतु सामाजिक, वित्तीय और बुनियादी ढांचे की कमियों को दूर करने की आवश्यकता है। परीक्षण कीजिए। (उत्तर 250 शब्दों में दीजिए)

Besides legislation, the full realisation of the 'right to health for all' in India demands plugging of social, financial, and infrastructural gaps. Examine. (Answer in 250 words) 15

"Right to health for all" is a legal right based approach to provide affordable and accessible to all. Recently, adopted by State of Rajasthan.

AIR16 – Madhav Agarwal

Need for legalisation:
- → Make officers accountable
- → Greater power to citizens.
- → Achieve goals of Article 47 health & nutrition.

But without plugging gaps it would be half hearted:

(A) Social gaps :-

(1) Tackling the cycle of poverty that acts as a trap for public.

(2) Access issued faced by people due to disparity

eg: 70% people in rural but 72% hospital beds in urban.

(3) Patriarchal issues: that deny right resources to women and girl child.

(B) Financial gaps:

(1) Low spending on healthcare:-

eg: State + Centre spend 1.7% of GDP v/s 2.5% as per National Health Policy

(2) Poor capacity of local bodies: to manage district level hospitals.

(3) Already high fiscal burden on State.

(C) Infrastructural gaps:

(1) Poor doctor to population resource.

· 1 doctor for 1456 instead of 1:1000 (WHO)

(2) Poor state of public hospitals : , diagnosis , multiple facilities .

(3) Overreliance on private sector which is profit driven .

(4) Poor Insurance penetration :- 80% have no health insurance (NSSO) .

(5) Governance issues of medical colleges -
(eg: NEET bill conflicts .

The current state requires :-

- Team India approach
- Reduce duplication of funding & ensure right use.
- Best practices Cuban model of primary healthcare

Digitalisation e-medicine .

Above steps are needed to ensure that "right to health for all" does not remain a ('PAPER REFORM') .

Topic : Social Apathy towards Mental Health Issues & Mental disorders

Q.8) Societal apathy towards mental health issues has resulted in the marginalization of individuals dealing with mental disorders. Elaborate and suggest measures to bring mental health concerns from the periphery into the mainstream. (10 marks, 150 words)

मानसिक स्वास्थ्य के मुद्दों के प्रति सामाजिक उदासीनता के परिणामस्वरूप मानसिक विकारों से जूझ रहे व्यक्तियों को हाशिए पर रखा गया है। मानसिक स्वास्थ्य संबंधी चिंताओं को परिरेखा से मुख्यधारा में लाने के उपायों को विस्तार से बताए और सुझाव दीजिए। (10 अंक, 150 शब्द)

Mental Health issues emerged as the most pressing concern in digital age. WHO report highlight over 150 million Indians suffers from ~~mental~~ issue like depression, anxiety, dementia.

AIR28 – Rishabh Choudhary

Problems faced

1. Social apathy due to limited awareness and stigmatisation of mental health.
2. Isolation of individuals due to capitalistic and consumeristic value system.
3. Limited support due to lack of psychologist and mental health counselors
4. Rising pressure of education and work leading to burnouts & suicides.

5. Isolation in cities, old age and domestic roles like caregivers, homemakers leading to high intensity of mental issues.

Potential solutions to mainstream concern

1. Promoting mental health awareness and destigmatisation (eg Are you OK! campaign
2. Training Psychologist and increasing mental healthcare facilities in Primary health Centre..
3. Promoting work-life balance and reducing social pressure on students to succeed at any cost.
4. tele-medical facilities to provide mental care — eg e-Mental health Mission
5. Healthy lifestyle — LIFE campaign

Mental health issues need to be addressed for good health and wellbeing (Article 47, SDG 3)

Topic : Accreditation of Higher Educational institutions to maintain quality

(Don't write anything in this part)

VAJIRAM & RAVI

5. The accreditation process ensures that higher educational institutions consistently meet and maintain educational quality standards. Discuss. (10 marks, 150 words)

Recently the government has set up – National Curriculum framework in order to ensure the implementation of National Education Policy – 2020.

AIR1 – Shakti Dubey

Higher Education Institutions in India, they face challenges like –

(1) Lack of proper laboratories
(2) Lack of equipments and instrument which aids in better understanding for student
(3) Lack of quality standards
(4) poor Infrastructural design
(5) poor syllabus design
(6) Lack of employable skill development
(7) Missing Industries-academia linkages
(8) Lack of integration of digital tech

VAJIRAM & RAVI

This creates huge challenge for the higher education in India leading to brain drain

Accreditation process :

This will lead to :-

(1) Quality standards of teaching

(2) Better & trained professional teacher

(3) Regular updation of syllabus

(4) make it easy for government to maintain checks & balances

(5) will also lead to better digital and physical infra

(6) will be covered under APAR ie, automated permanent academic record system

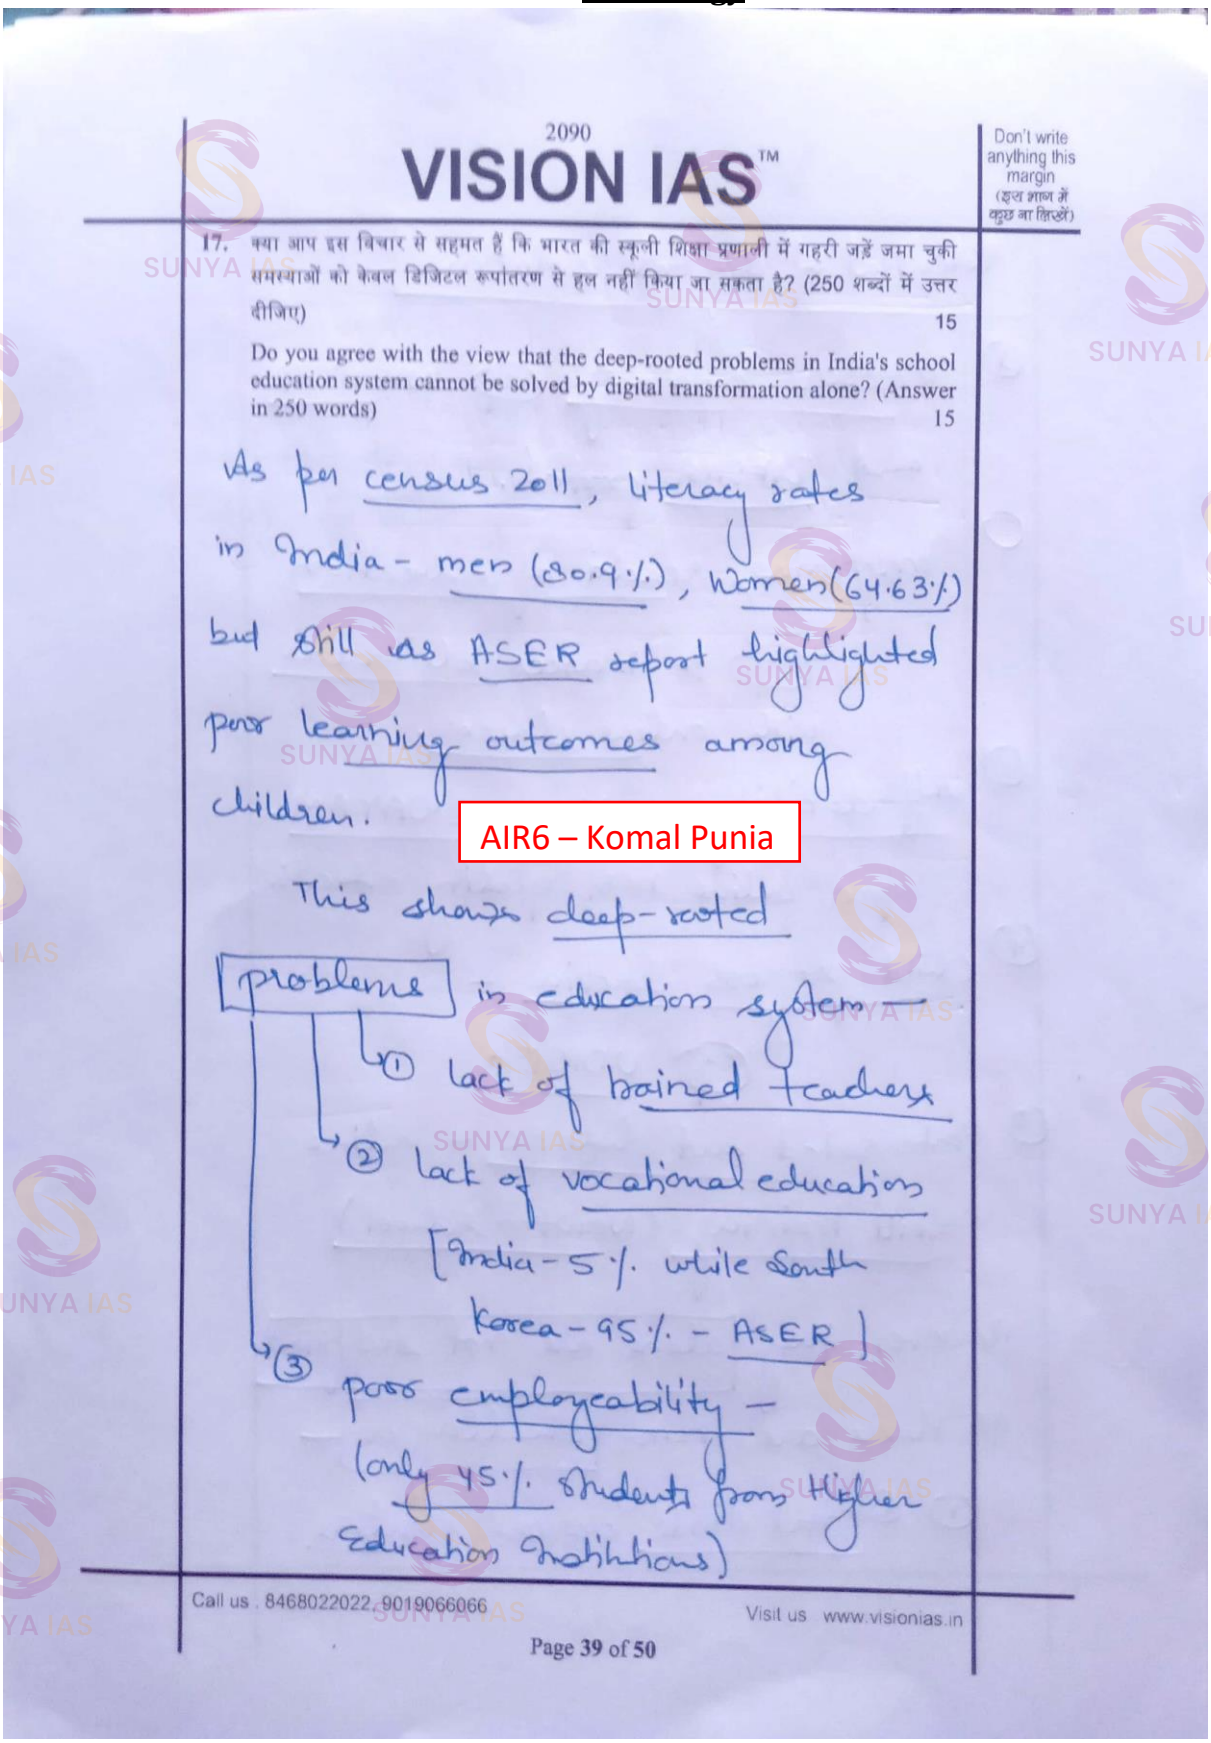

(7) Will lead to better implementation of NEP 2020

This will help India achieve its targets under SDG-4

Students should not write anything inside the box

Topic : Solving deep rooted problems in India's School Education System through technology

2090

VISION IAS™

Don't write anything this margin (इस भाग में कुछ ना लिखें)

17. क्या आप इस विचार से सहमत हैं कि भारत की स्कूली शिक्षा प्रणाली में गहरी जड़ें जमा चुकी समस्याओं को केवल डिजिटल रूपांतरण से हल नहीं किया जा सकता है? (250 शब्दों में उत्तर दीजिए) 15

Do you agree with the view that the deep-rooted problems in India's school education system cannot be solved by digital transformation alone? (Answer in 250 words) 15

As per census 2011, literacy rates in India - men (80.9%), women (64.63%) but still as ASER report highlighted poor learning outcomes among children.

AIR6 – Komal Punia

This shows deep-rooted problems in education system

① lack of trained teachers

② lack of vocational education [India - 5% while South Korea - 95% - ASER]

③ poor employability - (only 45% students from Higher Education Institutions)

Call us : 8468022022, 9019066066 Visit us www.visionias.in

Page 39 of 50

2090
VISION IAS™
Don't write anything this margin (इस भाग में कुछ ना लिखें)

Potential of digital solutions

(1) Teachers training (eg) NISHTHA and DIKSHA portal.

(2) Improving reach of education
↳ (eg.) to inaccessible areas with online classes.

(3) Affordability - MOOC - SWAYAM - free online best quality educatin.

(4) Child progress tracking -
↳ eg. UDISE+

(5) Integrated and holistic - online skill training (Newton school)

However, they alone are not sufficient as there are many challenges -

(1) Digital divide across genders.

Call us : 8468022022, 9019066066 Visit us : www.visionias.in

geographies and age.

(2) Digital accessibility - As per ITU only 20% Indians able to use internet.

(3) Not suited for all age groups -
↳ Early childhood care & education (ECCE) need offline care.

Way ahead
① Hybrid education -
↳ offline - where needed
↳ online - where feasible.
② need a regulatory policy for edtech startups

National Education Policy 2020 envisages a mix of online & offline education to shape India into Knowledge Superpower.

Issues relating to Poverty and Hunger

Topic : Has India eradicated extreme poverty ?

16. How far do you agree with the view that India has nearly eradicated extreme poverty? (15 marks, 250 words)

AIR1 – Shakti Dubey

According to UN – Multidimensional Poverty Index - 2023, the poverty rates in India have declined from – 59% (2005-06) to 16% (2020-21)

India & it's poverty scenario :-

Poverty in India has been a multi-dimensional concept - resulting from interplay between several factors :

According to NITI Aayog's MPI :-

(1) India has pulled 25 cr population out of extreme poverty (2014-2022)

(2) The people below poverty line have decreased from 29% (2014-15) to 11% (2020-21)

(3) The socio-economic indicators in India are on rise

(4) According to House hold

consumption expenditure survey (HCES) - Monthly per capita expenditure has increased both in rural as well as urban area.

These data indicates that India is on its track to eradicate extreme poverty. However challenges still remain

(1) The rank of India on Global Hunger Index is 111th/125 countries

(2) It is ~~poores~~ worst in entire south Asia

(3) The social sector spending of government has decreased from 8.1% ⟶ 7.8%

(4) India faces poorly on several socio-economic indicators

This can hinder India in realising the potential of its demographic

dividend, the government has taken several measures like :-

(1) National food security Act, 2013 - to ensure basic minimum food requirement for it's population

(2) Public distribution system

(3) Ayushman Bharat scheme - to decrease out of pocket expenditure

(4) PM - Garib kalyan Yojana Package during COVID-19

(5) One nation - one ration card scheme to help migrant labours

This will help India in ensuring that there is no erosion of social capital along with achieving it's SDG Goals - 1 and 2.

Topic : Should India redefine its poverty line to better reflect current Socio-Economic realities ?

NEXT IAS Pg 15

Candidates must not write on this margin

Q8. अत्यधिक गरीबी को कम करने में भारत की प्रगति को देखते हुए, क्या देश को वर्तमान सामाजिक-आर्थिक वास्तविकताओं को बेहतर ढंग से दर्शाने के लिए अपनी गरीबी रेखा को फिर से परिभाषित करने पर विचार करना चाहिए? गरीबी रेखा को फिर से परिभाषित करने से जुड़े संभावित लाभों और चुनौतियों पर चर्चा करें। (150 शब्द, 10 अंक)

Given India's strides in reducing extreme poverty, should the country consider redefining its poverty line to better reflect the current socio-economic realities? Discuss the potential benefits and challenges associated with redefinition of the poverty line.

(10 marks, 150 words)

According to NITI Aayog Report, Multidimensional poverty Index, the poverty has declined from around 25% to 11% in last decade

causes of poverty decline
- Provision of services by govt. (Eg) PM Awas, PM Ujjwala
- Jobs creation in service and manufacturing sector
- Better remuneration for farmers.

The current poverty line is based on the income levels of the people. It is based on the Tendulkar formula which defines poverty as amount required to fulfill basic calorie needs.

AIR9 – Aditya Agarwal

current issues in poverty line estimation
- Doesn't take into account access to basic services such as water, electricity
- Doesn't measure level of education of the person.
- Doesn't focus on standard of living

NEXT IAS Pg 16

Candidates must not write on this margin

Therefore, there is a need to redefine the poverty line which should take into account:
→ educational and health levels
→ Per capita income of the person.
→ Access to Basic necessities
→ Opportunities for growth.

Potential Benefits → comprehensive measure of poverty
↳ Takes into account the present needs of society
↳ & Mobility - (social and economical) based on education, healthcare and opportunities

However, there are **challenges** in these:
- measuring by various level of indicators
- Assigning weitage of different indicators
- varying levels of access

Multidimensional poverty index of NITI Aayog is more comprehensive. There is a need to adopt similar new measures to redefine poverty levels in the society and strive to eliminate it. (SDG 1).

Topic : Should India redefine its poverty line to better reflect current Socio-Economic realities ? (Alternate Perspective)

अत्यधिक गरीबी को कम करने में भारत की प्रगति को देखते हुए, क्या देश को वर्तमान सामाजिक-आर्थिक वास्तविकताओं को बेहतर ढंग से दर्शाने के लिए अपनी गरीबी रेखा को फिर से परिभाषित करने पर विचार करना चाहिए? गरीबी रेखा को फिर से परिभाषित करने से जुड़े संभावित लाभों और चुनौतियों पर चर्चा करें। (150 शब्द, 10 अंक)

Given India's strides in reducing extreme poverty, should the country consider redefining its poverty line to better reflect the current socio-economic realities? Discuss the potential benefits and challenges associated with redefinition of the poverty line.

(10 marks, 150 words)

AIR31 – Shreya Tyagi

The reduction in multidimensional poverty from 21% in 2011 to 12% in 2022 shows the reduction in extreme poverty. This is being hailed as one of the fastest reductions of poverty anywhere in the world. (MDPI)

Why poverty line redefinition required

① outdated metric of food and income → poverty much more dimensional

② cost & prices of 2011 of Tendulkar committee out-dated.

③ need for integration of measures in today's world

- digitisation
- access to bank account
- clean fuels.
- education & health.

NEXT IAS Pg 16

Candidates must not write on this margin

Benefits of redefination
- ① better reflect the challenges of today
- ② show the strides of a welfare state
  - eg: 50 crore + bank accounts in last 10 years
- ③ enable those on the edge to develop better ⇒ metric expands

challenges associated

① Rejection of Rangarajan report due to different methodology

② data is being bent in order to portray better figures

③ Redefinition is improbable without the new census.

way ahead
- ① Redefine line as per the Multi dimensional poverty index
- ② align to SDG goals.

Thus, SDG 1 is the next decadal goal of eliminating poverty completely.

Topic : Poverty – Complex phenomenon beyond material deprivation

Q.18) "Poverty is a complex phenomenon that goes beyond material deprivation, necessitating comprehensive strategies that address the multifaceted nature of deprivation." Elaborate.

(15 marks, 250 words)

"निर्धनता एक जटिल घटना है जो भौतिक अभाव से भी आगे जाती है, जिसके लिए व्यापक रणनीतियों की आवश्यकता होती है जो अभाव की बहुमुखी प्रकृति को संबोधित करती हैं।" सविस्तार वर्णन कीजिए।

(15 अंक, 250 शब्द)

According to NITI Aayog – about 11.6% People in India are Multidimensionally Poor.

Poverty is thus, complex phenomenon beyond material deprivation including –

AIR28 – Rishabh Choudhary

Dimensions of poverty

1. Health
   - Malnutrition / Undernutrition
   - Child Mortality
   - Postnatal care.
2. Education
   - Avg years of schooling
   - School attendance.
   - Quality of education
3. Standard of living
   - Clean water & sanitation
   - Cooking gas
   - Housing
   - Assets –
     - Clean energy
     - Bank Accounts

Problems in addressing poverty

1. Deprivations on Multiple accounts — health, employment, Material possession.
2. Unemployment & lack of skills —
3. Limited educational attainment — low literacy, technical understanding
4. Poverty trap: vicious cycle of debt — farmers.

Comprehensive Strategies for eradicating Poverty

I. Livelihood generation — eg MGNREGA, ~~NSSA~~ National Social assistance program

2. Vocational Training — PMKVY — 3 crore trained, DAY-NRLM, Apprenticeship Scheme, & Employment linked incentives.

3. Social Security Program: PM Suraksha Bima yojna, Atal Pension Scheme, etc.

4. Health insurance & addressing healthcare gaps - eg Ayushman Bharat, PHC & AIIMS establishment (Bhore Committee), One health - environment, animal, human (WHO program)

5. Education — NEP 2020, Ekalavya Model school, PM SHRI Schools, Teacher training

6 leveraging technology — PM DISHA, SAKSHAM & tele-health portal, MyGov app, NeGP 2.0.

7. Women empowerment — affirmative action, Beti Bachao Beti padhao, Mission Shakti

8. Inclusive growth — Aspiration Blocks Programs, PM PVTG Mission, VanBandhu kalyan yojna, deforestation etc.

Eradication of poverty and providing opportunities to live a kind of life people want [Amartya Sen] should be goal of Viksit Bharat.

Topic : Role of skill development in poverty alleviation

'Skill development can play a pivotal role in poverty alleviation and inclusive growth.' Discuss the statement highlighting the various Government initiatives in this regard. 10

AIR95 – Devika Priyadersini

According to Ministry of Skill development only 2% of Indians have received formal skill trainings.

good

Skill development for poverty alleviation

↳ good heads consider

1) Better wages from upskilling & reskilling (eg) PM-DAKSH.

2) Help recover from poverty-debt trap

3) Helps achieve mobility from agricultural sector to manufacturing sector

(eg) PM Kaushal Vikas Yojana

Skill Development for inclusive growth

4) Promotion of avenues for growth isses -

pective of marginalisation (eg) Stand up India scheme for SC, ST, women

5) Vocational education to create job ready generation (Target under NEP 2020)

6) Special incentives for skilling of OBC in PM Daksh scheme.

7) Promote self reliance (eg) Atmanirbhar Rozgar Yojana

Challenges → Unpopularity of ITIs in India
→ Over reliance on agriculture sector (42%)
→ Job loss during skilling exercises.

Thus, & international collaboration with World Bank in SANKALP & STRIVE schemes, along with ensuring incentives for wage loss during skilling can ensure 'upskill, reskill' goal of Prime Minister.

Topic : Eradication of Chronic Malnutrition – Need of all-encompassing approach to achieve goals of Zero Hunger

Q.16) Eradication of chronic malnutrition calls for an all-encompassing approach. In this context, throw light on the importance of nutrition-specific and nutrition-sensitive approaches for achieving the goal of Zero Hunger. (15 marks, 250 words)

दीर्घकालिक कुपोषण के उन्मूलन के लिए एक सर्वव्यापी दृष्टिकोण की आवश्यकता है। इस संदर्भ में, शून्य भूख (जीरो हंगर) के लक्ष्य को प्राप्त करने के लिए पोषण–विशिष्ट और पोषण– सुग्राही दृष्टिकोण के महत्व पर प्रकाश डालिए। (15 अंक, 250 शब्द)

Malnutrition is comprising of Undernourishment as well as Overnourishment (obesity). According to NFHS-5. about 35 % People are malnourished in India.

AIR28 – Rishabh Choudhary

All Encompassing approach for eradicating Chronic malnutrishment.

1. Prenatal and Postnatal maternal and child care facilities
   - Matru vandana Yojna
   - Janani shishu suraksha karyakram.
2. Nutritional targeting to reduce micronutrient deficiency
   - eg Zinc & folic acid with rice
   - or food fortification techniques using biotechnology.

promoting Multi-nutrient & diverse diets

Eg inclusion of Millets in POSHAN 2.0

4. Increasing awareness about Nutrient sensitivity to reduce Stunting (35.5%) and underweight (15%)

Eg Health Mission

5. Regular checkup and Child care facilities can help in early interventions.

Eg Increasing Primary Healthcare centre (Bhore committee)

6. Adopting UN One health approach to promote sustainability.

(eg integrating human health with Animal & environment health.

7. Greater access to nutritious food for all

(eg Strengthening NFSA, 2013 to eradicate Hunger (SDG #2)

8 Telehealth care and Tele nutrition counselling for informed decision making.
(AB - Digital Health Mission.

9. Specialised training and nursing facilities to bridge human resources shortage
(0.5/1000 doctors 1.5/1000 nurses)
(increase AIIMS & medical colleges

10. Increasing facilities for ASHA workers including better income to provide primary care.

Overall, nutrition-sensitive and nutrition-specific approach to address malnutrition is essential for economic productivity and healthy society, achieving multiple SDGs.
(SDG 1, 3, 2, etc)

Topic : Hunger & Malnutrition in India despite numerous policies

ForumIAS

(Don't Write anythi in this Area / इस स्थ पर कुछ न लिखें)

Q.17) Despite the implementation of numerous policies and schemes aimed at combating hunger and malnutrition in the country, their effectiveness remains limited. Analyse. (15 marks, 250 words)

देश में भूख और कुपोषण से निपटने के उद्देश्य से अनेक नीतियों और योजनाओं के क्रियान्वयन के बावजूद, उनकी प्रभावशीलता सीमित बनी हुई है। विश्लेषण कीजिए। (15 अंक, 250 शब्द)

As per the recent NFHS-5 data, 35% of Indians face malnutrition and India ranked ~~top~~ 101st in hunger index.

Objective introduction can add a brief definition of Hunger.

AIR30 – Smit Panchal

Numerous policies to combat Hunger and malnutrition

- National Food security Act 2013
- PDS shops
- Midday meal, Poshan Abhiyan also ICDS.
- Food fortification programme.
- PM Anna yojana.

limited effectiveness and their manifestation

(1) There is inclusion and exclusion error as pointed

Apt concern.

ForumIAS

(Don't Write anyth in this Area / इस र पर कुछ न लिखें)

by subsequent Economic survey

(2) poor backward and forward linkage to PDS shops. → Please clarify this.

(3) overburdened Food corporations godown.

(4) paradox of Food wastage. 19% stunted yet 50kg/person food is wasted. Important issue.

(5) Top down approach of policies. Also issues with

(6) one size fit all approach, no tailored made approach. Quality of food provided,

(7) Mass prevalence of poverty (16.4%) is one of reason of widespread hunger and malnutrition. more focus on calorie intake etc.

(8) Not 100% achievement of open defecation status to all district.

(9) lack of access to clean piped drinking water (60% polluted NITI Aayog) → reduce nutrition absorption.

(10) 'Bening Neglect' to Girl child's nutritio

ForumIAS

(Don't Write anythi in this Area / इस स्थ पर कुछ न लिखें)

~~6th~~ Measures to be taken

(1) Use of data driven policy making, safeguarding
(3A) Availability
Affordability
Accessibility.

(2) engaging civil society organization
e.g Akshay patra.

(3) involving millets in midday meal which can achieve twin objective.

(4) Swachch bharat mission 2.0 and Jal jeevan mission's expeditious implementation

(5) Special focus to Girl's hunger. by turning BBBP - beti bachao to beti vijayalakshmi (BADLAV)

Hunger and malnutrition are impediment to total human development. Above steps shall be implemented to achieve SDG 1 and 2 (No hunger).

Effective

Also mandatory food fortification, one nation, one Ration card Scheme etc.

Impactful measure.

Conclusion
