15/12/2016

WESTERN POLITICAL THOUGHT

— What is Political?

Political — Greek word - Polis — Greek term of city states
↓
self sufficient political entity

city states - in India - village Republic
↳ Gandhi wanted to have self sufficient villages i.e. he wanted to have Gram Swaraj.

→ In politics we study the theories of governance.

→ What is the term Thought Implies?
→ Time (when)
→ Space (where) place

thought is a thinking of an Age.

→ Evolution of the Western Political Thought —

Ancient — Greek thought → greek political & social life.
⇓
Medieval — Roman Empire → Confederation of Europe
Modern — ⇓ Nation states → - all europe states coming together.
Post Modern — Supra national entity → EU

→ Way of life in Ancient Greece

Political System — City states — decentralised type of govt.

Economic System — Agrarian Economy — system of slavery
- Slavery was practice.

Social System — Greek society was devided into class &
* Indian society was devided into caste
- class was based on economic status e.g. Masters & slaves
- It was a Hierarchical society.
- It was patriarchal society

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Attitude of Greek people- greeks ~~as~~ has sense of superiority & they considered others as Barbarians. eg. Indians (ગામડાનુ/ અસંસ્કૃત)
They were Ethno Centric People (વંશીય કેન્દ્રીત)

THINKER

- Purpose/ concern of Thinker
- Times of Thinkers + Space/Place of Thinker
- Perspective of a Thinker/school of thought.
  e.g. Marx was socialist.
- Methodology of Thinker
  e.g. Gandhis methodology – Experiement
- Influences – who have influenced thinkers
- key/Prominent Ideas
  e.g. Mark was known for communalism
- Key statements of Thinkers
- Critics of Thinkers.
- Place/contribution in western theory.

PLATO

Time of Plato –

- 427 – 347 BC
- Plato belongs to Athens (place)
- Peloponnesian War – Sparta Vs Athens
  - Sparta defeated Athens
- Athens was defeated by Sparta, Plato wanted to know the reasons for the decline of Athens. He wanted to make Athens an ideal state.
- According to Plato, the root cause of problem in Athens was corruption.

- **What is corruption?**

Corruption is using public office for private ends. Use of office for the purpose for which it should not be used & vice-versa it's all come under corruption.

- **What is the reason for corruption?**

Ignorance is a root cause of corruption.

- **Plato's Proposal –**

- Institution of philosopher king.

"Until philosophers are the rulers or rulers learn the philosophy there is no end to the predicament (problem) of human life."

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

PLATO'S PERSPECTIVE

- Plato is idealist
  - ↳ those who think what ought to be there rather than what is.
- Plato is Utopian (impractical)
  - ↳ આદર્શ સ્થિતિનો વિચાર કરીએ પરંતુ શક્યતાને
- Plato is radical (who is looking for far reaching changes) → plato is a 1st feminist
- There is a transition is Plato's ideas.
  - ↳ a process/ period of changing from one condition to another.
- Plato's Republic – it is a work of plato when he was young.
- Statesmen – It is a book of plato in transition
- The Laws – mature plato – when plato was mature

PLATO'S METHODOLOGY

- Deductive Method – when your conclusion is already in your mind.
  - from general to partial*
- Deductive method is where conclusion is already existing and scholar is looks for particular instances to support his views.
- Deductive means biased.
- Dialectic Method – it means dialogue/debate
  - ↳ method of gaining knowledge devised by Socrates, the teacher of plato.

→ check previous year questions on plato

Inductive method – science theory
→ from particular to general
e.g. Newton's law of gravitation

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

2nd Lecture
16/12/2016

INFLUENCES ON PLATO

1. Pythagoras – the famous mathematician
   - (a) Universe is based on some mathematical principles.
   - (b) Importance of Geography for the ruling class.
   - (c) Theory of soul.

- Plato's Theory of Soul –

Universe has two parts –
- (i) physical or Material
- (ii) Spiritual

Human beings are also part of Universe. Human beings also have two aspects –
- (*) Physical and spiritual.

Every person has a soul, every soul has 3 elements –
- (i) Reason
- (ii) Courage
- (iii) Appetite (passion)

Every soul is not same, some are Superior souls and some are inferior souls.
He creates "Myth' of Metals. He classifies people into 3 categories on the basis of qualities of soul.
- (i) Persons in whom Reasons Dominate be called them men of gold.
- (ii) Persons in whom courage dominate is men of Silver.
- (iii) Person in whom Ap pet'te dominate is men of Copper.

Reason - ಬುದ್ಧಿವಂತಿಕೆ / Rationality
Appetite - natural desire / passion – ಆಸೆ, ಪ್ರೇರಣೆ,

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

② Heraclitus –
According to him, change is the characteristic of the world in which we live.

③ Parmenides –
He gave idea of permanence. There is continuity as well as change.

④ Socrates –
Plato considered himself as the disciple of the Socrates. He considered socrates as the wisest man on this earth. Plato was influenced by–
(i) Socrates Theory of knowledge.
(ii) Socrates Method of Dialectics.
(iii) Events in the life of Socrates –
- Socrates was ordered to drink poison.
Socrates had opportunity to escape.
Socrates preferred to die for his principles.
When socrates was ordered to drink poison at that time it was democracy in Athens.
Plato hated for democracy is linked to life of Socrates.

- Socrates Theory of Knowledge–

No possibility of question on this topic only understanding is necessary.

Context of the Theory.

Socrates was against the type of knowledge which was being imparted in Athens. Education was in private hands. Person's opportunity to get educated was dependent on persons ability to pay. Sophists were charging money. They were teaching what people wanted to listen. They were not doing justice with their task.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

What sophists were Teaching?

They were inspiring youth to join politics.
They projected politics as a means for gaining money. Money as a source of Happiness.
According to Socrates, they were misguiding.
Sophists were promoting —
(i) Individualism
(ii) Materialism

What is Socrates Theory of knowledge?

→ **Importance of knowledge –**

According to Socrates, knowledge is virtual.
It means knowledge is a source of good life.
In the words of Socrates "Unexamined life is not worth living."

→ **Which knowledge** (is socrates is talking about)

The knowledge of what constitutes a good life.

The real knowledge is inherent in human soul.
Soul can tell us what we should do & what we should not.

How to Listen The Soul?

One requires reason to understand soul.

What is the method to develope Reason?

Dialectics – logical arguementation.
↓
વ્યક્તિઓ દલીલો ચર્ચા કરવી
સત્યોચ્ચા શોધ ચોક્કસી કરવી.

Notes – Individualism – habit or principle of being independent/self-reliant
– સ્વતંત્રતા અન્ય લોકો મોટા ભાગે કામની બાબતો

Materialism – A tendency to consider material possessions and physical comfort as more imp. than spiritual values.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

- **Is there any role of a Teacher?**

Teacher should engage the person in dialectics. this is the only way that a person can be Enlightened.

→ According to Socrates there are two types of knowledge -

(i) knowledge (I) – Illusion (आडंबर) → Sophists belief/opinion

(ii) knowledge (II) – Ultimate → Socrates

- **Impact on Plato**

Plato has developed his theory of ideas on the basis of Socrates theory of knowledge.

- **What is Dialectics ?**

Dialectics in simple terms is logical reasoning. and it is a process through which we can convert our belief into pure knowledge.

Question – All that is Platonic is Socratic.

Answer – (i) Plato considered himself as the disciple of Socrates.

In the eyes of Plato, Socrates was the wisest man.

It is believed that whatever we know about Socrates is only through Plato's dialogue.

Some Scholars believe that Socrates was just imagination of plato.

Socrates is a main character in Plato's dialogue.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

- Whatever plato's views he expresses through the character of socrates.
- Plato is influenced by theory of knowledge, method of dialectics & the event in the life of socrates when he was ordered to drink poison.
- However, above statement is only partially correct. Because plato was influenced by other scholars.
- Plato was one of the most original thinker
- The idea of philosopher king & the theory of communism are his original contributions.
- We can say that whatever is platonic is actually more than whatever is socratic.
- We can also say that whatever is socratic is platonic.

PLATO'S WORK

1. Theory of Ideas
2. Theory of Justice
3. Theory of Education
4. Theory of Communism
5. Theory of philosopher king
6. Theory of Soul
7. Life cycle of an Ideal state.
8. Evaluation of Plato.
9. Was plato ..... Fascist
10. should plato be called as Totalitarian Thinker
11. Whether plato was 1st communist
12. Whether plato was enemy of open society?
13. Whether plato was 1st feminist.
14. Plato as father of political philosophy

Join Telegram for More Update : - https://t.me/upsc_pdf

(1) Theory of Ideas.

"Reality is the shadow of Ideas."

Context of Theory.

plato wanted to make Athens an ideal state. In order to make Athens ideal state we should have an idea of ideal state. Idea can be understood only through the use of reason. philosophers have Reason. So, only philosophers can establish the ideal state. Thus theory of idea also justifies the institution of philosopher king.

Bases of Developing Theory of Idea -

(i) On the Basis of Theory of knowledge
(ii) On the Basis of Theory of Soul.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

lecture 3rd

17/12/2016

Why to know reality?

It is necessary to live (lead) a good life.
Hence, scholars belonging to diff. traditions have been trying to understand Reality.

In ancient Greece we 1st see physicist explaining natural phenomena focusing on the physical world.
Later on we see the emergence of philosophers.
Who were not satisfied with the understanding with the physical world & who believed that there is another world beyond physical world / beyond the world of senses.

Role of Socrates

We trace the origin of ethics in the ideas of Socrates.
Socrates believed that it's more imp. to know how we ought (ought) to live rather than just knowing how we live.
It is more imp. to understand what is good life rather than just knowing what is life.
In this context socrates has given the theory of knowledge
Socrates has suggested to look for the things which may not be visible to eyes, which requires reason.*
Plato has developed his theory of ideas on the basis of socrates theory of knowledge.

① The knowledge about physical world (world of appearences) is not the true knowledge. True knowledge is of permanent nature. It does not change. physical world or the world of appearences is a world of change. We cannot have permanent knowledge about the things which are changing.

reason - the power of mind to think.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

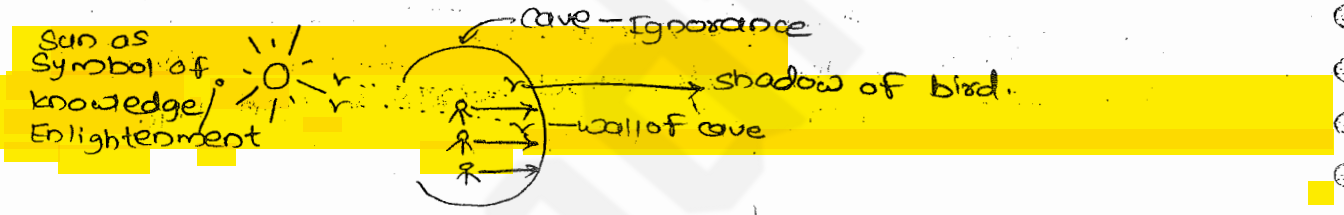

Hence plato suggests to go beyond the world of appearences & to understand the essence* (Idea).
Essence or Idea does not change. It is of permanent nature. Hence, the knowledge of idea is permanent, ultimate.
Eg. There are multiple varieties of horses. In order to understand horse it is imp. to have idea of horsiness.

- **Characteristic of Idea –**

(i) Idea is of permanent nature.
(ii) Idea is a perfect manifestation of the physical form.

- How plato proves that the idea is ultimate reality ?
  OR
  How plato proves that the Reality is the shadow of ideas?

Allegory of Cave — Allegory - story with hidden meaning.

Through the example of the people inside the cave looking at images and thinking that these images are real. He tries to show that what we consider as real. Because of our ignorance may not be real but just the shadow of reality.

Since plato established the superiority of philosophy over physics he is called as the Father of Political philosophy. It is because of the Theory of ideas plato is known as Father of Political Idealism.

All that glitters is not gold.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update :- https://t.me/upsc_pdf

Q. "Reality is the shadow of Ideas."

Ans → Above statement tells plato's conception of Reality

- According to Plato, reality is shadow of Ideas.
- According to plato idea is the ultimate reality.
- Idea belong to the world of essence beyond appearence. दिखावा.
- Idea is the perfect form of anything.
- physical objects may change but Ideas remain permanent.
- His theory of ideas comes from the socrates theory of knowledge
- In order to establish his view plato gives the Allgory of cave.
- According to plato when we are in the state of ignorance we consider the world of appearences (physical world) as real. our situation is like men in cave with his back towards sunlight & hands ~~tight~~ tied. only when this person is pushed out of the caves he will realise that what he was considering as real was just the illusion of reality or a shadow of reality. only when he have true knowledge we can understand diff. bet" shadow & Reality.

The message behind the above statement is that ruling class should understand that physical world is of tempo-rary nature. they should understood that the money is not the ultimate source of Happiness. It is more imp. to be man of integrity rather than the man of wealth/property.

To conclude we can say that plato has established the superiority of idea over matter, philosophy over physics, & he should be rightly called as father of political philosophy.
We can also see the linkage bet" theory of Ideas & the justification of the institution of the philosopher king.

Notes

① Intigrity - the quality of being honest & having strong moral principles.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

THEORY OF JUSTICE

The idea of justice has been the core concern of the political philosophy from Plato to Marx, Marx to Rawls & from Rawls to Amartyasen. Plato has also discussed the idea of Justice in depth. The subtitle of his book is "Concerning Justice".

Plato's Methodology –

Plato / Socrates

Cephalous | Polemarchus | Thrasymachus | Glaucon

(i) Cephalous (Old man)

Cephalous gives two ideas.

(a) Justice is doing one's duties.

(b) ~~Paying~~ one's dues
Paying

Plato's Response–

- Plato approves that justice is duty But he puts question mark on the 2nd idea.
- He asks whether it will be just to return a borrowed weapon to a person who has gone mad.

Since above statement cannot be applied in all circumstances it cannot be treated as the universal idea of Justice.

(2) Polemarchus (Son of Cephalous)

He suggest that justice is giving everyone his dues. Being good to your friend & evil to your enemy.

Plato's Point of view –

It is not easy to identify who is our enemy & who is our friend. We may end up doing harm to our friend and favours to our enemy. Hence it is better to be good with all.

Gandhi is also follower of Plato.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

③ Thrasymachus (Sophist)

- Justice is the interest of the stronger.
In other words, Might is Right.

According to Thrasymachus those who are in power make laws in their own interest. It becomes the duty of others to follow laws. Thus justice is the interest of the strong. In simple terms Might becomes Right.

The Reality of the world is that world understands the arguement of power rather than power of Arguement.

For Thrasymachus it is better for person to overlook the laws in this way he will serve his interest better

We see one of the earliest ideas of civil disobidience in the ided of Thrasymachus.

Plato does not have a very strong arguement against Thrasymachus because he is putting the reality of the world of politics. However, Plato suggests that it is wrong to consider that laws of the state are just the interest of the strong. They are in the benefit of all. It is our duty to obey the laws. It is never better to disobey the law over obeying the law. The soul of the person who does not obey the laws is never satisfied.

What Thrasymachus tells is the reality whereas the what plato says should be the Reality.
Both the views have their importance.
Only when we know what is we can try what ought to be

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

④ Glaucon :-

His theory is called contractual theory.

According to Glaucon, the justice is the interest of the weak.

According to him those who were weak who could not protect themselves on their own came together & form the state.

Hence is the state is for the protection of weak.

Plato's Argument :-

It is wrong to think that the state is meant only for weak. State is in the interest of all.

- On the basis of above discussion we get following ideas of Justice.

(i) Justice is a duty.

(ii) Justice is a virtue, the objective of justice cannot be harming anyone.

(iii) The laws of the state are for the welfare of all.

(iv) It is better to be just rather than unjust.

(v) Justice cannot be based on the principle of 'Might is Right' because it will lead to conflicts and disorder.

(vi) Justice leads to peace, harmony & excellence.

virtue - Behaviour showing high moral standards.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

lecture 4th
19/12/2016

Plato's Idea of Justice –

Plato's Ambition –

To know god's idea of justice, the perfect ultimate idea of Justice.

To understand god's idea of justice we require reason.

- From where we can get God's idea of Justice?
  – From Soul. Because soul is the part of God.
- Which soul is a just soul? or who is a just man?
  – Just man does not create problem for others rather live in peace with other (& harmony) as well as with himself.
  – Person in whom reason dominates over courage & Apetite is a just man.
- What is God's idea of Justice?
  – Each element at its specific place.
  – Non interference in each others domain.

Idea of Justice At The Level of State.

– State is Individual writ large.
– It means state is bigger form of individual.

Why Plato Makes this statement & What is the context?

– He wanted to show that the principles of Justice applicable at level of individual can be applied in case of state.

Application of Principle of Justice found at the individual level of Individual case of State.

Just like the three elements are organised in a specific manner in the just soul similarly state should be organised into 3 classes.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

⇒ Basis of classes, it is the spiritual quality of soul.

State will have following classes.:

- Ruling class - man of reason (Auxialries)
- Soldier class - man of courage
- Producer class - man of Apetite
- Ruling class & the soldier class together form the guardian class.
- Each class will be performing its specific duty. they will not interfere in each others work.

● What will be the outcome?

- Excellence.
- Harmony - no interference.
- Peace

● What is the Feasibility of this state?

- According to Plato it is feasible
- Man is not self sufficient hence man forms society or state.
- Each class plays a vital role without which society cannot sustain. Each class understands the importance of the other class.

● What is the essence of Plato's Idea of Justice?

- Justice is a proper stationing.
- Justice is non-interference in each others work.

Conclusion

Plato's ideal state cannot be accepted in contemporary times. There are many drawbacks in plato's scheme.

Check Audio 30-35:00:00

We cannot devise any system which ~~can identify~~ cannot define without correct attitude of a person.

Efficiency or excellence can not be the sole principle of Justice.

What plato is talking about is ideal but its practicle form will not be desirable.

Eg. Plato's theory of classes come near to Indian concept of Varna system. However Varna system got deteriorated into class system.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

It was not just division of labours it became division of labourers.

Q. The state is Individual writ large.

Ans→ Above statement means state is the magnified (larger) version of individual.

In the words of plato the only difference is of big letter and small letter.

Context- The statement is given by plato to logically establish his view that Principles of justice found at the level of individual can be applied at the level of state.

H
- How he justifies that the state is Indi. writ large-
→ In the words of plato states do not come out of oak or rock, it inheres in the mind of the persons living in the state.

Message- The hidden message in plato's view is that the state is nothing just an abstraction in Idea. Audio
State is nothing but collection of people who are organically related. Only then people are just, state will be just. Thus he suggests that the Principles of justice meant for the individual are also the Principles of justice at the level of state. Hence, there is continuation bet" ethics & politics.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

THEORY OF EDUCATION

- What is the Purpose of Theory of Education in Plato?
  - Edu^n is the method by which aptitude of a person is known and ideal state ~~can be~~ is established.
  - Plato has dealt with the issue of edu^n in a very exhaustive sense that Rousseau called Republic as the best book in the field of Education.

- Influence on plato -
  - He has combined the elements of the education system of Athens and Sparta.

- Good features in Spartan system -
  - State sponsered education.
  - Compulsory military education.
  - Equality of opportunity to women.

- Elements of Athenian System which plato dislikes -
  - Education in Private hands.
  - No vigilence by state over the curriculam. (bureaucracy)
  - No equality of opportunity for women.
  - Neglect of physical education.

- Merit of Athenian System -
  - In Athens the focus was on developing the logical and critical faculties of mind.
    More focus was on study of literature, maths etc.

- Plato's Scheme of Education -
- Holistic view of Education -

① Primary education (0-6 yrs.)
  - Gymnastics
  - Music - as mental exercise
  - Moral stories - for character building.

Note - Aptitude - a natural ability to do something.
Vigilance - action of keeping careful watch for possible danger / difficulty.

Join Telegram for More Update :- https://t.me/upsc_pdf

(ii) Secondary Education (6-18 yrs. of age)
- Basic knowledge of different subjects.
- First screening test - those who will pass will go for further learning rest will join the producer class.

(iii) From 18-20 yrs.
- compulsory military education
- second screening - those who show aptitude for further learning will be promoted rest will join soldier class.

(iv) Higher Education
1st stage - (20-35 yrs. of Age)
- logic, philosophies & dialectics

2nd stage - (35-50 yrs. of Age)
- Hands on experience.
- At the age of 50 person will get certificate of philosopher & is eligible for becoming King.

→ There will be many philosophers and how to select a King?
- There is no question of conflict because philosophers have no love for power. Their first love is knowledge. When people will request them very reluctantly they will accept the position of ruler because they are not selfish as an obligation towards the state they will accept it.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update :- https://t.me/upsc_pdf

In the words of plato.
" Those state are well governed where rulers are reluctant to govern rather where they are eager to govern." → Audio

- Plato's Problem. ✱
  The state of Athens & How to make Athens ideal state.
- What is Plato's diagnosis of the problems of Athens. (Rule of ignorance)
- What is the solution? (Rules of knowledge) (Until philosophers are rulers)
- While such states are well governed where rulers are reluctant to govern.

→ The problem is "corrupt". Hence if such persons are ruling who are ignorant who believe that money is a source of happiness, there will be problems.

- Why philosophers are best rulers?

→ They have true knowledge of good life.
They have no lust for power & money.
They will not misuse their authority.
They will do justice with their job.

- Conclusion
  Plato's diagnosis is correct but his prescription is wrong. The person who is reluctant to govern can never provide good governance. However, this is not the best way to tackle corruption among the ruling classes.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

THEORY OF COMMUNISM

- What is communism?
  - Communism is a way of life which rejects pvt. ownership and supports common ownership.
- Which communism is plato talking about?
  - Communism of Property,
  - Communism of family.

He proposes communism only for the guardian class means only for the ruling & soldier class.

- Why no communism for Producer class?
  - Not required. Because they are not in power.
  - Not possible because they are men of Apetite & cannot control their lust for worldly pleasures.

- Communism of Property -
  - Ruling class will not be allocoed to own property.
- Communism of Family -
  - According to plato family is a bigger evil than property. Because it is family promotes both corrup" & nepotism.
- Features of Comm. of Family -
  - No private family, state is a family.
  - Communism of wives.
  - Who will marry who & when all decided by the state.
    - → why? "Eugenic Purpose"
      - This is the way they can improve the race. only ablest men & ablest women will be permitted to marry.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

- Purpose of marriage in Plato's Republic -

– Purpose of marriage is Procreation

↳ State will bring children under its custody.

Advantages:-

(i) Ruling class will not be able to discriminate among children.

(ii) Women will be relived from their responsibility of child rearing. They can devote themselves for the state.

- Criticism of communism –

Plato's diagnosis is correct but prescriptions are wrong. This is not the best way to tackle corruption & Nepotism.

- Aristotles Criticism of Plato

Aristotle who is considered as greatest disciple of Plato is also greatest critics of Plato.

→ Aristotle on Property :-

– Plato has overlooked the good aspects of the institutions of put property.

– Private property is a source of motivation.

– Its a source of recognition of a man.

– Persons with a property are man of reason ~~are the man of reason~~.

– Those who have property have stakes in the stability and in the order.

– Property is a source of charity.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Aristotle on communism of family.

- Extremely critical of plato's communism of family.
- Remedy is worse than the disease.
- Plato's ideas are not progressive rather take us back to the barbaric ages.
- The purpose of marriage & family is not just procreation. It is very imp. for emotional stability.
- State is not a family rather family of families.
- Both Property & family have been time tested institutions, had there been any other alternative it would have been in existence.

Institution of philosopher king.

→ Why philosopher king?

If Athens has to become ideal state it has to be ruled by philosophers.

→ Qualifications

man of reason, symbol of sacrifice, knowledge of philosophy. doesn't have family, no right to property.

→ Powers of philosopher kings

He has absolute powers. In the words of plato No ordinance or law can be mightier than knowledge. His wisdom cannot be questioned by public opinion or by book of law.

- In the words of plato,
  "It is foolish to limit the expert practioner of medicine with a book of medicine."
- There is only one limitation on philosopher king.
  - He cannot change the constitution. (Plato's constn)

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

"No law or ordinance is mightier than knowledge".

Theme - The justifica° of absolute powers enjoyed by the philosopher king.

- Plato wanted to make Athen an ideal state & according to plato, "until philosophers are the rulers...."
- Why philosopher king?

Because he is symbol of knowledge & sacrifice.

- Plato has given absolute powers to the philosopher king with the only exception of the Constitution which he cannot change.
- In the words of plato no law or ordinance is mightier than knowledge.
- Philosopher king posses absolute & ultimate knowledge which cannot roade ordinary by public opinion.
- If we limit philosopher king with ordinary wisdom (Public Opinion) it will be as foolish to limit to expert practioner of medicine with a book of medicine.

Conclusion - Aristotle is critic of institution of philosopher king. Aristotle prefers rule of law over, rule of person however, knowledgeable he is.

Why?

1. It is impossible to find the philosopher king.
2. Philosopher king is also a human being. If he has reason he also has Appetite. It may happen that Appetite comes to dominate his reason.

Upto now the law has served the purpose. Law represent collective wisdom & wisdom of ages which is more dependable than wisdom of one person.

5th lecture
20/12/2016

According to Aristotle, Plato is sacrificing good for the sake of best. But best is unachievable. If the rule of philosopher king is the best, the rule of law is best practicable.

Aristotles idea is better than that of Plato. It appeals to commonsense as suggested by Lord Acton, power corrupts and absolute power corrupts absolutely hence there should be checks & balances.

EVALUATION OF PLATO

① PLATO AS COMMUNIST

Compare plato's communism with modern communism.

Introduction –

Communism is a Political ideology. Associated with Karl Marx. who is known as father of modern communism.

Some western scholars like Prof. Maxey, trace the origin of the communism to the thoughts of plato. He calls plato as first communist.

Plato has given the concept of communism.
Plato talks about communism of property & families.
If we compare platonism with communism we will find that the similarities are superficial whereas the differences are fundamental.

The similarity bet° plato & marx is that both believe in the concept of class, another similarity is that both consider that private property as evil.

→ Besides above two there is no similarity bet° plato & marx. eg.

① If plato is idealist, marx is materialist.
② If for plato idea is ultimate reality, for marx idea is false consciousness.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

(iii) For Plato the basis of classes is quality of soul whereas for karl marx class is an economic category.

(iv) In Plato we see 3 classes but in Marx we see 2 classes.

(v) Plato believes that there can be harmony among classes whereas for karl Marx the relations between classes ~~are~~ is always class struggle.

(vi) Plato's ideal state will have 3 classes whereas for karl Marx communism is classless society.

(vii) In plato's, state is a source of virtue but in karl Marx state is an instrument of exploitation.

Marx communism is a stateless society.

(viii) In order to create ideal state plato goes for system of educa° whereas to create communism Marx proposes violent revolution.

Above discussion show that the differences are fundamental.

(2) PLATO AS FASCIST

Fascism is a 'bad word' in the liberal world/countries. Fascism is associated with totalitarianism. Fascism is considered as anti-democratic, anti-freedom, threat to international peace & anti-humanity.

The term fascism is used to denote the type of political system which came to be established in Italy under Mussolini and in Germany under Hitler during inter war period.

Note - Totalitarian - of or relating to a system of govt. that is centralised and dictatorial and requires complete subservience to the state.
↳ obey others unquestioningly

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

- **Characteristics of Fascist state -**

(i) Supremacy of the state.
(ii) People had no rights, only duties.
(iii) A regimentive (शिस्त) society.
(iv) Leader is considered as super man.
(v) Fascist state is imperialist.

- **Should plato be called as fascist**

Karl Popper called Plato as 1st Fascist.
According to Popper, Plato's political programme was far from being morally superior through Fascism, it was identical to fascism.
In his book 'open society and its enemies' he called plato, Hegel & karl marx as the enemies of open society. In the 1st volume of his book title, 'the spell of plato' he proves that the Plato was Fascist; plato was enemy of democracy & supporter of totalitarianism.

→ **Popper criticises plato on three grounds -**

(a) (i) Plato's hatred towards democracy.
(ii) Plato projected democracy as worse form of state. He called democracy as the rule of ignorance (अज्ञान).
(iii) Plato held that anyone can become ruler in democracy by just by chance.

(b) **Holism -**

Plato proposes holistic changes rather than 'piece - meal social engineering'.

(c) **Essentialism**

Essentialism means believing in the concept of essence/idea. Plato claims that he knows the essence of the ideal state. It can be misleading. Essentialism implies claiming finality of one's ideas.

Note- Holism - व्यक्ती ही निरनिराळ्या संस्था मिळून एकत्रित संपूर्ण कार्यक्षमी शरीर आहे हे प्रतिपादन करणारे तत्व

Essentialism- the doctrine that essence/idea is prior to existence.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

→ Levinson wrote, 'In defence of plato'.
Levinson does not agree with poppers viewon, plato that 'Plato is Fascist'.
According to Levinson there is huge difference bet" time & space bet' plato & emergence of fascism. Comparing plato with Fascism is 'Comparing the Uncomparables'.
The Fascist state was reality, Fascist have established very exploitative system.
Plato's republic is utopia.
We donot know what form plato's republic would have taken if ever implemented.
It seems that plato's motive was not the exploitation of the people.
There was genuine desire in plato to give life of excellence & virtue through all citizens in the state.

→ Conclusion 1

According to karl Popper, if we donot acknowledge plato as Fascist, it is only because of spell of plato and the tradition of admiring plato.
Though Levinson disagree that plato was Fascist but he acknowledges , that plato's critics were not entirely wrong.

→ Conclusion 2

According to Gilbert Ryle, whether poppers view on plato is correct or not, but it is certain that after Poppers work plato will not be seen in the way it used to be.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Plato as Father of Totalitarian –

→ **What is totalitarianism –**

eg. China → Totalitarianism denotes the **total control of the state.**

The examples of Totalitarian society are communist China, Iran, North Korea.

→ **Why plato is called Totalitarian?**

Western Liberal scholars like Karl Popper, Isaiah Berlin calls plato as Totalitarian. Because we can see the traces of two varieties of Totalitarianism i.e. Communism and Fascism in works of plato.

- plato has given absolute powers to the state. He does not give any rights to the citizens. Even family & marriage is controlled by the state. He creates a regimentive society. State will determine to aptitude & profession. There is no freedom of choice.

Still it will not be appropriate to call plato as totalitarian. We have to go into the essence of the totalitarianism. rather than the form of Totalitarianism. Whatever Totalitarian society that had come into existence whether in germany or Former USSR or Present China, all such societies have been extremely exploitative of their people. Plato's republic remains an Utopia. Hence we can not say that Republic could have been an exploitative state. It seems plato's intention was to not to exploit the citizens but to give them the life of virtue & excellence.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Plato as Feminist -

What is Feminism?

→ Feminism is an umbrella ideology. There are different schools of Feminism.
The connecting link between all schools is concern toward violence & discrimination against women. The objective is to end exploitation & to provide equality of a status & opportunity.

→ Grounds for considering Plato as Feminist -

(i) Equality of opportunity to women in field of education
(ii) Equality of opportunity to women to become Philosophers Queens.
(iii) He is the first person to suggest that women do not suffer any natural disability with respect to politics / state craft.
(iv) His communism has liberating influence for women as state takes up responsibility of child caring so that women can participate in the affairs of the state.

Plato as a feminist is debatable. Those who do not consider plato as feminist argue that plato's ~~was~~ main objective was not upliftment of women, he provides equality of opportunity so that the talent of a women can be used in the service of the state.

To conclude, we can say that plato was much ahead of his times. plato's suggestions with respect to the education of women & women joining in politics would have certainly resulted into the improvement of women in the society.

Plato as Father of Political Philosophy -

- The entire western Political thought is nothing but the footnotes to Plato & Aristotle.
- One can be either platonic or Anti-platonic but one can never be non-platonic.

— Karl Popper.

- Plato is known as the father of Political Philosoph Plato rightly deserves the title because Plato has established that philosophy is superior to Physics Plato has given the theory of ideas. He has establi-shed that the study of ideas is superior to the study of matter.

Plato established that state-craft is a soul craft. there is no difference in Politics and Ethics. He believes that philosophy has a solution for the problems of politics.

He has shown that philosophy is not just for the betterment of the philosopher rather the knowledge of philosophy should be used for the betterment of humanity.

Considering Plato's contribution towards the discipline of politics emerson goes to the extent of saying that plato is philosophy & philosophy is Plato.

While head acknoledged that entire western politic thought is nothing but footnote to plato & Aristotle.

A place of Plato in the history of western philosophy can be understood from the statement of Karl popper who is considered as the greatest critic of plato. He acknowledged that one can be either platoni or anti-platonic but one can never remain indifferent to Plato. Such is the spell of Plato.

① Unexamined life is not worth living.
② Knowledge is virtue.

— Socrates.

Socrates was considered as the wisest man.
Socrates has given the theory of knowledge.
Socrates believe that knowledge is a source of virtue & ignorance is vice.
According to socrates, the purpose of life is to lead a good life.
Good life is a source of Happiness.
In order to live a good life we need to have a knowledge of good life.
In the words of Socrates unexamined life is not worth living. Socrates has given the method of dialectics. Through the process of dialectics we can examine our beliefs & opinions & we can understand the meaning of good life.
Plato was influenced by Socrates. Plato has adopted above principles of Socrates as a foundational principles of Political philosophy.
If a Athens has to become virtuous state it has to be ruled by knowledge

Life Cycle of Ideal state -

This world is a world of change & hence even when ideal state comes into existence it will change. The change from ideal is corruption or fall.
Ideal state is ruled by philosopher king. ↓ This will fall into state ruled by man of courage or soldier class which plato Timocracy.

Rule of Rich (Aristocracy).

↓

Rule of Poors (Democracy)

6th lecture
21/12/2016

- Plato as an enemy of open society -

Karl Popper calls Plato along with Hegel and Karl Marx as enemies of open society.
Open society is liberal society where democracy exists. Open society allows freedom of speech & Expression.
Plato's ideas have been compared with Totalitarianism
Some scholars eg. Maxey calls plato, communist.
whereas Karl Popper calls Plato as Fascist.
Fascism & communism are 2 forms of totalitarianism
In Plato we see a regimented society (state control)
people do not have any rights, philosopher king has absolute powers. H
Hence scholars like Popper, Berlin called plato Anti-democratic.
Popper has called plato as enemy of open society Because his hatred, holism & essentialism to democracy.

- Plato's communism is supplementary machinery to give effect and to reinforce the spirit which education has to create.

— Plato's objective
— what is cause of corruption
— why Athens is not a ideal state (Corruption & ignorance)
— Athens to be an ideal state it has to be based on idea of Justice means God's idea of Justice.
— In order to understand God's idea of Justice we have to understand configura? of soul by the use of reason.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Just man in who reason dominate.
Thus 2 ultimate principles of Justice are Proper Stationing, Non-interfering. same Principle of justice to be applied at the level of State.
State is Individual writ large.
Just State - devided into 3 classes - each classes performing its assigned duties & they are not interfering in each others task.
State is inter-dependence. Each class has to sacrifice its immidiate narrow self interest for the wider interest of the society.
Ideal state is where philosophers are the rulers who understand the meaning of good life, who are symbol of knowledge & sacrifice.
philosopher will sacrifice his life for pursuit of knowledge for the sake of the State.
- Plato proposes two machineries to create the ideal state. Primary machinery is Education. to know the Aptitude & to find out who is a man of knowledge.
- Plato also proposes communism. Communism is a supplementary machinery & additional safe guard to check even the remotist possibility of the philosopher king. becoming corrupt.
- According to Plato Ignorance, Property & Nepotism together are the causes of corruption and thus he proposes communism along with education.

Thus, this statement is correct.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

- Plato's theory of Education is the logical result of his conception of Justice.
- Plato is not only the father of Political philosophy his influence goes beyond the discipline of Politics.
- Rousseau recognise plato's republic as the best book in the field of education.
- Plato's approach towards the edu" continue to influence the system of edu" in many western countries even today. (compulsory primary education)
- He dealt with edu" in a Holistic manner. He talks about moral, physical, as well as mental developement of personality. He talks about theoritical as wellas practical edu".
- The scheme of edu" is devided into diff. stages. In each stage there is a filteration process to identify the natural aptitude.
- Thus it can be said that the system of edu" is the logical result of his theory of Justice.
- According to plato Justice is Proper Stationing & Non-interference. Justice results into excellence & Harmony. Just state is a state where people are assigned duties according to their Aptitude. Each group/class perform its own duties without interference.
- Thus to find out who has what aptitude plato devise the scheme of edu".

ARISTOTLE

- Time / Period → 384 BC – 322 BC
- **Introduction -**
  - He is known as father of Pol. science as well as comparative govt and politics.
  - He has studied 158 constitutions.
  - He was influenced by plato, but he had disagreements with Plato.
  - He was also influenced by his father who was physician.
  - He applied the method of Biology (classification) in political studies.
  - His most famous books is 'Politics'.
  - plato's republic is ~~Encyclopedic~~ Encyclopaedic (ज्ञानकोश) in content.
  - Where as Aristotles politics deals solely with politics & govt.
  - The country whose political culture comes nearest to Aristotle is Britain.
  - Aristotle can be considered as conservative.
    Conservatives prefer to preserve customs & traditions.
- **Perspective of Aristotle as a Thinker -**
  - Unlike plato, who believes that ruling class require a specific knowledge.
  - Aristotle believes that ruling class requires common-sence. According to him it is more imp. to be worldly (व्यावहारिक) wise rather than wise in the world of ideas.
  - Aristotle does not reject the world of matter as According to Aristotle the world of Ideas is not independent of matter rather ideas are inherent in matter. we can not outrightly reject the knowledge of this world which we gain through the use of sensory organs.
  - Aristotle believes in middle path. According to him, Golden Mean is the Golden Rule.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

It means the life of moderation (નિયમો / સંયમ) is the best life.
- According to him for good life we require both knowledge as well as property but in moderation.
- If Aristotle is for moderation, plato is for perfection.
If plato is idealist, Aristotle is Practical (Pragmatic).
If plato thinks about the best, Aristotle talks about the best Practicable.
- Aristotle is Functionalist. Functionalists are those who understands the functional utility of any institution and so they would not abolish it.
- Aristotle belongs to the school of Teleology.
Teleology means destiny. According to Teleology nature has specific design for every and every person moves towards its natural destination.

Comparison Between plato & Aristotle -

- plato is Utopian whereas Aristotle is Practicle.
- plato believes in perfection whereas Aristotle believes in moderation.
- plato is radical (ક્રાંતિકારી), Aristotle is conservative.
- plato is Extremist (અતિમાનવાદી), Aristotle believes in golden mean.

Prominent Ideas of Aristotle -

* Aristotle's Theory of State,
Citizenship,
Theory of Slavery
Property.
* Theory of Constitution
* Theory of Justice
Theory of Revolution.

imp. for exam (*)

Utopian - આદર્શ ગણવામાં આવેલી પણ અવ્યવહારુ

Join Telegram for More Update : - https://t.me/upsc_pdf

Aristotles Theory of State –

- "Man is by nature a Political Animal."
- "State comes into existence for the sake of life & continues for the sake of good life."
- "The man who can live without state is either a beast or god But he cannot be a man."
- "State is highest of all associations."
- State is a union of families and villages."
- "The authority of a statesman is different from the authority of the master."

→ "Man is by Nature a Political Animal."

- Above statement tells the importance of state for man and why man should be obliged towards the state.
- In above statement Aristotle shows the limitation of the sophist view of the state.
- Sophists gave primacy to individual over the state. For sophists state is Artificial, a product of contract.
- Aristotle belongs to the tradition of Socrates and Plato.
- According to Socratic tradition state is natural and prior to man.
- Aristotle establish that a state is natural by suggesting the origin of a state lies in the natural needs of man.
- According to Aristotle god has not made man self sufficient. Man cannot fullfill even his basic needs on his own & hence man creates family. Family can fullfill some of the needs but not all. So man creates village. Village can fullfill some of the needs but not all. Hence man creates state. Only State is such institution which can fullfil all the requirement of man Hence state is highest of all associations.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

- Above discussion show that origin of state is the needs of man & it is the destiny of man to live in the state. Chronologically (history-wise) man is prior to state but logically state is Prior to man.
- According to him, a person who can live without state possess super human qualities of beast/god. State comes into existence for the sake of life & continues for the sake of good life.
- Whether man is by nature a political Animal is a matter of debate. Hobbes has challenged the Aristotalian view of man. According to Hobbes man is neither social nor political by nature. man is social & political only out of necessity. For Hobbes state is not natural rather the product of contract.
- The authority of statesman is different from the Authority of master.

→ Context of the statement-

In above statement Aristotle have challenged the Plato's view of the state.

What is plato's view of the state-
plato does not make a diff. bet" personal & political. plato treats state as a big family. Philosopher king as a head of the family in the similar way father is the head of family. He expect all people to obey the dictates of philosopher king just like a dictates of father in family. plato demand excessive sacrifice from people. plato focuses so much on unity & believes that unity will come through uniformity.

According to Aristotle state is not a family. It is family of families. The authority of a statesman has to be different from the authority of the father.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : -https://t.me/upsc_pdf

state should try to seek unity not through uniformity but through unity in diversity.

Aristotle proposes, 'Polity' as the best practicable form of govt where citizens representing diff. interest & families come together to deliberate and formulate laws. The laws made by state should take care of multiple interest, should try to achieve balance among competing interest & the principles of family cannot be applied in case of state. ✓

Thus, Aristotle was the 1st person to segregate Personal from Political.

ARISTOTLES THEORY OF CITIZENSHIP

lecture 7th
22/12/2016

What is citizenship?

It's a legal status of a person with respect to state.

Aristotle also recognise the principle of Birth and ~~Blood~~ Blood. However, Aristotles basis of citizenship is not limited to just these two Criterias.

Aristotle excludes women, children, old people and slaves from the definition of the citizens.

Why?

For Aristotle citizenship is not just a formal status. He fours on the substantive (Kirpe) aspect of citizenship.
having a seperate & independent existence

What is the substantive idea behind citizenship?

According to Aristotle citizenship is a duty or responsibility. It is duty to participate in the affairs of the states.

Which affairs?

(i) Legislative Functions - the functions of law making
(ii) Judicial Functions -

→ Hence, he excludes those groups which are not capable of performing these roles.

(i) **Women** - He believes women are inferior men. He confines women within the ~~4~~ four walls of family
(ii) **old People** - Because of their health conditions they may not be able to play the required role.
(iii) **children** - children are immature.
(iv) **Slaves** - They lack reason, which is imp to make laws

Thus only natural born adult male possessing property qualifies to be a citizen.

(USA) ← Soil - place of birth, Sanguine - descent/blood → (India, Both)
National - International Context, Citizenship - domestic context

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Criticism

Aristotle's theory of citizenship is too narrow & cannot be supported in the present age of democracy. However, Aristotle's theory of Citizenship was practically followed in all western countries till 19th century. Only in 20th century property qualifica° was removed, working class was allowed to vote as well as women. Though his theory cannot be accepted yet we cannot overlook the substantive dimension of citizenship as given by Aristotle.

Aristotle is a source of inspiration for many contemporary scholars like Hannah Arendt who also talks about active citizenship.

Join Telegram for More Update : - https://t.me/upsc_pdf

ARISTOTLES THEORY OF SLAVERY

Not important in exam" prospect

Aristotles view ↴

- Slavery is natural and useful.
- Slavery was in practice in Ancient Greece.
- Aristotle has justified slavery.

Aristotles justification is about natural slaves rather than legal slaves.

- Who were legal slaves?

Prisoners of war were slaves by law.

- Who are slaves by nature?

To know who are slaves by nature we need to know, who are masters by nature.

- What are the qualities of masters?

(i) Reason
(ii) Courage

Even courage is very imp. because if person lacks courage he will not take the decisions because of the fear of decision going wrong.
Hence those who lack reason and courage are slave by nature.

There are some persons who are always dependent on others to take decisions for them. Such persons are not even masters of themself.

- Aristotle suggest that nature has created two type of persons -

(i) Those who are physically strong
(ii) Those who are mentally strong.

Those who are physically strong should involve themselve in the task of production and those who are mentally strong in the affairs of the state.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Utility of Slavery –

(i) Useful for master. Master will have leissure time to develope his virtues. Hence master should treat slave properly.

(ii) Useful for economic system. Since slave is physically strong he can work for a longer duration.

(iii) Good for the state. Because master will get time to participate in the affairs of the state.

(iv) Good for slave –

– It is a necessity for a slave because he does not have reason. He will require someone else to guide him.

– In the company of a good master slave can develope virtue. If slave develops virtue of Reason & courage master should set him free.

Criticism

Aristotle has been criticised for justifying slavery. in the age of human rights. He cannot justify the institution like slavery howsoever useful it is. Immanuel Kant, held that each man is an end in itself, No one ought to treat the others as means to an end.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

ARISTOTLES THEORY OF PROPERTY

not imp. in examing perspective

Aristotle was critic of plato's views on Property. Aristotle did not support the idea of Communism of property.

→ What is property according to Aristotle?

That property is legitimate which is the product of one's labour.

The property which is earned by force or fraud is not legitimate.

He even criticised the institution of money lending

Property is of Two Types -

(Slave)

→ Aristotle has analysed 3 systems of Property -

(i) common ownership & common use (Communism)

Aristotle does not support common ownership & common use. According to him, everyone's property is no one's responsibility.

According to him, it is a difficult ~~f~~ business for the people to stay together. It is more difficult when the question of property involves. Common ownership is not good for the property, person as well as society.

(ii) Common ownership & Individual use -

It is illogical in practical & in case if it exists it will be very exploitative.

(iii) Individual ownership & Common use -

He support this system on the principle of Golden mea

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

→ Benefits of Individual ownership -

(i) more productive
(ii) source of motivation to work hard.
(iii) Men of property are men of reason so good for stability.
(iv) source of charity, Generosity.

→ Common use -

In order to minimise the evils of excessive property which will develope jealousy against the rich he suggests that rich persons should keep the moderate wealth enough for a good life & contribute the surplus for the well being of the society.

why?

Man needs to recognise the role played by society in his well being. Man is ~~see~~ by nature a social Animal. He should pay back to the society.

IMP

ARISTOTLES THEORY OF JUSTICE

Justice

- Distributive
  - ↓
  - performed by- legislature
  - ↓
  - Public Policy (distribution of resources / justice)
  - ↓
  - Honour, Rewards, Positions, Resources
  - ↓
  - Principles
    - Need
    - Desert / Merit
- Rectificatory (Redressal of grievances) — courts
  - ↓
  - Proportion

In the of distributive justice, Aristotle proposes the principle of Merit.

What is difference between Desert & Merit?

- Desert means what one deserves (person's talent)
- Merit is a social concept. It is the value society gives to the particular work e.g. it depends on society whether it gives better importance to the work of the teacher or domestic servant.

Aristotle gives the principle of merit. Reward should be in accordance to the importance of the work of the person for the society.

Aristotle does not believe in absolute equality he believes in proportionate equality.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

"It is unjust to treat equals, unequally.
It is equally unjust to treat unequals, equally."

Above statement explains aristotle's theory of Justice. Theory of Justice is linked to the theory of equality/ idea of equality. According to Aristotle, Justice demands that the persons who are equal, posses equal merit, ought to be treated equally. If a state go for discrimination against the person who deserved to be treated equally, such person will be tempted to go against a state. The commonest cause of resolution is the feeling of inequality, real or imagined.

Aristotle does not support absolute equality. Absolute equality will be injustice with the person who is more talented or meritorious. If state will give equal treatment to more meritorious and less meritorious, It will give rise to the feeling of injustice. Feeling of injustice will also lead to revolutions & seditions. We can see the linkage between Aristotles theory of Justice and his theory of slavery. It will be injustice if state will treats masters and slaves equally.
Aristotle was supporter of Meritocratic society.

Merit can be one of the criteria of the justice, but it cannot be the sole criteria of Justice.
According to John Rawls, Justice is Fairness.
Constitution of India reflects the idea of Justice based on the concept of fairness. In India because level playing field does not exist, merit alone cannot be the criteria of Justice.

8th Lecture

ARISTOTLES THEORY OF CONSTITUTION

24/12/2016

- Aristotle treats constitution, govt and state interchangeably.
- Aristotle is known as father of constitutionalism because, he does not permit the deviation bet" Constitution and manner of government.

Types of Constitution

PURPOSE

- Normal → In the interest of People
- Perverted / Diseased / corrupt → self Interest

No. of persons ruling	
One	Philosopher king / Monarchy → Tyranny (જુલ્મશાહી)
Few	Aristocracy → Oligarchy (અલ્પજનોપ્રધાનતંત્ર)
Many	Polity (મધ્યમવર્ગી રાજ્યવ્યવસ્થા) → Democracy

- Polity is the best practicable form of govt.
- Do you think Aristotle's theory of Constitution is based on his principle that the golden mean is the Golden rule.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update :- https://t.me/upsc_pdf

Aristotle has studied 158 constitutions - on the basis of his study he have given 6 basic forms of constitution. He have classified constitution on two parameters:

(i) Objective of Governance

(ii) No. of persons ruling

In his classification monarchy or the rule of philosopher king is the best but not the best practicable. The practicle form of monarchy will be tyranny. Tyranny is the worst form of govt. And hence it will not be stable.

Polity is the rule of middle class in the interest of the people. According to Aristotle, it is the best practicable form of govt. It represent the Golden mean of oligarchy and Democracy.

Polity is a rule of many but not too many.

- Democracy is extreme because it is a rule of too many which means rule of ignorance & poor. Democracy is the second worst form of govt. Democracy will get replaced by Tyranny.
- Oligarchy is a rule of rich but it will also not be stable because poors will be conspiring against the rich. Similarly in Democracy the rich will be conspiring against poor.
- Aristotle gives following arguements to support that the polity is the best practicable form of govt.

(i) Rich do not trust poor, Poor do not trust rich. But both will trust the middle class.

(ii) Poors suffers from ignorance & rich from Arrogance.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Neither poor nor rich are in the habit of obidience to the law.

(iii) Middle class have reason and moderate wealth. There have been many examples of great law givers like solon belonging to middle class.

Thus polity avoids the two extremes. The extreme of richness and Extreme of Poverty. The extreme of Arrogance and Ignorance & it is based on the principle of Golden Mean.

From Aristotle's Theory we should take the inherent message that though societies where huge disparity exist are not stable, are will be more prone to conspiracy and societies where more no. of person are in middle class are stable.

- **Rule of law**

"Law is a reason without Passion."

Aristotle has compared rule of law with rule of Philosopher king / person. and has established the superiority of rule of law.

The context of Aristotles theory is the criticism of the institution of the philosopher king.

Plato has given Absolute Powers to the Philosopher king. In the words of Plato, "For now law or ordinance is mightier than knowledge."

Aristotle is the greatest Critic of plato Decides being greatest disciple of Plato. If plato talks about the best, Aristotle talks about the best practicable.

According to Aristotle it is Utopian to think that we can find a philosopher king. Even when we find Philosopher king there is no guarantee that he will not act with passion.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

According to him law and reason is same. They are two sides of two coins. The purpose of both is to guide man about right and wrong.

Law is the outward manifestation of reason. If reason is in soul, law is in the book of law.

Not only law and reason is same rule of law comes with additional security and benefits.

① Law is a reason minus passion.
Law does not change according to the person it is impersonal.
Law has additional benefits.
ⓐ Law represents collective wisdom. which is preferable to the wisdom of one person.
ⓑ Law represents the wisdom of ages and it would not be wise to challenge the collective wisdom of ages in the name of ultimate knowledge.

Aristotle suggests that we should not sacrifice good for the sake of best because best is unachievable.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

ARISTOTLES THEORY OF REVOLUTION

Aristotle prefers stability and is sensitive about the changes in the political system. unlike contemporary definition of revolution associated with karl Marx, revolution for Aristotle means any change in the political system Big or small, Peaceful or violent. change in the no. of persons, change in the constitution.

Aristotle has studied 158 constitutions and has given a detailed view on the causes of Revolution. He has given general and particular causes (regime specific)

In all forms of govt. these exists some general causes Among these general causes the commonest cause is the feeling of Inequality which is linked to the feeling of Injustice. Thus he is sensitive about phychological conditions also. Feeling of inequality may be real or just imagined.

→ Among the other general causes include-

(i) Universal Passion for power and priviledges.
(ii) clearlessness and Corruption of the ruling classes.
(iii) overreach of high headedness of the ruling class.
(iv) Inequalities in income and wealth.
(v) If State gives undue importance to certain individuals and does not give due importance to to certain individuals who deserves.
(vi) Disproportionate increase in any aspect of the state.
(vii) sudden influx of foreigners.
(viii) Rivalry between classes.
(ix) Neglect of small changes by the ruling class.
(x) change inevitable and people have liking for change.

Join Telegram for More Update : - https://t.me/upsc_pdf

→ Regime Specific Changes –

(i) Monarchy – Family quarrels and jealousies
(ii) Oligarchy – poor will be conspiring against the rich and rich will be neglecting the poors.
(iii) Democracy – People will elect demogogic leaders who will establish Tyranny.

- Solution –

(*) Treat the causes
→ He gives some additional solutions
(i) Cultivate the spirit of obidience to law.
(ii) Educate citizens about civic virtue.
(iii) Inculcate patriotism.
(iv) Moderate exercise of power.

- Evaluation of Aristotle

→ Aristotle as a Father of Political Science.

If plato is father of Political philosophy, Aristotle is rightly called as the Father of Political Science. We should not interpret the word science in the strict technical sense, it is only in relative sense. Aristotle is more practical in comparison to plato There is a difference in Plato's Theory of Ideas & Aristotle's Theory of Forms.
For plato Idea is independent of the material reality. Idea has an existence beyond the world of sense.
Aristotles Theory of forms does not undermine the importance of Matter. He has stressed that idea is inherent in matter not independent of it.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Aristotle was also influenced by his father who was a physician. Aristotle has applied method of observa", classifica" besides contemplation.

Hence, in comparative terms if plato is father of Political Philosophy. Aristotle is father of Political Science because of his Practical approach.

According to White Head, entire western political philosophy is nothing but footnotes to plato & Aristotle.

Aristotle is the greatest disciple of plato, though he has also taken as greatest critic of plato But actually ~~is~~ he is not criticising plato but correcting plato.

Aristotle is considered as the father of Constitutionalism and rule of law. His ideas have influenced many countries around the world, including India.

Que. 2014 Central to Aristotle's political thought is his classification of the different types of political constitutions in the Politics. Evaluate.

Above statement tells the real centrality of the study of consti" in the works of Aristotles. Aristotle has studied 158 constitutions. He has given an elaborate classification of constitution. Aristotle supports constitutionalism and rule of law Aristotle has also analysed the causes of revolution in diff types of consti". Hence it is appropriate to say that the study of constitutions is the central concern of his book 'the Politics'.

MACHIAVELLI

- Time Period - 1469 to 1527
- Place - Italy

Introduction

- Machiavelli belong to Italy.
- He belong to the time when medieval age was coming to an end and modern age was about to start. This was the time when nation states were emerging in Europe. However, Italy was a house devided against itself. Italy of that time was highly corrupt society. It was the seat of roman church. church by this time had become a corrupt institution. Machiavelli considered the church as the source of all evil in Italy. Not only corruption is because of church but Italy could not be unified into a one nation state because of inter-ference of church in politics.
- He has served various political offices including as a diplomat of Flaurence in to the court of France. He had first hand experience of the world of politics.
- He has written the reality of politics and it is ironny that he has been criticised by writting the truth.
- Machiavellianism has become a bad word by associated with all wrong things in the politics.
- According Dunnings, its a Paradox that everyone practice machiavelli in politics but no one acknowledges himself as machiallian(ism).
- Machiavelli's book 'the Prince' is treated as the best book ever written in the field of statecraft (art of politics).

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

It is a manual for any enterprising person willing to join politics and want to remain in power.

— Machiavelli is a realist. (one who believes in realism).
He is considered as father of European Secularism
He is famous for his principles — 'ends justify the means.'

9th lecture
25/12/2016

Q. Machiavelli was child of Renaissance.

Every thinker was a child of his time. This statement is most appropriate for Machiavelli. Laskly called Machiavelli the child of Renaissance

What was Renaissance

The Renaissance is revival of reason. It is a revival of Greek philosophy.

What was the salient feature of Greek philosophy?
Humanism. It should not be confused with Humanitarianism. Humanism is a school of philosophy which keeps Human Being at the centre. It is not that Greeks didn't believe in Religion or Mythology yet for the secular sphere social, political, Eco. sphere they preferred reasons or logic.
Thus Humanism and Rationalism were the 2 core features of Greek thinking revived by Renaissance.

After Ancient time medieval Europe saw the centrality of religion. Age of reason came under eclipse. It became age of religion. This ages are called as Dark Ages of European History.
During medieval time there was interference of religion in politics which had bad consequences for both politics as well as religion.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Involvement of church in politics led to the corruption in church and Europe witnessed religious wars.

Renaissance marks the revival of reason and Humanism. Renaissance first got reflected in the field of Arts. Renaissance was not just an intellectual movement but it had profound impact on all spheres of Human Life. Renaissance led to the growth of enlightenment, Reformation, Scientific revolution, which led to the Industrial Revolution, Rise of Capitalism, Secularism and Nation States.

It is believed that the rise of capitalism has promoted the rise of nation states.

All these development gave rise to modernity.

What are elements of modernity?

Secularism, Humanism, Rationalism, Scientific Attitude, Materialism, Political system and Nation states.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Machiavelli's Works

(i) **The Prince** - In this book Machiavelli has advocated the rule of Prince who is ruling as Iron Hand i.e strong prince ruling with iron hand is req. for society which are corrupt.

Not imp. (ii) **Discourses** - In this book he has advocated Republican form of govt. like Aristotle. However, Republican form of govt. only where people are virtues.

- Prominent Ideas in the Prince -

– Nature of the Profession and the nature of the field of politics.

"How we live is par removed from how we ought to live."... those who abandon what is for ought to be will ruin themselves as well as their state... a man who wishes to make a profession of goodness in everything must necessarily come to grief as he lives with so many who aren't so good.

Above views of Machiavelli are one among his advices to the Prince. Machiavelli is known as Father of Political Realism.

What is realism - Realism is looking at the things as they are. ~~Here~~

Machiavelli has explained politics as it is rather than as it ought to be.

If we look at politics is at it is. Politics is nothing but struggle for power. Machiavelli wants prince to understand nature of profession in which he is going to enter. He suggests that prince should not try to find goodness in politics.

Politics is not an inspiring field. Prince needs to learn how to be bad rather than how to be good.

Thus, Machiavelli gives realist view of politics. Realists are known as children of Darkness.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Realism suggest to be skeptical about intentions of others. Only with realists approach prince can minimize his losses.

Criticism

Savine calls machiavelli as, 'Narrowly dated and Narrowly Located.' the pesimistic view of machiavelli with respect to politics is because of Machiavelli's experience in Italy during his time. Had he belong to any other time & space his views would not have been so pesimistic.

Defending Machiavelli

It is true that Machiavelli's ~~did~~ ideas were influenced by the circumstances prevailing in Italy during his time. But we cannot say that what machiavelli said is altogether wrong. It is irony that everyone practice what Machiavelli said but no one acknowledge himself as Machiavellian & Machiavelli is criticised for telling the reality of politics.

There is lot of similarity bet? the views of Machiavelli and those of kautilya. Both differed in time and space. Kautilya belong to Ancient India & Machiavelli belongs to Italy. He belongs to the time when medieval was about to end & modern age about to start.

- Machiavelli on Human Nature -

According to Machiavelli, instead of philosophy; psychology & history is a better guide to politics Prince must understand the fundamental qualities of Human Nature. According to Machiavelli, Human Nature remain unchanged.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update :- https://t.me/upsc_pdf

"Men are by Nature ungreatful, deciet, cowaard, fickle minded and avaracious. (extremely greedy)"

"Man easily forgets the loss of ~~father~~ his father than loss of his patrimony. Hence, wise prince executes rather than confiscate."

Machiavelli represent the psychology of emerging Bourgeoise class. Machiavelli wants prince to understand the basic nature of man and make its polides accordingly.

According to him man is ungreateful by nature Hence man will forget the favour done by the prince. Hence it is better for a prince to be 'feared than to be loved.'

Man is decietful by nature. Whenever their self-interest demand they will betray the prince. Hence, prince should not trust anyone or should not take anyone for granted.

Man is cowaard by nature, which is man is fearful by nature. Man fears the loss of the things which gives him happiness. Prince can exploit the weakness of man. Prince should convince them that they are secured only when prince is ruling.

- Man is fickle minded which means man can easily change the sides. This weakness can also be exploited because prince can bring the person who is favouring other to his side.
- Man is avaracious means extremely greedy. Hence, prince should give opportunity for full fillment of the materialistic nature of man.

In this way prince can ensure the continution of his rule.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

The way Machiavelli explains Human Nature is that he is pointing towards the Bourgeoise class. Bourgeoise class supported Prince in return of the security of life and establishment of order so that their enterprises can nourish.

→ Criticism

- According to Savine, Machiavelli is Narrowly dated and Narrowly located. His discription of Human nature is too much shaped by his experience of Human Nature during his time in Italy.
- According to Dunning, Machiavelli has presented partial view of Human Nature.
- Machiavelli supports his view on the basis of examples in History.
- However, Machiavelli goes for selective use of History. He have overlooked those examples which contradict his understanding. He presented only those example which supports only his point of view.

● Machiavelli's Advices to Prince -

(i) Wise prince executes rather than confiscates.
(ii) Man can easily forget the loss of his father rather than loss of his patrimony or property.
(iii) It is better for a prince to be feared than to be loved. People love at their own will But they fear at the will of the Prince. Wise prince never does what others want him to do. He does what he is supposed to do.

- Politics is a state craft. State craft is the management of power There are 2 dimensions of power fear & love i.e Hard Power & Soft Power. Power of Coersion & Power of Attraction. Prince should no when to use which power & in what proportion. Between soft power & Hard power, Hard power is more reliable. Soft power alone is not reliable because men are ungreatful & selfish by nature.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

soft power to be used in combination with hard power. Prince should not be reluctant in using hard power when it is necessary. However, Hard power should not be used in the first instant. It is preferable if prince use it indirectly through proxies. The exercise of hard power may lead to the feeling of revenge.

- According to Machiavelli, favours should be done gradually But if fear is to be used it should be used quickly and in totality. Magnitude of power should be such that it crushes the enemy completely. Wise prince will not leave his enemy alive to take the revenge. Revenge is a very powerful sentiment. Once the sentiment of revenge dominates person will forget even his self interest & will pursue revenge even with cost of his life. Wise prince is not dictated by others. Prince must know how to control man as well as the beast in man.

Criticism

According to savine, Machiavelli is narrowly dated & narrowly located Machiavelli's perceptions are shaped by Italy of his time. However we cannot say that machiavelli's ideas lack universalism It is not possible to overlook machiavelli suggest It is irony that every one practices what machiavelli suggest but no one acknoledges.

What qualities prince should have.

"Prince should be like a fox & lion. He should be clever like fox to understand the traps & should be brave like lion to defend himself from attacks by wolves."

- Best book on statecraft
- Machiavelli gives advices
- He advices prince to be clever like fox because when in politics there will be be main contenders

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

of prince he may get trapped in conspiracy, similarly there will be many threats to his life so he will be able to defend himself.

Reason & courage are considered to be the essential qualities of the ruling class since the time of plato. Machiavelli is more realist when he clearly suggest the type of intelligence & courage prince should have. He advices to remain relevant even in present times because no state can defend itself without strong intelligence & defence forces.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Machiavelli's Advice on →

ETHICS AND POLITICS / RELIGION AND POLITICS

lecture 10

26/12/2016

"In politics ends justify the means

- The seperation bet" ends & means is the most defining characteristic of so called Machiavellianism It is for this reason Machiavelli has been criticised as immoral.
- Machiavelli was the 1st person who could dare to suggest that Politics and Ethics are two different domains. He was the 1st person to establish the Autonomy of Politics from Ethics or Religion.
- Political actions are to be judged not from the yardstick of religion or ethics. The yard sticks of politics is National Interest.
- What may be ethically wrong may be politically correct.
- The action of the prince will be judged by the ends he secured.
- Action is correct if he is able to protect the NI Machiavelli is treated as the greatest patriot among political scholars.
- Machiavelli suggested that nothing should come in the path of NI not even religion.
- Machiavelli has invented the concept of Dual Morality
- The morality of the prince is diff. from the morality of ordinary person.
- ordinary person may sacrifice his life for the sake of his principles but prince cannot put the life of his people & security of his state in danger for the sake of his principles.
- Machiavelli is not immoral nor he's teaching immorality. He is permitting prince to use whatever means Prince think are in the best interest of Nation.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

It is not only imp. that Prince takes right decisions but also timely decisions.
The Ethics of religion may create dilemma for Prince which may harm NI

→ Gandhi was critic of Machiavellinism.
- According to Gandhi we can never reach to right ends by unfair means.
- Gandhi has given priority to means over ends.
- He emphasised on purity of means.
- According to Gandhi Politics without religion is a death trap.

MACHIAVELLI ON RELIGION

- Machiavelli was not Anti-religion.
- He had utilitarian approach towards religion.
- Religion may be useful because it is a disciplinary force.
- Machiavelli suggests prince not to appear irreligious or Anti-religion in public even if he does not believe in Religion.
- Machiavelli was against church because at that time church was a corrupt institution. & He believed that church is responsibility efor lack of unity in Italy.
- He was against the interference of church in politics and not the use of religion by prince.

● Other Advices of Machiavelli

① Prince has to be a cold blooded man.
② Machiavelli suggest to give preference to common man over nobles. Because nobles may challenge the prince but common man have limited aspiration.
③ He was the 1st person to suggest that prince should have the Army comprising of Nationals against the practice of mercenary soldiers (soldiers taken on hire).

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join.Telegram for More Update : - https://t.me/upsc_pdf

④ Machiavelli supports expansionist foreign policy. If the land acquired by prince has a similar culture like that of the prince He can rule directly. but if culture differs he should appoint his proxies/lieftinents.

⑤ MACHIAVELLI ON FORTUNE (LUCK) -

Machiavelli is realist to suggest that we should not overlook the factor of fortune (bad luck) Even when prince has all the qualities to be success-ful. Still there can be few things which are beyond control. Prince can still fail. when Bad times comes, It comes like torential rain or roaring river. It devastates man completely. Wise prince will always make preparations like embankments to control the flood. Yet he may be devastated.

Machiavelli also suggests that the nature of fortune is like women. Women embrace brave men. If prince will face circumstance with courage he can turn things in his favour.

EVALUATION OF MACHIAVELLINISM AS A THINKER.

① Machiavelli was the child of his times

→ Every thinker is a child of his times.

However this statement suits to the Machiavelli most Machiavelli's work reflect all major developements of his time

- Machiavelli belong to the time when medieval age was coming to an end & modern age was about to start.
- Laski called him, child of Renaissance.
- we can see the impact of following developements in the works of Machiavelli -

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

(i) **Renaissance – Humanism**

Machiavelli makes human nature as core of his political philosophy.

(ii) **Reformation** -

It led to the growth of secularism as protestant movement established that religion belongs to the personal sphere.

(iii) **End or Breakdown of Feudalism.**

Machiavelli advocated that prince should support common man over novels.

(iv) **Rise of Capitalism.**

The way machiavelli describe human nature reflect the psychology of Boergeaise / capitalist class.

(v) **Rise of Nation states** -

Machiavelli's concern that italy should also become a strong nation & prince should also have army of nationals.

(vi) **Age of Geographical Explorations.**

Machiavelli supports expansionist foreign Policy.

(vii) **Beginning of Scientific Revolution.**

Machiavelli's realism & materialism shows the tendency of his time.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

9. "Machiavelli is narrowly dated & narrowly located"

→ Machiavelli is the most controversial figure in the history of western philosophy.
Machiavelli is criticised for seperating Religion from politics & Ethics from politics.
Machiavellianism became synonimus with all evil things.
Savine calls machiavelli Narrowly dated and Narrowly located.
According to Savine, Machiavelli's pesimistic view about human nature, politics & more specifically about the role of church is because of the experiences in Italy.
Had he belong to other time & space his views would have been different.
calling Machiavelli narrowly dated & located means that his thoughts lack universals & transcendental relevance.
Though Machiavelli's book was among the prohibited book by church & his observations were based in Italy of his time.
Yet it is wrong to conclude that he was narrowly dated & located.
The prince is one of the best book ever written in the field of state craft.
It is irony that machiavelli has been criticised for telling the truth.
It is paradox that everyone is Machiavellian in politics but no one acknowledges to be Machiavellian
Kautilya also belong to diff. time & space ie. Ancient India had very similar views like that of Machiavelli

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

He has influenced many scholars. Including scholars in international politics.
He is a intellectual father of school of realism as well as behaviouralism.

Q Do you think that Machiavelli was the first Modern Thinker?

The status of machiavelli as the first modern thinker remains contested.

Those who consider machiavelli as the 1st modern thinker they give arguements like machiavelli seperated church & state.
machiavelli has established the primacy of the nation state. The 1st thinker to give the theory of nation state.

on the other hand there are scholars who consider Hobbes as a 1st modern Thinker. Because the most imp principle of the modern political theory is the principle of Sovereignty.
It was in the works of Hobbes that the 1st complete theory of Sovereignty has come into existence.
According to the scholars machiavelli should be treated as non-medieval because he seperated church & State rather than modern thinking.

- Discources

Q Wherever necessary monarchy, wherever possible republic but in no situation Aristocracy.

→ machiavelli was the child of his time.
He belong to time when feudalism was about to end & capitalism was about to emerge

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

feudalism was not only obstacle for capitalism it was also obstable for the rise of Nation state.
Hence, machiavelli was critical of nobility. He considered nobles as parasite class. He gives preference to common man over nobles.
That is why he suggests that wherever necessary because people are corrupt monarchy should be adopted whereas republic should be adopted if people are virtues.

Q. Explain how Machiavelli's application of imperical method of human affairs makes an important stage in the evolution of political science?

→ Pol. science is one of the oldest disciplines & is also a dynamic discipline.
There are different stages in the evolution of the discipline.
We can trace the origin of discipline to Ancient Greece in the works of plato who is known as father of Political phiosophy & in the works of Aristotle who is known as father of Pol. science & who called of Pol. science a master science.
During ancient Greece politics was not indipendant branch of learning it was part of ethics.
For both plato & Aristotle good life & good political life were not seperated from each other.
In medieval times politics became the branch of religious studies. with machiavelli Pol. Sci. as a discipline got its autonomous character.
He was the 1st person to seperate Politics from Ethics & Religion.
Machiavelli also contributed in the growth of methodology of pol. science
If plato & Aristotle recommended dialectics / logical reasoning. Machiavelli supported imperical observa^n.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Machiavelli led to deve. of historical & observational method.

THOMAS HOBBES

- Time – 1588–1679
- Place- England
- Book – Leviathan → state → meaning- sea monster

Introduction-

- Hobbes is treated as the Greatest political philosopher. Karl Marx acknowledged that Hobbes is Father of all of us.
- He is ~~best~~ also considered as one of the best author which english race has ever produced.
- Hobbes belongs to England. He has witnessed the troubled phase of British History. He has witnessed Puritan Revolution of 1641. It led to the Civil war in Britain. There was complete anarchy. There were diff. groups fighting against each other. Eg. Eg. Catholic Vs Protestants. and Royalist Vs Anti-Royalists
- In a situation of Anarchy there was no security of Life Hence order & self preservation became the concern of the philosophy of Hobbes.

Perspective of Hobbes as a Thinker.

- Mac Pherson calls Hobbes as a scholar of Bourgeoise Class.
- Hobbes was materialist.
- Hobbes was utilitarian.
- Hobbes is also known as greatest of all individualists.
- He is also greatest of all absolutists.
- Hobbes belongs to the social contract tradition.
- He is a 1st thinker to give the Theory of Right to Life
- 1st thinker to give complete theory of sovereignty.
- H

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Hobbes Methodology -

- If Machiavelli is treated as Galileo of Pol. science, Hobbes can be treated as Newton.
- Hobbes was 1st person to apply a scientific method.

Lecture 11
27/12/2016

Hobbes belongs to Social Contract Tradition -

As economic system changes other spheres of our life also changes.
In medieval times the economic system was feudalism.
feudalism is based on work whereas capitalism is based on contract.
Philosophy of contract has also been applied in case of political system.
In modern western societies constitution is considered as the contract document.
In modern societies state is considered as the creation of man. This view of state is called as Mechanistic view. which means state is a machine created by man to serve him. It also means that man is prior to state.

- In ancient times state was considered as prior to man. state was considered as natural. such view is called as organic view of the state.
- In medieval times theee theory of Divine origin of the state was prevalent. It was believed that state was creation of gods, king was considered as representative of god, as a representative of God king had absolute powers (Divine rights of o king).

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

- Social contract scholars have shown that the state is the product of the will of man.
- Every social contract thinker has followed as Methodology which comprise of certain steps.

(i) They Describe Human Nature-

(ii) State of Nature- It is just a Hypothetical concept to show how our life will be, if we are left to live according to our nature, without external authority (like state).

There will be some problem in the state of nature that man will go for contract.

(iii) contract.

(iv) Outcomes of the contract-

• Methodology of Hobbes-

- Hobbes belong to the time of Scientific revolution.
- Hobbes tried to built his political theory on the sole basis of scientific method.
- He was influence by Galileo. Galileo has given resolutive compositive method.
- According to the method in order to understand the complex phenomena we have understand the elemental parts. then try to establish a correlation & give the explanation.
- Hobbes has applied same method in politics.
- Galileo also held that universe is made up of matter, matter is made up of particles in the state of motion.
- Hobbes is also influence by French philosopher & Mathematician Descartes. Descartes also shown the possibility of application of scientific method in social sciences.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

According to Hobbes we can use the concepts of three disciplines to develope scientific method. in Politics/ Political studies.

1. Geometry
2. Physics
3. Psychology

Hobbes has applied Resolutive compositive method for explaination of Political phenomena.

In order to understand the complex political phenomenx we have to understand human behaviour. To understand human behaviour we have to understand the coorking of Human mind. Like everything in universe mind is also made up of particles till we are alive. Particles are in the state of motion. All human actions can be classified into two basic types - Either person does something or avoid. Human actions are guided by two basic emotions. Emotions are also materialistic. The two emotions are inclination and aversion. these emotions are because of movement of particles in response to external stimulus. Hence he proves that man is utilitarian by nature, since, man is utilitarian by nature, man is individualistic by nature. Nature has not made man in such a way that man can understand, the pleasure & pain of other person. He was the 1st person to suggest that all men are same. No one is inferior or superior, Man is primarily guided by passions Passions is like, so long we have Apetite we are living.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Social Contract

(1) Human Nature –

"Life of a man is a continuous search of Power, After power which ceases only with his death... The object of man is not to enjoy once but to be assured forever & that is why the life will be continuous search for power."

By using Resolutive Compositive Method Hobbes has shown that man is Utilitarian by nature. All human actions are shaped by the movement of particles in Brain.

Man is not in a position to comprehend the movement of particles in the brain of other person. Hence man is individualistic by nature. Since man is Utilitarian, man will seek those things which give him pleasure.

Hobbes brings forward the dilemma of Limited resources & unlimited wants. Till man is alive his Apetite for pleasure does not end. The moment he satisfies one Apetite the search for the other starts. People may get pleasure from different objects. However, the means to get pleasure is same. The means to get pleasure is power.

Hence there will be a competition for power. Hence the life of man is a continuous search of power after power which ends only with his death. Death symbolise end of the movement of particle, end of Apetite. It is because of Utilitarian nature of man that man is materialistic possessive & individualistic. Since we cannot understand the movement of particles in the mind of other person, other person is a source of insecurity and discomfort.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

② State of Nature –

- If man is individualistic by nature & there is a continuous search for power the state of nature will be the state of war of all against all. Since man wants to enjoy forever man wants to gain power.
- When one person acquires power then other person will feel powerless. He will also try to gain power. Power of one will become the cause of insecurity for the other. This will create a situation of security dilemma. Hence, the state of nature will be such where there will be no scope for arts, letters, navigation, industry, the life of man will be 'Nasty', Poor, Brutish and short'.
- Above discription of state of Nature show the influence of Anarchy which was prevailing in England during the times of Hobbes. It is also the one reason the Hobbes takes the pessimistic view of Human nature & the state of nature.

③ Contract

Why contract ?

Since man is Utilitarian by nature, man wants to enjoy. In the state of nature the life of man is Nasty, Poor, Brutish & short' Hence to avoid such situation man enters into the social contract. The main reason for which man enters into the social contract is the preservation of life.

Why ?

life is a source of pleasure & death is the end of pleasure. Hence, man wants to avoid death & want to secure life.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

"I and fear were born together."

Hobbes was not only one of the greatest Political philosopher. He was one of the best author of English literature. He has used metaphorical language.

In above statement he tries to establish that the fear in man is the foundation of political obligation. state

statement is also influenced by the event of his life. His mother gave premature birth to Hobbes out of the fear of Spanish Armada (

Hence, he suggests that man is born with fear.

There is a linkage in the feeling of fear and UHlitarian nature of man.

Man is pleasure seeking, & man is fearful of loosing the things which gave his pleasure.

The biggest fear is the fear of death or loss of life. Because life is a source of pleasure.

Hence, it is for the protection of life or self preserva" that man enters into contract & creates the state. The most imp role of the state is to provide the security of life. Hence, state is also ~~a~~ the institution of utility for man.

④ What happens in the Contract?

Features / outcomes of the contract:

It is a contract of all with all.

Since no one trust the other it is important that each secures the guarantee from the other.

what will be in the contract paper

All people will agree that they will transfer all of their natural rights to the state or the common wealth on the condition that every other person does so.

Join Telegram for More Update : - https://t.me/upsc_pdf

Join Telegram for More Update - https://t.me/upsc_pdf

Outcome of the contract

Contract will result into the creation of the state. State is the 3rd party. State is a guarantor for the contract. State is under no obligation except one.

As a result of the contract state will emerge sovereign.

Why? In the state of nature every person was sovereign. There was no authority over man. However when man was sovereign the life of man was nasty, poor, brutish & short.

According to Hobbes man has only two options. Either to live in the state of Anarchy or under the authority of Absolute state.

Why man will choose Absolute state?

Because state will provide the security of life. In the state of nature man had absolute liberty but no security. When state comes into existence man has lost all liberty but gained security. Now, state has absolute power over man.

According to Hobbes, bet^n Liberty & security, man will prefer security.

What is the only limitation on the Authority of the state?

Man has transferred all of his natural rights except one i.e. Right to Life or self preservation. It is the obligation of the state to protect the life of man. If state fails to protect the life of man or if state takes the life of man in an arbitrary manner man has right to resist the state. Self preservation is a supreme right. Man has right to kill other person for the sake of preservation of his life or in self defence.

According to Hobbes, state is a police state. where state will provide security only & not welfare.

Hobbes Theory of Sovereignty -

What is Sovereignty -

Sovereignty is supreme power. Hence, in on a particular territory & the people living on that territory there can be only one sovereign & i.e. State.

Bases of state Sovereignty

man has transferred all of his natural rights except the Right to life.

What are the characteristics of Sovereignty

1. Permanance - It's a permanent transfer of power from people to the state.
2. Indivisible - sovereignty cannot be devided. There is only one sovereign.
3. Sovereign has ultimate power to make laws. According to Hobbes, law is command of sovereign. In medieval times it was not clear as to which law will prevail. There were multiple sources of law. Eg. Customs, church & multiple associations. Hobbes has established that the law made by state will be supreme. Thus, even the religious laws & church is also under the state. Nobody is allowed to disobey the law. State has power punish those who do not follow the law made by state.

What does it implies if person does not follow the law of the state.

The person is trying to claim the sovereignty back. Not following the law means having its own law. This is not permissible. There cannot be more than one sovereign. state will have police power to punish that person. If one person does not follow thelaw & goes onpunished. others will also do the same.

man will follow law so long it fullfills it's interest, man will defy law if law is against his interest. Hence, state has a police power. Life of everyone cannot be pushed back into the state of Anarchy because of few persons.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

only State will have monopoly over the use of force. No other person is allowed to use force.

Lecture 12
28/12/2016

- Origin of the concept of the Sovereignty-

(1) Medieval Times -

In medieval times there were multiple centres of power/authority which means multiple sources of law. Capitalism cannot flourish in such situation it requires clarity of law as it is based on the system of contract.

Emerging Bourgeoise class supported monarchs in the establishment of nation state.

What is a Nation state?

As per International law the four essential features of nation state are - ~~definite territory~~

(i) Definite Territory
(ii) Population
(iii) Government
(iv) Sovereignity.

- Nation state are considered as the members of the international community.
- Till Independence of India at 1947, India was a colony & not a state.

What is Sovereignity

- It is the Supreme power of the state over its subjects and citizens. Sovereignity has two dimensions

(i) External mean no authority from outside the state can dictate the state. Neither any external association e.g. Roman church nor any association within the territory of the state shall have supremacy over the state.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Theory of Sovereignity is linked to the theory of law. As per theory of the Sovereignty of State in a particular territory on the population living, law made by state, will of the state shall prevail.

Hobbes Theory of Law

Law

- Natural Law → Reason
- Customary law → customs/traditions
- Positive law/ Analytical school → law made by state

Hobbes belong to the tradition of positive law & according to him law is command of sovereign.

→ Advantage of Positive Law –

(i) It is definite

(ii) State has power of enforcement.

"Covenants without swords (power of punishment) are nothing but words." ← contracts

- There are diff. traditions of law.
- Hobbes is a critic of the tradition of natural law and supporter of positive law.
- According to Hobbes, law is command of sovereign and covenants without swords are nothing but words.
- The purpose of law is to establish peace & order. In the state of nature, natural law was prevailing. Natural law is dependent on reason. If followed there will be peace. However, man does not have enough reason. Man has reason to the extent he can fullfill his desires, he does not have reason to the extent that he can control his desires.

city state – no sovereignity

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

The quality of law is that it should be define & it should be supported by enforcement. Hence, it is better if we call natural law as 'Articles of peace on counsels or advices of prudence

Hence by definition only law made by state is to be treated as law. It is definite & comes with the power of enforcement.

We can understand the relevance of the idea of Hobbes if we look at Internation Law. International law is a weak law it lacks power of enforcemence.

Hence, international politics remain in the state of nature & power is an end & power is a means in International Politics.

- **Hobbes Theory Of Rights –**

- In the state of Nature man have all rights.
- Man had absolute right to do whatever he wanted
- However, in the state of Nature nobody was in opposition to enjoy rights.
- In the state of Nature, 'Might was Right'.
- Only those who have power could enjoy rights.

Hence he suggests that what man posses in the state of Nature was not rights but powers.

- He belongs to the theory of Legal Rights. Man can enjoy only those rights which are granted to him by the state.

- **Hobbes Theory on Right to Self Preservation – (Right to Life).**

According to Hobbes Right to Life is supreme right given to man by God / Nature.

Man has transferred all of his rights to the state including Right to Life but in case of Right to Life the transfer is conditional.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

→ What is the condition?
State cannot deprive a person from his Right to self preservation in an arbitrary manner & except according to the procedure established by law.

● Hobbes View on Liberty – Theory of Liberty –

Liberty
- Negative (Absense of state) → classical (Laissez faire)
- Positive (capacity) → Modern (welfare state) — 20th cen.

→ There are two dimensions of Liberty.
(i) Negative Liberty – which means freedom in the absence of state
(ii) Positive Liberty - which means freedom in the presence of state.

1st person to give the concept of Positive Liberty in political Phibsophy is T.H. Green.

"Liberty is where law is silent"
Liberty is the concept which explains the status of relationship bet" Individual & the state.
In the state of Nature man had absolute Liberty to do whatever man wanted to do.
In the state of Nature there was no state or common authority.
In the state of Nature man was not able to enjoy liberty as there was lack of security of even life.
Absolute security Liberty has resulted into the situation of Anarchy. Since man is utilitarian by nature man wanted to come out of state of Anarchy. man has transferred all of his rights to the state.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Now state emerged absolute. When state exists man has no liberty. Man is free only to the extent state has preferred to keep silent & not make law. In case if state makes law man has no liberty but to act as per the law. State also has power to punish those who do not act as per law.

- Hobbes is not the supporter of liberty. He is rather fearful of liberty. Hobbes prefers orders & security over liberty.

"Liberty or Freedom signifies properly the absence of opposition in external impediments to motion."

- Since beginning scholars have been trying to make a difference bet^n liberty and capacity.
- Hobbes also does not believe that capacity can be linked to liberty.
- According to Hobbes, A patient in the bed lacks capacity to walk rather than liberty to walk. lack of capacity is internal impediment to motion.
- He gives the example of liquid in the bottle - The walls of the bottle acts as External impediments to motion. If External impediments are removed the liquid in the bottle is free to move. Thus he defines liberty as Absence of interference or obstacles. However Hobbes is not supporter of the liberty.
- According to Hobbes, man has liberty only to the extent state has permitted it by not making law.

Assessment of Hobbes as a Thinker -

(1) Hobbes as a 1st Modern Thinker -

"While Jean Bodin was standing at the gate of Modernity it was Hobbes who jumped inside."

- The most imp concept of Modern Political Theory is the concept of Sovereignty.
- Machiavelli gave the concept of Nation State But not sovereignty.
- It was Jean Bodin who was the 1st person to give the theory of Sovereignty. He defined sovereignty as supreme power of state over citizens and subjects. However, he could not give the complete theory. He could not come out of medieval mentality completely. He held that state is sovereign only in secular sphere of life. As far as religion is concerned he held that church will be supreme.
- It was Hobbes who has given the complete theory of sovereignty & have clearly established that in a particular territory there cannot be more than one Sovereign. & Even in religious matters state is supreme.

- Hobbes is Greatest of All Individualists. (self centered)

Individualism is a philosophy which gave imp. to self interest rather than the interest of the society.

We can categorise individualists into 2 types—

(1) Methodological Individualists – are those who built there political theory on the individualistic base nature of man.

Through his resolutive-compositive method Hobbes has shown that man is utilitarian & because man is utilitarian man is Individualistic - Nature has not created man in such way that man can understand the pleasure & pain of other.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

He builds his theory of state on extremely individualistic Nature of man.

(2) Normative Individualists.

Hobbes is individualist even in normative sense. He does not believe that individualism is bad. He was the 1st person to suggest that being individualist is the nature of man & it is not a sin. It is as natural fact as earth revolves around the sun.

It may appear contradictory that Hobbes is Individualist & Absolutist at the same time. However there is no contradiction in his individualism & Absolutism. It is because of extremely individualistic nature of man that man has no option but to live under the absolute authority of the state. It is for the protection of Individual that absolute state has been created. He does not make effort to change individual. He only creates the system so that the individualistic nature of man can be managed. Hobbes has given right to self preservation & puts restriction on a state to take away man's right to life in an arbitrary manner.

Since individualistic nature of man & the protection of the individual is the core concern of his theory that savine consider him as greatest of all individualist.

- He has even given Right to Resist the state to an Individual for protection of life.

"Leviathan is useless as a book of Politics & Fruitless as a book of History." — Vaughan

Hobbes is one of the most controversial thinker. Leviathan was a banned book by church. It was burnt in the university of Oxford.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

- Leviathan was criticised because he has subordinated state to church under the state.
- It is wrong to consider Leviathan as useless & fourtless.
- Leviathan is not an book of history.
Purpose of Hobbes was not to give Anthropological account of the origin of the state.
- It was Hobbes, — to give the theory of sovereignty of state.
- Without leviathan it is very difficult the principles and practices of the modern state system.
- It is for this reason he is considered as one of the greatest political philosopher.
Even Karl Marx held that He was father of all of us.
- Hobbes book is not only a master piece in political philosophy but also in English literature.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

JOHN LOCKE

- Time Period - 1630-1704
- Place/space - Britain
- John Locke also belogs to Britain. He has witnessed the Glorious Revolution of 1688. Hence, he developed an optimistic view of Human Nature.
- He is known as father of Liberalism.
- The country whose political system comes nearest to Ideas of John Locke is USA.

Lecture 13
29/12/2016

- Liberalism stands for the Liberty of Man and Hence it supports the Theory of Limited state.
- According to Locke, Govt. is a trust and people are ~~Trustees~~. Trustees.

Introduction

- Locke is also a scholar of Bourgeoise class/capitalist class.
- By the time of Locke capitalists who were earlier supporting the absolute monarch started claiming their rights back as evident in ~~&~~ Glorious Revolution.
- In John ~~Jot~~ Locke we can see the justification for the Natural Rights & specifically justification to Absolute Right to Property.
- Locke is known as scholar of Possessive Individualism

what is possessive individualism

Possessive Individualism means whatever man possess is because of his own efforts & hence there is no obligation on man to pay back to the society.

Capitalism - an eco & pol. system in which a country's trade & ind. are controlled by a pvt. owners for profit, rather than by the state.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Since J. Locke justifies absolute Right to property, he is known as Scholar of possessive individualism.

- In J. locke we can see Origin of Theory of seperation of powers, the concept of due process of law & Theory of Toleration (feature of secular state)
- J. Locke also belongs to Social contract Tradition. He is also a Utilitarian.

> Treatise - a written work dealing formally and systematically with a subject.

- **Works of John Locke -**

→ **The Two Treatises on Civil Govt.**

(I) Content of the 1st Treatise

- In his 1st book he has criticised Filmer's book 'Patriarcha.'
- In the 2nd book he has given his theory of govt.

Why Locke criticised Patriarcha?

- In Patriarcha Filmer has justified the absolute authority of the State.
- According to Filmer, State is a big family of God. God has created Adam. God has given absolute powers to Adam. Adam is the 1st king. Hence, He should enjoy absolute authority. Filmer did not accept contract as the basis of Political Authority. According to him, the basis of Authority should be heridatory. From god the power has been transferred to Adam & from Adam to his sons & their successors. It means all kings are successors of Adam & should enjoy absolute rights.
- Filmer criticised social contract on two grounds-

(i) Social contract assumed that man is born free. However, man is not born free man is born in the society. Hence man does not have freedom to choose society.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

(ii) If we accept the Theory of contract or consent it will not be justified to impose contract on those who have not been party to the contract It would not be justified to bind future generations with the contract which has been entered by previous generations.

He also believes that if we go for system of contract with respect to the institution of pvt. property. it will create problems.

Hence, he prefers the system of Heridity.

— Locke has criticised Filmer on following grounds—

(i) There is no basis to accept the theory that god has given absolute power to Adam. Even then be assumed that God has given absolute power to Adam what are the grounds to assume that God has given similar powers to his successor.

Even if we accept that god has given similar power how to assure that which king or kings are real successors of the Adam.

— Contract is the best basis for institution of property so much time has gone since God has given powers to Adam, such event doesnot carry significance in the present time.

It is wrong to give absolute authority to the king The authority of the king & authority of father is different. Authority of father is absolute because children are completely dependent on father. Same cannot be said about the citizen.

On above grounds he rejects Filmers theory of the justification of absolute authority of the state.

47

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Though Locke has criticised Filmer but according to some scholars he could have prefered to criticize Hobbes, had Hobbes book not been so controversial.

(II) 2nd Treatise

Locke Social Contract

Human Nature According to Locke -

Hobbe Locke has witnessed Glorious Revolution. Hence, his disription of Human nature is not as pesimistic as that of Hobbes.

He takes balance view of Human Nature.

If man is self centered man also has reason. The reason in man governs him to take care of the interest of the others in his own self interest. Thus he gives an enlightened view of self interest.

"Reason teaches man that being all equal and independent, no one ought to harm other in his life, health, liberty of Possessions."

- Locke takes the enlightened view of self interest. In Hobbes man is dominative by passion. Man does have a reason but only to the extent that man can satisfy his Appetite. Man does not have enough reason to control the Appetite. In Locke reason & passion is balanced.
- According to Locked God has created everyone equal, God has given enough reason in man. It is the reason in man which guides him not to harm the interests of others. We can see the impact of Glorious revolution on his discription of Human nature.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

State of Nature

"State of Nature is a state of Peace, Goodwill and Mutual Assistance."

— State of Nature is a Hypothetical concept to show the state of Human life in the absence of common authority or a state.

State of Nature is shaped by Human Nature.

— If State of Nature in Hobbes is a state of war, the state of Nature in Locke is a state of Peace.

Hobbesian man is Anti-social whereas, Lockean Man is already living in the Society.

If Hobbes discription of Human Nature & the state of Nature was influenced by the civil war in Britain, Locke's discription of Human Nature is influenced by Glorious Revolution.

Since, Man has reason & reason in man teaches him, not to harm other person, it was possible for man to live in the state of peace in a state of Nature.

Whether man was having Natural Rights - in the State of Nature -

According to Hobbes man had natural rights but it is better call these rights as powers. only those who had powers could enjoy natural rights. This shows that man can enjoy rights only in the society.

The state of Nature in Locke is already social and hence ~~was~~ man was able to enjoy rights.

What made man in a situation to enjoy rights

According to Locke, natural law i.e. reason allowed man to enjoy rights. Reason in man teaches man not to harm others.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Thus in the state of Nature man had natural right and it was possible for man ~~right~~ to enjoy rights because of natural rights.

- Reason of the Contract -

The locke is also the scholar of commonsence. According to him there were certain inconvinie-nces in the state of Nature. Hence, man thinks to avoid the state of Nature.

> What were the inconviniences -

(i) If man has a reason, man also has passion. Hence, we cannot leave things on the goodwill of man. There is no guarantee that goodwill will continue to prevail. Hence it will be better if there is some agency which can ensure that people do not destroy the goodwill.

In the state of nature there was no common autho-rity to make law, execute law & interpret law. Each person was the law maker, Executive & Judge. It goes against reason if a person is judge in his own case. Person who has killed his brother will not declare himself guilty. It will also be in-convinient that law varies from person to person.

- The Process of Contract

- In Hobbes there is one contract. By single contract man creates society as well as state.
- In Locke there are two contracts.

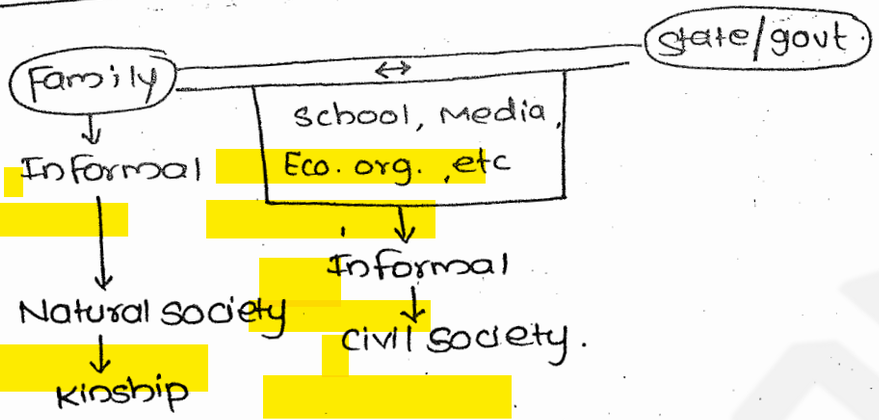

> Outcome of the 1st contract -
Creation of Civil Society.

> Outcome of the 2nd contract -
Creation of Government.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

(1) Contract I- creation of civil society / Pol. society

Civil society is a very imp. concept in Liberal discourse.
Institutions excluding governmental & family kinship comes under civil society.
In Liberal countries civil societies enjoys lot of rights.
In totalitarian countries civil society is absent.
Civil society does not have rights.

Civil society is a formal sphere of life whereas Natural society is informal.

In state of Nature men have rights, as a result of 1st contract they have given formal recognition to each others rights.

(2) Contract II – Creation of Government

Government comes into existence.
what is govt.?
In state of Nature common authority to make law, execute law & Adjudicate law was absent.
Hence by contract people have formed common authority i.e. govt.
Govt. has 3 branches–

(i) Legislative
(ii) Executive
(iii) Judiciary.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Law proposes seperation of powers as in the state of Nature there was no seperation of powers.

> what powers govt. has?

People have not transferred all of their rights to the govt. They have transferred only 3 natural rights-

(i) Right to Make Law
(ii) Right to Execute Law
(iii) Right to Adjudicate Law

People have unlimited rights & govt. have limited rights.

> Nature of the Power of Govt.

Govt. has no original power. It only have deligated power. Original powers lies with the people. Govt. is a trust, people are trustees. Trust cannot run against the wishes of trustees. Hence, govt. cannot make any law for which people have not given their consent. Since, people have not transferred Right to Life, Liberty & Property. Govt. cannot make any law which will limit these rights.

> what if govt. makes such laws-

People have right to revolt against the govt.

Meaning of Revolution

Revolution in law does not mean violent overthrow of the system. It simply means change in the person running the govt. by constitutional method ie. through elections.

How govt. is elected?

- In the first contract all people enter into the contract with all
- In the second contract where govt is formed, few persons will be elected among the people to represent them.
- Govt. is elected by majority. whichever group gets no majority will get right to form govt. Thus govt. represent the consent of the people.
- ^

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

→ According to Locke consent is of 2 types-
(i) Explicit Consent
(ii) Tacit Consent.

Lecture 14.
30/12/2016

(*) Explicit consent / Tacit consent -

Majority gives explicit consent. It is assumed that minority has given implicit/ Tacit consent. The purpose is to suggest that govt. is assumed to be based on consent and everyone should follow the laws made by govt.

> Scope of the power of the Govt.

Govt. has limited powers.
Govt. enjoys only deligated powers & no original powers. Govt. can make law only to the extent permitted by the people.

> Can govt. make law which limit right to life, liberty and property?

According to locke, govt. cannot because man has not transferred these rights.

• The Concept of Natural Law-

Procedure Established by Law — UK
- Judiciary to review only executive acts.
- Judiciary cannot review acts of legislature/ parliament
- Hobbesian idea

Due Process of law — US
Doctrines of JR
- Judiciary has power to review both Executive as well as legislature acts.
- A. Gopalan Vs. State of Madras (CPI)
- Locke idea.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

"No Law. No Liberty."

- In above statement the term law refers to the Due Process of Law or Reason. In the State of Nature man was enjoying Rights to life, Liberty, Property because of the presence of the reason in man.
- According to Locke reason in man taught him not to harm life, health Property, possession.
- It is because of reason in man, the state of nature was the State of peace, goodwill and mutual assistance.
- There were certain inconvinences in the State of Nature & so man enters into the social contract. By 1st contract man creates civil society, gives formal recognition to each others right. By the 2nd contract man creates govt. even when man has created govt man has not surrendered his liberty. State cannot take away man's right to life, liberty and property. The law made by state has to confirm to the law of reason or due process of law. Any law made by state which deprives man from his right to life, liberty and property cannot be considered as fair, Just and Reasonable.
- Hence, in countries where judiciary recognises the Doctrine of due process of law, there is a better guarantee of Protection of liberty.
- SC of India has accepted the Doctrine of due process of law in Menka Gandhi Case 1978. This has ensured better protec" for life & personal liberty & has strengthened the rule of law.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Locke's Theory of Natural Rights -

- Man enjoyed Natural Rights in the state of Nature
- Out of all Natural Rights the most imp. rights are Right to life, liberty and property.
- At time locke has used the term Right to Property in an inclusive sense to include Life & Liberty.
- It gives two meanings -
  (i) Without property life & liberty carries no meaning.
  (ii) It also means that they are man's property and not states property. so state cannot deprive man from his Natural Rights.

Life, Liberty & Property are the parts of Man's personality. It is unreasonable to think that man can elinate himself from his life, liberty & property. Locke has given justification for absolute Right to Property.

According to locke what is the purpose of life?

The Purpose of life is pursuit of Happiness. God has created Apple, Milk, Meat to eat and drink to satisfy the Appetite. God has not created man to sacrifice.

Like Hobbes, Locke is also utilitarian. Property is a source of Good Life.

Origin of Property -

Initially property was held in common. However, it is commonsense to understand that property cannot remain in common. those who were hard working industrious became owners of property & became rich & those who were fancyful, lazy, quarrelsome, containtious remained poor.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Hence, locke suggests man's absolute Right to Property. Property is a Part of man's Personality. man should have absolute Right on his Personality. Property is the product of man's labour. It includes the labour of his horse & labour of his slave.

- Locke has put 3 Limitations on Right to Property -

(i) labour Limitation - Property should be earned by the use of labour it includes the labour of Horse or slave. Property should not be earned by force.. or fraud.

(ii) Spoilage Limitation - God has given property to enjoy not to spoil.

(iii) No one should deprive the other from earning property.

> What is the Role of the State with respect to Right to Property?

" The sole purpose for which man has created commonwealth is the preservation of property

- Locke has given the theory of Night Watchman state.. The only role of the state is to maintain law and order for the sake of preservation of property which includes Right to life & Liberty. State is not expected to perform any other function. man has created state/ govt to remove inconvinience present in the State of Nature. State in Locke is not a necessity as in Hobbes. State is just a matter of convinience. since, Locke has justified absolute Right to Property, locke is known as a Scholar of Possessive Individualism.

- In contemporary time Robert Nozick have revived the Arguement of Locke in his entitlement theory of Justice. According to Nozick minimal state is inspiring & right.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Locke on Toleration –

In his essay titled, 'A letter concerning Toleration' locke has given his views on Toleration.
Locke suggests that state should follow the policy of Toleration towards the persons following different religions. Unlike Hobbes who brings even religious matters under the state, Locke wants to keep religious matters outside the scope of the state.
According to him state should leave free man in religious matters (Freedom of religion). As far as Religion is concerned man should have complete freedom because in matters of soul. God does not appoint magistrate. There is no point using force, because force can compel people to obey the state. But it cannot force people to change their beliefs.
Though Locke suggest state to be tolerant towards people having faith in diff. religions he does not suggest ~~tolerance~~ toleration towards ~~the~~ Athiest. Because Athiest could not be trusted.
In the words of locke, Promises, Covenants and ~~et~~ oaths which are bonds of human society can have no hold upon an Athiest.

Locke's Theory of Revolution –

Revolution in locke is just peaceful change. Since man is Rational there is no need of violence. The conditions for revolutions are –

(i) When govt. does not act as per the wishes of trustees.
(ii) When executive does not allow legislature to function.
(iii) When executive does not rule according to the laws made by the legislature.
(iv) When govt. puts people under foreign control

Assessment of Locke As A Thinker-

(i) Locke as Father of Liberalism-

'Every political ideology represent the interest of a particular class.'
Karl Mannheim suggests the concept of 'sociology of knowledge'
Liberalism was the philosophy of emerging Bourgeoise class. Bour class demanded equality before law & equality of opportunity.
Bourgeoise class demanded Absolute Right to Property.

In Locke theory we see the concept of Night watchman state/ limited state.
Liberty is one of the core value of Liberalism.
Locke claimed absolute right to life, Liberty & Property.
Liberalism believes in the rationality of man.
Since man is rational, man can be given rights.
US constitution comes nearest to the ideal of liberal govt.
We can see the reflection of locke's philosophy on the basic principles of US constitution like limited Govt, Absolute FRs, Religious freedom/ Toleration, Representative govt, seperation of powers.
Hence, it would be appropriate to John locke as a father of Liberalism.
He is a source of inspiration for Liberals like Montesqieu, Robert Nozick, Milton Friedmen.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

It is hard indeed to turn Lockean doctrine into any kind of unqualified democratic theory.
- Mac Pherson.

Mac Pherson has given a detailed analysis over the different theories of Democracy.

John Lockes gives the Theory of Limited Govt. Govt is elected by majority. Govt represent the consent. According to Locke majority has given Explicit consent & minority has given Tacil consent. Locke has even ensured that state cannot infringe Man's right to life, Liberty & property.

Mac Pherson who is Liberal egalitarian. calls J. Locke as the scholar of Possessive Individualism His theory of democracy, his justification for Absolute Right to property, serves the interest of Bourgeoise class. Hence his theory of Democracy is not unqualified. His democracy is for rich class.

ROUSSEAU

- Time Period – 1712 – 1778

Introduction

- Rousseau is a thinker of Paradoxes.
  Not only his language is Paradoxical but his ideas have been a source of inspiration for many contradictory schools of thoughts.
- Liberals, socialists, idealists, totalitarians, democrats all take inspiration from Rousseau.
- Rousseau was the 1st person to highlight the negative impact of Science & Reason.
- As a thinker he was the 1st person to suggest that man is not bad rather society is bad. Hence what is to be changed is society. Man will automatically become good.
- He is known as Father of French Revolution & Father of Concept of Popular Sovereignty as he have given the Theory of General will.
- The central concern of his political philosophy was reconciliation between Liberty & authority.
- In the opening statement of his book Social contract he suggests that, "Man is born free, but he is everywhere in chains."

- What is Freedom?
  Freedom is to act according to one's choice or will.
  It also means to act according to ones true nature.
  What is the True/original Nature of Man?
  According to him, Man is has self love as well as Sympathy for others. Man is essentially good.

Lecture 15
03/01/2017

How was the state of Nature?

State of Nature was state of Bliss.

> What does he imply when he uses the term state of Nature?

It is a description of human life before the advent of modern age, science & reason.

> What is the condition of Happiness?

When person is free to act according to his nature.

> How Happiness got spoilt?

According to Rousseau with the growth of civilisation, when man started settled life gradually he started loosing Happiness.

> Why?

There was growth of reason in man.

- The definition of a Rational man in modern society is a man who knows how to maximise his self int., profit, pleasure. (check audio)
- Rationality taught man the diff. bet" how you calculate self int., profit, pleasure.
- Rationality taught man how to make diff. between mine and thine.
- According to Rousseau man was, 'Noble Savage.'
- 'Thinking man is a depraved animal,'
- But with the growth of reason he became depraved animal.

→ Reasons of the Contract -

People come together to change the situation and to gain true Happiness as well as Real freedom which man was enjoying in the state of nature.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

- What are the options ?

① Either go back to the state of Nature.
However it is not feasible.

② To enter into the contract & to create a society where we can live according to our real nature. and we can get true happiness.

Concept of General Will -

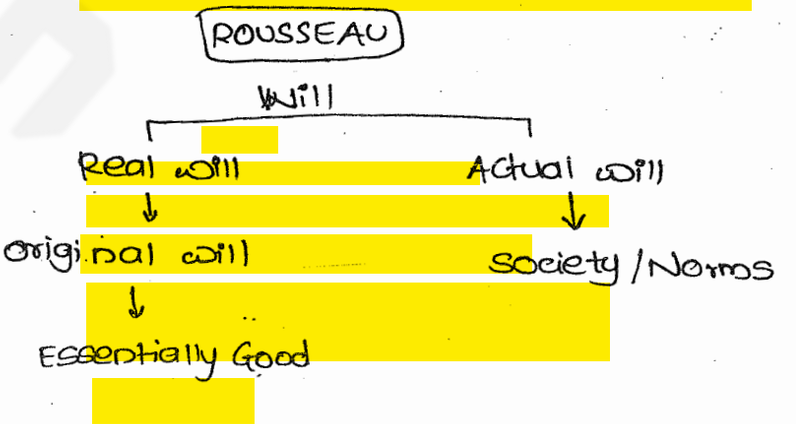

General Will / Popular Sovereignty -

Terms & conditions of the contract -

- All people agree to act to with their real will.
- The sum of real wills of all create the General will.
- General will is the sum of real wills of the all.
- General will is essentially good because it is the sum of good wills.
- General will is represented in the state & in Rousseau people coming together form the state.
- General will is represented by the state & people the state
- The idea comes to near the view that state is individual writ large.

What does state symbolise?

when people combine together they form body politic. (Body Politic - state
Eg. It is assumed that the members of the constituent assembly were working with their real will & constituent assembly represented the General will on will of the people of India.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

- Gen. will is indivisible, collective & always right.
- We are free only when we follow the Gen. will.
- Rousseau goes to the extent of suggesting that man should be forced to be free. It means if anyone does not obey the laws of the state, state should have power to punish. It is for this reason said that General will is Hobbes's Leviathan with ~~its~~ his head chopped off.

Types of Sovereignty

① **Legal Sovereignty** - It comes in Hobbes's Theory. According to it supreme power to make law lies with the state. To Hobbes state is a 3rd party i.e. the beneficiary (Monarch)

② **Political sovereignty** - It comes in the works of J. Locke. According to Locke, sovereignty of state is actually exercised by the people who form the govt. (Parliament)

③ **Popular Sovereignty** -

check Audio 1:02:00

- It is a philosophical notion.
- It suggests that sovereignty lies with the people but is a very philosophical view. (ideal)

- Rousseau's General will is Hobbes's Leviathan with his Head chopped off.

- In Hobbes, state is the 3rd party & the beneficiary. State is like the crown / Monarch.
- In Rousseau there is no head, power is diffused throughout the body politic.
- However, in effect General will as well as Leviathan ~~have~~ both have absolute powers.
- ~~He~~ If Hobbes gives monopoly over ~~exerc~~ the use of coersive to leviathan ~~Rts~~ Rousseau also suggest that man can be forced to be free.

55

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Hence it is said that there is not much diff. except morphological difference.

- However, it would be unfair if we compare Leviathan & Gen. will & believe that they are same.
- Rousseau was actually the greatest exponent of direct democracy. Rousseau was impressed by the system of Direct Democracy which was prevailing in Switzerland even at that time.
- We should not overlook the fact that according to Rousseau the only way General will emerges is when people go for direct participation in law making.
- Thus Rousseau is a champion of not only participatory democracy but also deliberative democracy.
- Though Rousseau's ideas are subjected to the manipulation by the totalitarians justifying state totalitarianism yet we should not forget that Rousseau is one of the greatest champion of Democracy.
- With Rousseau also starts the idea of positive liberty when he says that man is free only when he obeys the state.
- Another term for positive liberty is moral freedom.

J.S. MILL

- Time / period - 1806 - 1873

Introduction

- J.S. Mill belongs to the time of transition.
- He belongs to the time when people were realising the -ve consequences of classical liberalism or negative liberty. But they were still not having the complete or idea of either positive liberty or welfare state.
  Hence, there are many inconsistencies in his ideas.
- Mill is a connecting link bet" the classical liberals and modern liberals.
- Mill considered himself as disciple of Benthom
- Benthom was known as father of Utilitarianism.
  By that time Utilitarianism came under the criticism from the ~~u~~ humanitarians like ~~Kantstyle~~ Carlyle who called Utilitarianism as 'Pigs' philosophy.
- Mill wanted to defend Benthom Hence Mill revised Utilitarianism.
- Mill is ~~an~~ inconsistent thinker because on one hand he is influenced by Utilitarians on the other hand by idealists like Socrates & Plato.

Major Works of J.S. Mill

IMP
1. On Utilitarianism
2. On Liberty
3. On Representative Govt.
4. On Subjection of women. (not imp.)

Utilitarianism — the doctrine that actions are right if they are useful or for the benefit of a majority.

Humanitarianism - the doctrine that man's obligations are limited to & dependent alone upon man & the human relations.

56

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

① On Utilitarianism –

Mill on Utilitarianism-

Q. Mill was a peter who denied his master. Do you think that mill has revised Utilitarianism to the extent that Utilitarianism lost its original character & he not only revises Utilitarianism he destroys Utilitarianism.

— What is Utilitarianism?

Utilitarianism has been the dominant philosophy of the Britain.

We can trace the origin of Utilitarianism to Sophism, Epicureanism.

One of the earliest exponent of Utilitarianism were David Hume, Hobbes, Priest ley. (Priestley)

It was Benthom who made Utilitarianism as a School of thought.

Hence Benthom is called as Father of Utilitarianism as he made it a systematic philosophy.

Why Mill thoughts of revising Utilitarianism?

Mill used to consider himself as the disciple of Benthom and by that time utilitarianism came to be criticised as Pigs Philosophy.

How Mill revises Utilitarianism.

Utilitarianism is a extreme materialism, in order to revise Utilitarianism Mill brings ideas from Greek scholar like Socrates & plato. Since he mixes idealism with materialism that it is said that Mill has destroyed Utilitarianism.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Introduction to Utilitarianism:

Utilitarianism has been recognised as the philosophy of common man.

It appeals to the common man & that is the reason that Utilitarianism became the dominant philosophy.

- The term Utilitarianism comes from the term Utility. Utility is the capacity to give pleasure or satisfaction
- According to Utilitarianism pleasure & pain are the only guides.
- According to David Hume, Ethics is nothing but a moral sentiment. Even such ethics will not work which overlook pleasure & pain.
- According to Bentham, "Nature has placed mankind under the governance of two sovereign masters pleasure & pain. It is for them alone to point out what we ought to do as well as to determine what we shall do."
- According to Bentham only utility can be the basis of ethics & should be the basis of ethics. because man cannot act otherwise. There is no point advocating such ethics which man is unable to act.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Lecture 16
04/01/2016

Characteristics of pleasure according to Benthom.

(i) Pleasure is purely quantitative term - there is no concept / issue of quality.
Either there is more pleasure / less pleasure. There is nothing like inferior or superior pleasure.
In the words of Benthom "Pushpin is as good as Poetry". (Game of small children)

(ii) Since pleasures do not differ in quality persons also do not differ in quality. He does not believe in the Theories like some are men of reason & some are men of Appetite. In this sense Benthom is more Democratic.

(iii) Pleasure has materialistic origin.

(iv) Pleasure is always an Individualistic experience.

(v) According to Benthom, state should follow such policy which gives maximum Happiness to Maximum no. of people

— In what ways state can provide maximum Happiness.

Only way the State can bring maximum Happiness is by in. Interference in the eco. Because this will create more wealth.

Benthom has also deviced felicific calculus to calculate total pleasure and total pain.

— Short note on Greatest Happiness of Greatest Number.

It is one of the most deceptive principles. Socialists Criticise the principle because it give primacy to Happiness over number. Whereas for socialist we should give primacy to no. over Happiness.
According to Benthom Society is Aggregate of Individuals. He rejects the organic conception of the society.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Criticism of Utilitarianism -

Utilitarianism came under criticism from socialists & Humanitarianism. Humanitarians like Carlyle called Utilitarianism as 'Pigs philosophy.

How Mill revises Utilitarianism?

He Brings idealism in Utilitarianism

"It is Better to be a Socrates dissatisfied than fool/ Man satisfied, it is better to be a Man dis-satisfied than Pig satisfied."

- What is Utilitarianism?
- Why Utilitarianism came under criticism.
- Why mill revises Utilitarianism
- How mill revises Utilitarianism
- In what way Utilitarianism of Mill differs from that of Bentham.

- For Bentham pleasure is quantitative whereas for Mill pleasures not only differs in quantity they also differ in quality
- For Bentham not only pleasures do not differ in quality even persons do not differ in quality. On the other Hand Mill suggests that persons differ in quality. Some are Socrates i.e man of reason, Some are pigs i.e. man of Appetite.
- Once Mill accept pleasure as a qualitative term he renders Felicific calculus useless as quality cannot be measured.
- Mill redefines Utility.
- Ho

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

How Bentham defines Utility?
Utility is the capacity of any commodity to give pleasure. Hence its basis is materialistic & its experience is direct

Mills view on Utility:

"I regard Utility as an Ultimate appeal on all ethical questions but it is Utility in its widest sense grounded in the framework of the permanent interest of man as a progressing being."

- How mill redefines Utility?
- for both Bentham as well as mill Utility ~~as~~ is the yardstick of all ethical questions.
- However Mill modifies the concept of Utility.
- For Mill there is a need to make a difference between pleasure & Happiness.
- Happiness is superior to pleasure.
- Pleasure is materialistic & Happiness is non-materialistic. Pleasure is a satisfac^{n} of Appetite, Happiness is the satisfaction of soul,
- If pleasure is gained by experience, Happiness is gained by sacrifice.
- Once Mill makes a diff: bet^{n} pleasure & Happiness Mill also questions the belief of Bentham that man is ~~capable/of~~ not capable of understanding pleasure & pain of the others.
- Mill takes the progressive view of man.
- Initially man may have been dominated by Appetite but gradually Man became rational.
- According to Mill, the concept of Utility has to be grounded in the permanent interest of Man.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Above discussion show that Mill was a peter who denied his Master and in his effort to protect Benthamism he ultimately destroyed the very foundation of Benthamism.

② Mill on Liberty

It is said that if anyone is liberal it is Mill.

Why?

Liberty is the core value of liberalism and no one before J.S. Mill has provided the systematic view of liberal concept of liberty.

- Classical liberalism is started with J. Locke.
- Classical liberalism developed into 2 directions
  Initially it was dominated by the Tradition of Natural Rights.
  Later on it came to be dominated by Utilitarianism
- Utility has displaced Liberty from its core position.
  It was Mill who re-established the centrality of Liberty. He established that Liberty is superior to utility.
- In his book on Liberty Mill has discussed diff. aspects of Liberty

What is the importance of Liberty?

- Liberty is a condition of progress.
- Liberty is essential for the full developement of personality.
- Liberty is not only the individual good, it is a social good. It will benefit state as well as society.
- In the words of Mill no state becomes great with a small people because with a small men no great things ~~cannot~~ can be achieved (with a small people).

Liberal – open to new behaviour or opinions and willing to discard traditional values.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

should there be any limit on the liberty of Man?

Harm Principle :

- According to Mill over his body his mind individual is sovereign. All restraints qua restraints is evil. The soul basis where man kind is warranted / permitted to intervene in the liberty of man is to prevent harm to others.
- self harm is not a basis.
- Mill devides human actions into two types:

(i) Self Regarding Actions-

(ii) Others Regarding Actions-

- Barker calls Mill as prophet of empty liberty and scholar of Abstract Individualism.

Why Barker calls...?

Barker is Positive Liberal. He does not support the idea of Negative liberty.

According to Barker, Mill goes for artificial / non-scientific seperation between self regarding action & others regarding actions.

Actually he leaves very limited scope for liberty. There are very few actions which can be considered as entirely self regarding. Not only his idea of Liberty is wrong mill is unable to defend his idea. He creates huge scope for intervention by the state.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

- According to Barker, Mill is talking about an Abstract man not the real man living in the society.
- It is true that Mill is inconsistent thinker, inconsistency arises because he belongs to the time when people were realising the -ve consequences of -ve liberty. But the idea of +ve liberty has not yet crystalised.
- There is also an inconsistency in Mill, when mill permits state to intervene in self regarding actions. If person is taking that actions which may harm him because of ignorance. He give the example of a person trying to cross a bridge which is about to fall. It is the duty of the state to make that person aware. However if person is already aware self harm is not the basis for intervention of the state.
- Though there are inconsistencies in Mills ideas yet it would not be justified to call him as Prophet of Empty Liberty & it is correct to say that if there is anyone who is liberal, it is Mill.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

(3) Mill on Freedom of Speech and Expression:

According to Mill the most important right is Freedom of Speech & Expression.
Besides Freedom of Speech & Expression Mill also recommend Freedom to found association and action.

> Why Freedom of Speech & Expression is most imp.
It is the most precious gift of god to man.
Out of all species, god has given the ability to speak & communicate through language only to man.

- According to Mill, Majority should listen to minority Even when all have one view & a single person has the different view he should be allowed to speak. The way we will not support the tyranny of one person over all, we can also not justify the tyranny of all over one.
- He is influenced by Greek thinkers like Socrates. Dialogue is the only way to understand the truth &. Truth will automatically emerge. There is no point postponing the emergence of truth. We do not ~~ac~~know from where truth will emerge Hence he suggest that even a person who is considered as mad should be allowed to speak.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Lecture 17
05/01/2017

Continued...

There is no harm if we allow others to speak.

Argument
(i) Suppose you were right & the other person was wrong he will stop & he will keep silence.

(ii) If that person is speaking truth still it is beneficial because it is an opportunity for me to correct myself.

- In the words of J.S. Mill, All silencing the opinion is an assumption of infallability.
- Thus we can say Mill as the greatest exponent of Freedom of speech & Expression.
- Freedom of Speech & Expression is a necessary pre condition for a democracy.
- Democracy recognises right to dissent/disagree.

---

(4) Mill on Representative Govt. / Democracy

According to Mill Democracy is the best form of govt.

Why?

Only democracies give liberty to man.

Liberty is a pre condition for the developement of Man. which includes the developement of state.

which is the best form of govt.?

According to Mill, Direct Democracy is best.

Second Best -

Representative Govt. is the 2nd best.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

- In modern complex society Representative Govt is unavoidable.
- Thus Mill is a champion of Democracy.
- Mill is a inconsistent thinker.
- On one hand he is a champion of Democracy on the other hand he is called as 'Reluctant Democrat'.

Why Mill is called as Reluctant Democrat?

(1) He is fearful of Democracy being introduced in colonies

despot/ despotism: one who exercises power in a cruel or oppressive way

In the words of J.S. Mill, Benevolent Despotism (in a good intention eg. parents with child) is best for Barbarians.

With respect to colonies like India, Mill preferred Benevolent Despotism.

According to Mill, there are certain prerequisites for introducing democracy.

Democracy without democratic culture will be false democracy.

People should be committed for the principles of Democracy.

According to him, Democracy is not a free gift to be distributed.

People have fought long struggles to get democracy.

He is fearful of the future of democracy.

Atleast at present it is accepted that Democracy is the Best form of govt.

If democracy is handled by the people who are not fit for democracy there will be question mark on the view that democracy is best form of govt.

- His views come near to Aristotle as well as Machiavelli
- According to Machiavelli Republicanism should be introduced only where people are virtues.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

- Mill is also known as reluctant Democrat because he was also fearful about the state of democracy even in western countries.
- Mill was fearful that Democracy will get converted in tyranny of majority or Mobocracy.
- He was critic of Democracy in USA.
- In order to protect the future of Democracy Mill has proposed following Reforms:

ARISTOCRATIC

(i) The concept of weighted voting.
Weighted voting — Everyone to be given one vote but those who are educated & possess property should be given more than one vote.

(ii) Plural voting
Person should have Right to vote in all such constituencies where he have his own property.

(iii) Proportional Representation instead of majoritarial Model.

(iv) Greater powers to upper house/ House of Lords.

(v) Open Ballot rather than secret Ballot (compatible with Freedom of Speech & Expression). → Freedom of Speech & Expression

(vi) Mill has proposed Right to Vote in favour of women

- With the exception of Right to Vote for women as well as the recommendation for open Ballet all of his reforms are Aristocratic in Nature. He wants to secure future of Democracy by introducing illitist element. Hence he is also a reluctant democrat in above sense.
- In comparison to Mill Indian leaders like Gandhi, Nehru emerged as a passionate democrat.
- If for Mill people should be made fit for democracy, for Indian leaders people will be made fit through Democracy.

Open Ballet - election of members of RS

62

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

- In the words of Nehru, If people cannot ~~bring~~ come to Democracy, we can bring democracy to their ~~door~~ doorstep.

⑤ Mill on Subjection of Women. [Not imp.]

After plato it was Mill who was concerned with the Rights of Women.

According to Mill, ~~All~~ forms of slavery have been abolished except the slavery of women. Slavery of women is a universal phenomena, Just because it is universal, does not mean it is right.

He was an advocate of women participation in public sphere. There is no harm if women are allowed to participate. It is good for women as well as for society.

Why good for women?

- At times many negative characteristics are associated with women. It happens because of confining women within the 4 walls of family. women develops various ~~kind~~ types of complexes.
- If women are present in a Public men will behave in a ~~different~~ decent manner.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Q. "In the first place it is mostly considered unjust to deprive anyone of his personal liberty his property or any other thing which belongs to him by law."

- Above statement is from Mills book on Utilitarianism where Mill also proposes Utility as a principle of Justice & Ethics.
- According to Mill, it would be unjust if state deprives a person from his personal liberty. Liberty is a condition for the growth of a person. In his book on Liberty he has clarified that only harming others can be the basis for intervention. Similarly state cannot deprive a person from his property except according to the law. If person is a owner of property by law state have no right to deprive.
- The views are very similar to those of Locke, Bentham Hobbes & other Utilitarians.
- Socialists are critics of utilitarians. According to socialists liberty & property of a person can be made limited in the wider interest of the society.
- Even positive liberals could have the similar views with respect to absolute right to liberty & property.

KARL MARX

(1818 - 1883)

Introduction

- Karl Marx has been the most influential Political philosopher.
- Karl Marx himself said that philosophers have only interpreted the world what matters is to change it.

Praxis (Theory + Action)

Marx statement though he made for Hegel yet it most appropriately applied for Marx in the sense that Marxism is a praxis (Theory + Action)

> What is Praxis?

- Praxis is a Theory leading to Action or Action based on scientific knowledge.
- It is the influence of the Marx ideas that since 1917 October Revolution in Russia till 1991 world remain devided into two blocks, the capitalist block & Communist block.
- Marx is the only philosopher after whose name exists the Political ideology called as Marxism.
- Marx is considered as God by his followers. It is true that since 1991 the popularity of Marx is declined but it is wrong to say that Marxism has become dustbin of history/sentiment.
- There is a revival of interest in the works of Marx since the concept of Global Financial crisis.
- The type of Acknowledgement which has been received by Thomas Piketty's book titled 'capital in 21st century' show the influence of Marxist ideas.
- Marx is the 1st thinker who talked from the perspective of poor & the exploited class.

Like Julliet Caesar It is said that Marx dead or alive continues to haunt the Capitalist.

scientific - based on/characterised by the methods & principles of science

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update :- https://t.me/upsc_pdf

Phillips co. belongs to Marx's uncle.

- It is because of K. Marx that ultimately the nature of capitalism changed. western countries adopted welfare state.
- Though Marx is a considered as a god who has failed but yet the wide acceptance of welfare state is itself an acknowledgement of success of karl Marx.

Perspective of A Karl Marx as A Thinker.

Marx is a socialist

What is socialism?

- If liberty is the central value of liberalism equality (soc. & eco.) is a concern of socialists.
- Marx was not the first socialist. We see the origin of socialist ideas in the western world since the time of French Revolution. It was during French Revolution that people talked about equality & fraternity. There were many socialist during the time during French Revolution e.g. Louis Blanc (Revolutionary). Later on we see other socialists also like St. Simon, charles Fourier and Robert owen (father of co-operative movement) and together they are called as early socialists.
- Karl Marx is the most important figure in the evolution of socialism.
- Socialists are devided as, Socialist Before Marx, & Socialists after Marx.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

- Marx called his socialism as scientific and socialisms of early socialists as Utopianism.

> Why Marx calls his socialism as scientific and Early socialism as Utopian?

- Early socialists were trying to bring socialism through peaceful method by appealing to the conscience of the capitalists.
- Marx believed that early socialists lacked the scientific understanding of capitalism as well as scientific programme to bring socialism. He called his socialism scientific because according to him, his understanding is scientific with respect to capitalism & accordingly his programme is also scientific.
- According to him socialism cannot come in a peaceful manner. Socialism can come only through violent revolution.
- In the words of Karl Marx violence is a mother of change. There has been no birth without blood shed.
- In the words of K. Marx workers of the world unite you have nothing to loose except your chains.
- Socialism is also a doctrine of Modern times. It is a belief that industrial society need not to be organised on the Principles of capitalism (Competition) It can also be organised on the Principles of socialism (Co-operation).

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update ; - https://t.me/upsc_pdf

Marx is a Materialist

- Karl Marx is materialist.
- According to Marx ideology generate falls consciousness. Idea is illusion & matter is real.
- Karl Marx even believed that religion is opium of masses.

Marx is a Anarchist

- Marx is Anarchist
- According to Marx. State is an instrument of exploitation.
- Marxism ends in communism.

What is communism?

Communism is a utopia of Karl Marx. It is a class less & state less society. It is a state of perfect freedom & ultimate happiness.

Works of Karl Marx

We can classify the works of K Marx into two categories:

(I) Young Marx -

Alienation

He has discussed the concept of Alienation in his 'Economic & philosophic manuscripts'.
This book of Marx came to light/ public very late
The followers of young Marx are known as Neo- Marxists. Here Marx emerges as a philosopher whose main concern is to understand the concept of freedom.

Anarchist – a person who believes in or tries to bring about anarchy (અંધેર/અવ્યવસ્થા)
disorder/chaos

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

(II) Mature Marx

The most imp. political work of Mature Marx is Communist Manifesto.

Communist Manifesto is a political programme to bring communism. Here marx emerge as a Politician.

Follwers of Mature Marx are called as ortho-dox Marxists.

Sources of Influence -

1. British school of Political Economy
2. French Revolution & Idea of Equality.
3. German Philosophy (Ideas of Hegel)

upscpdf.com

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

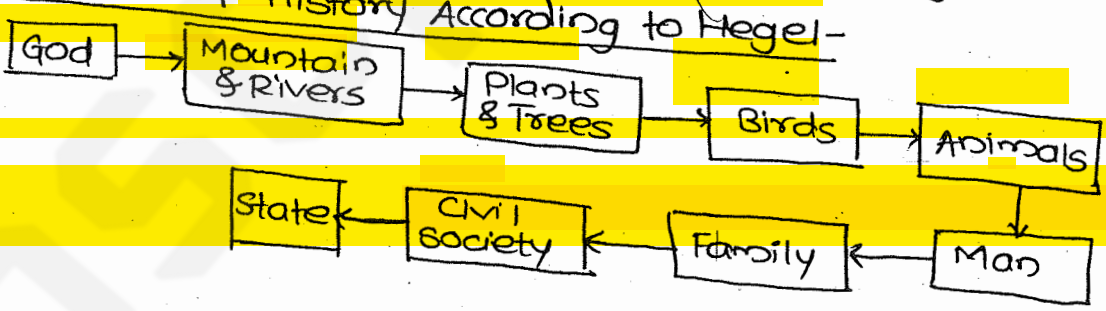

lecture 18
06/01/2017

Brief note on Hegel

- He belongs to Germany.
- He was designated as official philosopher of Prussia.
- Hegel held that ~~the~~ state is March of God on Earth.
- Hegel is an Idealist like Plato.
- Hegel held that idea is ultimate reality. Just like plato held that reality is a shadow of Ideas, Hegel held that Real is Rational & Rational is Real.
- Hegel has given phiosophy of History → social change
- According to Hegel Idea is the moving force of History. Idea is more powerful than matter. Idea is Real.
  what is Ultimate Idea?
- God is the Ultimate Reality / Idea.
- To explain the type of process in History Hegel has given the laws of dialectics. which marx also adopted.
- Hegel has also given the concept of Alienation which has influenced Karl Marx.
- Karl Marx held that Hegel is standing on his head I have to make him to stand on his feet so that he can see that it is matter and not idea that is real.

"State is March of God on Earth."
"History is a Movement of Idea."
- Hegel

> Evolution of History According to Hegel -

Join Telegram for More Update : - https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

- According to Hegel, there is a order in the universe. Hegel is also Teleological. This world is created by God. God or absolute idea first manifest itself in the form of non-living things than in living things. In each successive creation of God we see greater reflection of God. State is the ultimate creation of God. State is end of History. State is March of God on Earth.

> How do we know that the state is march of God on Earth?

- It can be understood only when we apply reason. When we look at the creations of God it reminds us about the creator.

"Real is Rational & Rational is Real" — Hegel.

Real is Rational

- This is Hegel's Epistemology.
- According to Hegel whatever is real can be understood through the use of Reason or whatever can be understood by the use of reason is real. Idea is understandable through the use of reason hence idea is Real. God is ultimate idea & so ultimate reality.

Rational is Real

- This is Hegel's purpose/ontology/political purpose whatever is understood through the use of reason is real.
- State is a March of God on earth can be understood only by the use of reason.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Q) What are the characteristics of God & why we should accept that the state is God?

Dialectics in Hegel / Concept of Dialectics

Idea of dialectics was 1st given by Socrates as a means to understand the truth. It is a process through which our beliefs get converted into true knowledge. It is a process to arrive at the truth.

Hegel has expanded the concept of dialectics.

According to Hegel, Dialectics is a process of change in History. History moves in the dialectical manner

What does dialectics indicate?

Dialectics indicate contradiction.

Hegel has given dialectical idealism. It means History moves in the form of dialectics of ideas.

Hegel has given 3 laws of dialectics.

① Unity of opposites

In every creation of God in universe exists its opposition. For every idea there is a opposite idea. It is the presence of contradictions which is a moving force of History.

② Negation of Negation

The direction of change is such that negativity gets negated. It is a progressive view of History. Every next stage is a better stage.

③ Quantity changes into Quality

Changes keep on happening.

A point comes when change become so much that it appears as if it is a qualitative change.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

According to the laws of dialectics when negativity ends, contradiction ends, History ends. Hegel has shown that History ends in the state. Before state we see 2 institutions.

① Family
Characteristics -
Altruism and Particularism

② Civil Society
Characteristic -
Universalism and Egoism

③ State
Characteristic
Universalism Altruism

Concept of Alienation by Hegel

Alienation means seperation / estrangement.

→ According to Hegel there are two parts/of universe. dimensions

① The Spiritualistic Dimension.
② The Materialistic Dimension.

→ Man also has two dimensions in his personality

① Spiritual Dimension
② Material. Dimension

Once man comes into existence man gets alienated from God.

Each person has the element of God. We are unable to understand. We can understand other person is also the part of God when we will use our reason or mind.

Alienation of Man from God ends only in the state. We become the part of whole.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Principles of Karl Marx / Marxism

1. Historical materialism / Materialistic interpretation of History
2. Dialectical materialism
3. Concept of class and class struggle
4. Analysis of capitalism & concept of surplus value.
5. Theory of Revolution
6. Theory of socialism / Dictatorship of Proletariat
7. Theory of communism

Communism is a stateless & classless society and end of History according to Marx.

—x0x—

1. Historical Materialism

What is Historical materialism

It is Marx philosophy / Theory of History.

Why Marx gives Theory of History?

In order to change the History one must know the laws of History.

What is Marx view on History?

Marx contradicts Hegel's view of History.

According to Hegel History is the result of the dialectical movement of ideas.

What Marx tells about Hegel's view of History?

According to Marx Hegel is standing on his Head.

It is the dialectical movement in matter that shapes History & not ideas.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

What Marx tells about his analysis?
Marx calls his analysis of History as scientific.
According to Marx Historical, Materialism is a science/ scientific explanation of History
Why Historical Materialism is a science?
In order to understand History scientifically we have to understand the first Historical act of Man. Whether Man started thinking or production.

"In order to Make History one has to live,
In order to Live one has to Eat,
In order to Eat one has to Produce."
Thus the 1st historical act was not thinking but production.

Lecture 19
07/01/2017

Above statement tells about Marx concept of Historical materialism. Historical materialism is Marx interpretation of History. Marx claims his analysis of History is scientific. He claims his analysis of History scientific because he soggest that his approch to understand History is scientific.

In order to understand History scientifically we have to understand the 1st Historical act of Man. Whether thinking comes 1st or production.

According to K. Marx if man has to make history he has to live. In order to live he has to eat. In order to eat he has to produce. Thus the 1st historical act of Man is production rather than contemplation. Thus production has a priority over thinking manual labour is more imp. than intellectual labour. Without manual labour man cannot survive.

Marx criticises intellectual class for justifying the unjustified system of rewards. For eg. It was plato who held that those performing intellectual labour ought to be the rulers & those involved in the task of production to be deprieved from becoming the ruler on permanent basis.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

The tradition continued further. Hence Marx suggest that intellectual class is also a exploiter class. Ideas Ideologies, generate false consciousness. It distorts reality. Hence, when philosophers like Hegel suggest that idea is ultimate reality, he is distorting the reality. Hegel is standing on his Head he has to stand on his feet to understand that it is matter rather than idea which is ultimate reality.

In the words of karl Marx, "Our consciousness does not determine our existence, it is our existence that determine our consciousness."

Base and superstructure conflict of Marx.

In order to understand the society we have to understand the basic structure of the society. Accordng to karl Marx, Economic structure form the basic structure.

How he proves that economic structure is the basic structure?

To understand the basic structure he tries to understand the origin of the society. According to Marx, the origin of the society is in the need of satisfaction of the appetite of Man. As he suggest that in order to make History, Man has to live, in order to live man has to produce. Production is a basis of society.

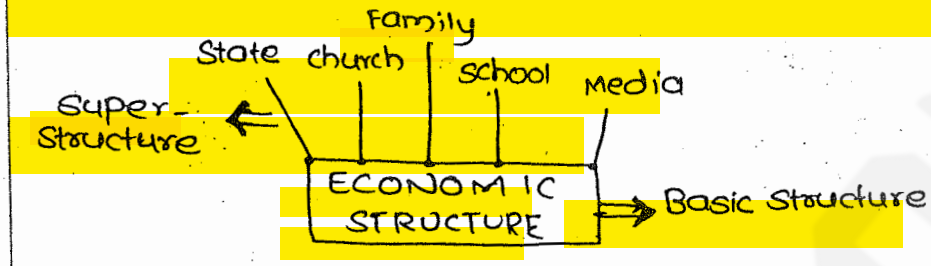

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

What is society?

Society is a division of labour. For the satisfaction of Appetite man enters into the relations of produc with each other. The earliest society is of Hunters and gatherers. Thus the structure of production or economic structure is the basic structure.

Conceptual Diagram of Historical materialism.

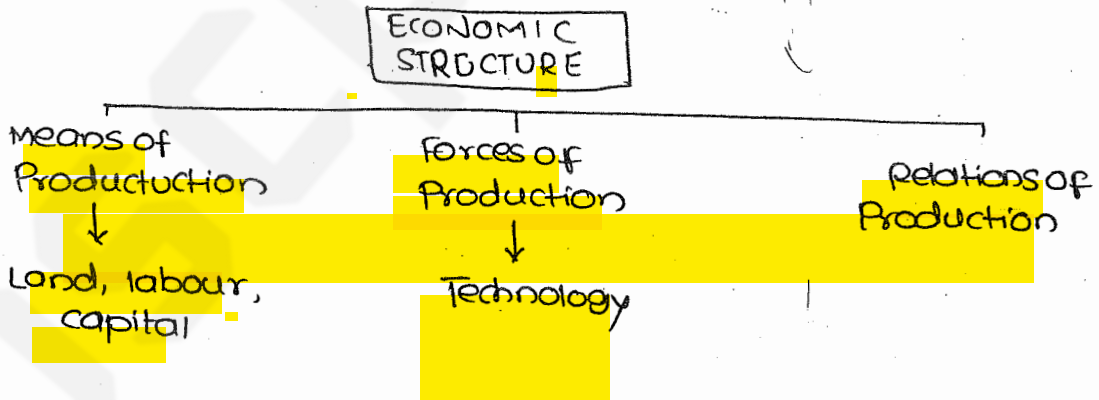

Economic structure is the Basic structure. other structures are grounded in the Basic structure. They have no independent existence of their own. They are just the reflection of base.

The institutions of superstructure are not neutral. The class which controls the economic structure also controls the elements of superstructure.

The institutions of superstructure like state, religion etc are, not neutral. They are instruments of the dominant class. Hence, workers cannot expect justice from the state. The nature of these institutions will not change till the basic structure remains same.

Components of Economic structure.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Relations of Production -

Another term for Relations of Production is class. Origin of society is in the need of production. The basic structure of society is the structure of production. The most imp. structure is relations of Production. Man enters into the relation with each other for the sake of Production.

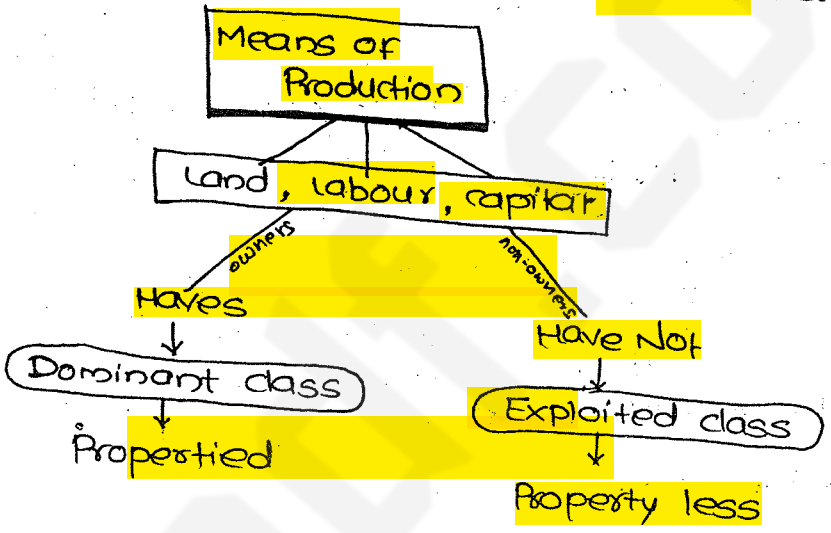

There are two basic relations of Production.

(1) Owners and Non-owners.

Owners of what?

Owners of means of production.

Hence, there are two classes i.e. Haves & Have Nots.

Those who are owners are the exploiters and non-owners are the exploited.

The relations bet" the two classes are essentially conflictual or dialectical. Hence, the relations are only of struggle because the interests are conflicting. The can never be a reconciliation of the conflicting interests.

According to Karl Marx the real identity of man is the identity of his class. His interest is interest of his class. All politics is politics of class.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

The real interest of the workers are with the workers of the world. Religion & Nature is false consciousness.

- The Concept of class & Class Struggle -

"The History of All Hitherto Existing Societies Has Been The History of class struggle." — Marx

> What is class?

Class is a economic status which depends on persons relationship with means of production
According to karl Marx there are only two classes Owner & Non-owners, Haves & Have nots, Exploiter & Exploited, Dominated & Subjugated class.
Relation betn classes are always of struggle.
There has always been class struggle & class struggle have been moving force of History.
Exploiter class will be a reactionary class & exploited class will be the revolutionary or progressive class.

- Marx has given following stages of History:
He devides the History of the world into two groups -
(I) The History of the west
(II) The History of the East.

- Stages in the History of west.

(1) Pre- Historic Age -

Before history. This stage be called Primitive communism. Initially property was held in common. All were owners hence, society was not devided into classes. Since classes were absent state was also absent.

> Why he mentions primitive communism?
He wants to show that there was a time when man was living without private property. It means man can live without private property.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

(ii) Slave society

There were two classes Masters & Slaves. And there was a class struggle and state was working in the interest of the masters.

(iii) Feudal Society

There were two classes i.e. lords and serfs. There was a class struggle betn lords & serfs. State was working in the interest of the owners of property.

(iv) Capitalism

There were two classes i.e. capitalists & workers. State is an instrument of capitalist class & there is class struggle.

*(v) Socialism

This socialism should not be confused with socialism in general. It is a very specific use of the word socialism by Marx. This word has been popularised by soviet Marxists as ~~ded~~ dictatorship of proletariat

Socialism will be the first stage after proletarian revolution. In this stage there were two classes i.e. workers and capitalists. Now workers will capture the state. Now state is an instrument of working class.

Capitalist democracy was false consciousness. It was democracy of minority and dictatorship over majority. It was dictatorship of capitalists over workers. Now (Socialism) It will be dictatorship of proletariats over capitalists. It will be democracy for majority & dictatorship of majority over minority.

In Marx this stage was to be the temporary stage or transitional or intermediate stage.

> What work is to be done in this stage?

This stage is needed to make all necessary preparations before communism. As a result of communist revolution power is captured by the workers but lots remains to be done.

71

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

> What will be the system of distribution in this stage?

From each according to his ability, to each according to his work.

In capitalism, capitalists claim that they reward each person according to their work. But it does not happen in practice. Worker is not rewarded in accordance to the value of his work.

In all countries where communist revolution happened the intermediate stage became permanent. In none of the countries communism came. In reality even dictatorship of proletariat was not established. It was just the dictatorship of communist party.

(vi) Communism -

> How communism will come?

By peaceful method. There is no need of revolution. Revolution is only when capitalism was existing. In socialism workers will capture power. Hence, there is no need of revolution. After all necessary formalities are done there will be a declaration of communism.

State which is now owned by workers will make declaration of abolition of pvt. property. once pvt. property is abolished all will belong to one class. Property is owned collectively. Since classes end, class struggle end. So history ends. Communism is end of History. When classes end, state is not needed, state will wither away. Hence, communism is a stateless society.

Communism is an Anarchism but not anarchy.

The task which state was performing will be performed by self help groups or voluntary associations of people.

Principle of Distribution -

From each according to his ability to each according to his need.

The principle of distribution in socialism is need.

Communism is caring society.

It is a state of perfect freedom.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Lecture 20
09/01/2016

Marx analysis of capitalism

What type of system of production is capitalism?
capitalism differs from the previous modes of produc°.
How?
capitalism emerge in Modern time. Scientific revolution gave rise to industrial revolution. Industrial revolution led to the machanised produc° or produc by machines.

Earlier Modes of Production -
Earlier production was through Man. Earlier major source of production was labour. People could produce for full-fillment for their needs, they could also produce some amount of surplus. However, surplus was not of such dimension that market was required for sale.

once machines started production it started producing surplus. Now mass production instead of production by masses. Factory / Machine goods were cheaper & could be produced in large quantity. The system of Machine based production left no option for individual production.

Factory based production started, workers neither had land nor capital. They only had their labour to sale.

Nature of capitalism -
Capitalism is debumanising. Labour becomes a commodity or object to be sold & purchased.
Capitalism is exploitative in nature.
Why?
Profit is the engine of the capitalism. In capitalism the motive of production is not need but profit.
How profit is Earned?
By reducing the cost of production.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

How to reduce cost of production?

① Reduce Wages –

What is capitalist law of wages? wages should be sufficient for him to survive; it should not be enough that he does not come back the next day. It means no surplus to be left with the worker. They get wages which is not enough, to increase profit further. Capitalists squeeze wages which increase the hardship.

② Displace the labour & replace it with Machine

This will create more hardships for the workers. When one capitalist brings machine other is bound to bring resulting into further laying off of workers and further reduction of wages. The law of demand & supply determine wages.

As capitalism will grow it will become more & more exploitative. Capitalism starts developing its own contradictions. On one hand they are increasing the profit but on the other hand they are depriving large no. of masses from their purchasing power. Hence, capitalism show the contradiction where there is surplus in the market but people lack purchasing power. Hence, cycles of depression keep on coming. To some extent capitalists are able to manage the crisis but after which it goes beyond their control. Capitalism automatically leads towards monopolisation. It is a cut-throat competition. Only few big players will survive. Even the small capitalist, petty Bourgeoise class will start losing the ownership. They will also become proletariats. Middle class will start joining the Proletariats.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

> What happens in the society?
complete imbalance. The concentration of entire wealth of the society at in the hands of few. And extreme poverty & misery on the other hand. Masses in the state of poverty and few have wealth. This create revolutionary situations.

> What is the law of Nature?
Equillbrium. is the law of Nature. Revolution will become inevitable. Thus Marx suggest that capitalists dig their own graves.

> At what point revolution takes place?
Revolution will take place when masses develop revolutionary consciousness.

→ There are two types of consciousness according to Marx

① False Consciousness
False consciousness is generated by the intellectual class working in the interest of dominant class. E.g. Religion and Nation have been used to generate false consciousness.

② what is True consciousness?
Class consciousness is true consciousness. When workers become aware of their exploitation. They they start developing their class consciousness.

→ class consciousness also has two levels:

ⓐ Class in Itself
Lower level of consciousness when person realise that he belongs to the different class.

ⓑ Class for Itself
It is a high level of consciousness. It happens because of the growing understanding of exploitation. Eg. In capitalism workers will initially develope their class consciousness. As capitalism will grow exploitation is going to increase. Not only exploitation increase but the no. of persons being exploited will also increase.

consciousness - State of being aware of & awake of one's surrounding
चेतना/जागरूक/अवगत

* Class in itself will become class for itself.

73

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Class for itself shows hightened level of consciousness when people will take arm and when no more be ready to suffer the exploitation. This is the point when revolution takes place. At this point the revolution will be spontaneous it will be a Mass movement.

- **Surplus Value**

Surplus value is the profit. Marx describes following values:

1. **Use Value** It is the amount of utility commodity has for a person.
2. **Exchange Value** It is the amount person is willing to pay in return of commodity which has use value.
3. **Suiplus Value** It is a additional value generated by the capitalists. Capitalists force coorkers to work for 12 hours. But he pays only the amount which is equal to the value of work of 8 hours only.

Surplus value is a theft. Capitalists keeps the money which belongs to the worker.
Surplus value gives additional bargaining power to the capitalists. More workers works More he is giving powers to e capitalist to exploit him.
Capitalism is a systetem which force person to work against himself.

- **What is the cause of Poverty?**

Poverty is the problem of Re-distribution. The problem is accumulation of wealth by few.
The accumulation of wealth is because of not giving others their dues. So, the problem lies in the greed.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Alienation

capitalism leads to Alienation. Capitalism alienates Man from Man.

Q. Discuss Marx concept of Alienation and the remedy Marx suggest to end Alienation.

The concept of Alienation in Marx is inspired by the concept of Alienation given by Hegel. And Feurbach. He was young Hegelian.

What is Alienation in Hegel?

Alienation in Hegel is the seperation of Man from the universal spirit. Alienation can end by raising consciousness. As we increase our consciousness we realise that we are part of the universal spirit. Alienation ends in the state. once, person is fully conscious and his mind is completely aware, he attains full freedom & real happiness.

Young Hegelians like Fuerbach develope the concept of Alienation in a different way. He held that man remain Alienated because of Religion. It is because of Religion we live in the state of bondages Hence, only when we (live) leave religion we become free in true sense.

Marx went further in the concept of Alienation. Alienation will not end only by coming out of the influence of the religion. Religions is just a part of superstructure. We can end Alienation only when we change the basic structure of the capitalist society.

Marx concept of Alienation came to limelight only after the publication of his economic & philosophic manuscripts in 1930s. Marx was critical of capitalism because capitalism dehumanises man & Alienates man.

Alienation. The state or experience of being isolated from a group or an activity to which one should belong or in which one should be involved. (ગુરાદેયાળ/ ઉદાસીનતા)

A

74

Join Telegram for More Update : - https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Marx understand alienation in terms of objectification and the loss of real human nature:
In capitalist society every person feels Alienated. Alienation is not limited to workers. Even capitalists are Alienated. Alienation is a situation where all freedom of Man is taken up by the market. According to Marx, in capitalism two humans do not speak with each other. One is a seller other is a buyer. E.g. the relation between patient & doctor is a relation of buyer & seller. Marx has explained the Alienation faced by the working class.

→ According to Marx. the true nature of Man is—

(i) Man is creative by nature

(ii) Man is social by nature

→ capitalism gives no scope for fullfillment of basic human nature. He has explained Alienation faced at 4 levels.

(1) Alienation from the product of his labour.
According to Marx man works not just for the satisfaction of his Appetite. There is a difference in man and other animals. Man works for satisfaction of his creative urge. Capitalism undermines labour when a person works he creates his own world. capitalism gives no scope for man to work according to his choice. Man has to produce not what he wants. But what market wants. Hence the work looses its joy it become burden.
According to Marx, it is wrong to think that man can work efficiently only under market condition. It is a false consciousness created by capitalists.

(2) Alienation from the process of Production-
The process of production has become so much machanised that man has reduced to the level of 'cog in the wheel'.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

③ Alienation from his society

Man does not have time for the society. Man does not have time for realisation of his social nature. Situation of worker is worse. He has to work for long hours. He does not have surplus money that he can realise his social nature.

④ Alienation from Himself.

The compound effect of all alienations is that he gets alienated from himself.

According to Marx, so called freedom in the capitalists societies is not freedom but Alienation It is an isolation of Man. The only way to end Alienation is by revolution. Only by violent overthrow of capitalism & establishment of communism that man will achieve the state of perfect freedom & his Alienation will end

> Why communism is a state of perfect freedom?

In communism each will work according to his capacity & each will ~~exist~~ get according to his need. Society will take care of the need of the Man. Man will work not for fullfillment of his basic needs but for his satisfaction of creative urge. True freedom is freedom from necessities. We are free to do what we want only when we dont have to worry about our basic needs. Marx makes a difference between freedom & liberty.

→ Liberty.

Liberty is a Bourgeoise Concept. Liberty in a capitalist society is a false consciousness. Liberty is a right which man has to protect himself from the society.

→ Freedom

Freedom is a condition. Freedom is a situation where society guarantees the fullfilment of basic needs of Man. Freedom does not Alienate man from man. Freedom ends the Alienation.

75

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

∴ In communism man can realise his true nature i.e. his social nature & creative nature.

What is the possibility of communism?

Though marx is called as Utopian because communism never came. However, it does not mean that communism is not possible. Marx has suggested that communism is possible. According to Marx, If we go for surplus production we can adress the competitiveness. Machines are capable of surplus production. It is the Bourgeoise class who creates the artificial scarcity & insecurity.

lecture 21

10|01|2017

- **Nature of Revolution**

Revolution is only when mode of production changes. In Karl Marx we see only one revolution when economic structure changes all other structures automatically change.

why revolution happen

Law of dialectics explain the cause of revolution.

According to Karl Marx, Every contradiction contains the seeds of its own distruction. change does not happen overnight it only appears so. Initially quantitative changes happen & then quantity changes into quality. New courses of production, means of production develope, when relation of prod" develope. For some time old & new co-exist. However time comes when co-existence is not possible. old becomes fatter on the growth of new. old has to be destroyed for new to move further.

When communist revolution will take place?

According to Marx, communist revolution will take place only in countries where capitalism is fully developed.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

why?
only when capitalism is fully developed we can understand all the contradictions of capitalism.
what are the contradictions of capitalism?
① Contradiction eg. contradiction b/w liberty & equality.
② Contradiction between man & society.

- **Role of Lenin**

Lenin is the first person who tried to implement the ideas of K. Marx. However, lenin has to be blamed for the failure of Marxism.
Why?
He played with the ideas of K. Marx. Marx held that communist revolution will automatically take place when capitalism will reach to its most exploitative phase.
What lenin did?
Lenin was man of action. He wanted to cut short history. Lenin brought revolution in Russia which was a semi-feudal society & capitalism had just started.
According to Marx Revolution happens when revolutionary consciousness emerge. It happens when class in itself changes into class for itself. It will happen only when exploitation will reach to its extreme.
Nature of Revolution in Marx.
Marx talks about spontaneous revolution. Marx does not talk about communist party. Marx did not want any leader. Marx wanted workers to lead themselves. Marx did not want that one type of slavery give rise to other type of slavery. The only way we can protect masses is by making them fully conscious.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

What Lenin did ?

Lenin was getting impatient. Lenin felt that at the present moment masses will not develope revolutionary consciousness. Hence, he thought of manufacturing consciousness. He brought the concept of communist party. Communist party to be lead by middle class intellectuals. These intellectuals will play the role of developing consciousness. The communist revolution lead by lenin was not spontaneous. It was led by communist party. Masses lacked true consciousness at that time. Once the leaders of communist party tested power it became impossible for them to leave power. Masses were not fully conscious. Hence, after communist revolution changed the dictatorship of communist party that to power got concentrated in the hands of elits.

Q. It is not our consciousness which determines our existence on the other hand it is existence which determine our consciousness.

Above statement comes from marx concept of Historical materialism. which marx consider as the scientific explaination History. The theory is in reference to Hegel. Hegel held that idea is real. In the words of Hegel real is rational & rational is real. K. Marx held that Hegel is standing on his head. According to Marx it is matter & not idea which forms ultimate reality. Through his base & superstructure model Marx show that economic structure forms the basic structure. The class which controls the basic structure also controls the elements of superstructure. In the words of Karl Marx in every epoch the ideas of the ruling class have been the ruling ideas. Ideas are not independent of material reality. They are derivative of the material reality. Hence it is not our consciousness that determines our existence. on the other hand our existence shapes our consciousness.

Above statement tells us about the Epistemology of K. Marx. as well as ontology of K. Marx. Marx wanted that working classes should not live with false consciousness they should rather true consciousness. True consciousness means class consciousness. Once they develope true consciousness they will rise in revolt against capitalists.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Q. "The History of all Hitherto existing society /ies has been history of class struggle."

In Marx materialistic interpretation of History, Economic structure forms the basic structure. The most imp. component of the basic structure is the relations of produc" or concept of class. According to Marx, in all stages of History there have been two classes – Haves & Have not, Exploiter & Exploited. Eg. there were two classes in slave society, Master & slave. Similarly lords & serfs in fuedalism & workers & capitalists in capitalism. The relations bet

The relation between classes are of the class struggle. Reconciliation of the interest is not possible between the exploiter & the exploited. class struggle has been the moving force of the history. Class struggle bet" capitalists & workers will result into the communist revolution. Communist revolution will ultimately result into the establishment of communism. In communism classes end, class struggle ends. common ownership of needs of produc" is established contradic" bet" man & society ends. contradic" bet" liberty & equality end. Since contradiction ends History ends. Thus Karl Marx suggest that class struggle is inevitable in a class devided society.

The above description of History though claimed by Marx as scientific can be considered as deductive rather than scientific. Real purpose of Marx was to inspire working classes for revolution & hence he constructed a particular view of History. Marx above view of history is influenced by Darvin's Theory of struggle for survival / existence. Karl popper in his book open society & its enemies charges Marx for committing the guilt of Historicism

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

What is ~~the~~ Historicism?
Historicism is a ideological view of History.

Q. "In every epoch the ideas of ruling class have been the ruling ideas." Hegel.

Q. What is stratification of society according to karl Marx.

Q. Marx treats individual primarily as member of a class. Critically examine his views on economic man.

— The above discription of Human nature comes from the basic principle of Marxism i.e. Historical Materialism According to Historical Materialism economic structure is the basic structure of the society. It is for the task of produc", that man enters into social relations. All relations are the relations of production. There are two types of relations of production. Either person belongs to the class of owners & non-owners. Persons real interest are the interest of his class. Relations b/w classes are nothing but inherently conflictual. Hence the real identity of man is economic, real interest is class. Hence, he does not want working classes to develop the false consciousness of nation or religion. They should develop true consciousness i'e the consciousness of their class. Once they will develope true consciousness class in itself will become class for itself.

Critically examine Marx discription of Human nature as an eco. man is deductive rather than scientific. It serve the purpose of his politics. Marx is called as eco. determinist. He goes for monocausal explaination. Human nature is extremely complex. Hence such discriptions may distort the reality. Man has multiple identities rather than just one.

GRAMSCI
(1891 - 1937)

Introduction
- Gramsci is Italian Marxist. (Marxist)
- Gramsci is founder of Communist party of Italy.
- Contemporary of Mousoulini.
- The second greatest personality in the History of Marxism.
- Gramsci has saved Marxism from the criticism of Crude economic determinism.
- Since Gramsci was put behind the bar, Gramsci had no access with respect to the changes happening outside
- Gramsci wrote on pieces of paper which were later published as 'prison notebook'.
  It is said that the advisers of Mousoulini advised him that Gramsci should not allowed to think.

Prominent contributions of Gramsci
1. Concept of Hegemony.
2. Concept of civil society.
3. Concept of Integral (अंतरंग / अविभाज्य) state.
4. Gramsci's theory of revolution. (क्रांति)
5. Gramsci's Analysis of Intellectual class.

Concern of Gramsci
Gramsci was active in communist movement.
He was disappointed because communist revolution as predicted by K. Marx didn't happened.
Hence, Gramsci revisited Marx theory of History.
He felt that there are some defects of Marx understanding of History.

Determinism – the doctrine that all events, including human action, are ultimately determined by causes external to the will

Hegemony – leadership / dominance especially by one country or social group over the others.

Revolution – a forcible overthrow of a govt. or social order in favour (क्रांति) of a new system.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

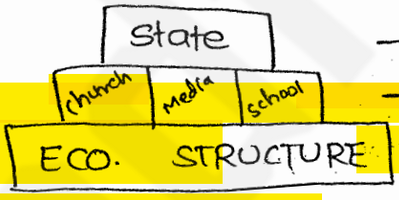

Gramsci has looked into the works of other scholars. He got attracted towards the explaina" of History given by Benedetto Croce. He has analysed the role of cultural factors in shaping History. Gramsci felt that Marx has over emphasised on the economic factor & overlooked the role of other factors in shaping History. Gramsci has modified Marx model of History.

Marx Model of History -

Economic structure is the Basic structure & other structures are reflection of the base. They have no idependent autonomy of their own. If we change economic structure elements of superstructure automatically change.

Hence, in K. Marx only one revolution is needed i.e. against the economic structure.

Gramsci's Model of History -

The Gramsci has given 3 layered structure. According to Gramsci elements of superstructure are not just the reflection of base but structures in themselves. He devided superstructure into 2 levels.

① civil Society.
② State.

Gramsci has given more serious thoughts on the elements of superstructure & hence gramsci is also known as the Theoritician of superstructure. In this way Gramsci rescue Marxism from being crude economic determinism.

lecture 22.
11/01/2017

Q. "Men make their own History but they do not make it ~~under chosen circumstances~~ under the ~~circumstances~~ as they please. They do not make it under self selected circumstances, But circumstances existing already, giving and transmitted from the past."
— Marx.

MARX

Critically Examine.

Above Statement of K. Marx is from his concept of Historical Materialism.

According to Historical Materialism eco. structure is the basic structure of the society. A structure constrain choices. Human beings are not autonomous agent They are not free ~~to~~ to choose. their choices are shaped by the system. Eg. If eco. system is capitalist then capitalist even if he want he cannot give higher wages because his actions are constrained. Though Marx suggest that humans are not autonomous, yet marx is not pesimistic. He believes that man can shape history. Once working classes come out of false consciousness they will develope true consciousness. They will overthrow the exploitative system of capitalism. Marx has applied the laws of dialectics. Seeds of communism are inherent in capitalism. Capitalism is full of contradictions. Capitalists dig thier own graves. Capitalism is bound to collapse. workers are the progressive classes. They are on the right side of the History. Capitalists even when they resist the change they will not be successful. Hence despite being deterministic marx is optimistic.

Q. Relevance of Marx.

Why relevance of Marx is in question.

The biggest reason to put question mark on relevance of Marx is collapse of communism around the world. Russia adopted neo-liberal economic model. China had adopted market model long back in 70s itself. India also left command economy & had gone for structural adjustment programs.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf.

Towards the end of 1990s we see the Hegemony of neo-liberal ideas & expansion of globalisa" based on neo-liberal ideas.

American scholar Frans Kuky yama describe the moment not just end of cold war but the end of History. He described western liberal democracy as the end point of Man's ideological evolution.

- Relevance of Marxism has also been questioned because Marxism remains an utopia. Whatever practical form of communism that has emerged is equated ~~to~~ with totalitarianism by western scholar
- Karl Pauper called Marx as enemy of open society.

However if we look at the developements since Sept. 11 2001 we cannot say that there is a universal accepta nce of western liberal model. We cannot say that end of History has happened. As Globalisation has progressed there has been a growth of inequalities. Thoman Piketty in his book 'capital in 21st century' has given evidences about the phenomenal rise of inequality. Since 2008 western world is going through the economic crisis. The future of neo-liberal projects like EU remains under threat. Since, Global Financial crisis there has been a renewed interest in 'das-capital' of Karl Marx.

There is a growth of counter Globalisation movements. Marxism is re-emerging in the form of anti-capitalism

- It is wrong to call Marx as an enemy of open society. Marx wanted to give real freedom. For Karl Marx freedom was freedom from necessities. It is wrong to blame marx for whatever Totalitarian system which emerged in USSR & China. Marxism will always remain relevant as a critic of capitalism. Without Marx insight it is not possible to understand the Contradic" of capitalism.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Marx is necessary to ensure that capitalism remain humane.

It is true that communism is an Utopia but as suggested by karl Mannheim Utopia's are also important. Utopia's are the source of inspiration for the poor & oppressed.

What is structurialism?

Structuriolism is suppose to be scientific approach in social sciences. It is based on the assumptions that there are some structures or elemental, fundamental aspects of reality.

What are the structures that which will vary from scholar to scholar.

What is Gramsci's analysis?

Gramsci felt that Marx has taken elements of superstructure lightly they are not just the reflection of the base but they are structure in themself. We cannot take it for granted that if material structure change, superstructure will automatically change. We cannot take it for granted that if mode of production becomes socialists all other institutions will change on its own. Hence he suggest the need for more deeper analysis of the institutions of the civil society.

Gramsci suggested that working classes need to learn how Bourgeoise have established their domination. (control) Bourgeoise class established their domination not just by controlling the means of produc" but also controlling the ideology & culture i.e. Means of produc" of ideology & culture.

Gramsci talks about the concept of Hegemony. Hegemony implies leadership. leadership is based on the consent of the governed. workers need to learn how to develop leadership. Bourgeoise class developed leadership by developing nexus with other classes. other classes may not have identical aims but they have common aims. Bourgeoise class has built the coalition of classes. They convince other classes that they are serving their interest also. Other classes become deputies of Bourgeoise class

81

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Working classes should also develope their own coalition. Gramsci talks about coalition of depressed classes or subaltern class.

Gramsci suggest working class should form the coalition & should provide leadership. Working class will get leadership only when they also take care of the interest of the others.

Hegemony
Something which is not real but you consider it as real.

According to Gramsci, dominant class does not rule only by coersion. He brings the concept of Hegemony. Hegemony is also a type of power. Hegemony is a soft power. Hegemony is invisible power. Hegemony is controlling the mind. Bourgeoise class rules by controlling the mind. They rule by developing the power of attraction. Hegemony implies manufacturing consent. When any idea or value is starts appealing to common sense it becomes Hegemony.

Who creates Hegemony?

What is the site of Hegemony?

Civil Society is the site of Hegemony. It is a location where Hegemony is manufactured. often we overlook the role of Civil society in maintaining the dominations of Bourgeoise class. Civil society acts silently. Civil Society is much nearer to base than state. Civil society acts as a cushion or a shock absorber. The states where strong Civil Society exists, where media has freedom, where educational institutions are autonomous it is more difficult to bring revolution. Gramsci categorises states into two types:

1. Transparent state.
2. Opaque state.

- In transparent state Civil society is absent. So the exploitative nature of state is visible & revolution is easy. (China is transparent / USA is not transparent)
- In opaque state where civil society exists it is able to hide the real nature of the state & so revolution is difficult. India is opaque state.

Subaltern – अधीनस्थ

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Gramsci uses the concept of Integral state. In fact civil society is also a state. Integral state has two components i.e. civil society & political state. Hence, working classes have to fight at the level of civil society also. They have to capture not just state but civil society. The power of civil society & state — both is being used. State comes in picture only when civil society fails. Workers have to built counter Hegemony. Workers have to fight at two level.

① level of civil society. (at the level of civil society)
This war is known as war of position. It is going to be a protracted conflict (long drawn battle)

② level of state (at the level of state)
■ War of manoeuver He calls it as frontal (direct) attack. Once they have won the war of position they can easily win ~~see~~ the war of manoeuver.

Gramsci's Theory

What is common understanding about intellectuals?
Common understanding is that intellectuals tell the truth.

Gramsci's understanding
Intellectuals are not neutral their theories hide more truth than revealing the truth. They do not tell the truth they manufacture the truth.
According to Gramsci, all men all intellectuals but every one does not perform the function of intellectuals.

What he means when he say all are intellectual?
All jobs require the use of intellect. even manual job requires intellect.
Gramsci talks about those intellectual classes which form nexus with dominant class which perform the role of manufacturing hegemony & generating consent. It is the intellectual class which make the values of dominant class as a commonsense value.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Gramsci categorises intellectuals into two types.
1. Traditional Intellectual
2. Organic Intellectual

He has explained these intellectuals in context of capitalism.

Organic Intellectual

The class of intellectuals whose emergence is organically linked to the emergence of the dominant class. are treated as organic intellectuals. Eg. In the west with the growth of capitalism the intellectual class like supervisors, managers, doctors, engineers, Civil servants came into existence.

In case of India we can give the examples of zamindars, civil servants as organic intellectuals which emerged as per the requirement of Britishraj.

lecture 23
12/01/2017

Traditional Intellectual

Gramsci has explained traditional intellectuals with reference to the rise of capitalism. There were certain intellectual where Gramsci has focused on the role of church fathers. These intellectual were the supporter of Fuedal class & initially resistant to the new class. once Fuedalism ended, they stopped resisting the new dominant class & Bourgeoise also incorporated them.
Traditional intellectuals also give the impression of neutrality. It is much easier for them to make the impression Because their growth is not linked organically to the dominant class.
Both organic & traditional intellectuals play the role of manufacturing consent.

What should be the strategy of working class
Since working class have to establish counter Hegemony they should also their own organic intellectual.
They should also try to bring traditional intellectuals to their side. Since they are not organically linked they can be brought to the side of workers.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Gramsci believes that among the many intellectual book which emerged with Bourgeoise some groups like supervisors, floor managers can easily come to the side of the coorkers.

Q. Hegemony means something more specific than power and domination.

Power is a central concept of Political Theory. However, like all concepts of politics power remain a contested concept. Different scholars define power different. Diff. scholars also bring forward diff. dimensions of power. The purpose of power is to get things done by others. We have been familiar with the coersive dimension of power. When Marx uses the term power or power of the state in the interest of Bourgeoise class he points towards the coessive form of power.

- Gramsci has brought another dimension of power which he preferably calls as Hegemony. Hegemony is intellectual cultural domination. Hegemony is soft power it is a invisible power. If p coersive power of society is located in the state, Hegemony is located in civil society. When Hegemony is manufacturing consent, intellectuals play major role in manufacturing Hegemony. Hegemony is constitute the values of the dominant class. It is because of Hegemony that these values appear as commonsense.

- Thus Gramsci highlight the ideological power & ideological domination. He suggest the need to build counter Hegemony. He suggests the two stage revolution ie. war of ideas & war of manoeuvre.

Hegemony – Brahmanism
Counter-Hegemony – Dalits.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

What is Historical Bloc ?

It is a coalition of classes. In a particular phase of history particular group or coalition forms the Historical Bloc. Working classes should also make their coalition. Only when they will make coalition they will be able to challenge the existing Historical Bloc.

HANNAH ARENDT
(1906 - 1975)

- Hannah Arendt is a Heterodox Thinker.
- She describes her thinking as, 'Thinking without Barriers.
- She gives her own meanings to the conventional concepts. Though, she cannot be linked with any specific School of thought yet the common idea connecting her work is the concern for participation in civic affairs.
  Hence, some scholars categorise her as belonging to civic Republicanism.
- She adopted the methodology of phenomenology.
  Phenomenology is a method where theories are given on the basis of experiences as they are lived rather than on the basis of reason or logic.
- She was influenced by scholars like Aristotle, St. Augustine, Martin Heidegger and Karl Jaspers.

Works of Hannah Arendt.

1. Origins of Totalitarianism - Political Work
2. Philosophical Work on Human Condition
3. Eichmann in Jerusalem - concept of Banality of Evil

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

On Origins of Totalitarianism-

In her books on origins of totalitarianism she has analysed the totalitarians regime of 20th century. This includes Nasism and stalinism.

> How Hannah Arendt describes Totalitarianism?

She describes Totalitarianism as the rule of terror and ideology. In the words of H. Arendt Totalitarianism is Bureaucratically centralised violence made possible by 20th century technology in the service of 19th century ideology. In order to clarify the difference betn earlier autocratic regimes & 20th century Totalitarianism she suggests that it is completely a new form of Govt. with no examples in History. In all autocratic regimes so far violence has been used as a means but in Totalitarianism violence becomes an end in itself. It is a use of violence without strategic rationality. In earlier autocratic regimes, regimes tried to control the speech, these regimes tried to control thought also. It was not just the control of body, it was controlling souls.

> Reasons for Totalitarianism-

H. Arendt traces the origin of in the long history of tribalism, Racialism & imperialism. found in Europe.

Hitler was not the only person believing in the myth of Racial Superiority. It has always been present in European culture. T Totalitarian leaders use myths of Racial superiority to justify their regimes.

She blames scholars like Gobineau who gave the myth of Racial superiority of Aryans. He held that fall of Aryans had happened because of inter-mixing of Blood in inferior races like Africans & Jews.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Gobineau ~~Jews~~ made Jews a seperate race just because they were following different religion.

The myth of racial superiority got strengthened when Europeans came in contact with other civilisations as a part of Expansion of capitalism. Since they won these wars, it consolidated the myth of Racial Superiority. These leaders use these myths to build power. She also blames scholars like Roussou who have developed myths like General Will. Thus tribalism, imperialism, romanticism provided the basis for totalitarianism

- According to Her the dangers of Totalitarianism arrives when the stable context in which people live get disturbed. In 20th century Europeans were suffering of multiple pathologies:

(i) Expansion of capitalism.
(ii) Growth of Bureacratised state which has undermined the possibility of viable public life which unite citizens.
(iii) Conversion of classes into masses.
(iv) Control of state by Bourgeoise.
(v) Over emphasis over economic sphere and delegitimisation of political institutions.
(vi) Decline of principles of citizenship & deliberation. (non participation in civic affairs)

Hannah Arendt's Theory of Action OR Concept of Politics

- Hannah Arendt's Theory of Action is given in her book 'Human conditions'

Action
- Thinking (vita-contemplativa)
- Action (vita-Activa)

Human beings performs two types of Action ie. Thinking and Action.
According to Hannah Arendt, Action is important.
Plato is wrong when he says thinking is important and Marx is correct when he says Action is Imp.

Action (vita-Activa)
- Labour (Animal Laborans) — zoon - animal
- Work (Homo Faber)
- Action (zoon Politikon)

Most Imp. action is Action.

Labour

Labour is an Action which all living beings performs. Even animals performs this action. Man has no freedom in this sphere.
Marx is wrong when he thinks that labour is most important.

Work

In Homo Faber man is more than Animal but less than Human. Works like that of Craftsman, Artists, Professionals comes under this category. Here, man is relatively free but not completely free.

Action

Man is Political Animal. Hence, the most important action of all human actions is Political action.
This is the only action which Humans perform.
This is human condition. Only when we participate in political life we act as Humans. This is an action which gives complete freedom.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Importance of the Concept

She has established that the most imp. action is Political action. It is essential in the interest of freedom that man's participation in politics otherwise we are giving rise to Totalitarianism.

Hannah Arendt's concept of Political

Hannah Arendt's Concept of Political is based on her theory of Human Action. According to her, it is necessary that people take interest in Public sphere specially in Politics. Her concept of Political is linked with her concept of power.

Imp. What is Hannah Arendt's concept of power?

She makes difference between strength, force, violence, and power.

Difference in Strength and Power:

Strength belongs to the person (personal) whereas power belongs to people (Group) It means person is either strong or weak. Person is not powerful or powerless. It is not the characteristic of individual. Power is a characteristic of a community.

Difference in Force & Power

Force belong to the world of Nature & Power belongs to the world of Humans.

Difference in Power & Violence

Power belongs to the people. & Violence belong to the State.

From the above anglysis we can understand following features of power:

(i) Power does not belong to the individual.
(ii) Neither Economic resources nor Bureaucratic office makes one powerful.
(iii) Power is Sui-generis means power emerges on its own & disappears on its own. No one can control or hold power.

86

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

(iv) Power emerges when people come together, power disappears when people go back to their private sphere. The purpose of power is not coersion. According to H. Arendt power is 'Acting in concert' with one another.

Hannah Arendt's concept of Political-

In conventional sense political belongs to the state but in Hannah Arendt it belongs to civil society. In conventional sense power is exercised by elits but in H. Arendt' power is with the people. In conventional sense power is for domination but in H. Arendt Power is acting in concert. It results into Mutual empowerment.

Hannah Arendt's concept of Revolution.

Hannah Arendt is critic of Marx because Marx favours violent revolution. Marx looked revolution as a means for resolving social & economic questions. According to H. Arendt, the real revolution is secularisation. It is freedom from fear, it is freedom from myths. The real revolution means the fundamental change in the manner we think. She compared French Revo^n & American Revolution. She appreciates American Revo^n because it gives political freedom. She criticises French Revo^n because in the name of social & economic justice state inhance its power. Though American Revo^n is better yet it is incomplete. It provided constitutional checks on the arbitrary exercise of power but has not created enough space for peoples participation in public sphere.

Benality of Evil (no possibility in exam)

The concept Benality of Evil came into prominence with the publication of her book Eichmann in Jerusalem' in 1963.

https://t.me/upsc_pdf https://upscpdf.com https://t.me/upsc_pdf

Join Telegram for More Update : - https://t.me/upsc_pdf

Book became controversial because H: Arendt does not blame Eichmann. Eichmann was the chief Architect of Hitler's Holocaust (Mass killing of Jews) He was captured in Argentina & brought to Israel for trials. During trials she realised that Eichmann was a very normal person He killed jews not because he hated jews. But because he was implementing the orders. Eichmann had no regrets about his acts. His response was duty is duty. (Befehl est Befehl).

According to H. Arendt such crimes are committed not by psypaths or sociopaths but by perfectly normal person. He killed jews not because of presence of hatred but absence of imaginative capacities. He could not understand the human & moral consequences of his action. He did not exercise his capacity to think. If he had thought about the moral consequences He would have been aware of the evil nature of his deeds. Eichmann was innocous person, operated without thinking, incapable of moral judgements. Had he applied the judgements sufferings of his victims would have become real. In the words of H. Arend evils becomes banal when it acquire unthinking & systemic character. It becomes banal when ordinary people participate in it, Build distance from it, justify it in countless ways. There are no moral conundrums nor revulsions. Evil does not look like evil it becomes faceless.

Implication

According to Her Evil becomes normal because it has become part of our daily life, if a crime against humanity becomes regular feature of life without being named and opposed. such crimes be comes normal.
